

How to create quick notes on iPhone lock screen

Samsung Galaxy Note users all know about the Screen off memos feature - make quick notes by taking the S Pen and writing on the lock screen. For iPhone users, creating quick notes can be done by following the following tutorial.

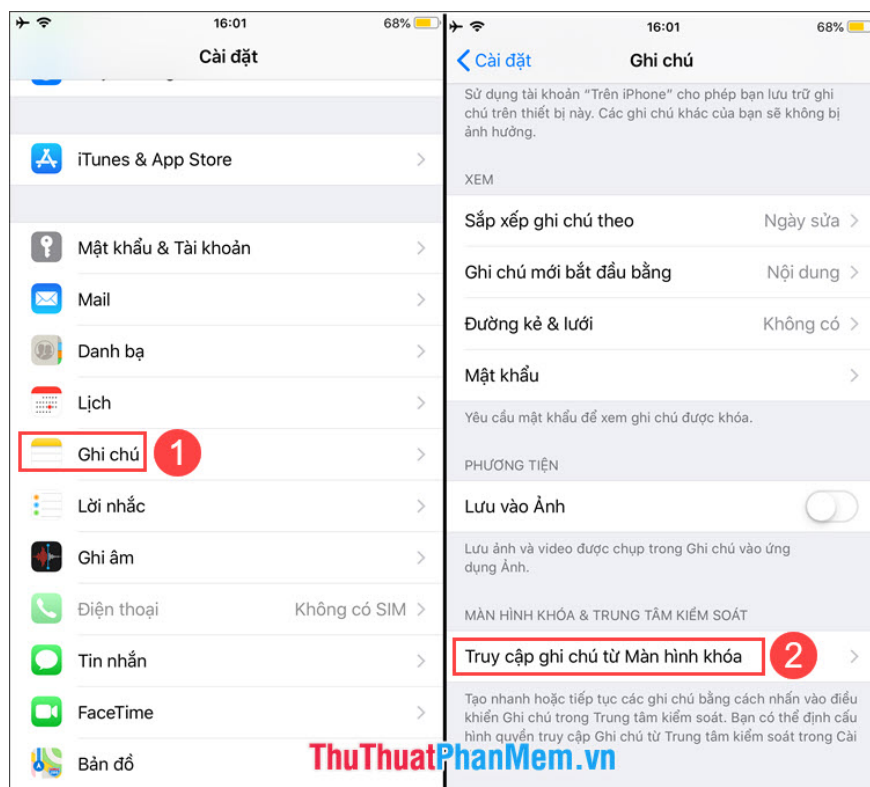

Samsung Galaxy Note users all know about the Screen off memos feature - make quick notes by taking the S Pen and writing on the lock screen. For iPhone users, creating quick notes can be done by following the following tutorial.

To create notes quickly, your iPhone must use iOS version 11 or higher.

1. Set up creating new notes on the lock screen

Step 1: Go to **Settings** => **Notes** (1) => **Access notes from the Lock Screen** (2) .

Step 2: Select the item **Always create new notes** to create new notes every time you access notes from the lock screen.

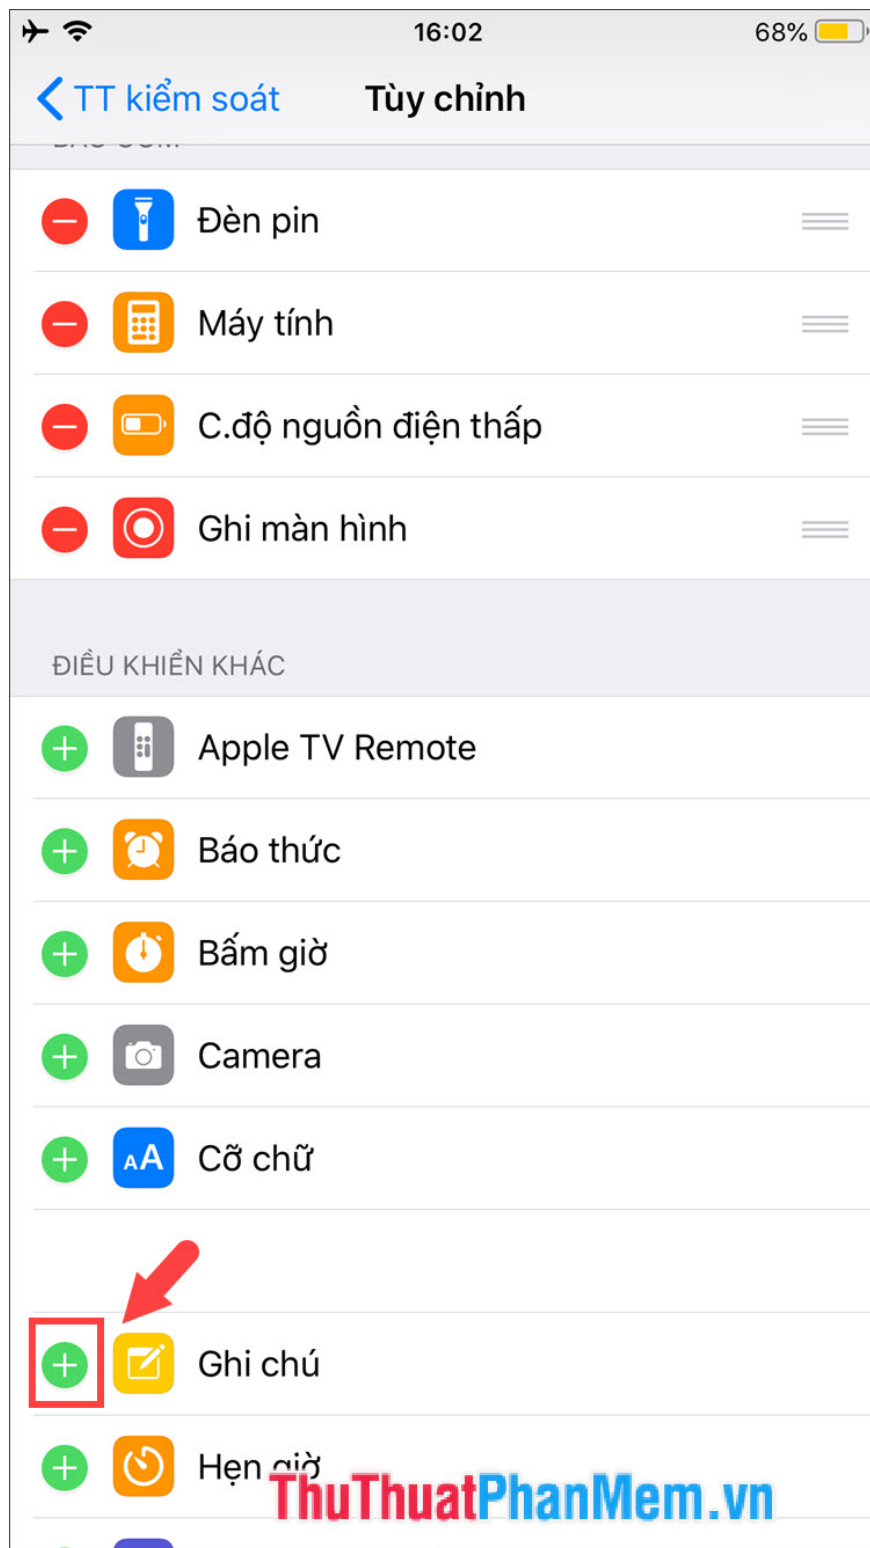

2. Add notes application to the Control Center

Step 1: Go to **Settings** => **Control Center** (1) => switch **Access** switch **inside the application** to **On** (2) => **Customize controls** (3) .

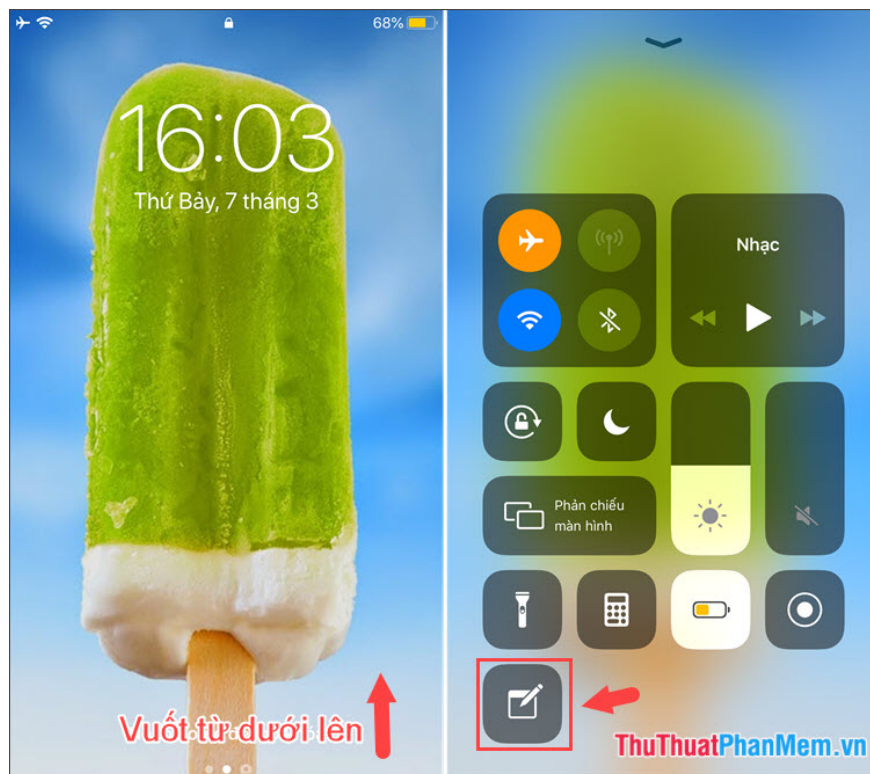

Step 2: You touch the symbol (+) before the **Notes** application to add **notes** application to the control center.

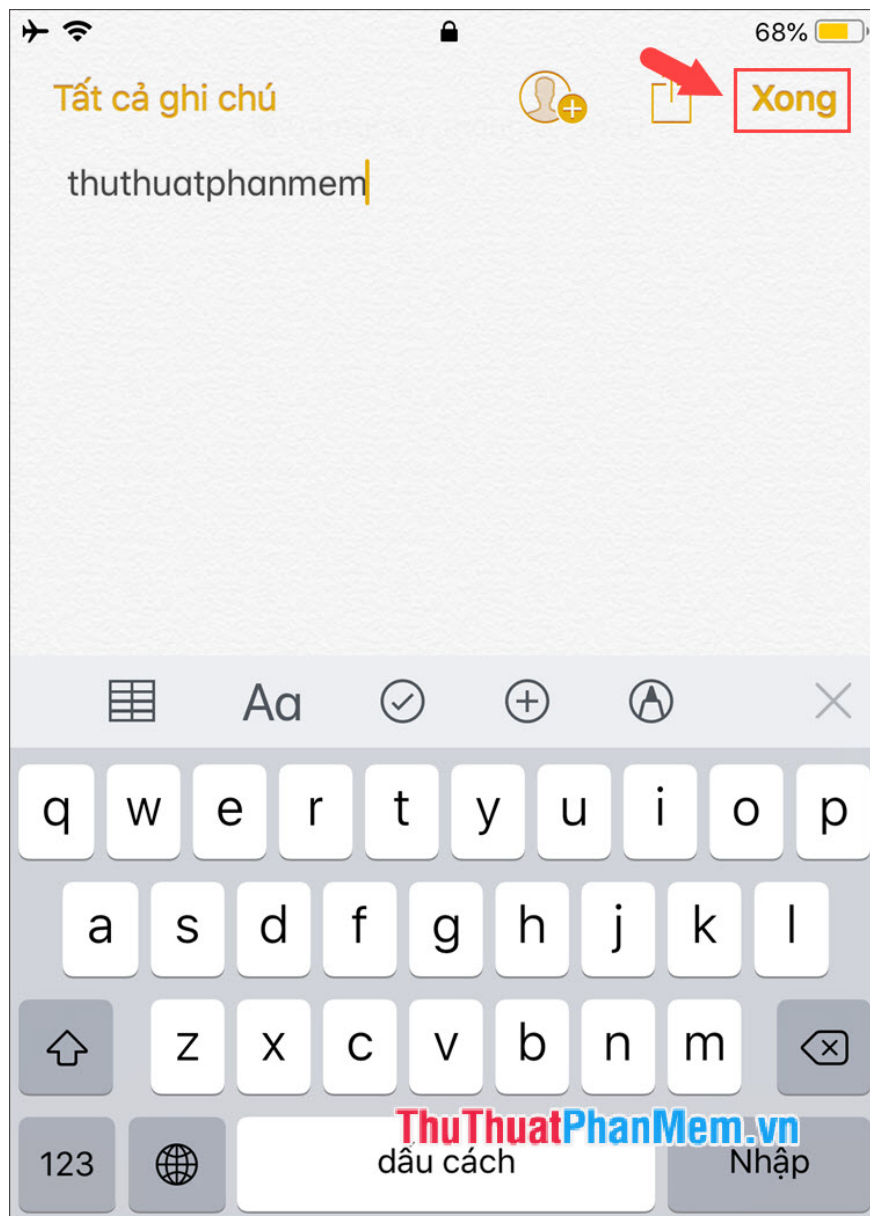

3. Create quick notes on iPhone lock screen

Step 1: After setup is complete, we test this feature by **swiping from the bottom up** in the lock screen to open the **Control Center** . Next, touch the **Notes** application to open it.

Step 2: Now you just need to enter the content and click **Done** and the new note will be automatically created. To style **Screen off memos** like the **Galaxy Note** series , you can buy a stylus and touch the pen icon above the virtual keyboard to enter by drawing gestures.

With the way to create quick notes on iPhone lock screen, we can simplify quick note operation without unlocking. Good luck!
