

How to deactivate and exit the WhatsApp community

WhatsApp Community helps you manage groups related to each other, send notifications to groups in the community. Below are instructions for deleting, deactivating, and exiting the WhatsApp community.

How to deactivate WhatsApp community

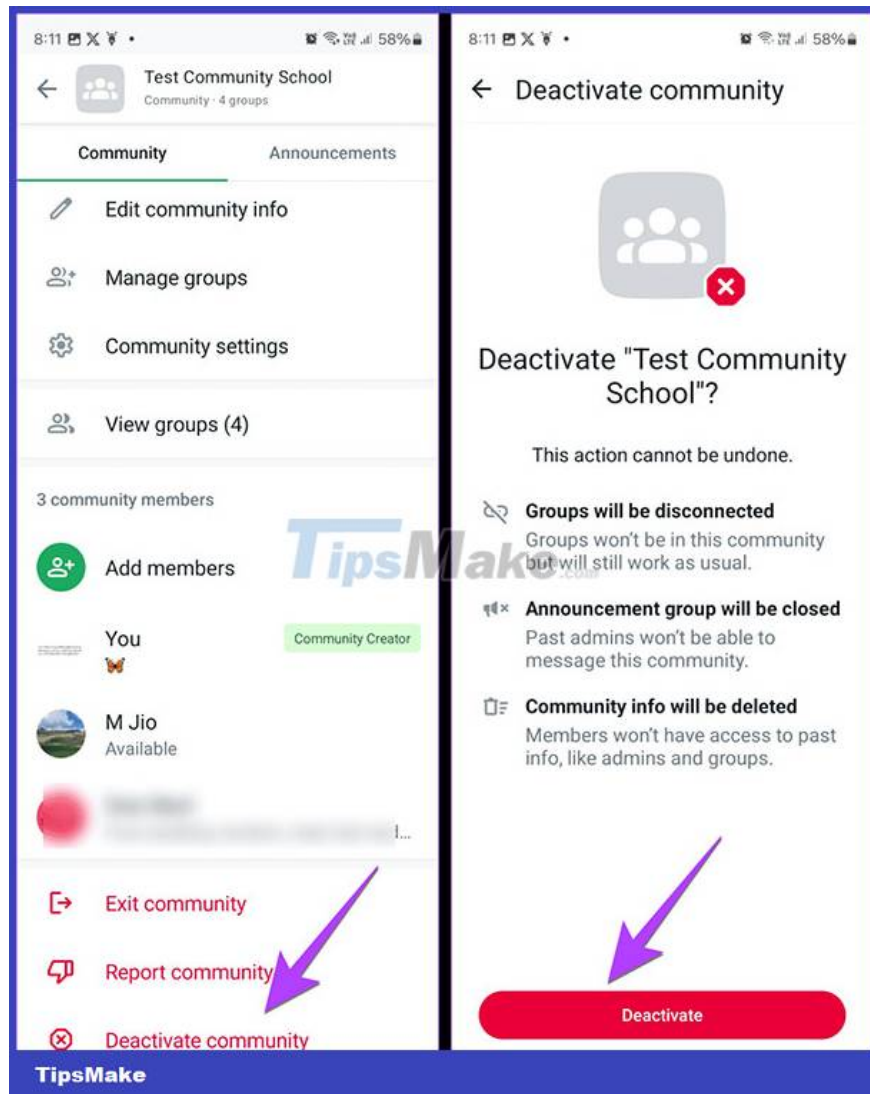

Step 1:

At the WhatsApp interface, click on Communities below and select the Communities you want to deactivate. Then go to the 3-dot option and select Community info.

Step 2:

Switch to the WhatsApp community information interface, scroll down and click Deactivate community to deactivate the community, then click Deactivate to do so.

After deactivating a WhatsApp community, groups added to the community will be unlinked from the community. You cannot reactivate a deactivated community, you must create a new one.

Instructions for deleting a group from the WhatsApp community

Step 1:

Tap the WhatsApp community you're managing. Next, click on the 3-dot icon and select Community info.

When you leave a WhatsApp community, you also leave all groups within that WhatsApp community.

How to exit a group in WhatsApp community

Exiting a group in a WhatsApp community is different from exiting a WhatsApp community. You can exit groups within that community, but not the entire WhatsApp community.

You access the WhatsApp community and then click on the group you want to exit. Next click on the group name displayed above. Switch to WhatsApp group information, click Exit group below.
