

How to Delete TotalAV on PC or Mac

This wikiHow teaches you how to uninstall and remove the TotalAV antivirus program from your computer. You can uninstall the program from your Control Panel on Windows, and just drag the app to your Trash on Mac. Open the Start menu on...

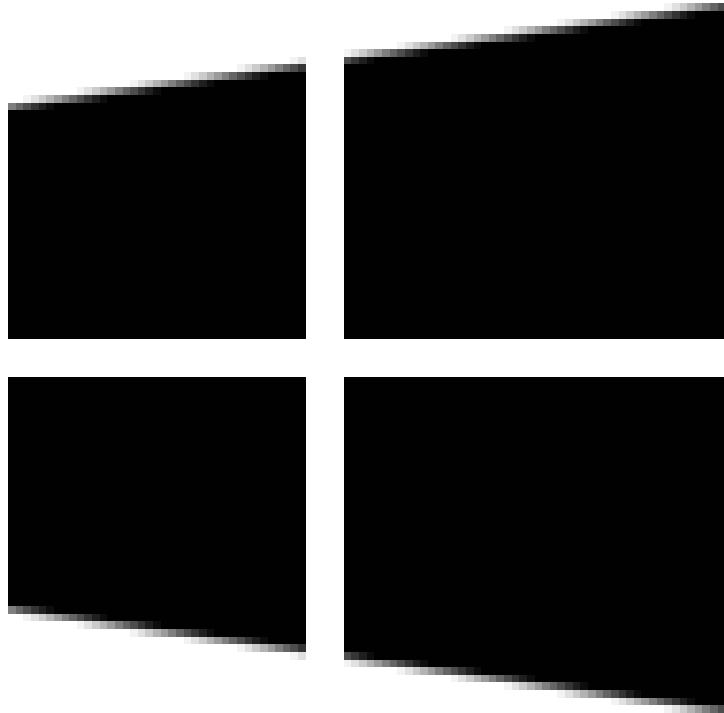

Method 1 of 2:

Using Windows

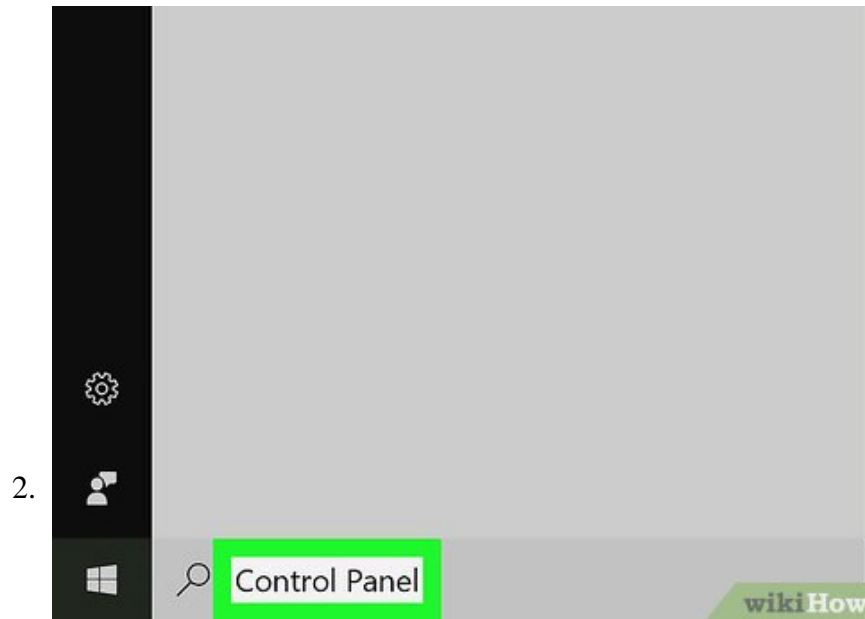

1.

Open the

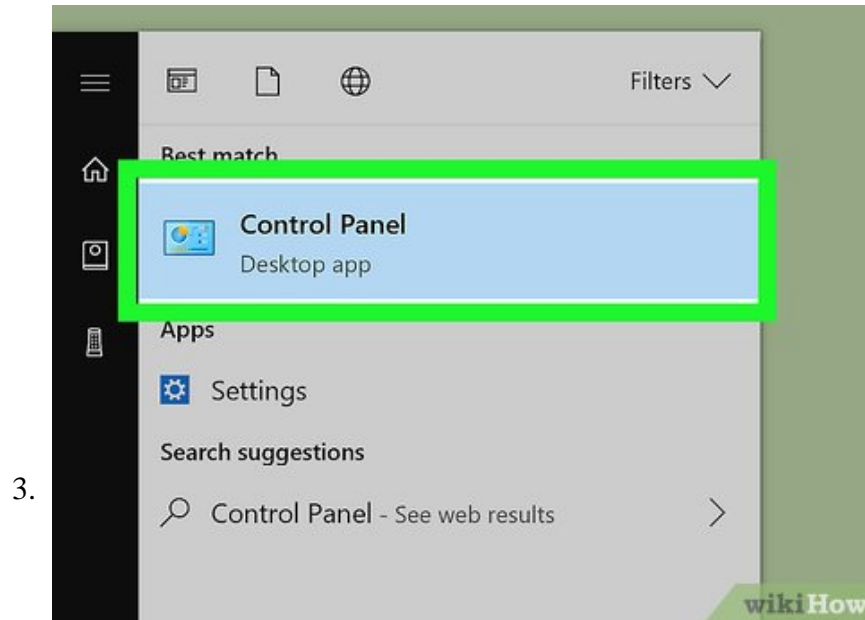

Start menu on your computer. Click the Windows icon on the bottom-left corner of your desktop to open the Start menu.

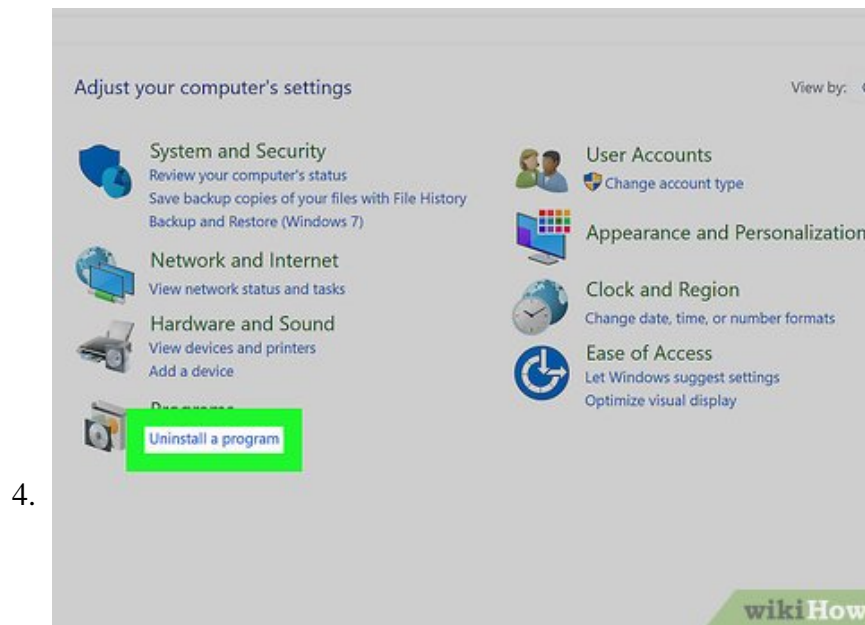

Type Control Panel on your keyboard. This will search the Start menu, and bring up the matching results.

1. On earlier versions of Windows, click the **Search** option, and then make your search here.

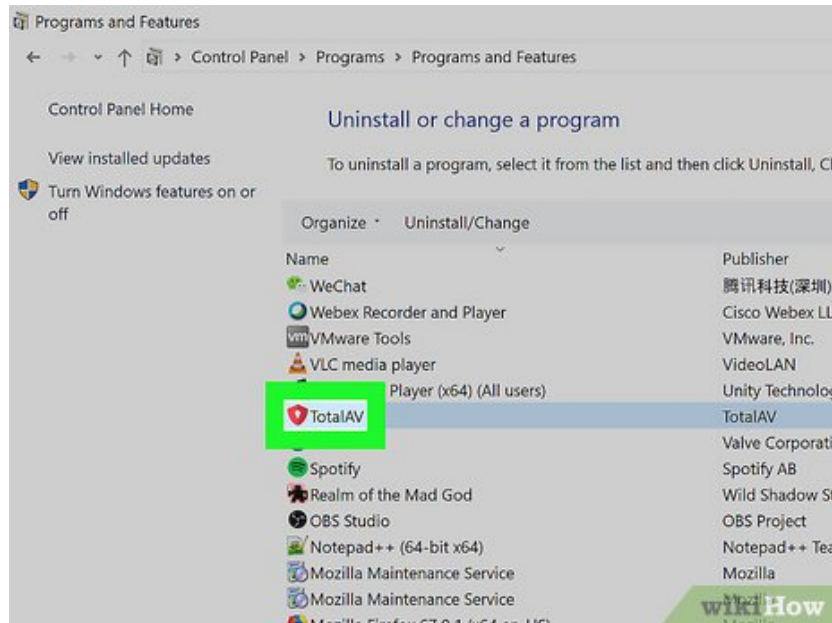

Click **Control Panel** in the results. This will open your computer's Control Panel in a new window.

Click the **Uninstall a program** option. This is a blue link under the "Programs" or "Programs and Features" heading. It will open a list of all the programs on your computer.

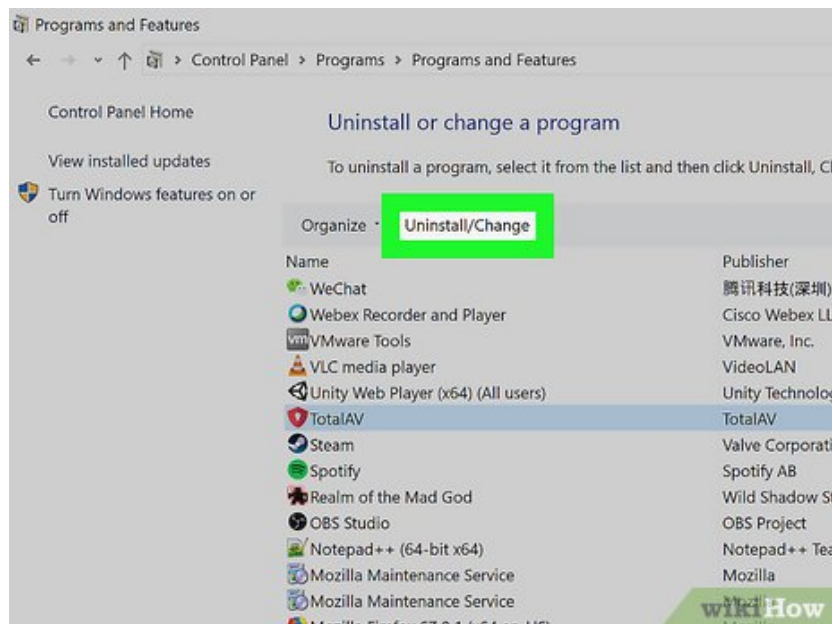

1. On different versions, you may need to click **Add/Remove Programs** or **Programs and Features**.

5.

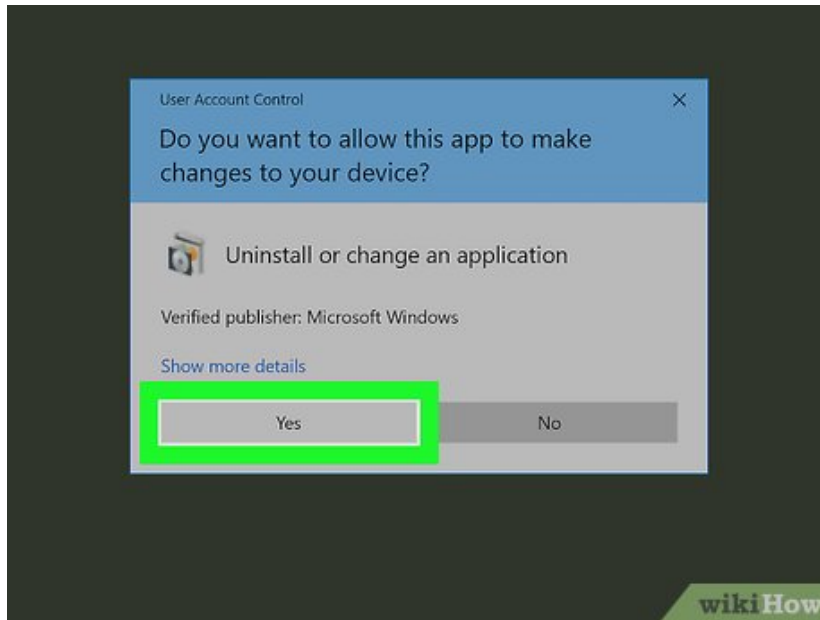

Select **TotalAV** on the list. The TotalAV icon looks like a white keyhole on a red shield. Click the app name or icon on the list to select it.

6.

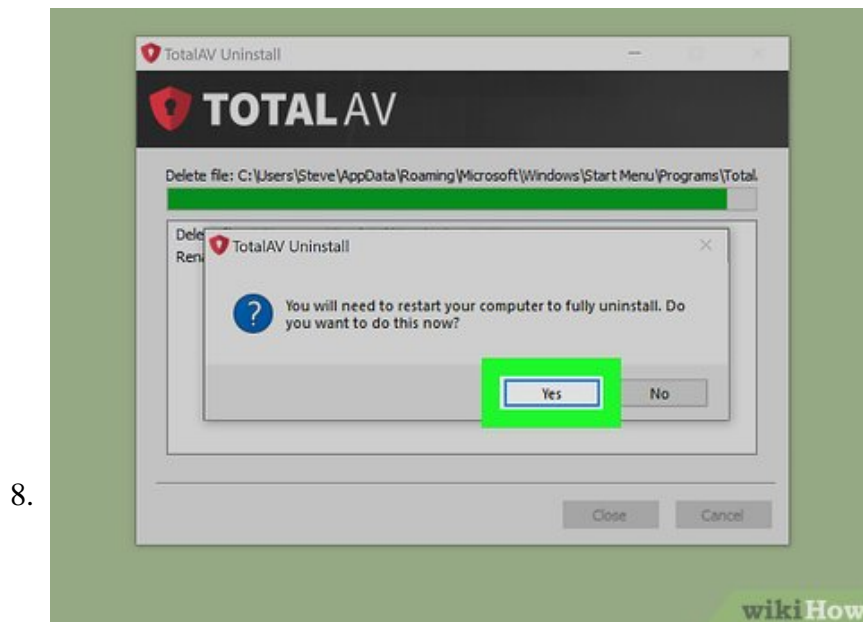

Click the **Uninstall** or **Uninstall/Change** button at the top. You can find this button on the toolbar at the top of the program list.

1. This will prompt you to uninstall TotalAV and all of its components.

Click **Yes** in the uninstall confirmation. When you're prompted, click this button to proceed with the uninstallation.

1. You can track the uninstall progress on a green progress bar here.
2. You'll be prompted to restart your computer when the uninstall is finished.

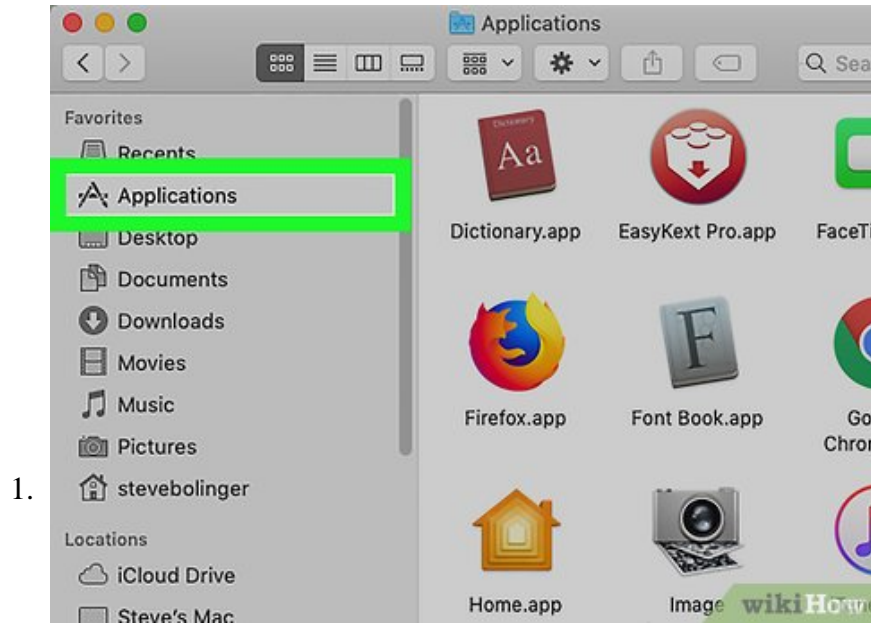

Click **Yes** to restart your computer. When you're prompted, click this button, and restart your computer to fully uninstall the TotalAV app and all of its contents from your computer.

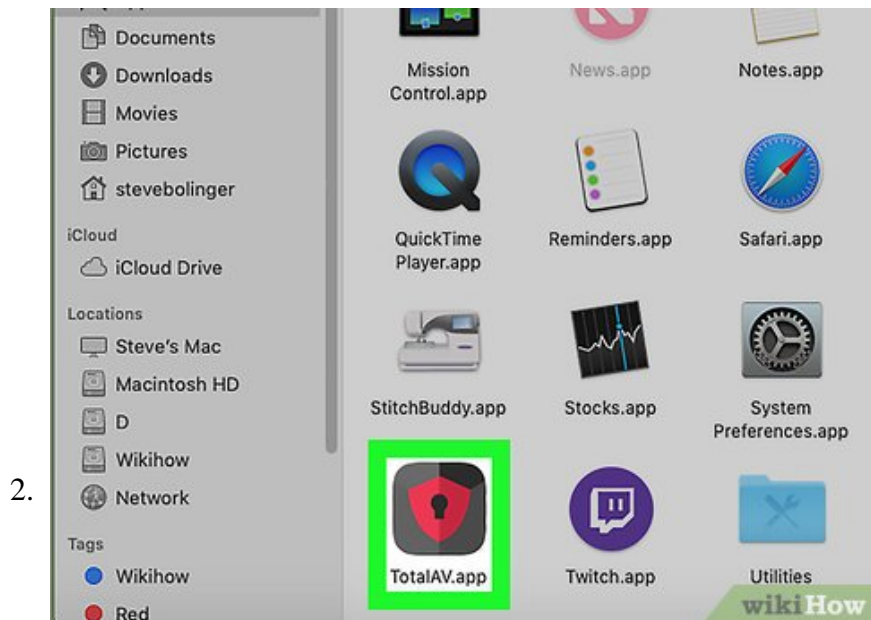

1. Alternatively, you can click **No** here, and manually restart the computer whenever you're ready.

Method 2 of 2:

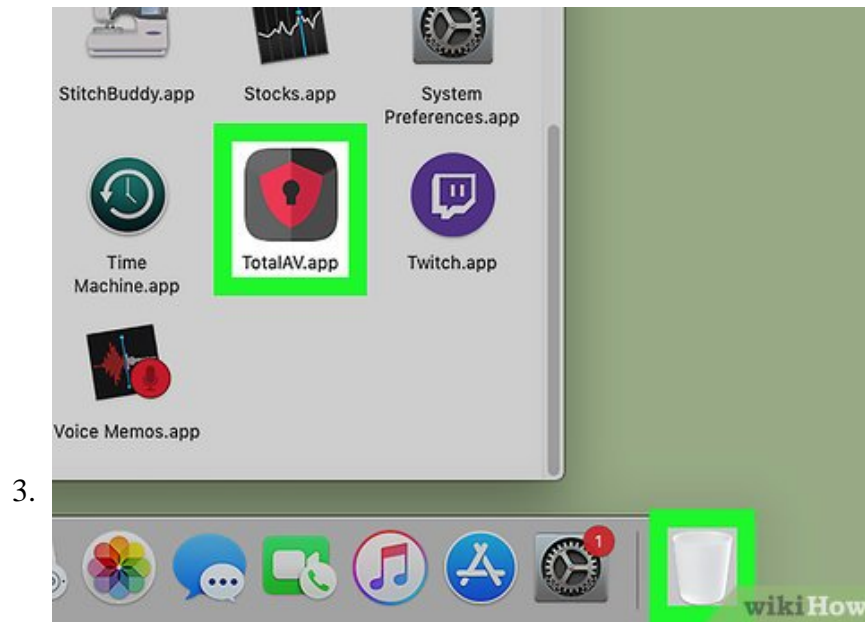

Using Mac

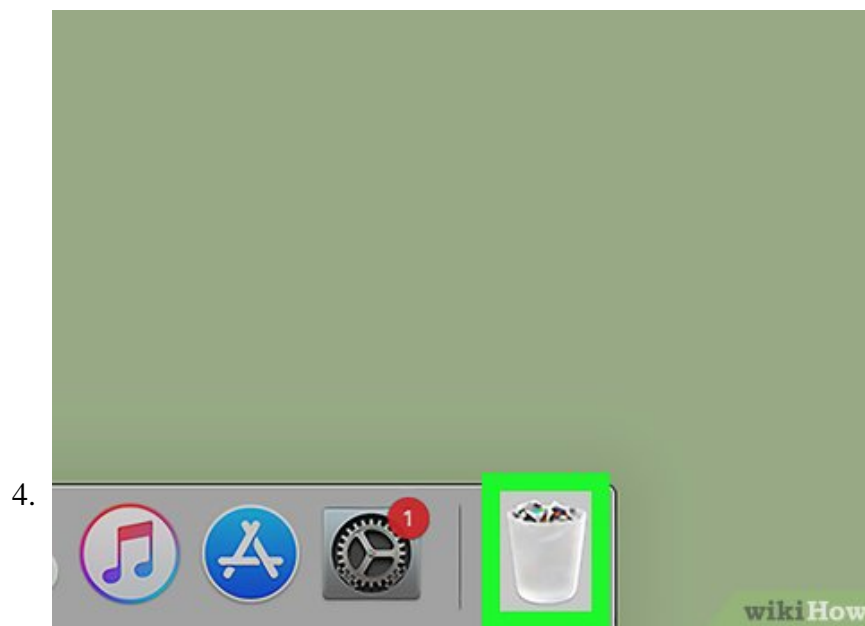

Open your Mac's Applications folder. You can click the blue folder with the "A" icon on the Dock, or click **Applications** on the left sidebar in any Finder window.

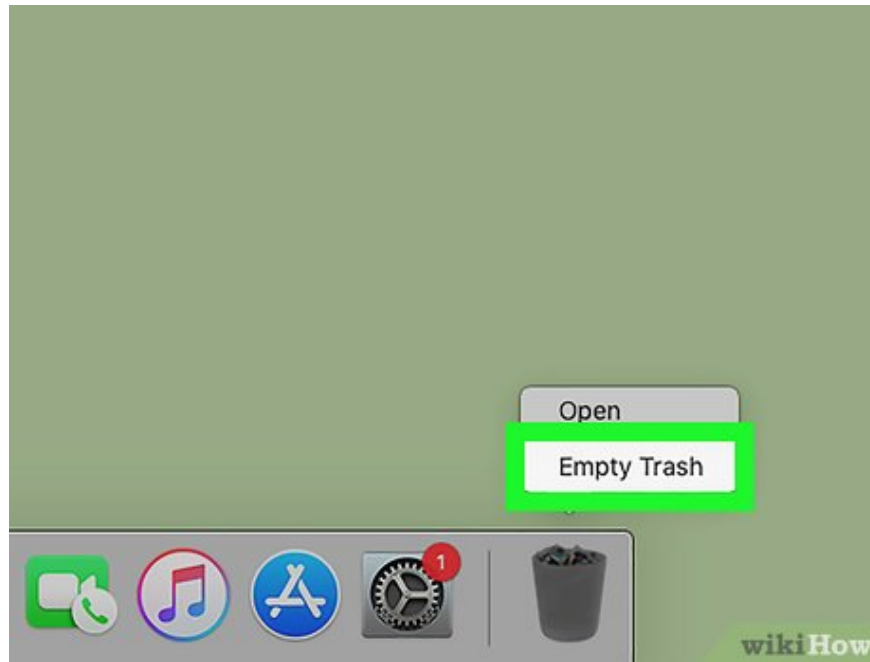

Find the TotalAV app in your Applications folder. The TotalAV app looks like a white keyhole on a red shield icon.

Drag and drop the TotalAV app from Applications to Trash. Your Trash looks like a trash bin icon on the right-hand side of the Dock. You can simply drag and drop the TotalAV app icon here to delete it.

- Right-click the Trash icon.** Find and right-click the trash bin on the Dock to see your options.
5. Click . This will permanently uninstall and remove the TotalAV app from your Mac.
