

How to cut snowflakes with Christmas decorations according to the kirigami art of Japan

You will have lovely princesses of ballet ballet, unique wind chimes in traditional kirigami style of Japanese art for decoration.

You will have lovely Japanese ballet princesses, traditional Japanese kirigami art wind chimes to decorate the Christmas tree or simply decorate your room during Christmas season. this birth.

This is not too difficult, just a little creativity, a little skill and following the steps below will amaze you with what you can create. Let's do it together!

Instructions for cutting snow flowers with paper

Resources:

1. White paper of A4 size
2. Drag, only

Perform:

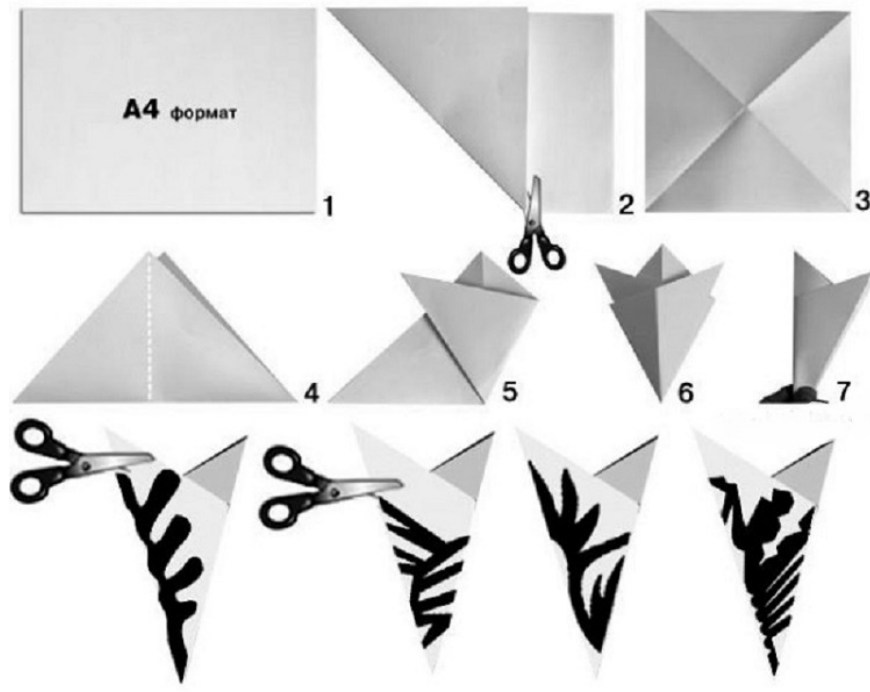

Step 1 : Print the pattern of ballet girls underneath the paper and cut it out.

Sample of ballet girls.

Step 2 : Cut the snow flower shape

Cut square from A4 paper size. Fold the square diagonally and we get an isosceles triangle. Continue to fold 3 weight triangles, then fold again.

Use the snowflakes you like to apply to fold the folded paper and cut it. When opened, you will have a beautiful snow flower. You can refer to the beautiful shimmering snow flower patterns at the end of the lesson.

Step 3 :

Cut a circle in the middle of the snow flower, then put the snow flower in the waist of the girl to make a skirt.

Slightly folds the folds on the "snow flower skirt" so it hangs down. So you have completed a ballet princess with a gorgeous dress.

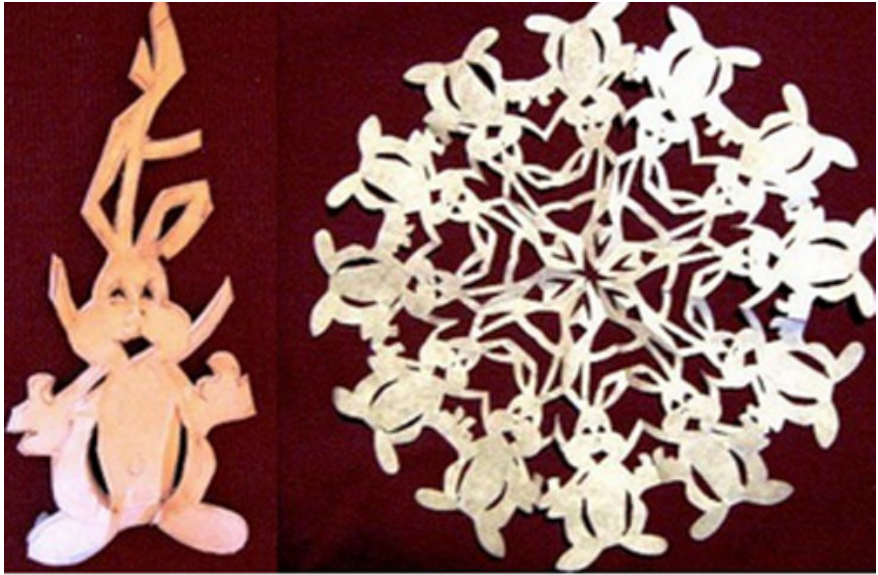

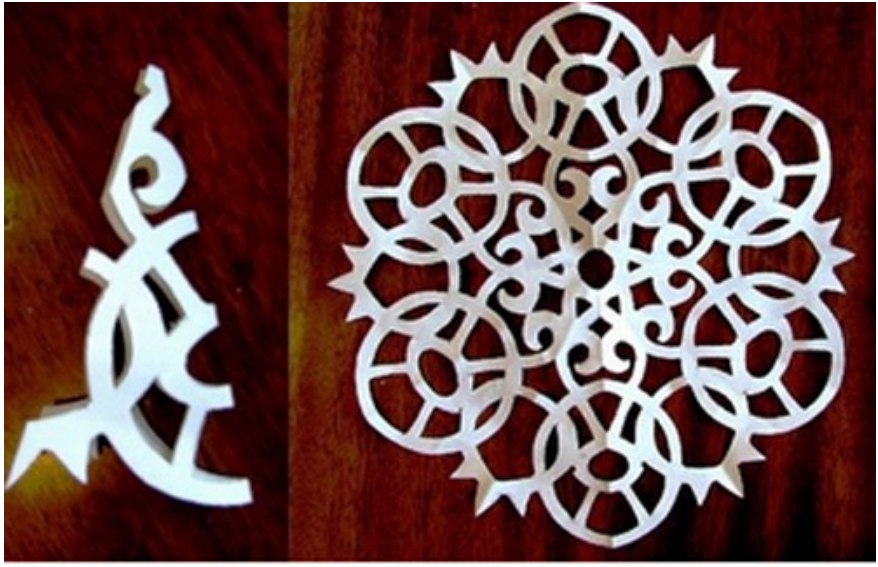

You can use it to hang pictures of floating princesses in the air in combination with snowflakes to create the feeling of the girls dancing along to the music.

Your house will come alive and full of Christmas atmosphere with a snow princess and snow snow truss.

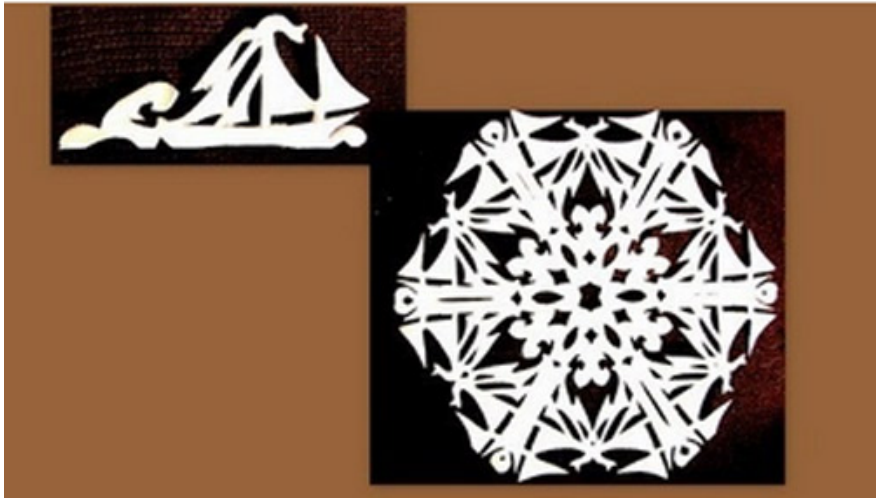

Beautiful snowflake patterns

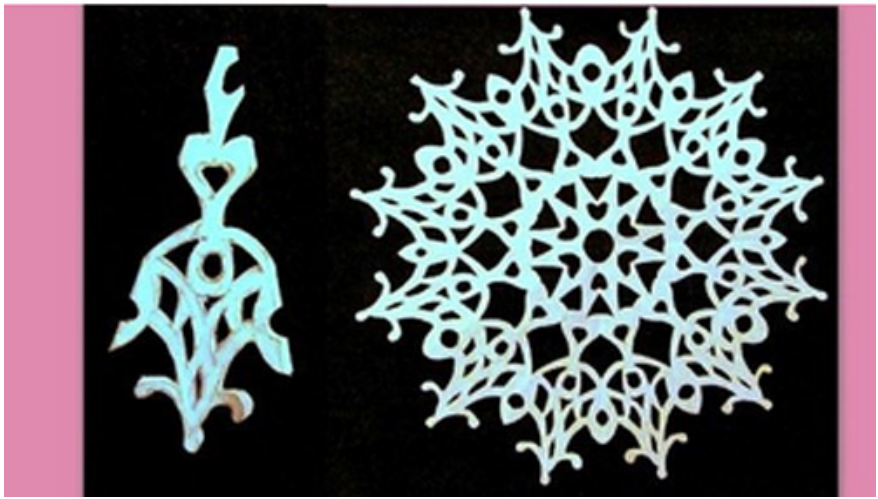

With the above cut along with the patterns below, you will have beautiful, fancy snowflakes to make the princess's dress as well as to decorate.

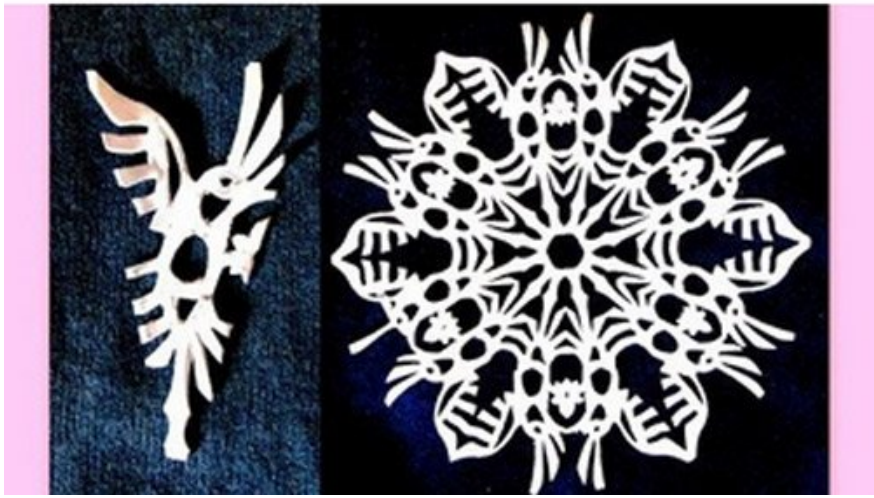

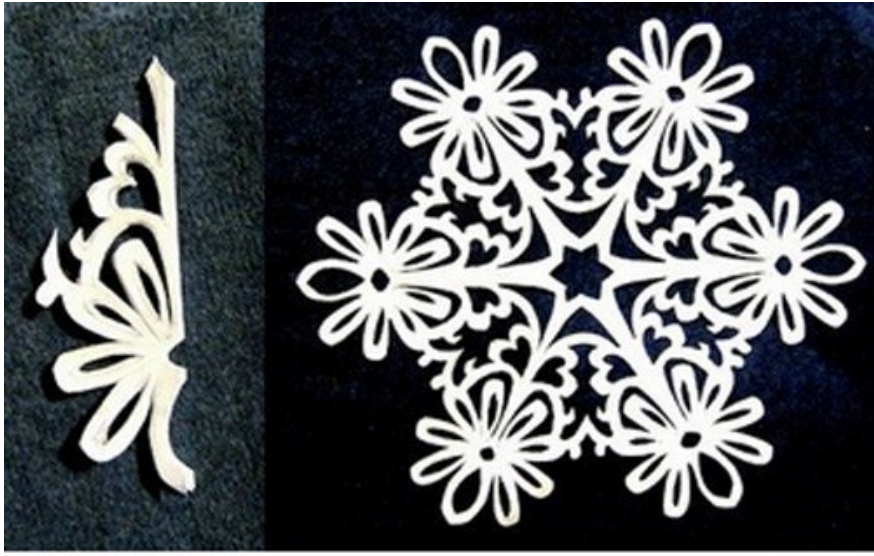

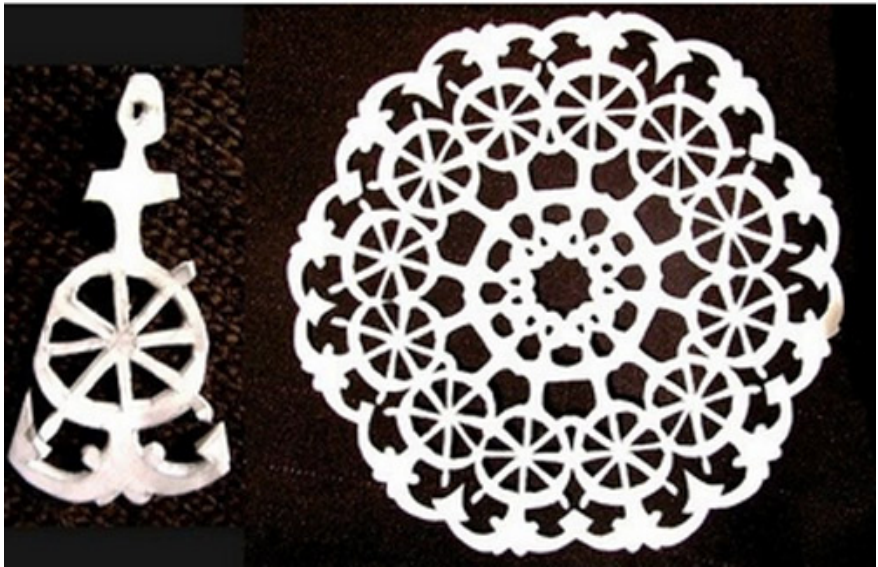

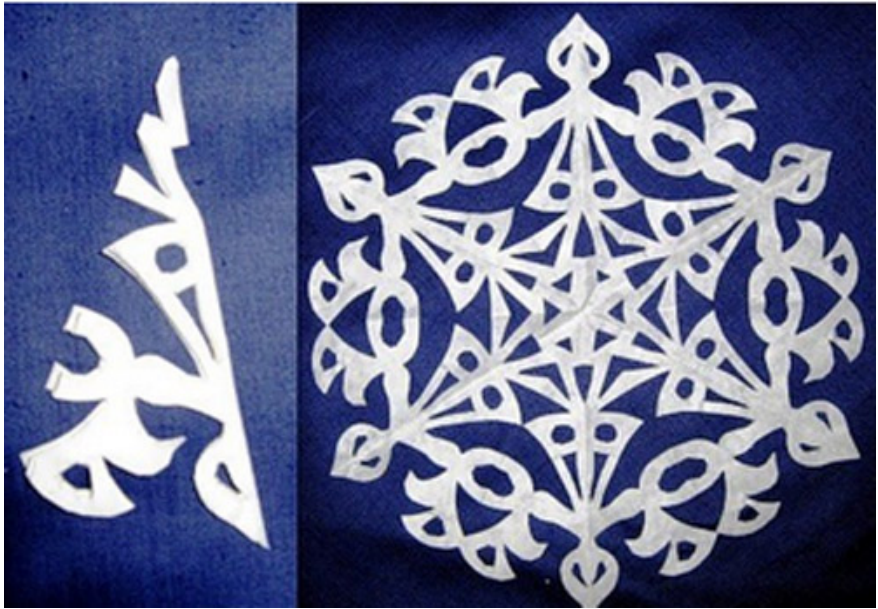

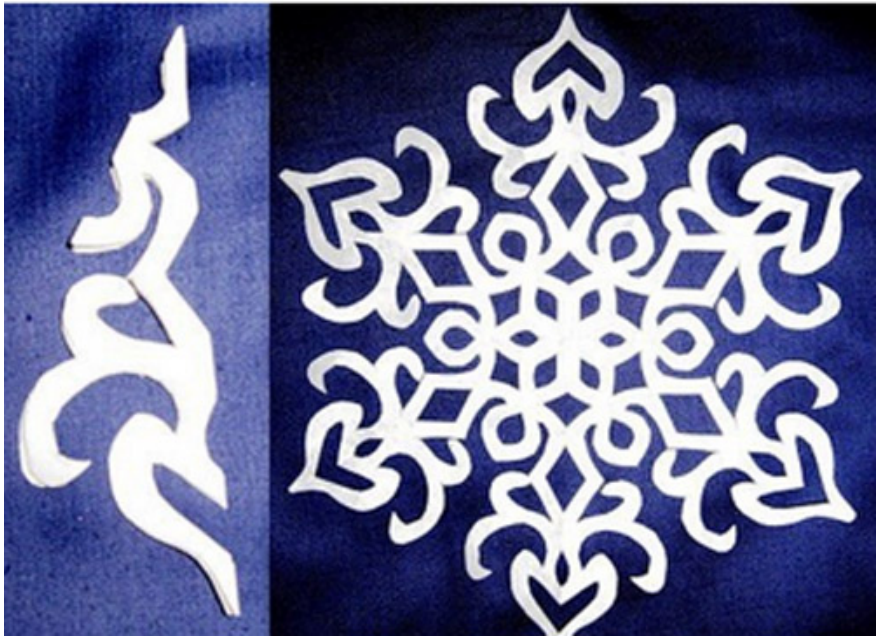

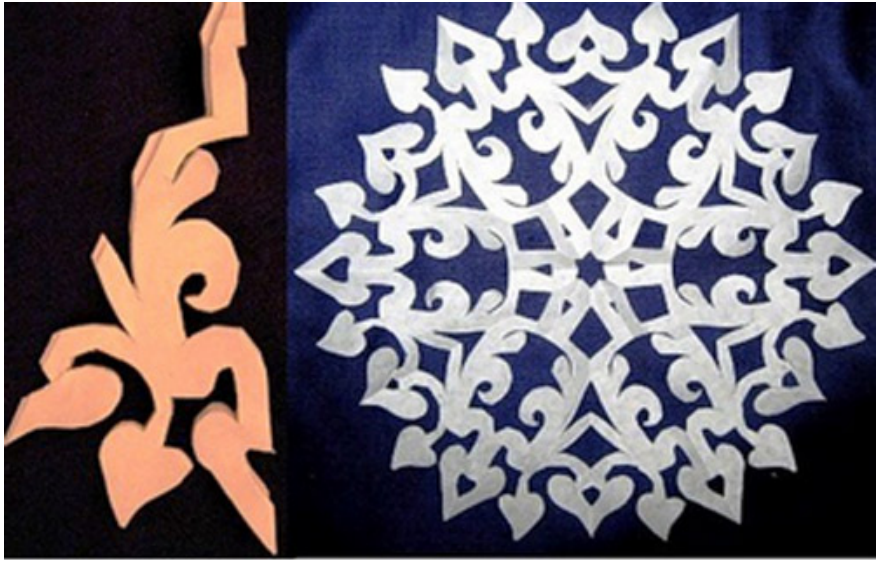

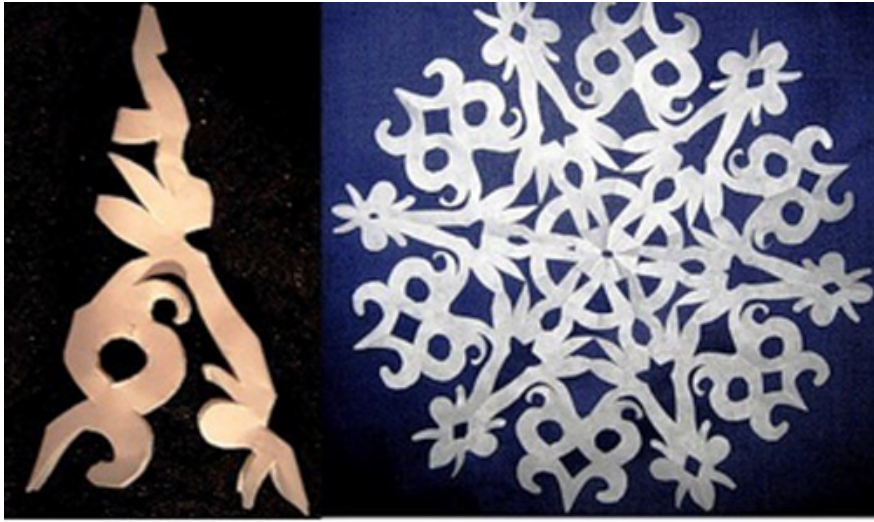

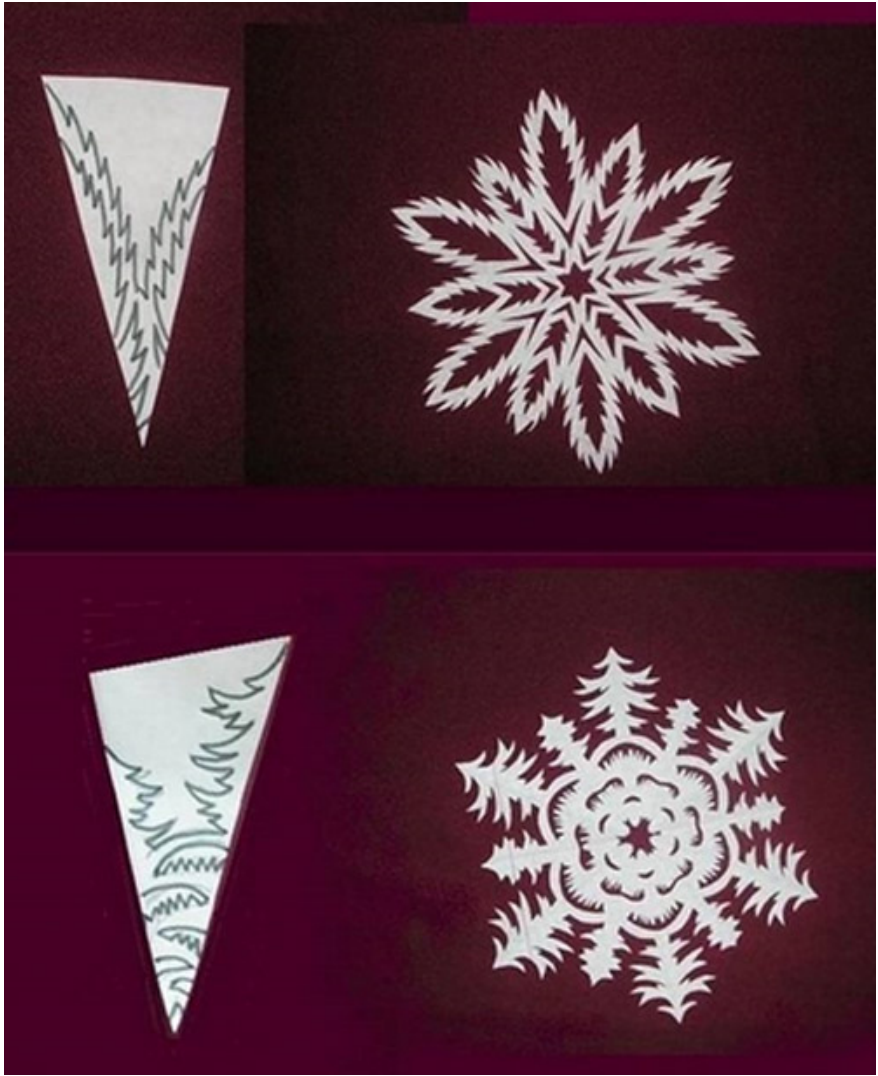

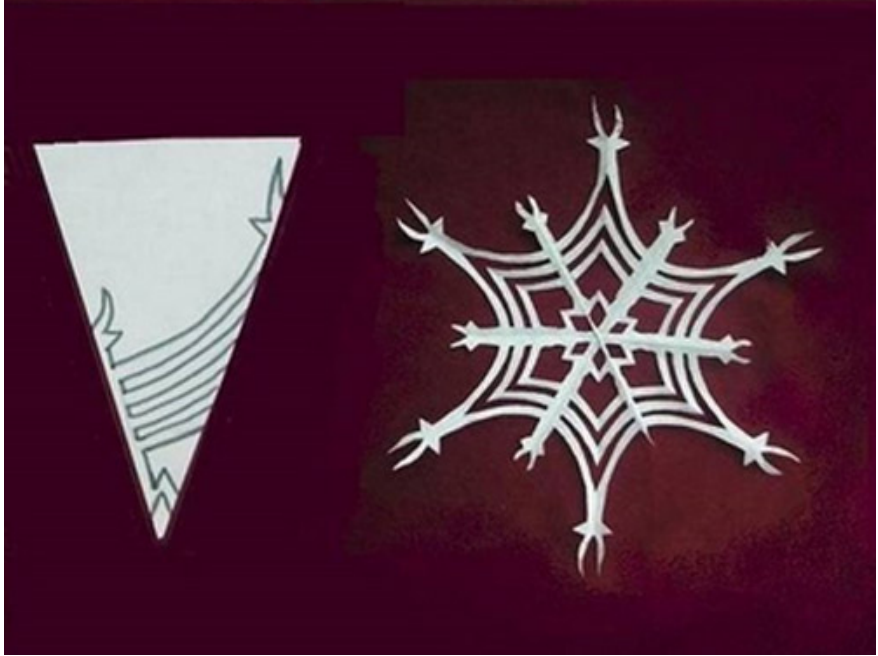

Great applications of art confetti

In addition, decorative paper flowers are cut in the style of traditional kirigami in Japan and there are many other unique applications.

1. Christmas decorations: Paste on glass doors to make snow flowers, make decorative strings.
2. Gift decoration.
3. Make unique 3D cards.
4. Sample printing paper: Put flowers on the item to be printed and spray paint. When painting dry, peel off paper flowers you will have extremely beautiful and unique motifs.
