1. How to add 2018 World Cup schedule for Google, PC, phone
2. How to add 2018 World Cup schedule to widget widget for iOS, Android
3. The best 2018 World Cup apps for mobile

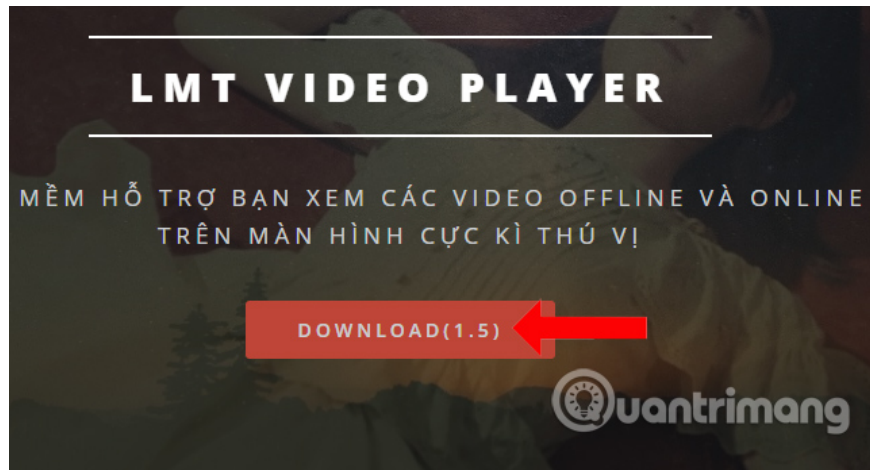

## How to create the wallpaper of the 2018 World Cup results

### Step 1:

First of all, we need to install LMT Video Player, which supports watching videos offline and online on the screen.

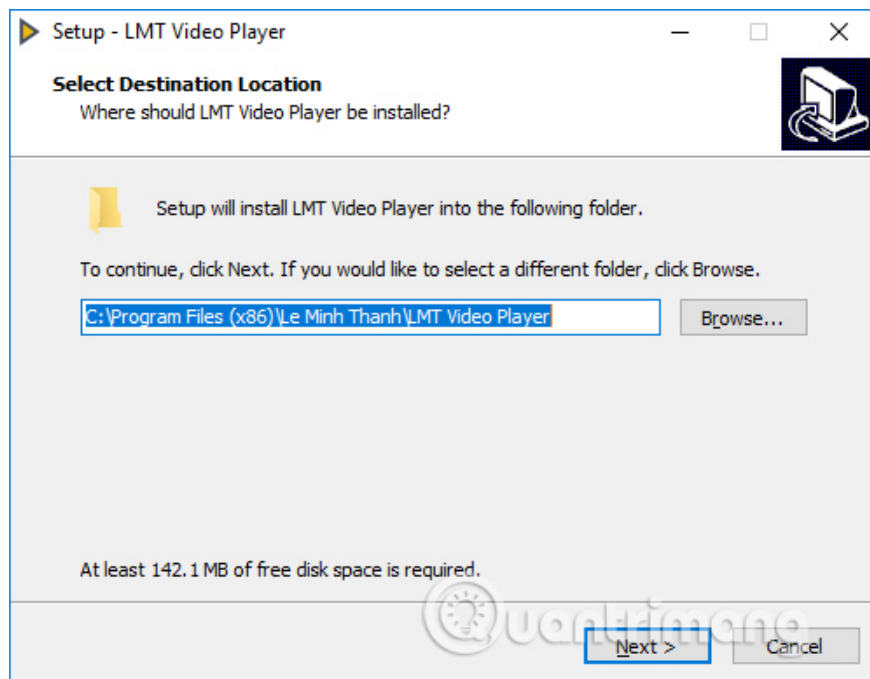

1. <https://xn--lminhthnh-w1a7h.vn/lmt-video-player/>

Click the **Download** button to download the tool to your computer.

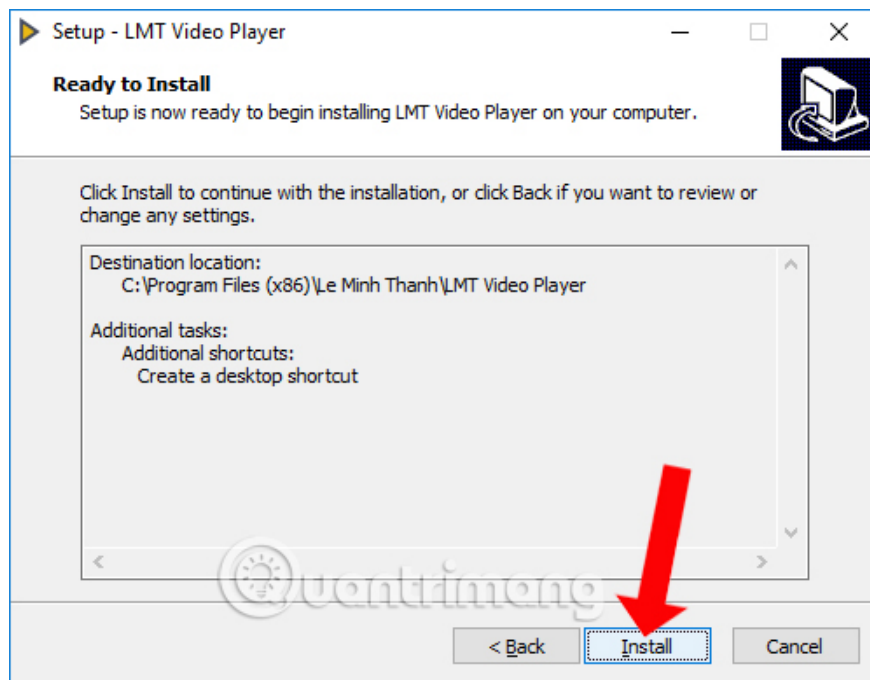

## Step 2:

Then you click on the download file to proceed to install LMT Video Player.

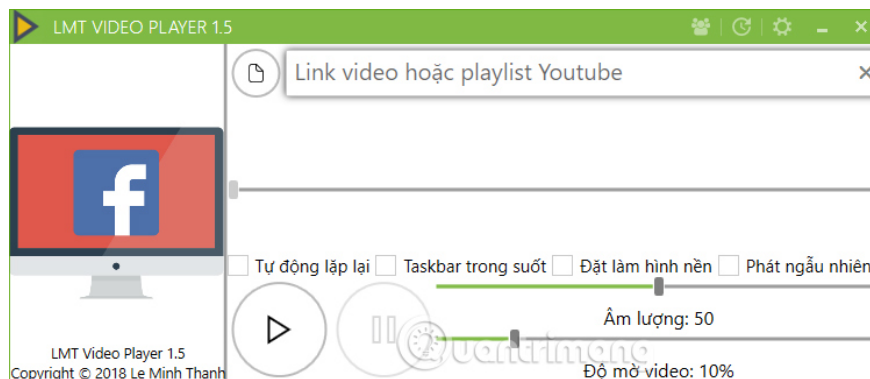

Click the **Install** button to install the tool.

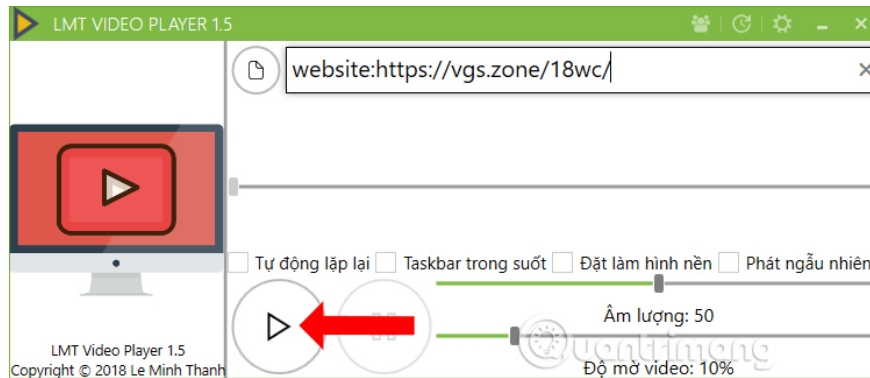

### Step 3:

Soon we will see the main interface of LMT Video Player.

In the top frame, please enter according to the image with **the address updated regularly 2018 World Cup results** . Then press **the Play button** below to apply.

1. <https://vgs.zone/18wc/>

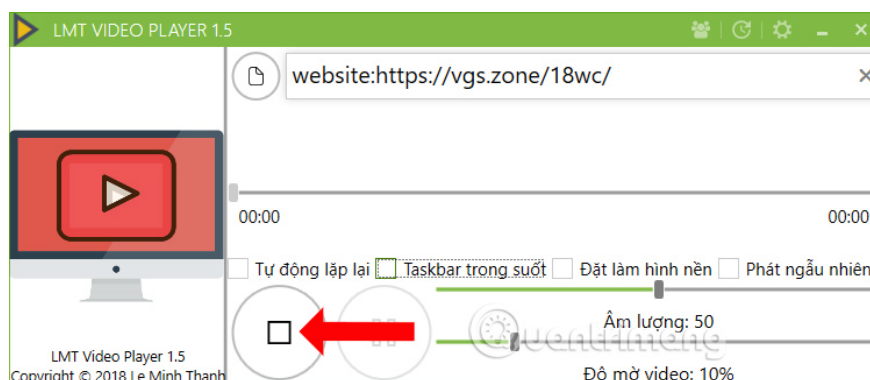

As a result, we will get the desktop wallpaper of all 2018 World Cup matches, with some matches already in effect. Keep track of the scores that take place in a row equal to the specific date and time between the matches of the teams.

#### Step 4:

If you do not want to use this result wallpaper anymore, in the LMT Video Player interface click **the Pause button** to stop the tool from working.

One more way to keep track of the 2018 World Cup schedule details is the result between matches. We will know the full score of the matches that took place from the beginning to the present, as well as the schedule of upcoming matches.
