

# How to Delete Movies from iTunes

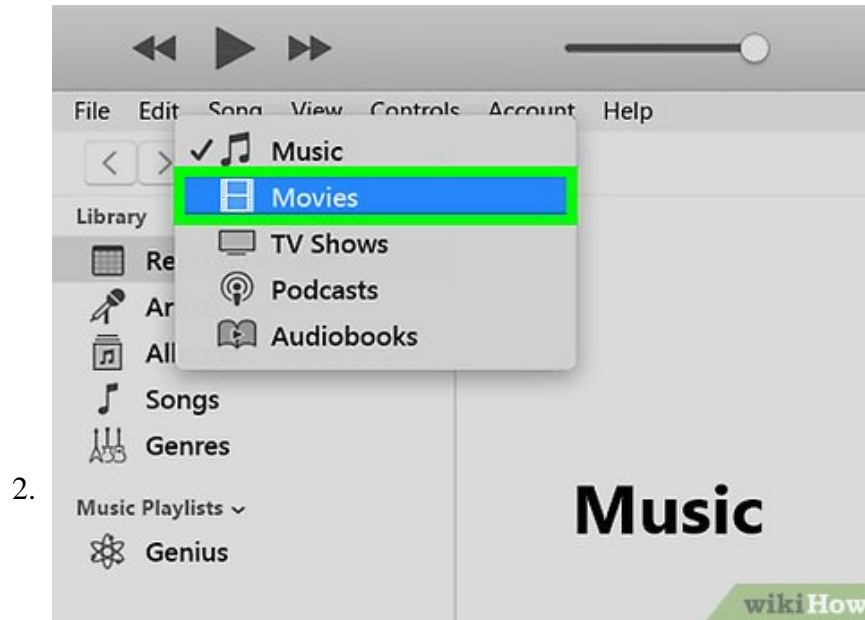

This wikiHow teaches you how to remove movies from your iTunes library on a computer, iPhone, or iPad. If you downloaded a movie (or if it's one you didn't get from iTunes), you can also delete it from your device. Open iTunes on your...

Method 1 of 2:

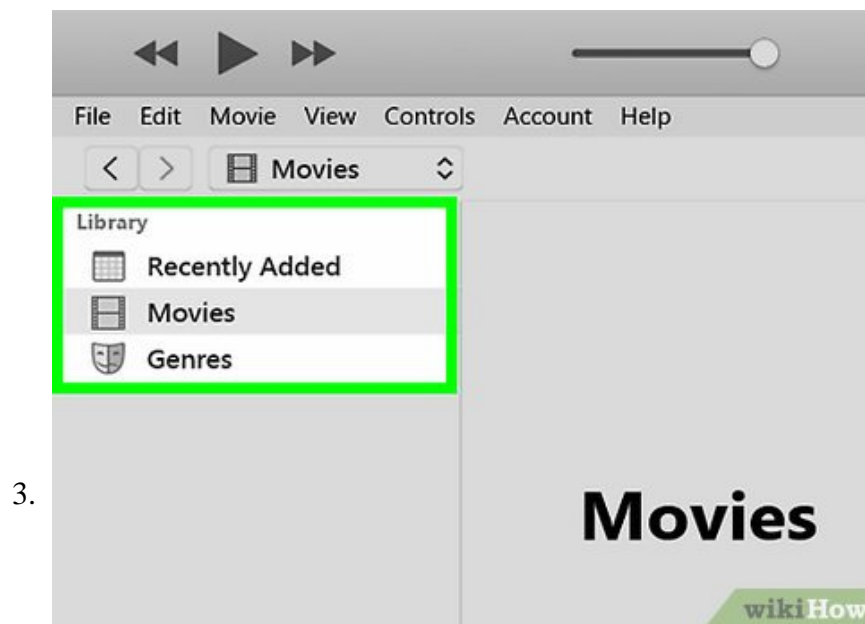

## Using a Computer

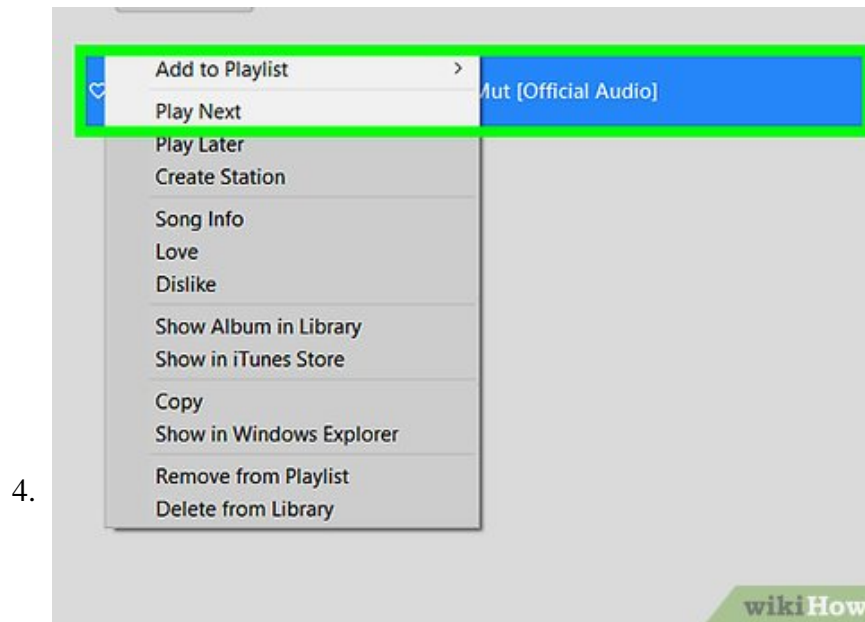

**Open iTunes on your computer.** If you're using Windows, you'll usually find it on the desktop or in the **All Apps** section of the Start menu. If you're using a Mac, look for the music note icon on the Dock or in the Launchpad.

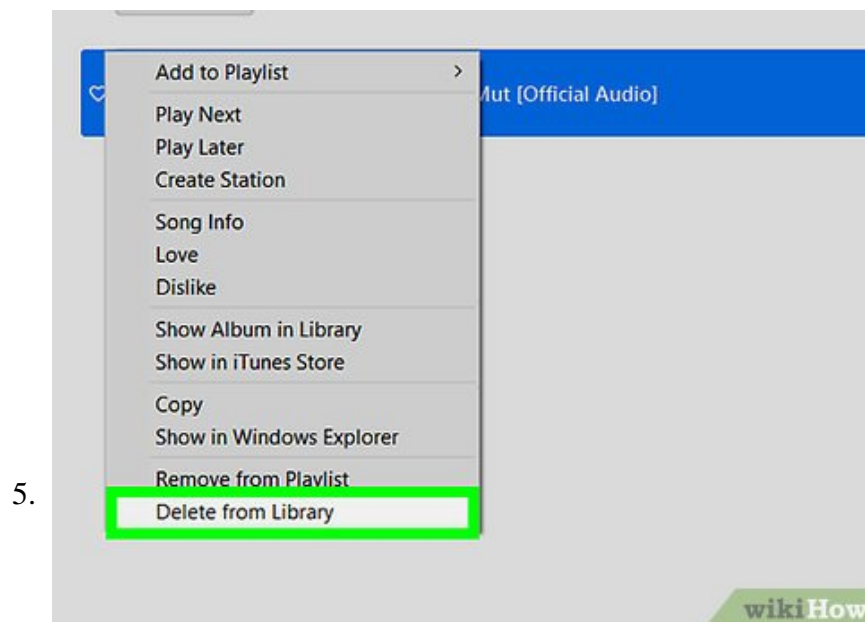

Select **Movies** from the drop-down menu. It's at the top-left corner of iTunes and is usually set to 'Music' by default. This opens your movie library.

Locate the movie you want to remove. You can filter the list using the links in the left column (e.g. **Recently Added**, **Home Movies**, **Downloaded**).

**Right-click the movie.** A context menu will appear.

**Click Delete from Library**. It's at the bottom of the menu. A confirmation message will appear.

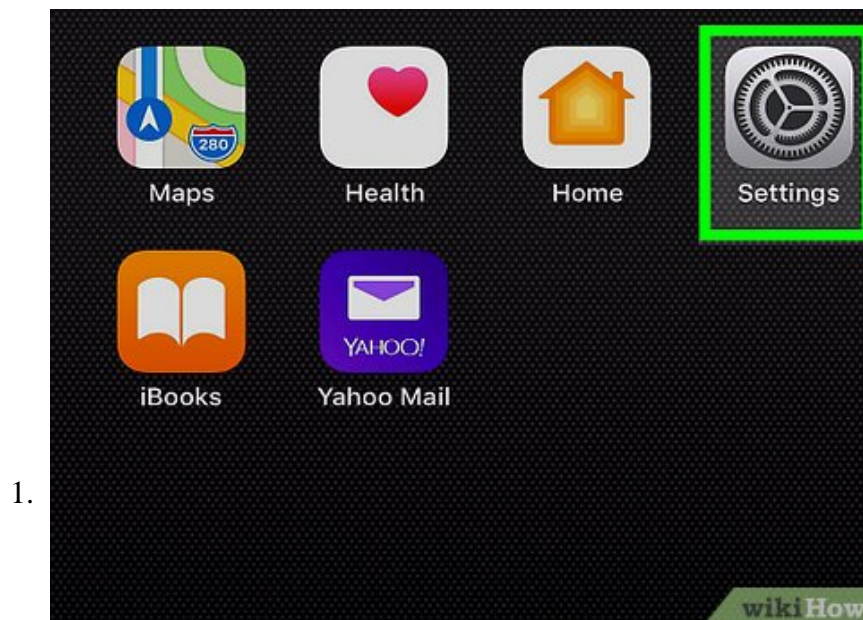

1. If it's a movie you downloaded, you can click **Remove download** to delete the movie from your computer instead.
2. If it's a 'home movie' (movies added to iTunes that weren't purchased from the iTunes store), you can select **Delete Video** to remove it from iTunes. This also removes it from other devices connected to this account.

Click **Hide Movie**. The movie is now removed from your iTunes library.

Method 2 of 2:

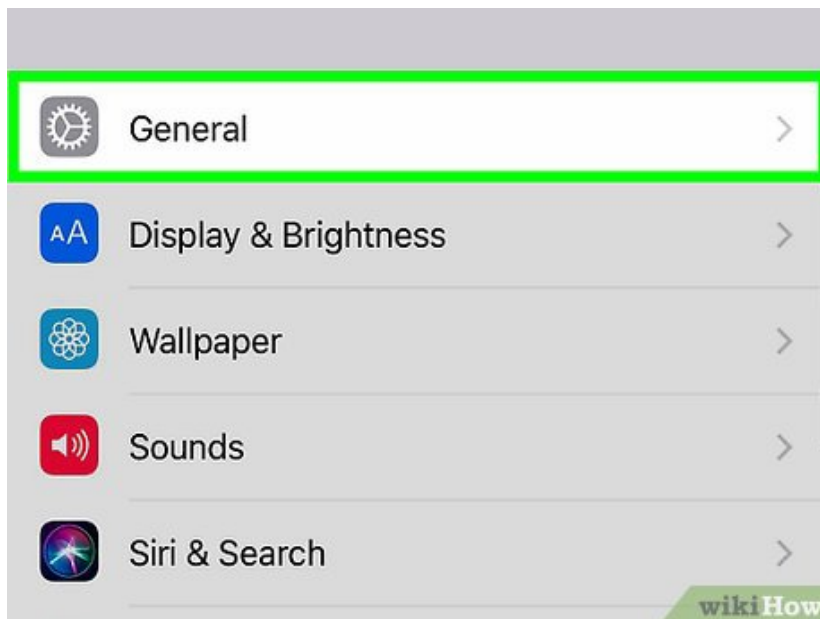

### Using an iPhone or iPad

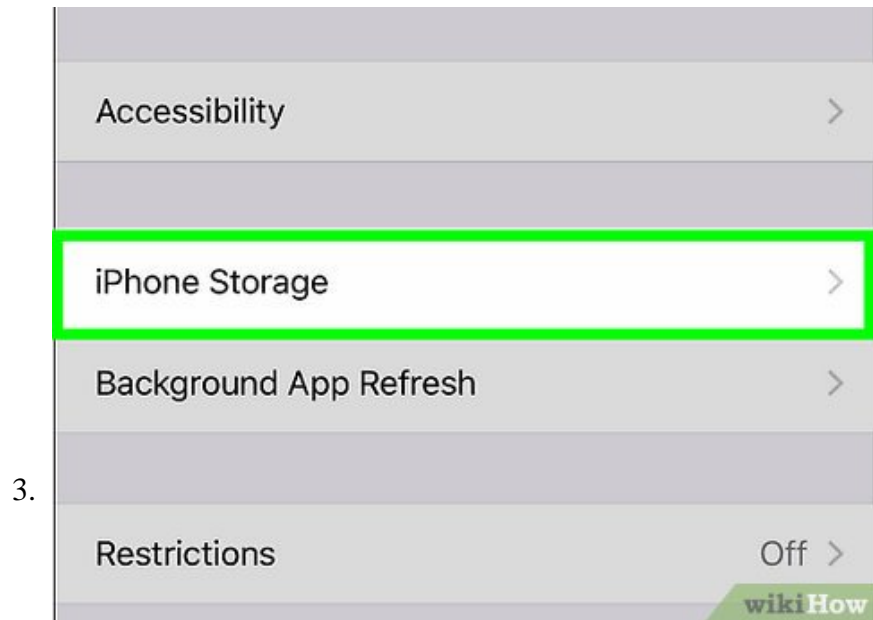

Open your iPhone or iPad's Settings

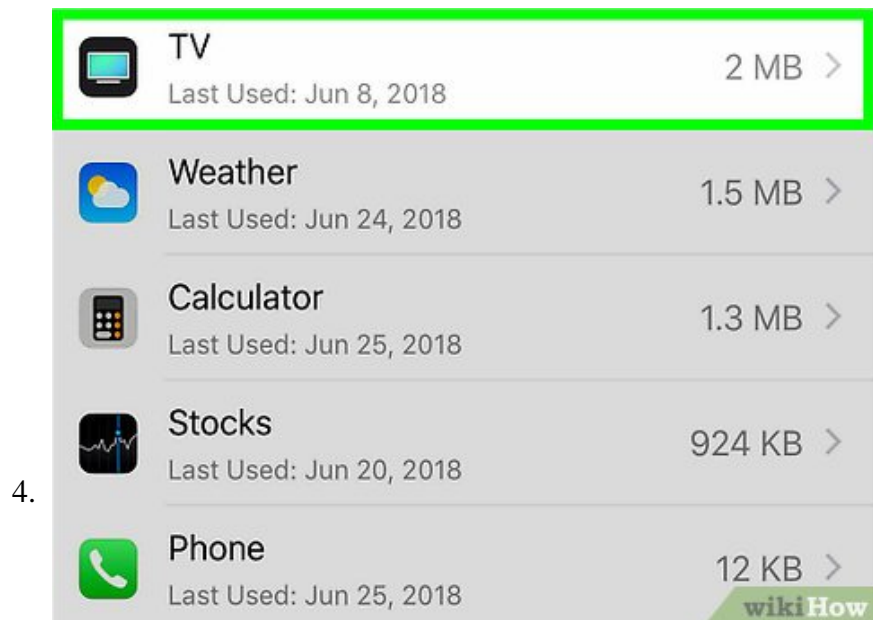

. You'll usually find it on the home screen. Use this method if you want to delete iTunes movies you've downloaded to your iPhone or iPad.

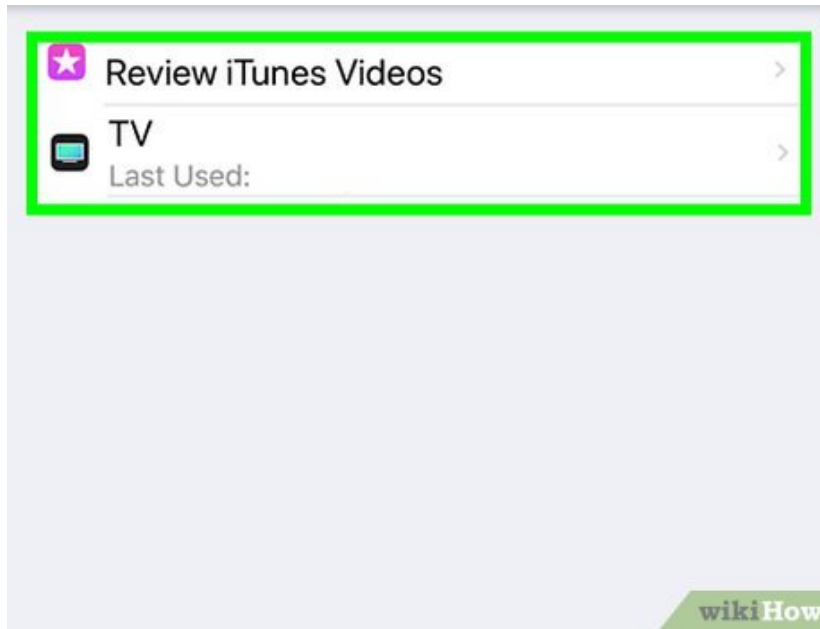

Tap **General**.

Tap **iPhone Storage**.

Scroll down and tap **TV** or **Videos**. The option you select depends on the type of video you want to delete.<sup>[1]</sup>

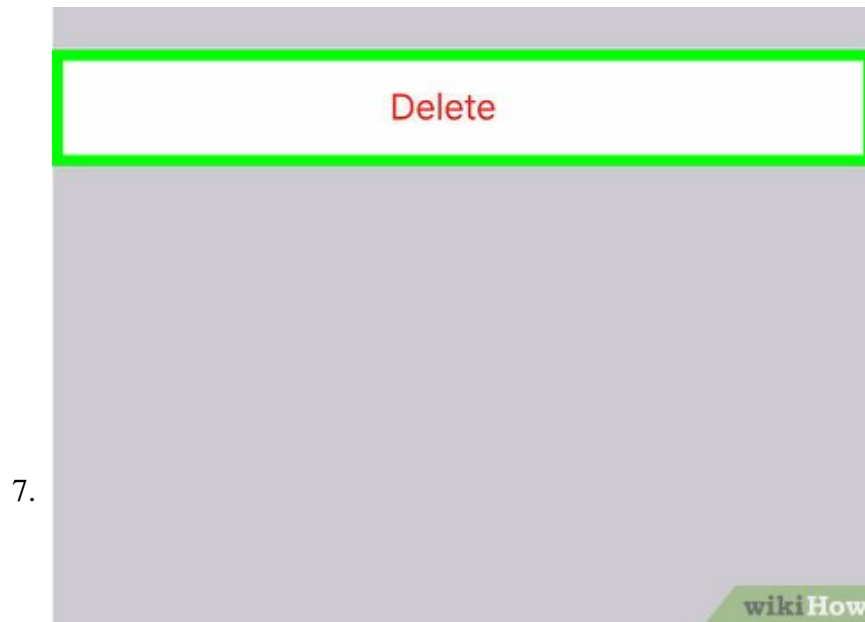

5.

**Tap** **Review iTunes Videos**. If you don't see this option, there are no downloaded movies to delete from this phone or tablet.

6.

**Swipe left on the movie, show, or episode you want to delete.** A red button will appear at its right edge.

Tap **Delete**. The selected video will be removed from your iPhone or iPad.
