

How to create Spotify QR codes for songs and playlists is very simple

To make sharing Spotify songs or playlists on Spotify simpler, users can create Spotify QR codes for songs and playlists.

To make sharing Spotify songs or playlists on Spotify simpler, users can create Spotify QR codes for songs and playlists. The recipient of the QR code only needs to use the phone to scan the code on the Spotify application and immediately access the song or playlist. So sharing good songs, but attractive playlists on Spotify is much faster and simpler. The following article will guide you to create a Spotify QR code.

Instructions to create a Spotify QR code on your phone

Step 1:

At the interface on the Spotify application, we click on **the Search item** and then **find the song** that you want to create a QR code to share.
