

How to create multiple choice exercises with iSpring Suite

iSpring Suite helps you create multiple choice exercises in various forms on PowerPoint.

Lectures in E-Learning form often attract the learners, by integrating multi-media content. To prepare E-Learning lectures, many people are familiar with iSpring Suite.

This tool, after being installed, will be integrated right into PowerPoint to create rich lectures and presentations on content. With iSpring Suite software, users will easily compose lectures like creating multiple choice exercises. The following article will guide you how to write multiple choice exercises on iSpring Suite.

1. 50 alternative slideshow applications for PowerPoint
2. MS PowerPoint 2007 - Lesson 8: Insert tables in PowerPoint
3. Convert Powerpoint to video

Instructions for using iSpring Suite to prepare test questions

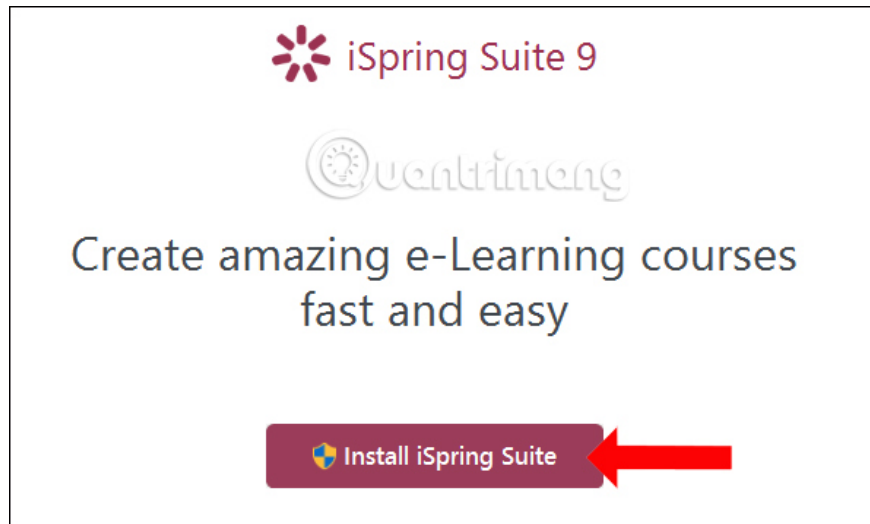

1. Multiple Choice format lesson (multiple choice)
2. True / False exercise format (True / False)
3. Matching questions (connect)
4. Sequence exercise format (sorted)

Step 1:

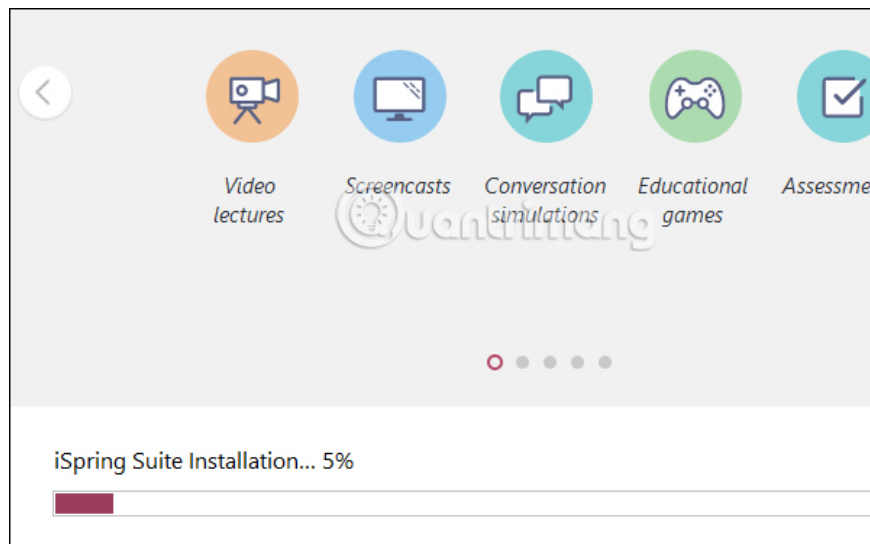

Users who download iSpring Suite software follow the link below.

1. Download iSpring Suite software

Click **Install iSpring Suite button** to install on your computer.

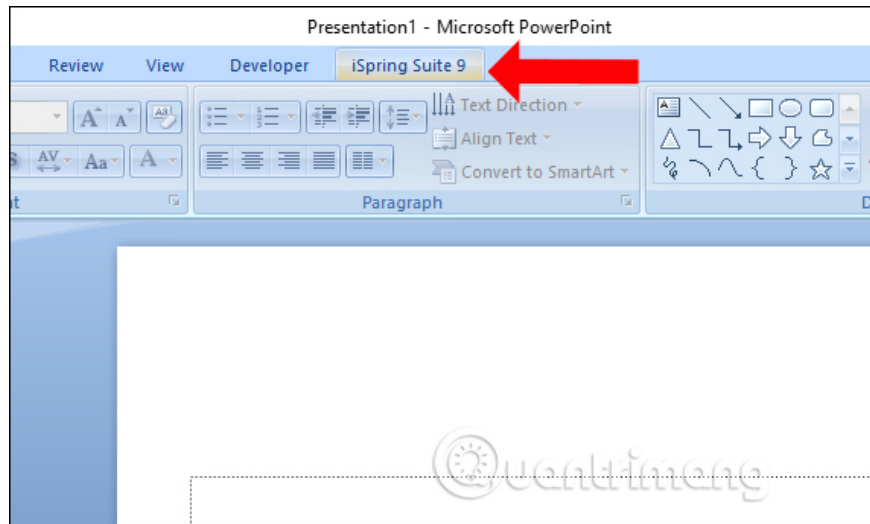

Wait for the installation process to complete. iSpring Suite will be automatically integrated into PowerPoint for use.

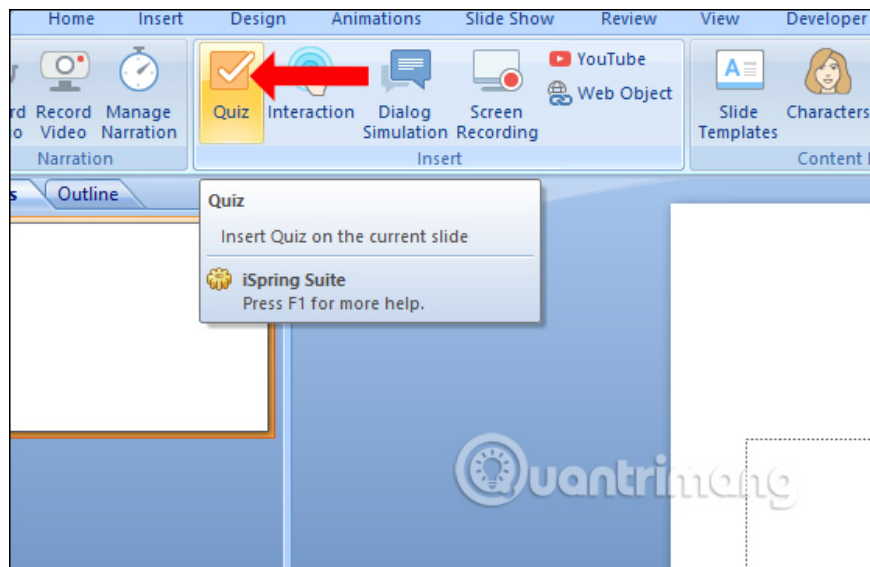

Step 2:

Continue to **open PowerPoint** and click on **iSpring Suite** to use.

In the toolbars below click on **Quiz group** to proceed to create multiple choice exercises.

Step 3:

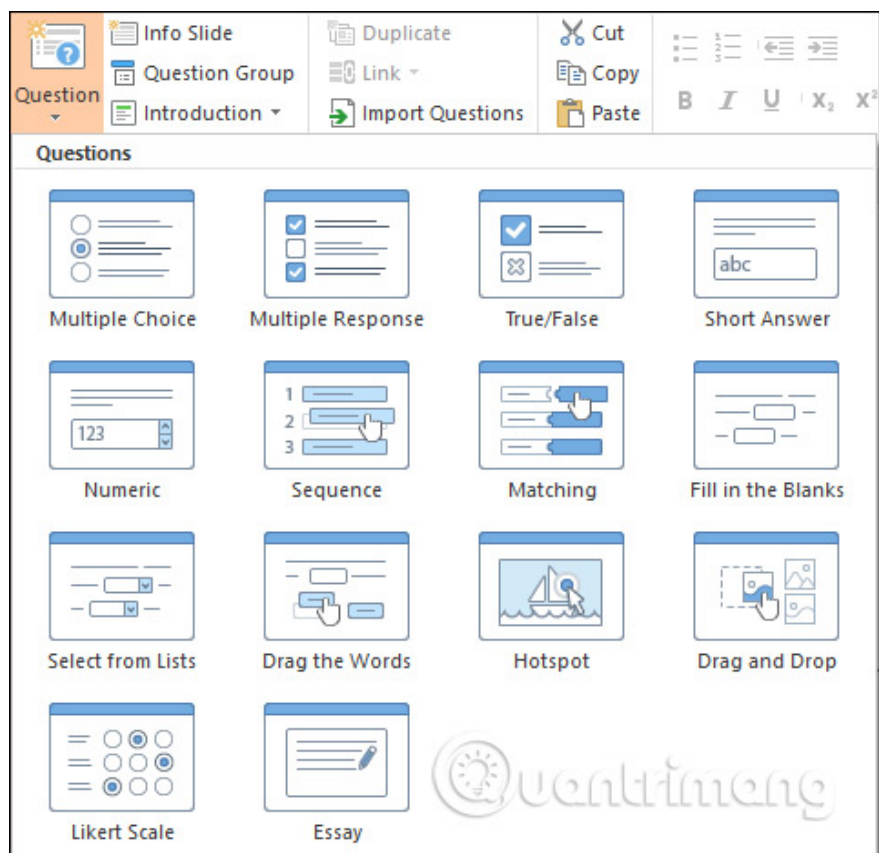

Switch to the new interface and click **Graded Quiz** .

Click on **the Question section** and display a list of multiple choice categories.

As mentioned, iSpring Suite offers a wide variety of multiple choice exercises, such as Multiple Choice, multiple choice, True / False right and wrong format, Short Answer answer questions, Matching answers, Fill in Blanks fill in the blank,...

The following article will guide you to read some common quiz exercises.

1. Multiple Choice format lesson (multiple choice)

Step 1:

Click on **the Multiple Choice exercise** in the list and will display the interface for making questions and selected answers. At the first bar enter the question. We can insert images, audio, or video if desired.

Below enter the selected answers. To add another option click **Type to add new choice**. Check the correct answer to the question.

The screenshot shows the 'Multiple Choice Question' editor interface. The question text is: "Hàm số $y = 2\sin x \cos x + \cos 2x$ có giá trị lớn nhất là:". Below the question is a 'Choices' section with a table:

Correct	Choice
<input checked="" type="radio"/>	3
<input type="radio"/>	$2\sqrt{2}$
<input type="radio"/>	2

Below the table is a text input field with the placeholder text "Type to add a new choice" and a red arrow pointing to it. There are also icons for inserting images, video, and audio. A watermark for Quantimeng is visible in the bottom right corner.

Step 2:

The Feedback section below can enter a message if correct Correct, enter the message when wrong in Incorrect.

<input type="radio"/>	2√2	×	
<input type="radio"/>	2	×	
<input checked="" type="radio"/>	√2	×	
Type to add a new choice			
Feedback and Branching			
	Feedback	Branching	Score
Correct:	Bạn đã trả lời chính xác!	→	10
Incorrect:	Bạn đã trả lời sai câu hỏi	→	0

Step 3:

After creating, **click Slide View** to review the results of the multiple choice exercises.

Form View Slide View

Search

Question Group 1 1

1. Hàm số $y = 2\sin x \cos x + \cos 2x$...
Multiple Choice

Results

Quiz Results
Passed / Failed

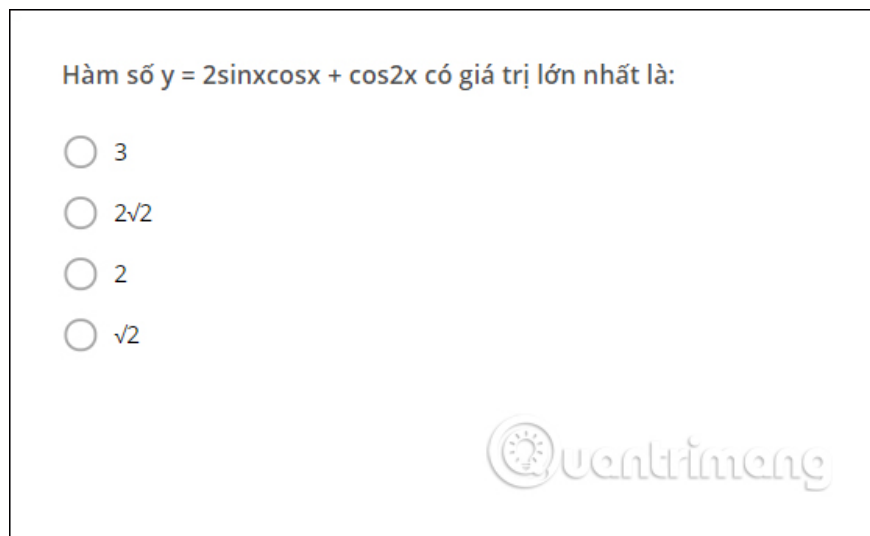

Multiple Choice Question

Hàm số $y = 2\sin x \cos x + \cos 2x$ có giá trị lớn nhất là:

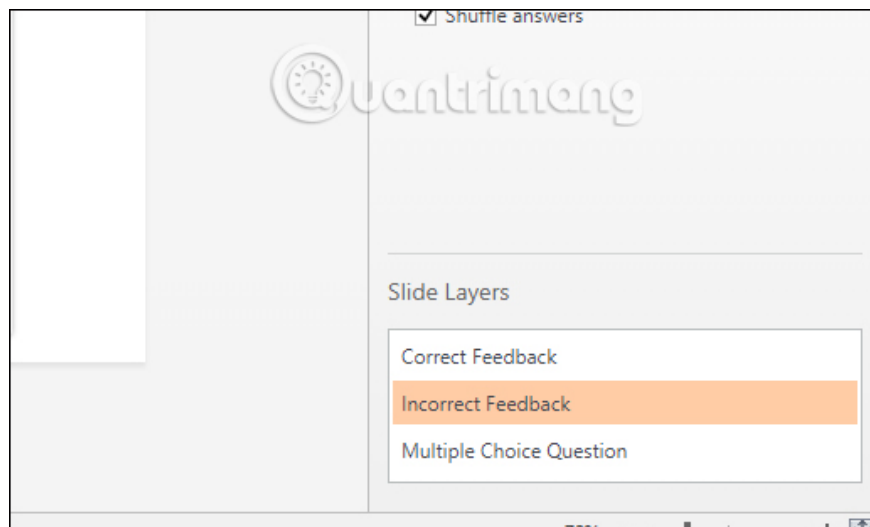

Choices

Correct	Choice
<input type="radio"/>	3
<input type="radio"/>	2√2
<input type="radio"/>	2
<input checked="" type="radio"/>	√2

The content of multiple choice exercises will be displayed as shown below.

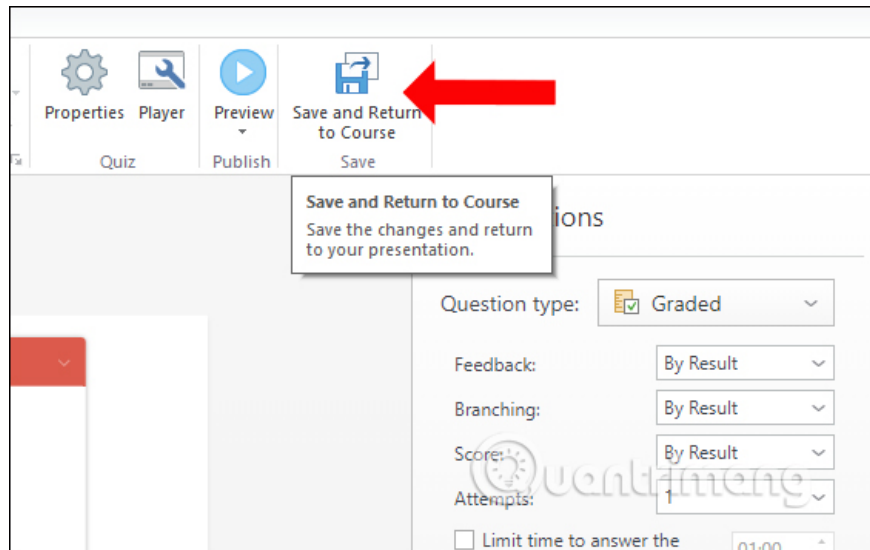

To see more content on the right, interface the Slide Layers section to click Correct Feedback to see the message when the answer is correct, and Incorrect Feedback when the answer is wrong.

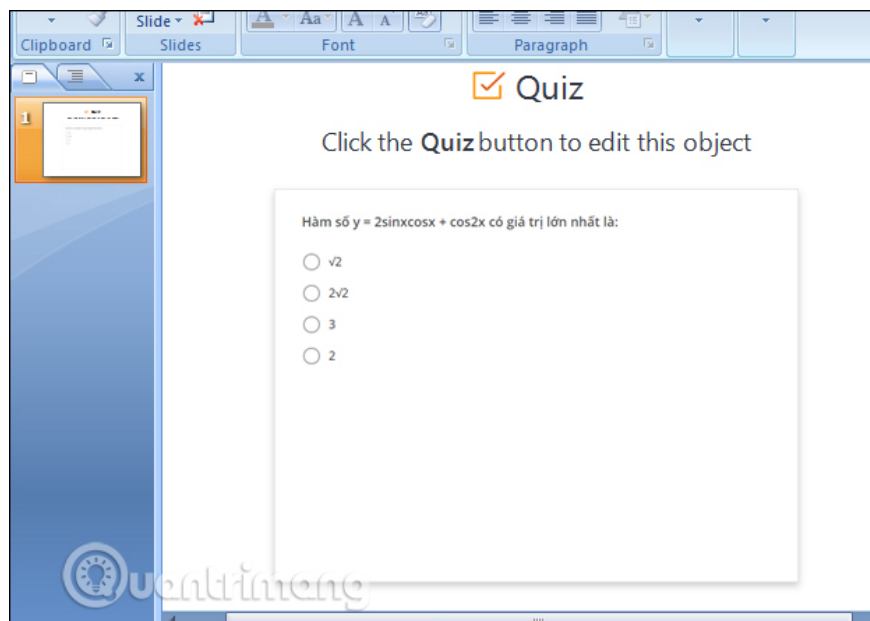

Step 4:

Finally click **Save and Return to Course** to save the multiple choice exercise.

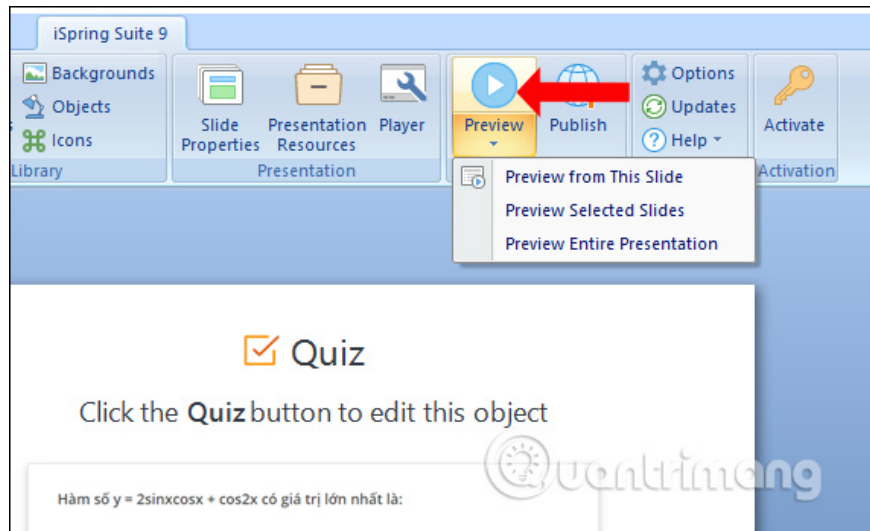

Then multiple choice exercises are displayed on the PowerPoint interface as shown below.

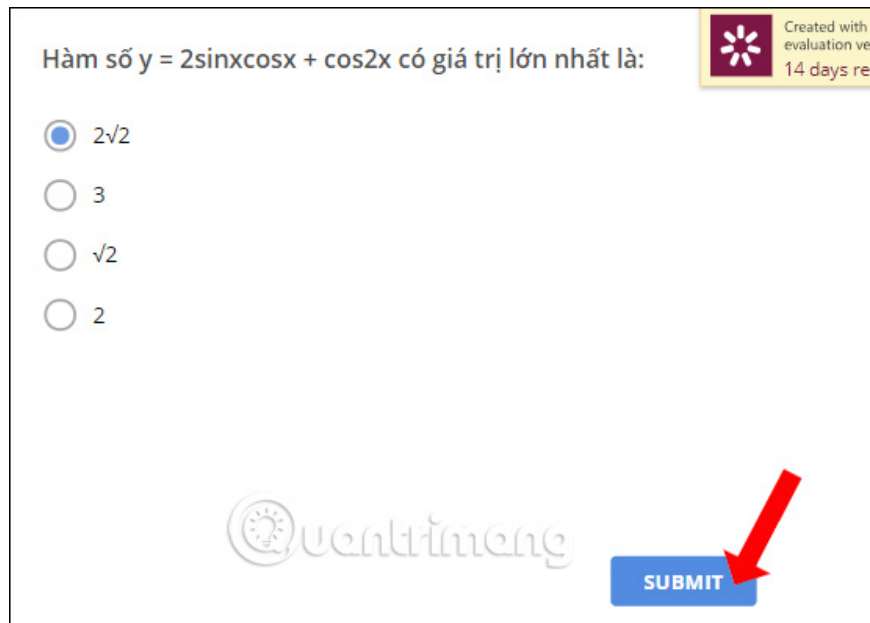

Step 5:

Note that in order to perform this exercise, you must click on **Preview** in the **iSpring Suite program** toolbar.

Interface of multiple choice exercises immediately after. If you select **the answer** then **click Submit** to display the result.

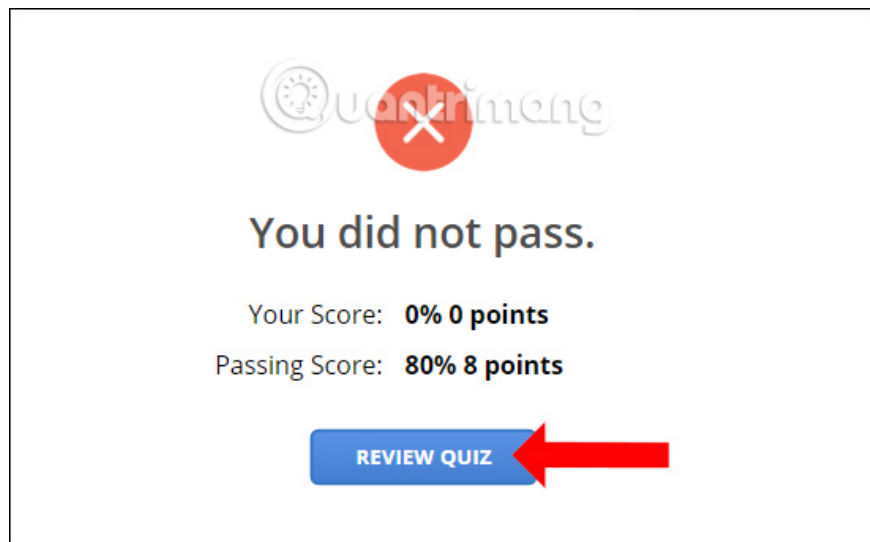

Step 6:

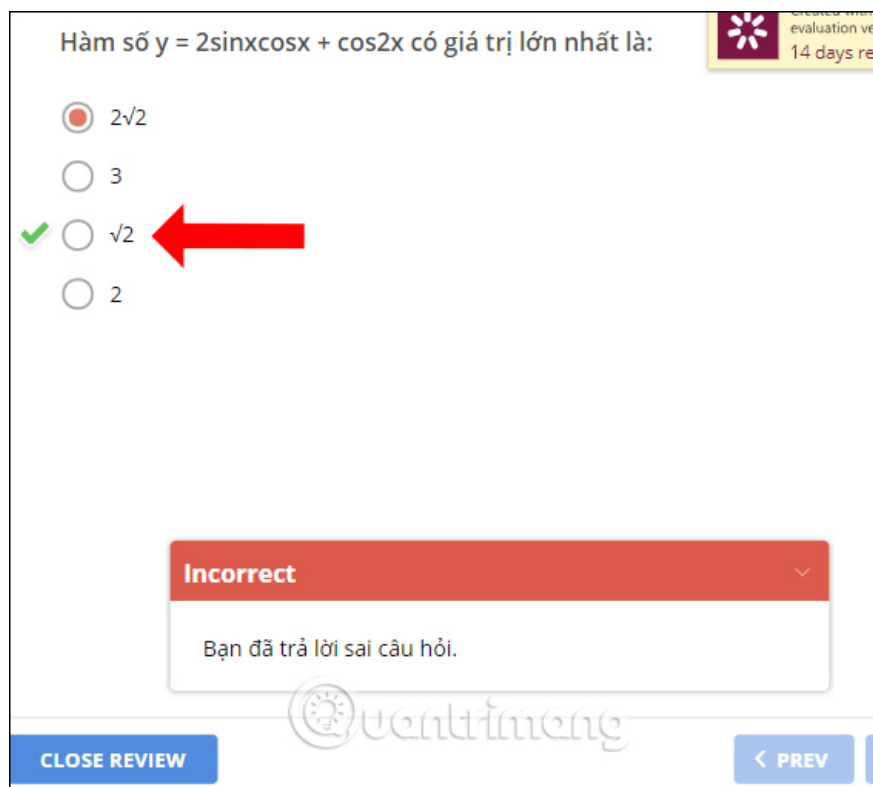

If the wrong answer will display a message like the picture. Now click **View Results** to see the results.

Click **Review Qiz** to see the correct answer to the question.

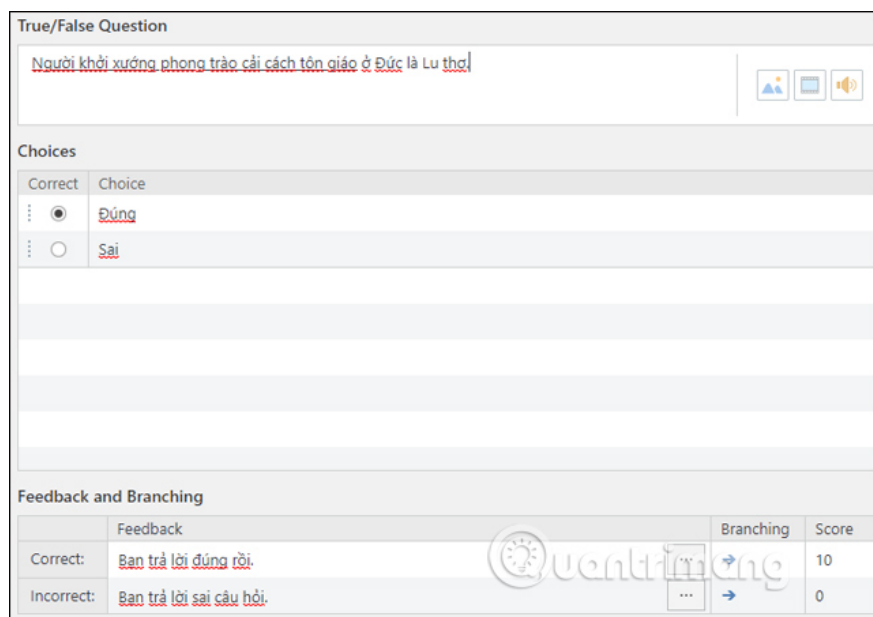

Thus we will know the **correct answer of the question with the green color** , along with the wrong answer previously selected.

2. True / False exercise format (True / False)

The user clicks on Question then selects True / False exercise. Then we also enter the content for the same type of True / False question as the multiple-choice content structure part 1.

The results of the True / False quiz will be as follows.
