Typically when writing documents or downloading sample documents online, Word documents will appear with frames and borders on each page. In this article, TipsMake.com would like to show you how to delete frames and borders in Word a c.

Typically when writing documents or downloading sample documents online, Word documents will appear with frames and borders on each page. In this article, TipsMake.com would like to show you how to delete frames and borders in Word quickly and accurately.

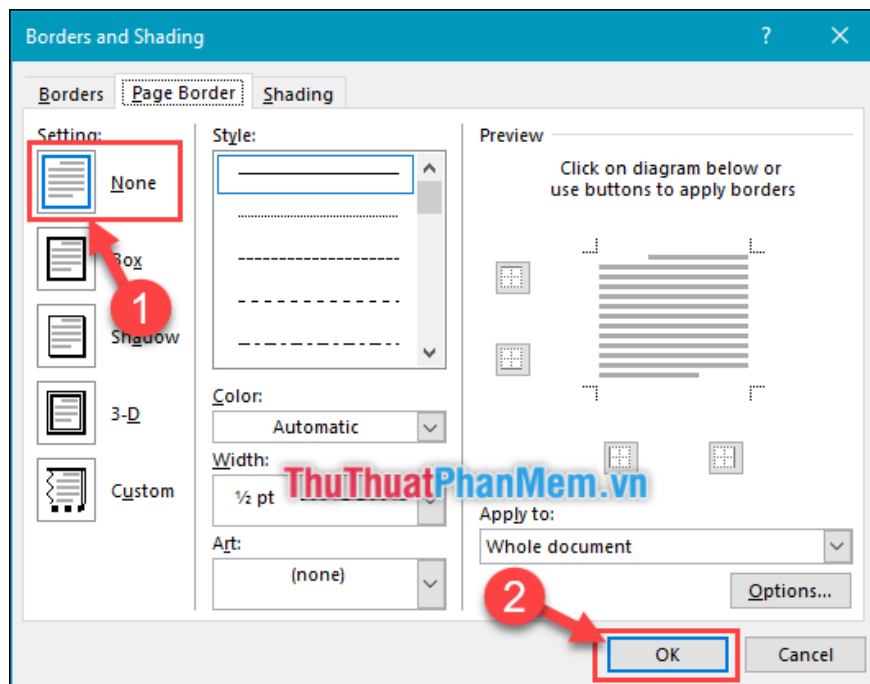

For Word 2016 and Word 2013

Step 1 : You open the text containing the frame, border up.

- (1) On the toolbar, select **Design** .
- (2) Next select **Page Borders** .

Step 2 : In the new window Borders and Shading

For Word 2010 and Word 2007

You also perform almost similar steps:

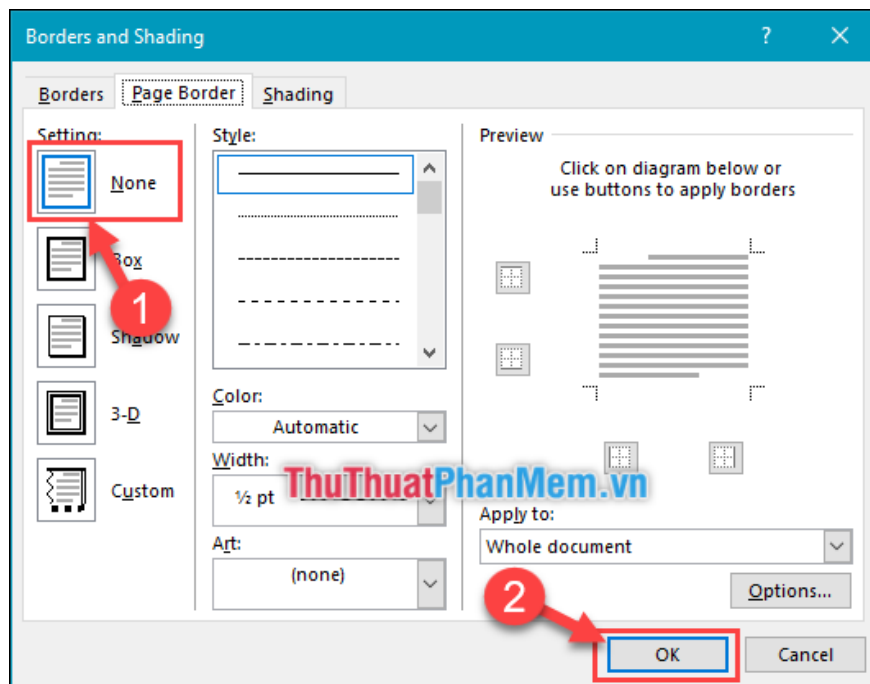

- (1) On the toolbar, select **Page Layout**.
- (2) Select **Page Borders**.

Then do the same as **Step 2** of Word 2016.

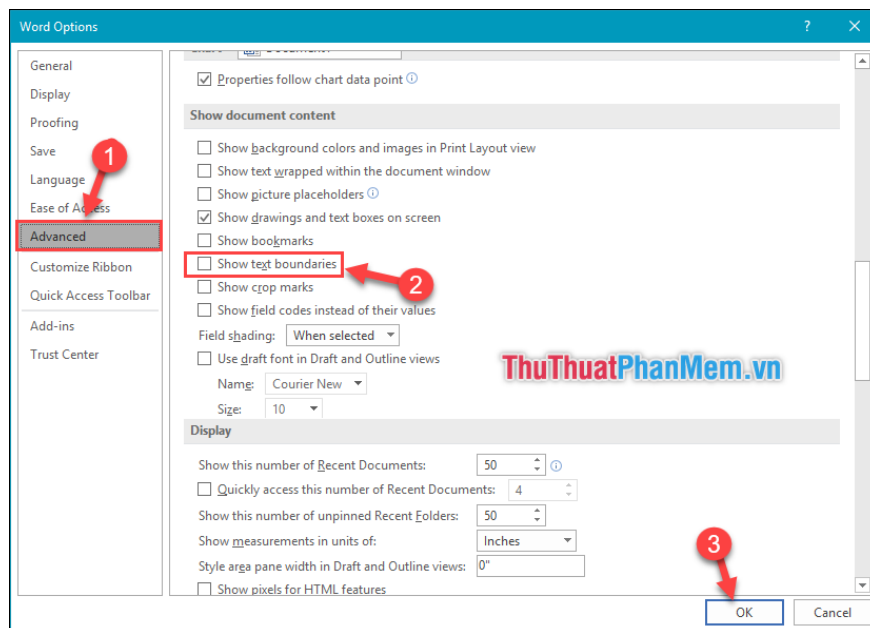

In the new window **Borders and Shading**

- (1) You *select the Settings section is None*.
- (2) Then select **OK** to finish.

In addition, some of you also have Word cases with borders on each line. Now select the File tool in the left corner of the software and select *Options* .

- (1) Select the *Advanced* tab .
- (2) Uncheck the *Show text boundaries* line .
- (3) Select *OK* .

That's it, delete the borders and borders in Word. I wish you successful implementation!
