4. Now on the screen will display a list of all emails from the sender with the email address you entered above. Just select all the emails you want to delete and click the Trash icon to delete these emails.

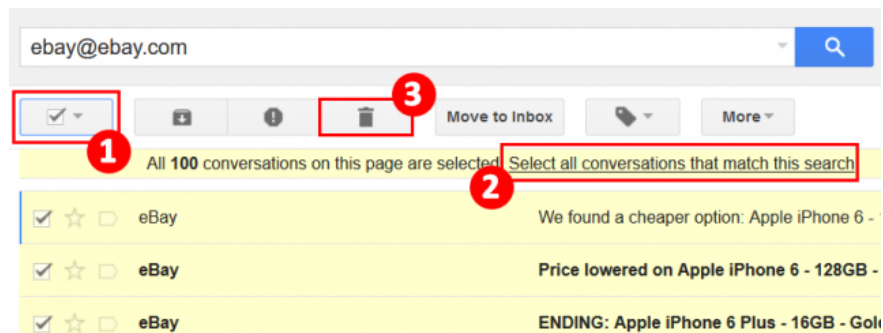

2. Delete Gmail email on multiple pages at once

Gmail limits the display of only 100 emails per page. Suppose in case if you have 500 emails, these emails will show up on 5 different pages. To select and delete these 500 emails at once, first select the **Select** check box in the top right corner.

Now on the screen you will see a message on the screen that says " **All 100 conversations on this page are selected. Select all conversations that match this search** ".

To select all 500 emails, click **Select all conversation that match this search**.

Finally, click on the trash can icon to delete all 500 emails.
