

How to create photo albums with PowerPoint

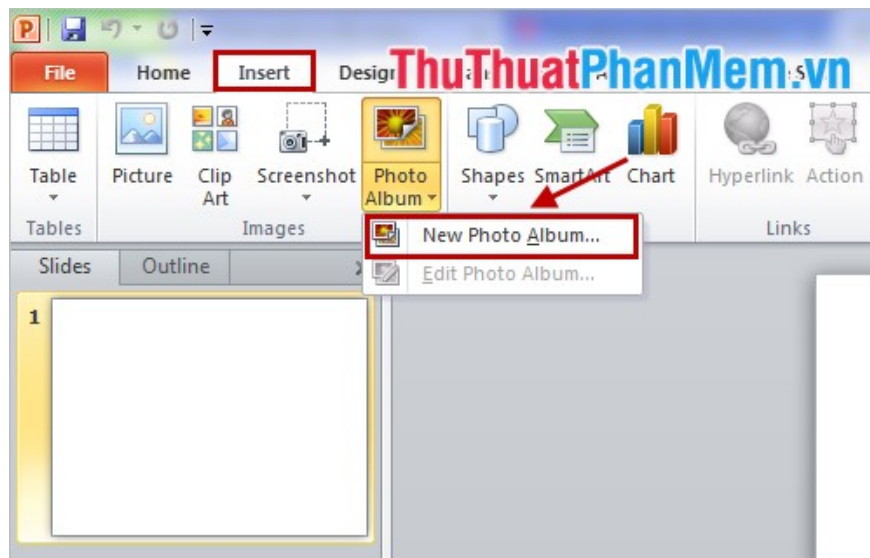

To create a photo album with a simple implementation, you can use Microsoft PowerPoint directly in Microsoft Office to create your own photo album. The following article will guide you how to create photo albums with PowerPoint.

You want to create photo albums but you don't know how to use photo album creation software because they are too complicated.

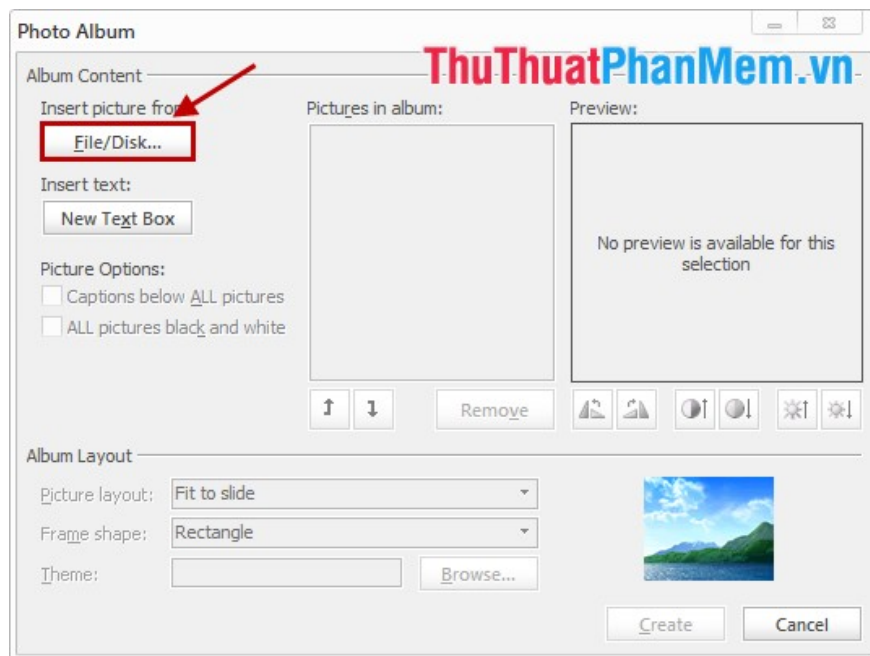

To create a photo album with a simple implementation, you can use Microsoft PowerPoint directly in Microsoft Office to create your own photo album.

The following article will guide you how to create photo albums with PowerPoint.

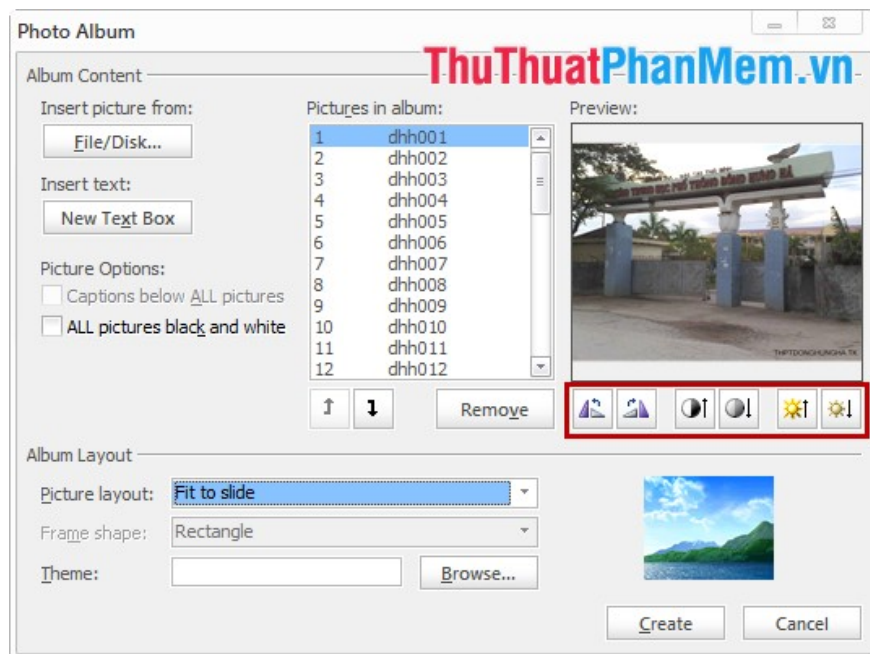

Step 1: Launch PowerPoint, select **Insert** -> **Photo Album** -> **New Photo Album** .

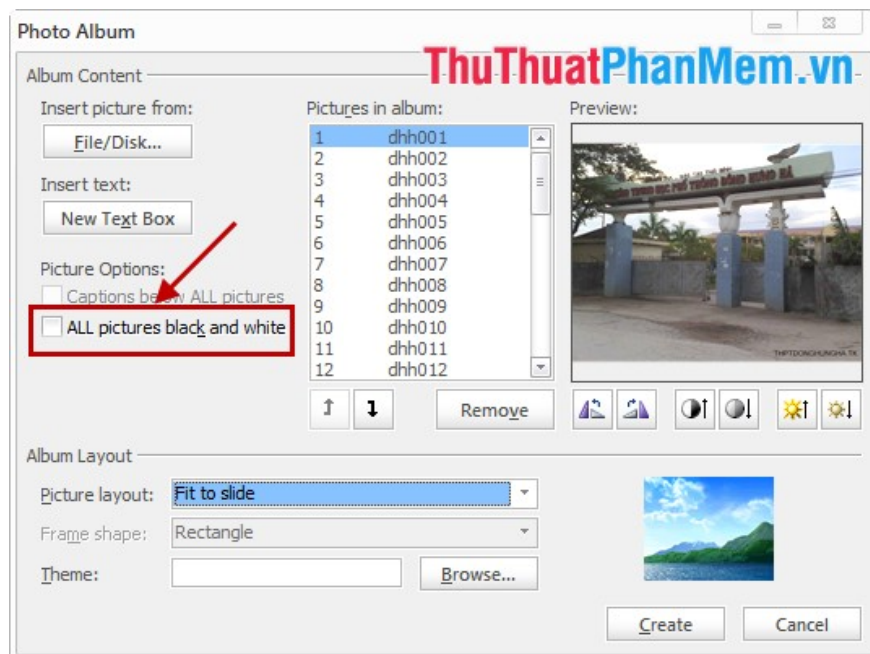

Step 2: Interface Edit Photo Album appears, first press **File / Disk** and select the file containing the photos you want to create the album.

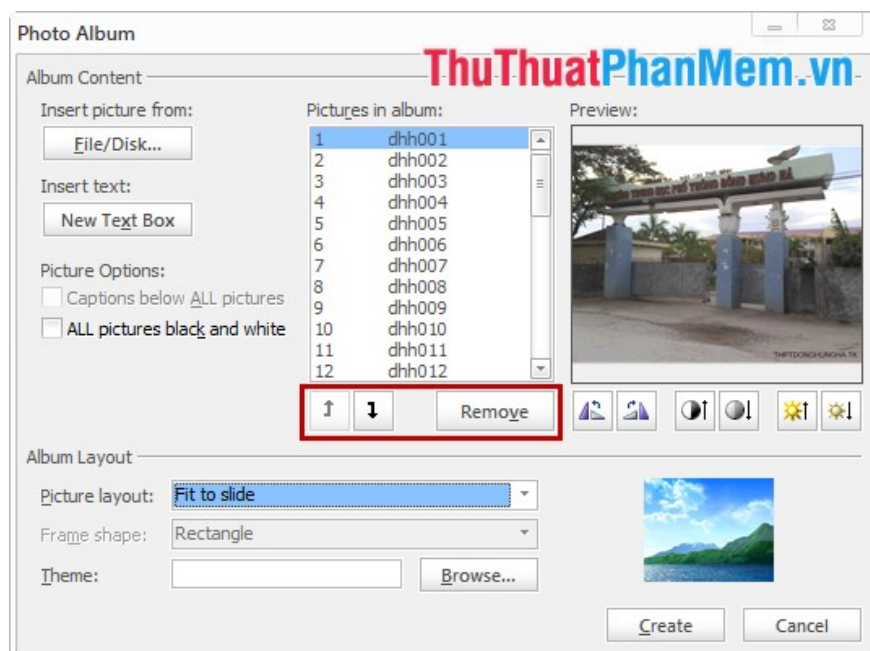

You can rotate the image and adjust the brightness by using the icons under the preview image.

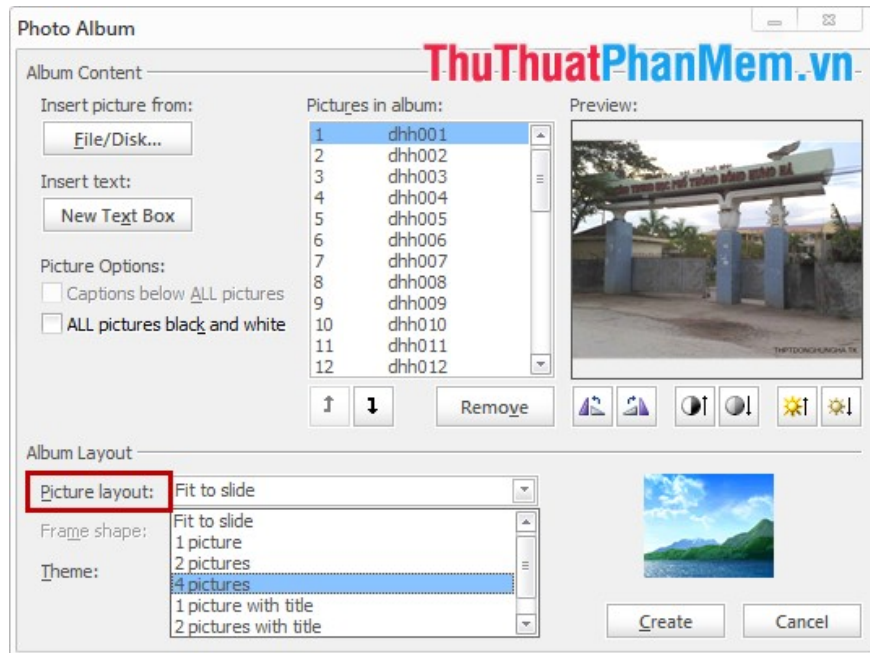

Select **All pictures black and white** if you want to convert all photos in the album to black and white.

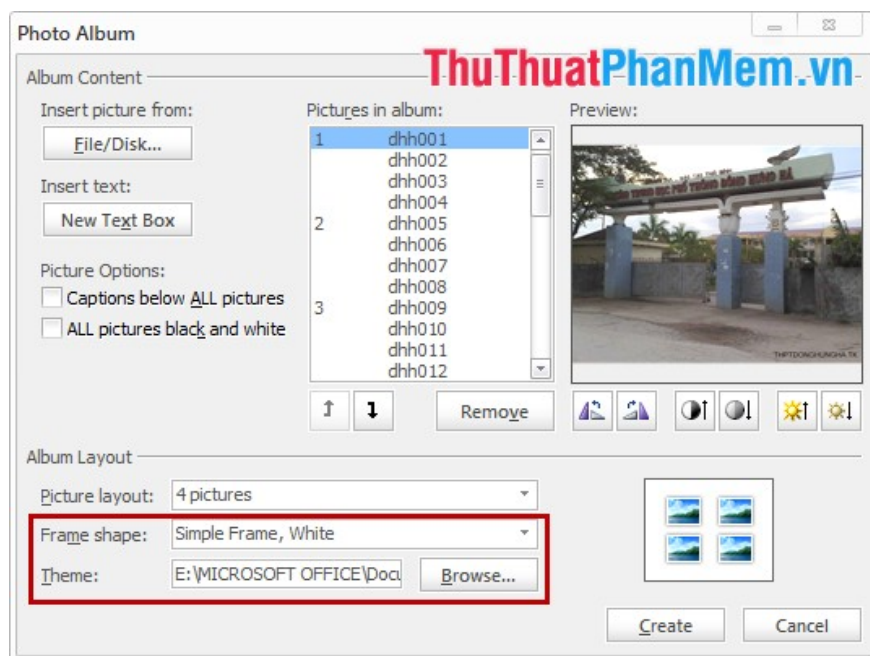

You can move the image position in the album with the up arrow, down arrow icons. Remove photos from albums with **Remove**.

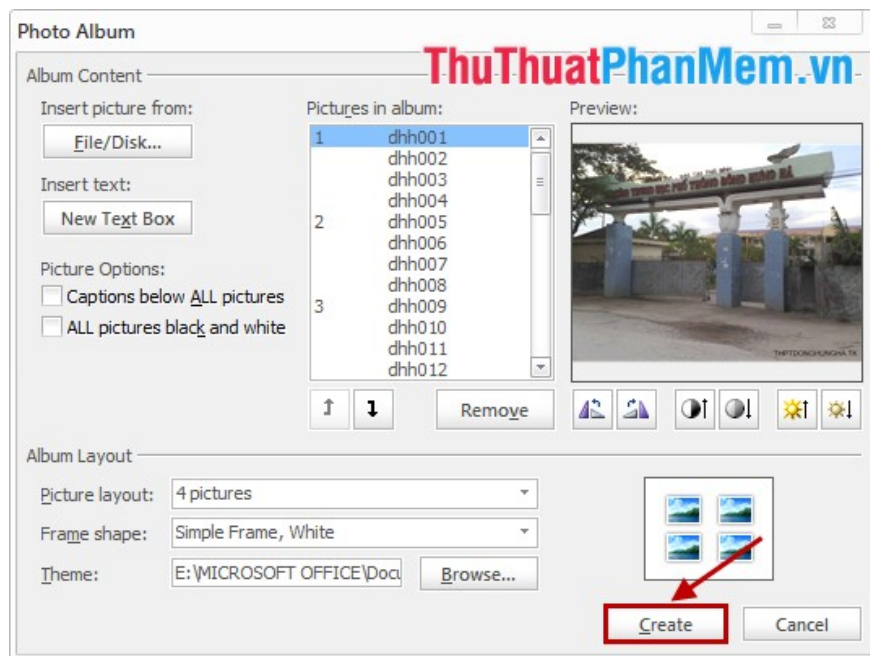

In **Picture layout**, you choose the number of images on a slide.

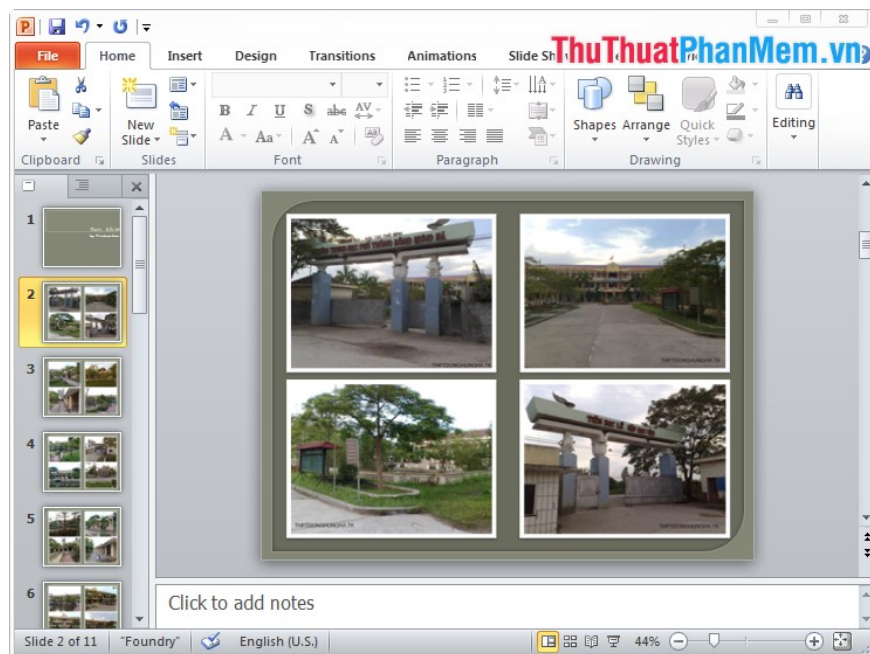

You choose effects for images in **Frame shape** and choose the background for the album in the **Theme** section .

Step 3: Click **Create** to create the album.

The result will be as follows:

So with 3 very simple steps, you quickly create a simple photo album with PowerPoint. You do not need to waste time with other sophisticated photo album creation software. Good luck!
