

# How to create Viber chat groups on Windows

Similar to free chat and texting applications like Yahoo, Skype, WhatsApp Messenger ... Viber also has a group creation function - Group to chat and chat with friends. And in the article below, we will show you how to do it with Viber Windows version

**Similar to free chat and texting applications like Yahoo, Skype, WhatsApp Messenger . Viber also has a group creation function - Group to chat and chat with friends. And in the article below, we will show you how to do it with Viber Windows version.**

**Download Viber for Android**

**Download Viber for iOS**

**Download Viber for Windows Phone**

First, you install **Viber** and activate your account by phone number

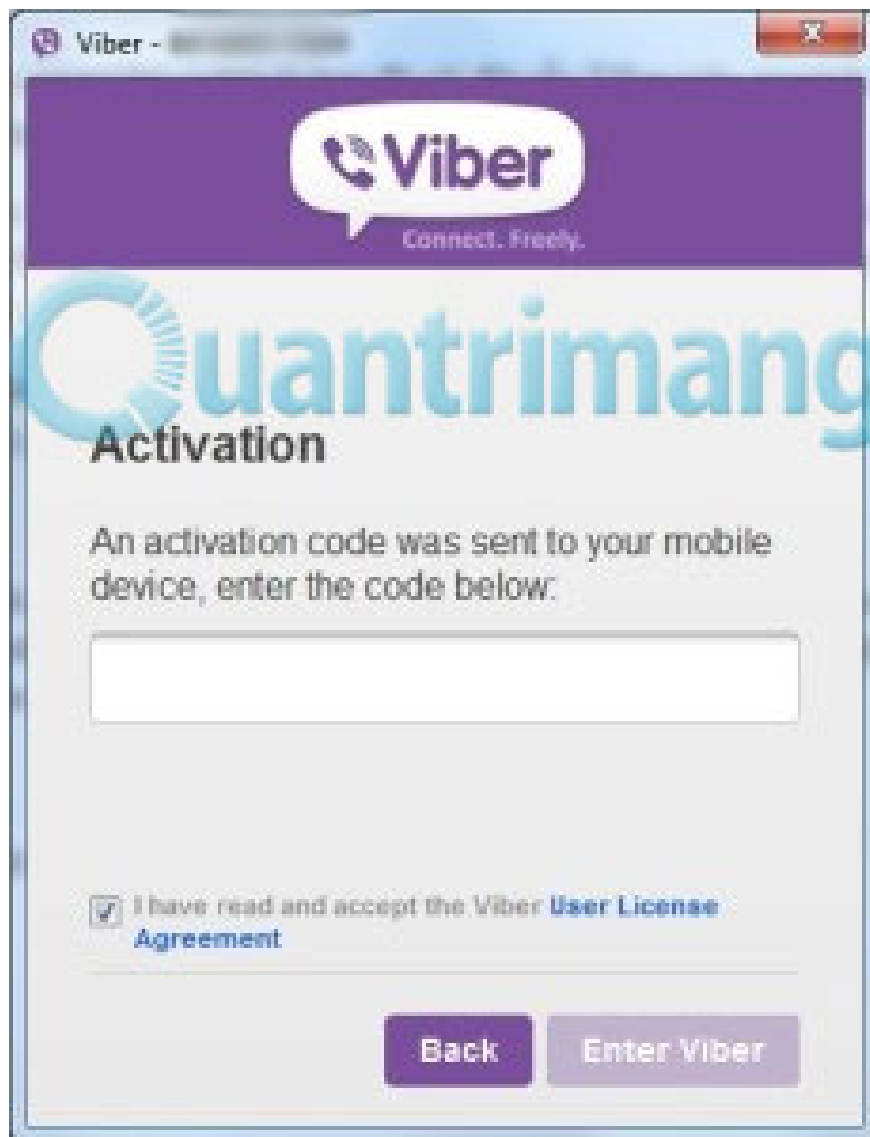

Enter your mobile phone number:

 90

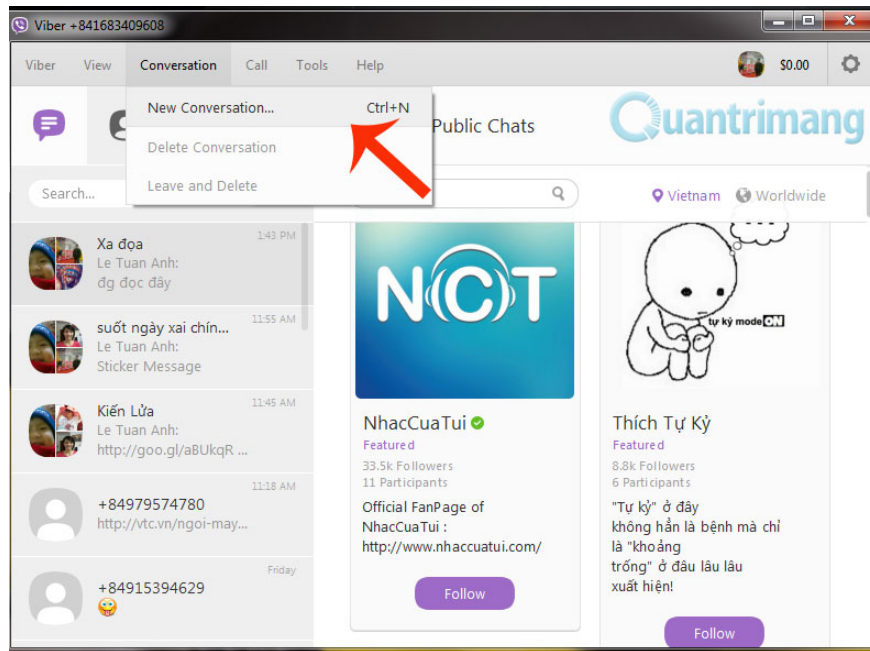

[Privacy Policy](#) and [Terms of use](#)

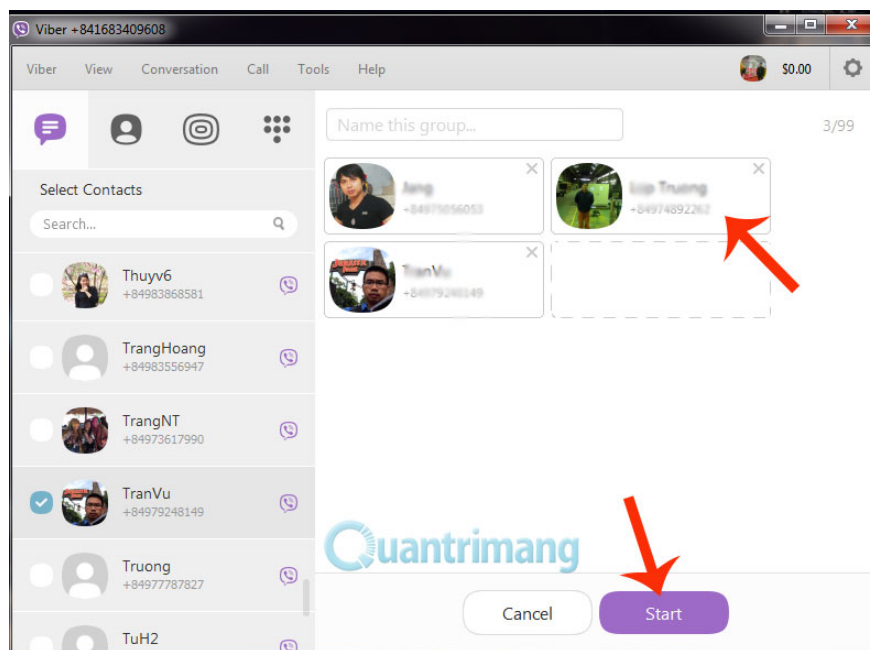

**Continue**

**Step 1** : Open the Viber interface, select **Conversation >> New Conversation**

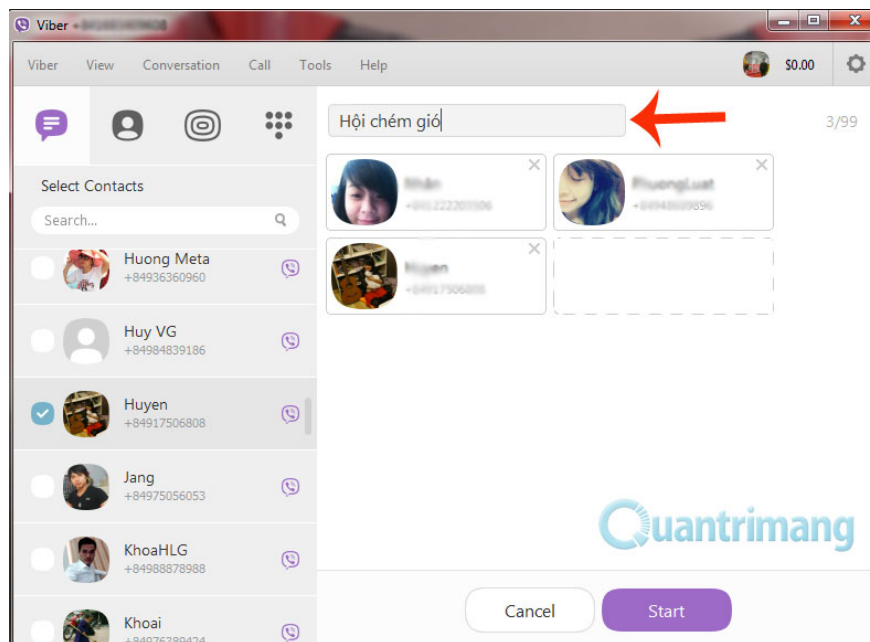

**Step 2:** After the **Conversation** dialog box opens, select 1 or more **Contacts** from the contacts list

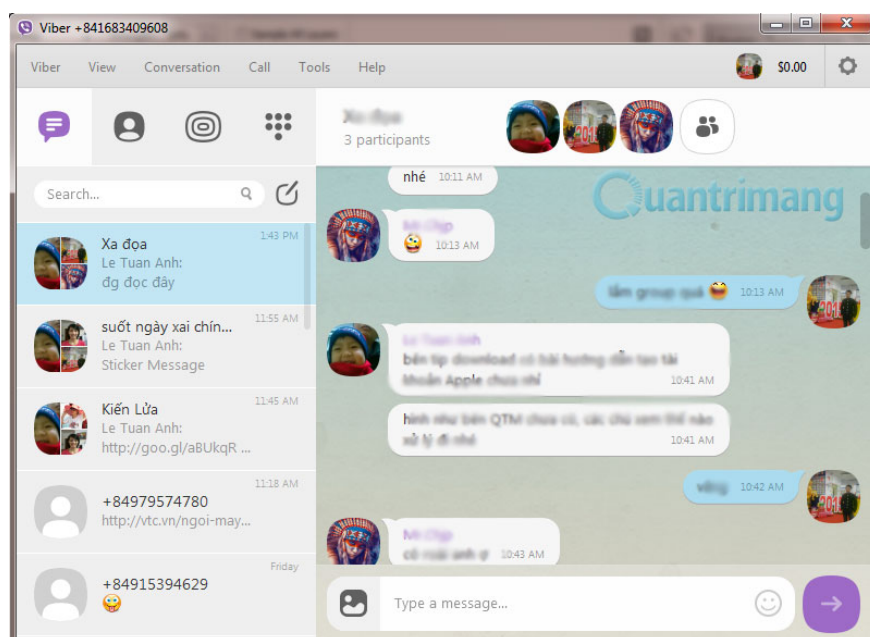

**Note :** You need to have at least 3 new accounts to create the group

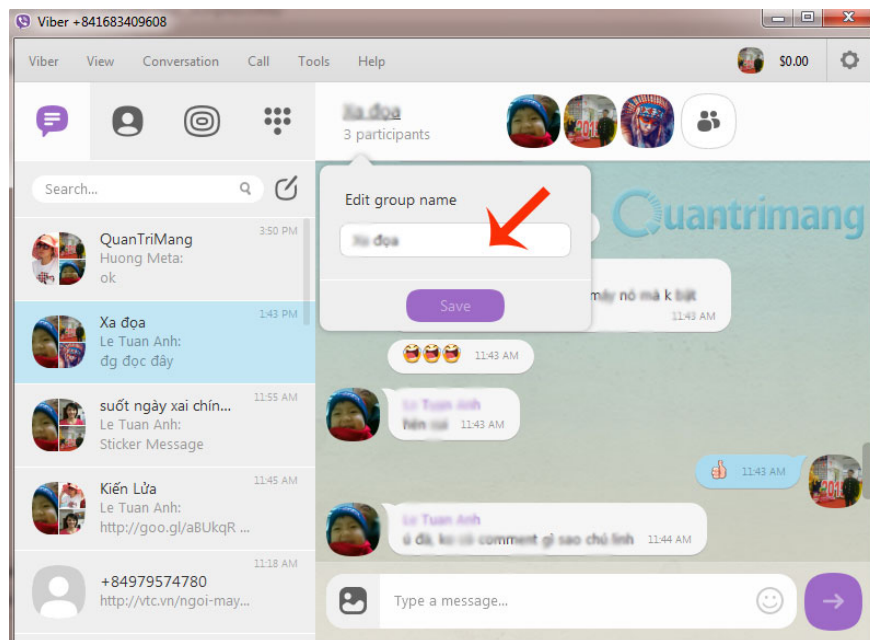

Name the group in the **Name this group box**

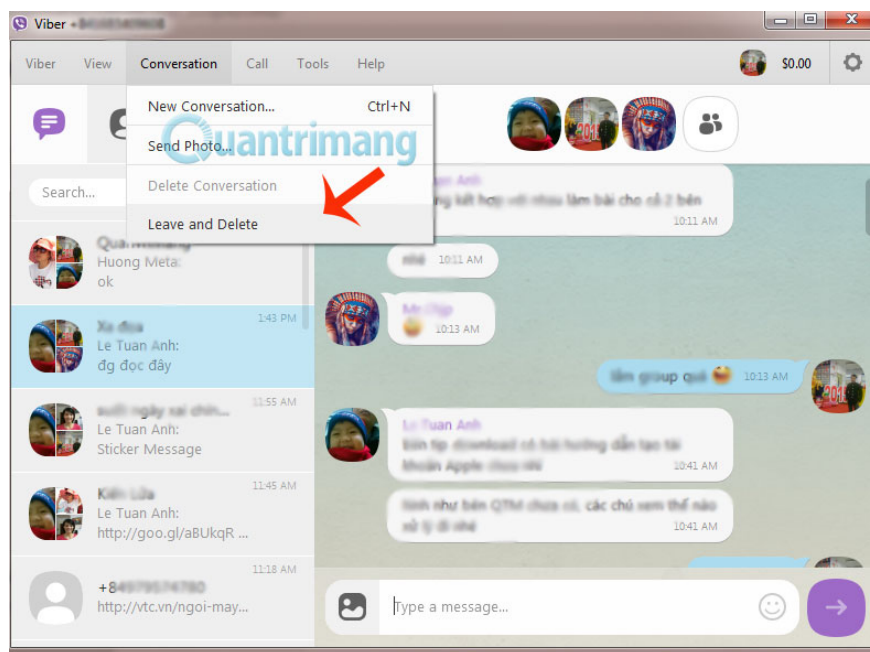

After creating, click **Start** and the result is as shown below

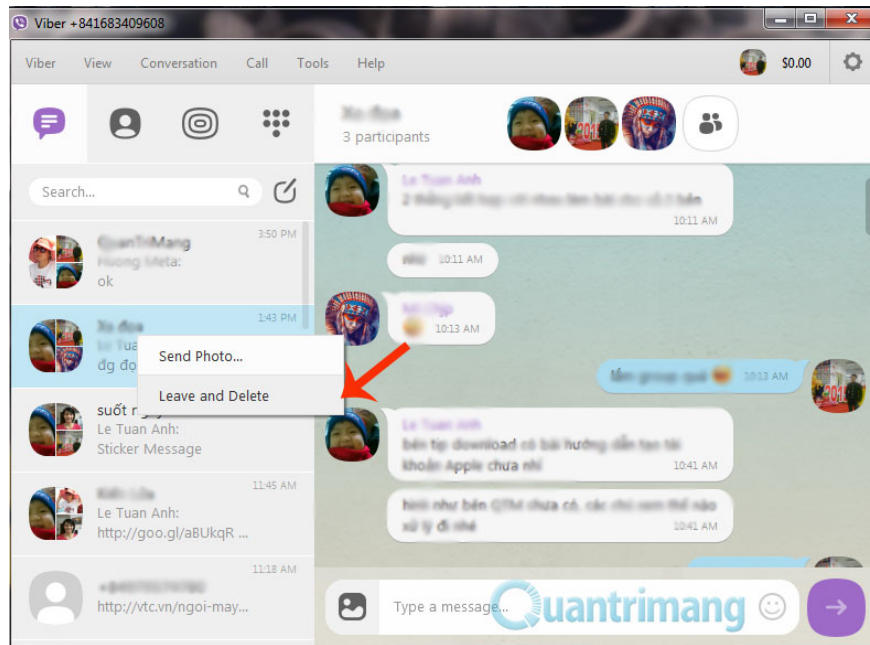

To edit the group name, just click on the group name, change it to another name and click **Save** to save

**Step 3 :** If for some reason you want to leave the group, select **Conversation >> Leave and Delete**

Or you can right-click on the group, select **Leave and Delete**

Good luck!
