

How to create fisheye effect style avatar

Fisheye style avatar gives your profile picture a much fresher look. The fisheye effect creates a rounded space, magnifying the center and narrowing the edges, placing you as the subject of the profile picture but with a more unique effect.

Fisheye style avatar gives your profile picture a much fresher look. The fisheye effect creates a rounded space, magnifying the center and narrowing the edges, placing you as the subject of the profile picture but with a more unique effect. With the website in this article, you just need to upload a photo to create a fisheye effect avatar and you're done. Below are instructions for creating a fisheye effect avatar.

How to create fisheye effect avatar

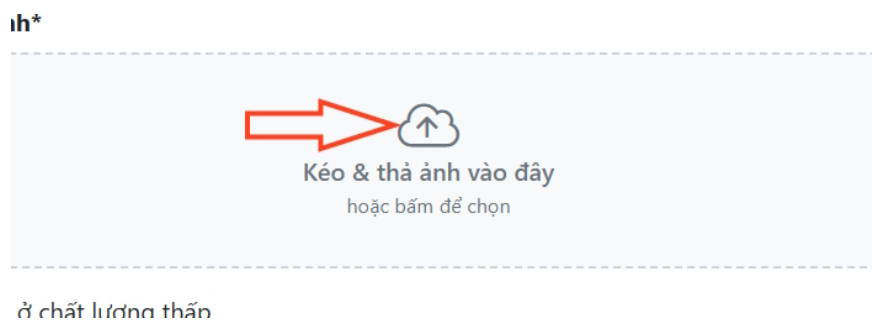

Step 1:

Users access the link below to enter the online avatar creation page

<https://taoanhdep.com/tao-avatar-phong-cach-hieu-ung-mat-ca-fisheye/>

Step 2:

In the first website interface you need to **upload your personal photo** to create the effect.

Step 3:

In the interface you will see the preview frame for the fisheye effect photo. You proceed to **adjust the angles of the photo**, zoom in and out of the photo area you want to get the photo you want.

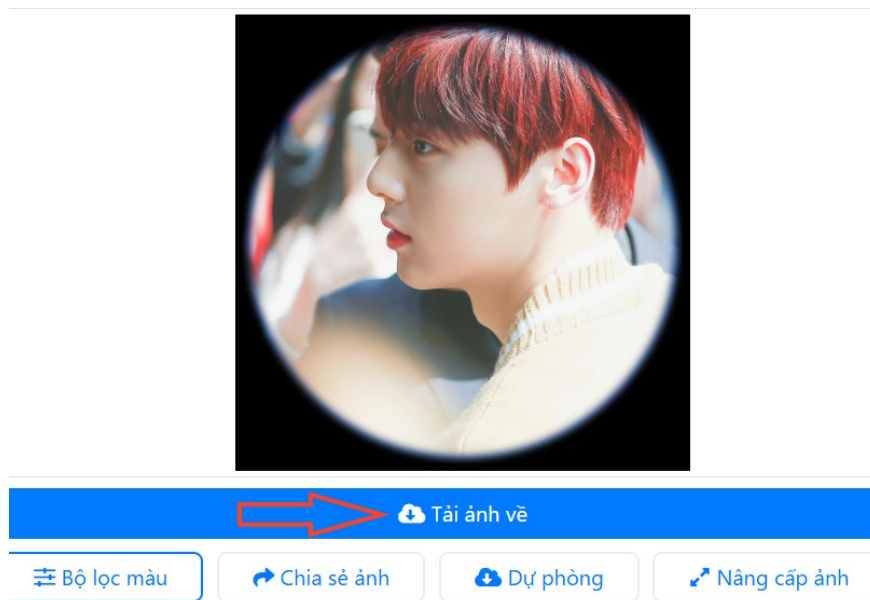

All changes are displayed in the preview so you can easily change the settings for your avatar. Finally, **click the Create image button** to proceed with creation.

Cường độ	<input type="range" value="0.25"/>	0,25
Phóng to	<input type="range" value="1.25"/>	1,25
Vị trí X	<input type="range" value="0.321"/>	0,321
Vị trí Y	<input type="range" value="0.35"/>	0,35
