

Step 3:

Press and hold the application icon you want to delete and wait until the app vibrates, click the **X** icon to remove the application.

If you want to delete any other application, click on the **X** icon on the application icon to finish.

Finally press the **Home** button to save the changes.

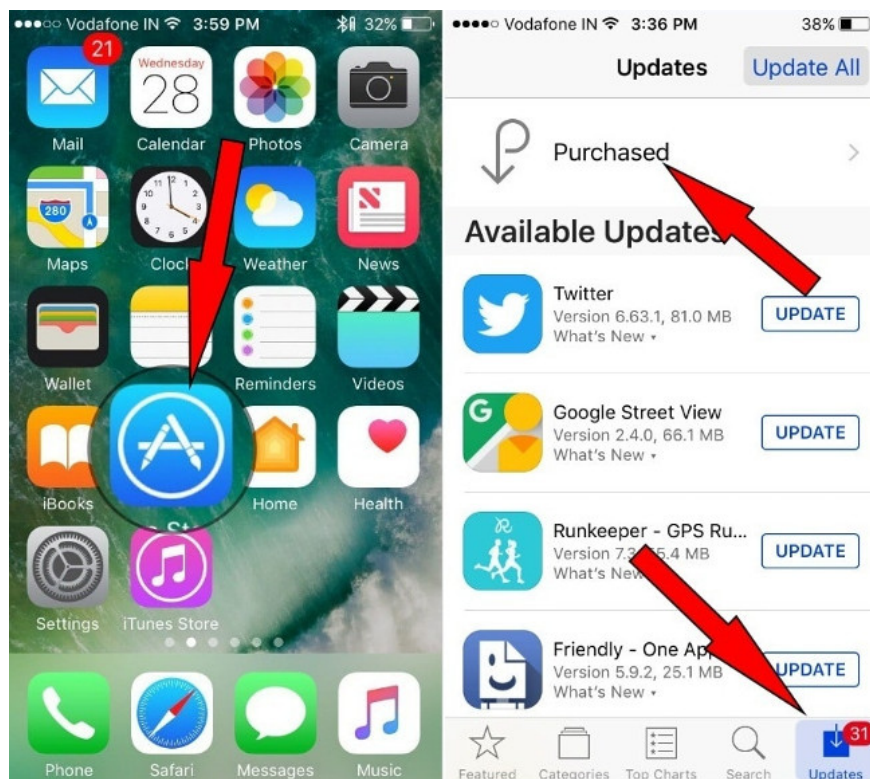

2. Restore deleted applications on iMessage app on iOS 10

Step 1:

Open the **App Store** application (you will be asked to enter Apple ID and passcode).

Step 2:

Click the **Update** button in the bottom right corner of the screen, then swipe to **Purchased** (paid).

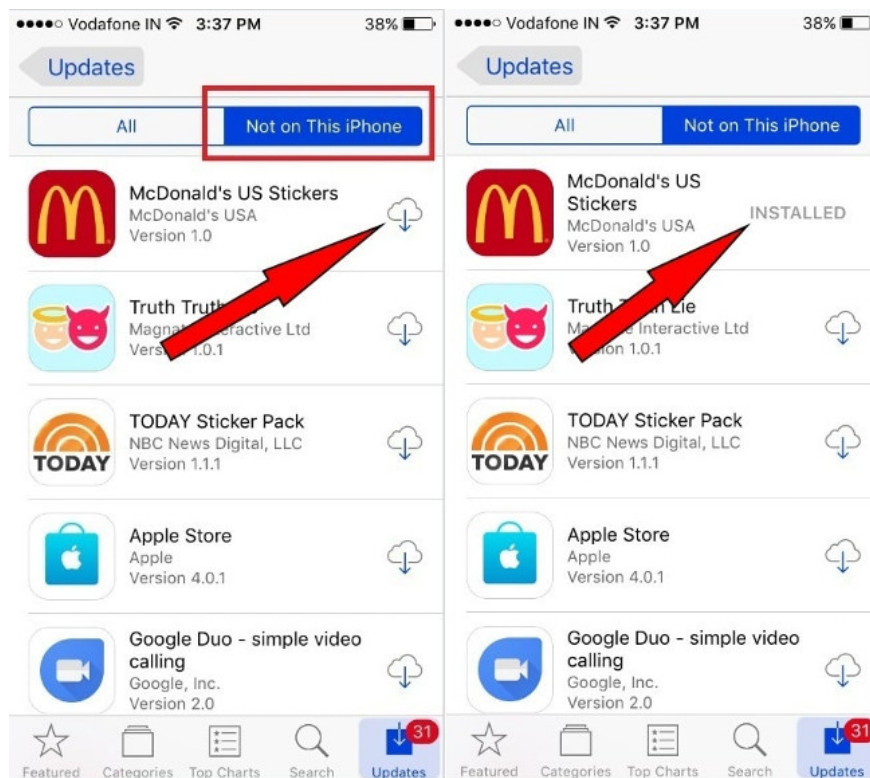

Step 3:

Click the **Not on This iPhone** tab.

Step 4:

Here you can see all uninstalled iMessage applications and iOS apps on your iPhone.

Step 5:

Click the **Cloud** icon next to the application, and the application will start to be reinstalled.

You can also hide / disable the application on the App Drawer iMessage. To do this thing:

First open when **iMessage** application => find and click the **Store** icon (store) => Click **Manage** => In **All** , you will see all installed applications, the sticker is attached to the bar. blue slide. If you want to hide / disable any application, you change the application slider to **OFF** => Click Done to finish, and the application will be hidden on the **App drawer** .
