Instructions for deleting vertical lines on Word

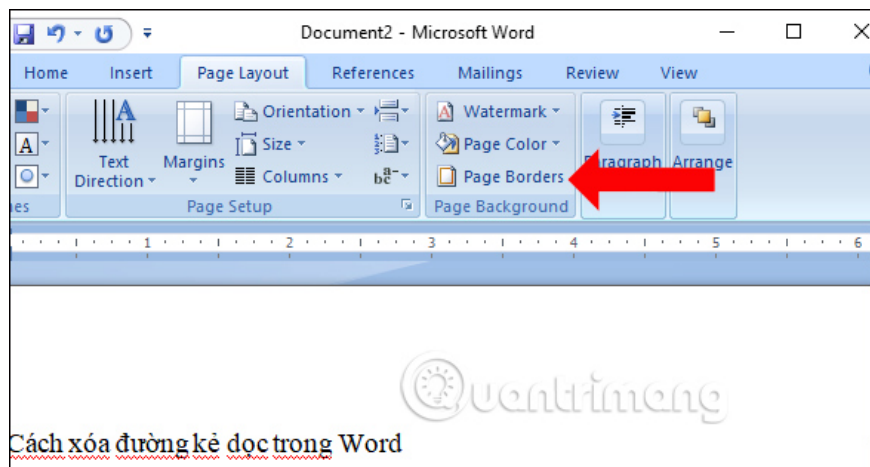

Vertical lines on Word will appear as shown below. In the image the vertical line appears both on the right and left side of the page.

Step 1:

On Word 2007 or below, click on the **Page Layout** tab and then select the **Page Background** entry. Click **Page Borders** here .

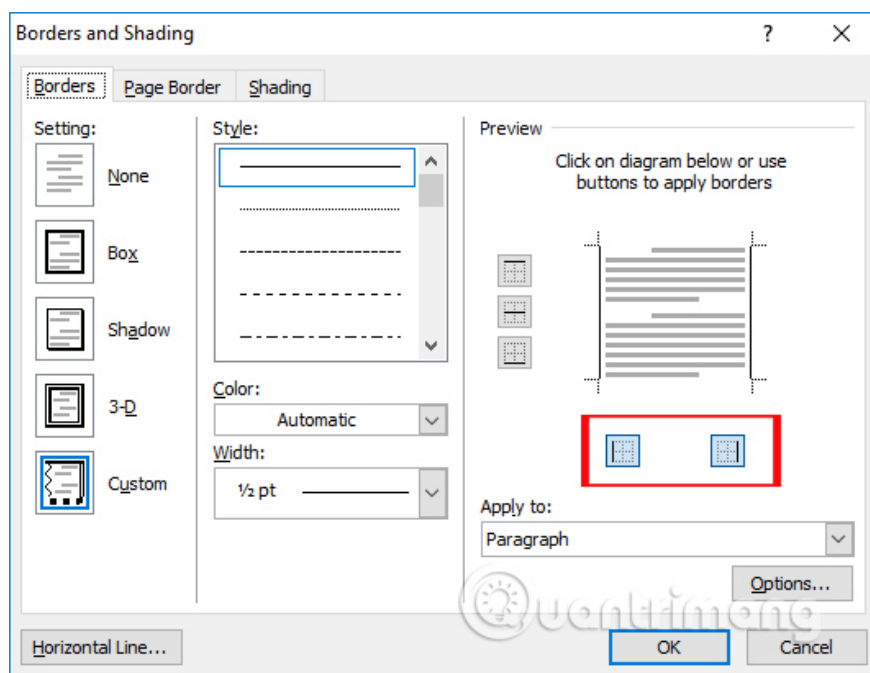

In some versions of Word, users click on the Design tab and then go to Page Borders.

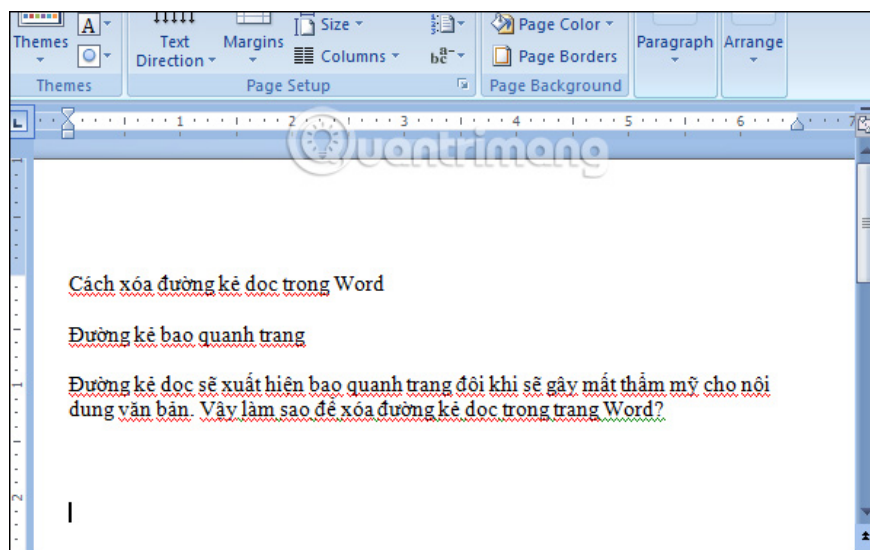

Step 2:

Appears the Borders and Shading panel interface, click on **Borders** . Then look to the right of **the page** , **turn off the page along** the left, or the right side of the page or both depending on where the current vertical appears on the Word page.

You can look at the Preview section to see the vertical position as well as your vertical erase. Click **OK** to save the changes.

Immediately the vertical line will disappear as shown below.

With just a few simple steps we can delete the vertical line on Word when removing the border around the page. In case you want to create a border for the page with many other options, you can refer to how to create a border around Word text.
