

How to create music list in Google Drive

In addition to the powerful 15GB storage function, you can create your own music list with your favorite songs right on Google Drive.

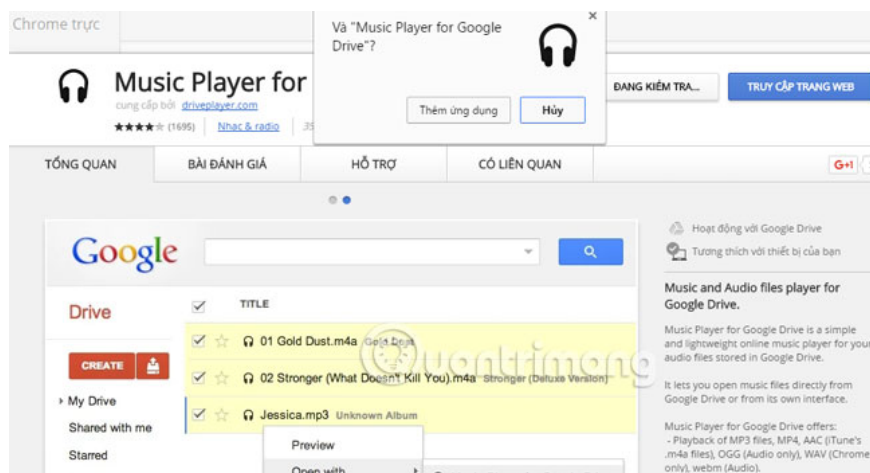

Google Drive is known as a popular online storage site, with the ability to support users to save all file formats and can manage them anytime, anywhere with mobile versions. Have you tried adding the Google Drive music player feature in addition to traditional storage?

In the following article, Network Administrator will introduce you how to create music list on Google Drive with simple steps when installing the utility on the browser.

1. Download Google Drive for free
2. Download Google Drive for Android
3. Download Google Drive for iOS for free

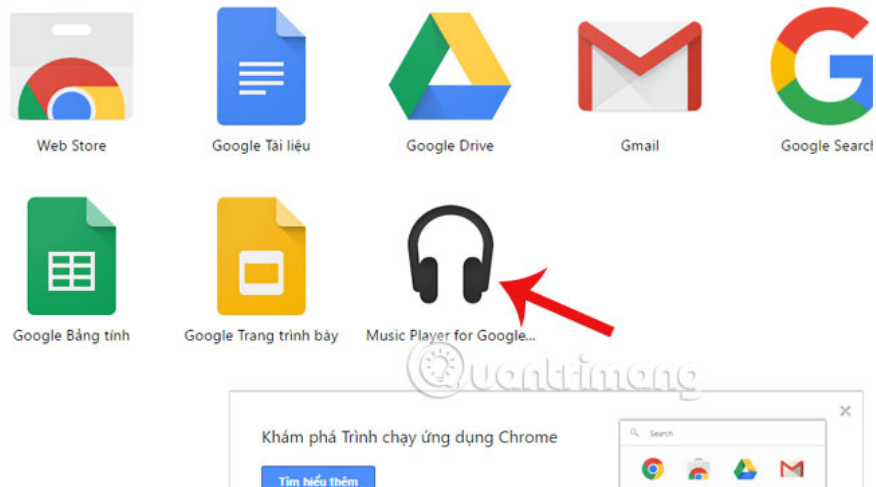

Step 1:

Access the Music Player for Google Drive gadget on Google Chrome. Click **Add to Chrome**, continue to select **Add application** to complete the add-on installation.

Step 2:

Select the Music Player for Google Drive icon.

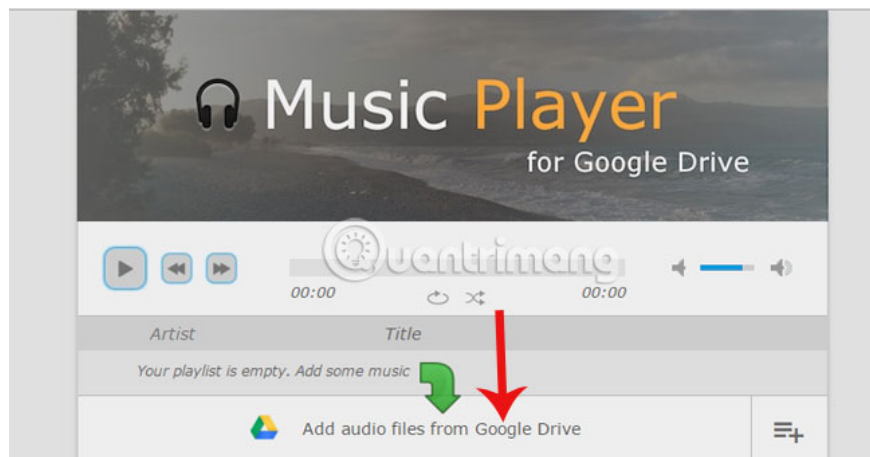

Step 3:

Sign in to your Google Drive account. When the request setting table appears, select **Allow** .

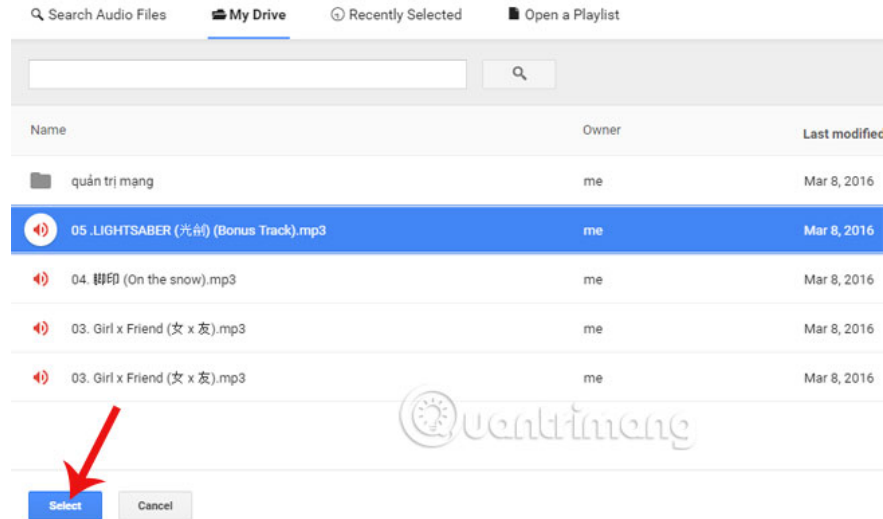

Step 4:

In the Music Player for Google Drive interface, select **Add audio files from Google Drive** .

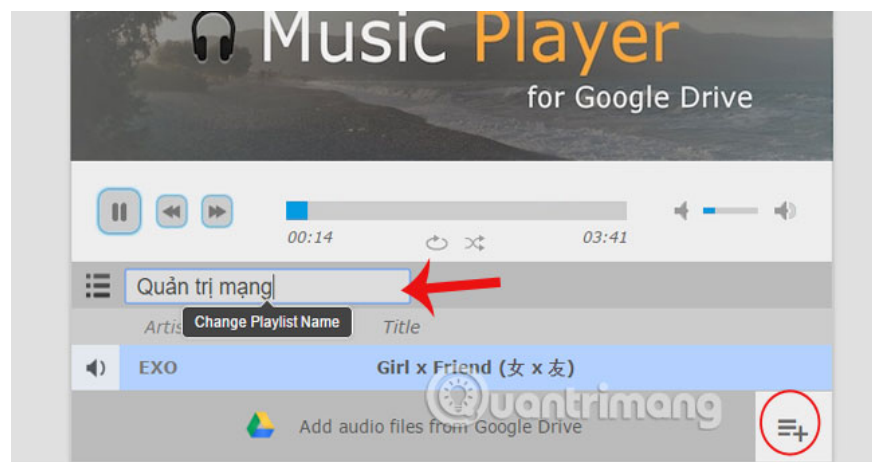

Step 5:

Go to My Drive, select the song you want to create the music list and select **Select** to play the music.

Step 6:

Continue to do the same to add another song to this list. You can create a name for the music list when clicking on **the plus icon to the right of the frame**.

You can now play songs on Google Drive via the gadget. The list of gadget articles will sort by list on Google Drive. No need to add access to Google Drive account, but users can easily enjoy their favorite music space.

Refer to the following article:

1. There is an additional 2GB of Google Drive permanently only by simple operation
