

How to create Santa Claus memoji on iPhone

To create a Santa Claus memoji on iPhone, users can add a Santa hat to the memoji using available customizations.

After the memoji has Santa hats added, you can send them in messages as stickers to use. The article below will guide you to create Santa Claus memoji on iPhone in many different ways.

Instructions for creating Santa Claus memoji on iPhone

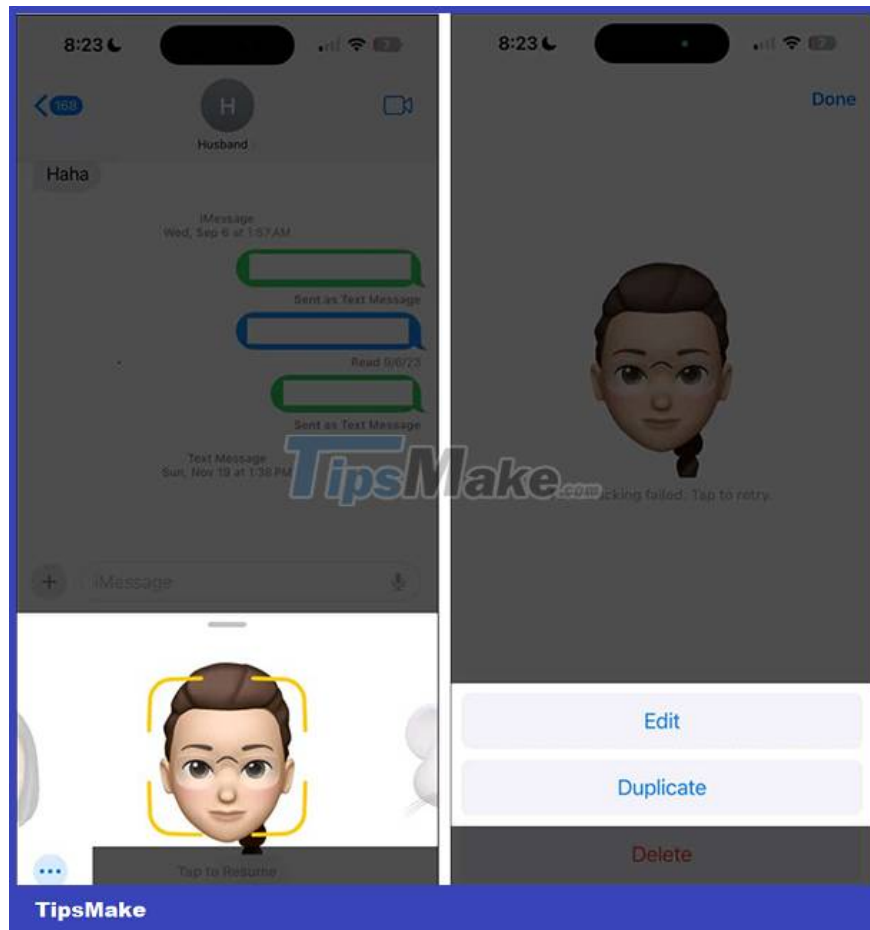

Step 1:

We open the message and click **plus icon**. Then you **click More** to expand the options. We click on **the Memoji item** in the displayed list.

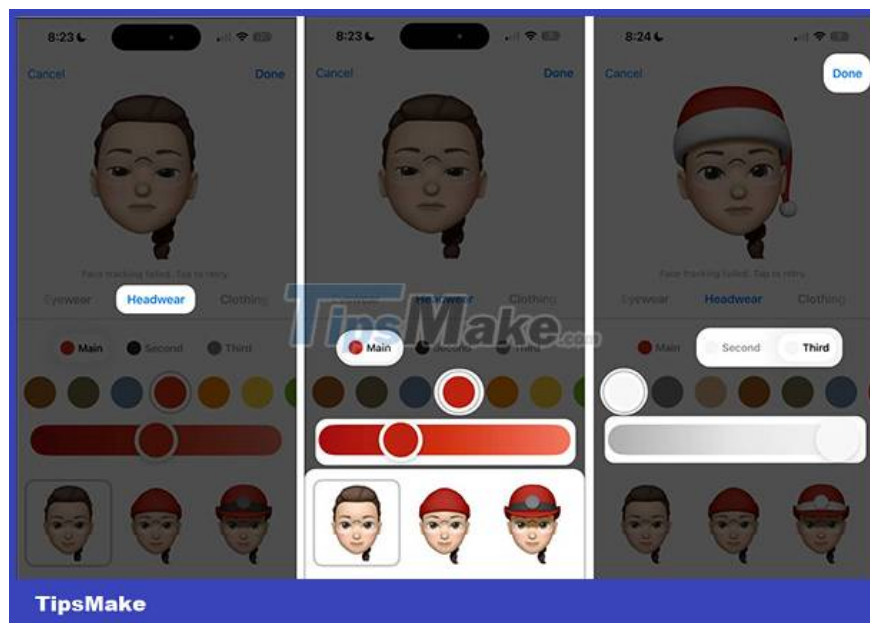

Step 2:

Displays existing memojis in iPhone. We **click on the memoji you want to use** then click **the 3-dot icon** in memoji then **select Edit** to edit or click Duplicate to duplicate this memoji without losing the old memoji.

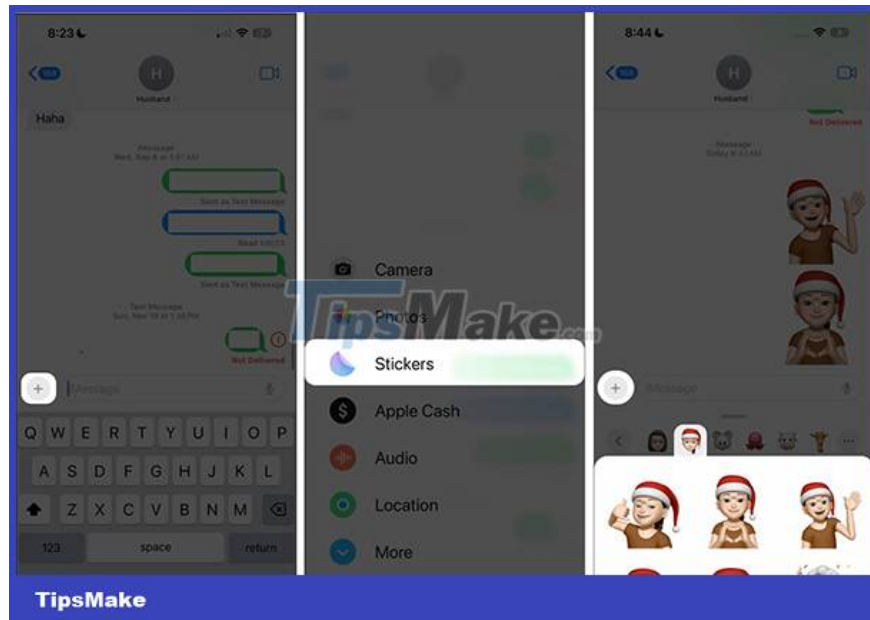

Step 3:

In the memoji editing interface, **click on the Headwear element**. Next in **Main section select red**, then scroll down **select Santa hat**. After editing, press Done to save this Santa memoji.

Step 4:

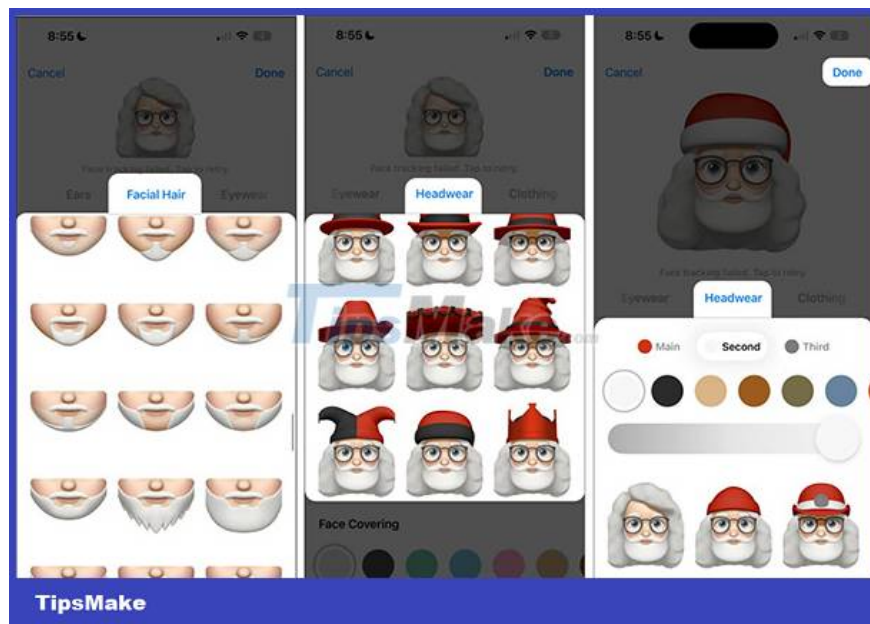

Go back to the messaging interface and **press the plus sign and select Sticker**. You will now see **the Santa meme to use**. You choose the sticker with the Santa hat you want to send in the message and you're done.

Step 5:

Additionally, you can also create a Santa Claus memoji to use. You will create new memoji and decorate your head, hair, and beard to look like Santa Claus.

We create a new memoji and then design details like Santa Claus.
