

How to delete social network accounts

When we don't want to maintain our accounts on certain social networks, what do we need to do to delete them?

Network Administration - Today we have a lot of social networks and each user can have multiple accounts of these different social networks. However, when we don't want to maintain our accounts on certain social networks, what do we need to do to delete them? That's the content we want to introduce to you in this article.

Orkut

To delete Orkut data, users need to click on the *Settings* link located in the *General* tab, you will see a link saying that *Delete my Orkut Account* . Then click on that link.

hi5

Hi5 is one of the other social networks used quite popular before, but when most people switch to other social networks, you definitely want to switch. To delete your accounts on Hi5, you must click on the *Account* link and click the ' *Cancel my account* ' button.

Twitter

Twitter is probably a social network that users can see pretty much and users may be addicted to its features and services. If you are afraid of being blocked by this service for your offline life and want to remove it, then click the *Settings* link in the upper right corner of the screen and scroll down to the bottom of the *Account* tab. You

will then see the *Delete My Account link* . Click this link to delete your Twitter account.

Protect my tweets

Only let people whom you've checked, you WILL NOT be visible to people who previously may still be following you.

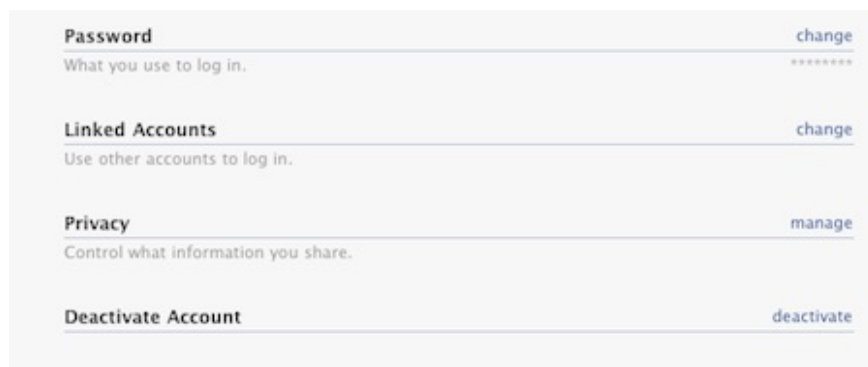

Save

[Delete my account.](#)

Facebook

When it comes to social networks, Facebook is probably the most used social network. However, deleting Facebook's profile is not easy because Facebook does not really provide users with a method to delete their account. All the users need to do here to delete their account is *deactivate* their account, meaning that the user's data will remain on Facebook but no one can interact with you on the site.

Click the *Settings* link in the upper right corner of the Facebook page and select *Deactivate* from the Settings tab

To actually delete an account from Facebook you need to contact their customer service team and ask them to delete your account.
