#### Step 5:

To view details of who voted which option, we right-click on the voting table and then click **View details** .

After that, you will see the interface with the total number of votes, and the number of votes for each option with the member's name selected. Thus, each person in the chat group will know the details of the number of votes for each proposed plan.

A useful tool for debating on a certain issue on Zalo PC. You will not need to waste time on making comments, then vote on continuous options from the members. Instead, we will rely on the voting table set up with the

options given by the members, to ultimately choose the most reasonable option.

I wish you all success!
