1. Some online photo resize services
2. How to use Photopea to edit photos online
3. This tool will help you edit photos online, completely free
4. How to use ILoveIMG to edit photos online

Instructions for creating photos on Screenzy online

Step 1:

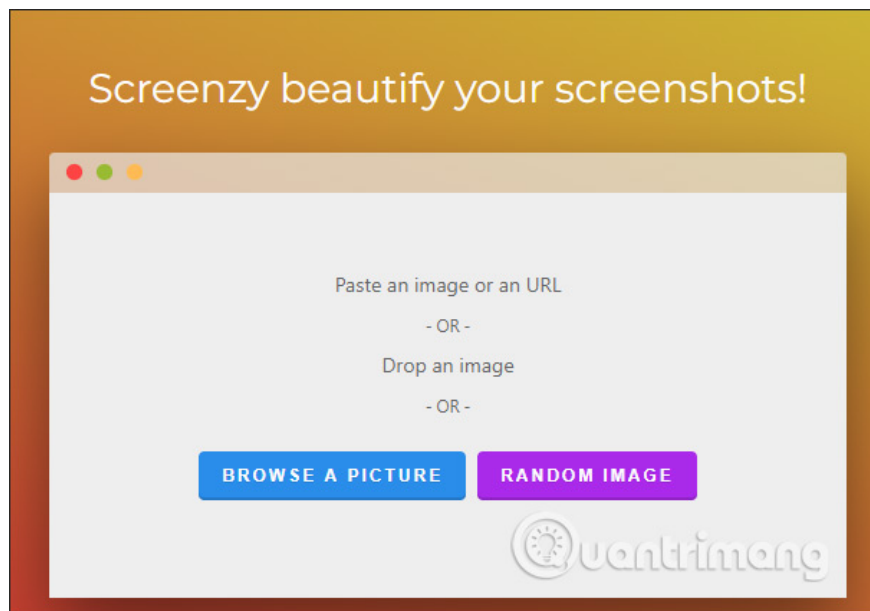

We access the Screenzy homepage according to the link below. Screenzy's interface on the right is a correction tool, on the left is a picture display.

<https://screenzy.io/>

Step 2:

We **select the image** available in the computer by clicking the option Browse a picture. If you want to use random images from the Unsplash source, click on Random Image.

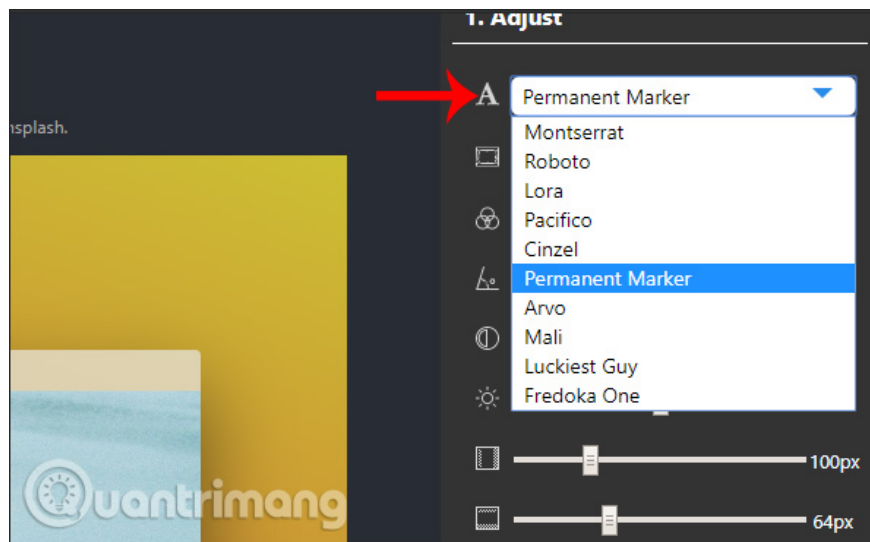

Step 3:

When downloading the image you look to the right of part 1 to proceed with image editing. First, **change the subject line in Screenzy beautify your screenshots!** to enter new content.

Next **change the font in line A** with a variety of font styles.

Step 4:

At the frame icon we **select the frame type** inside the image.

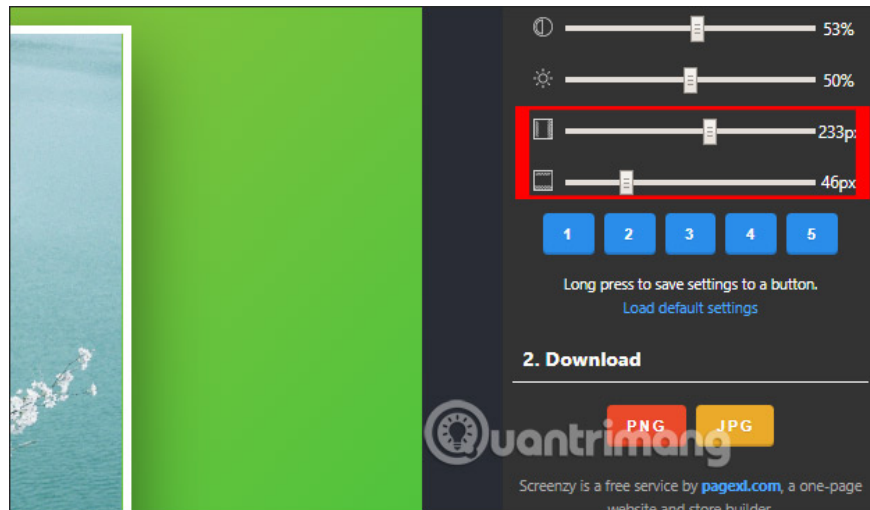

Step 5:

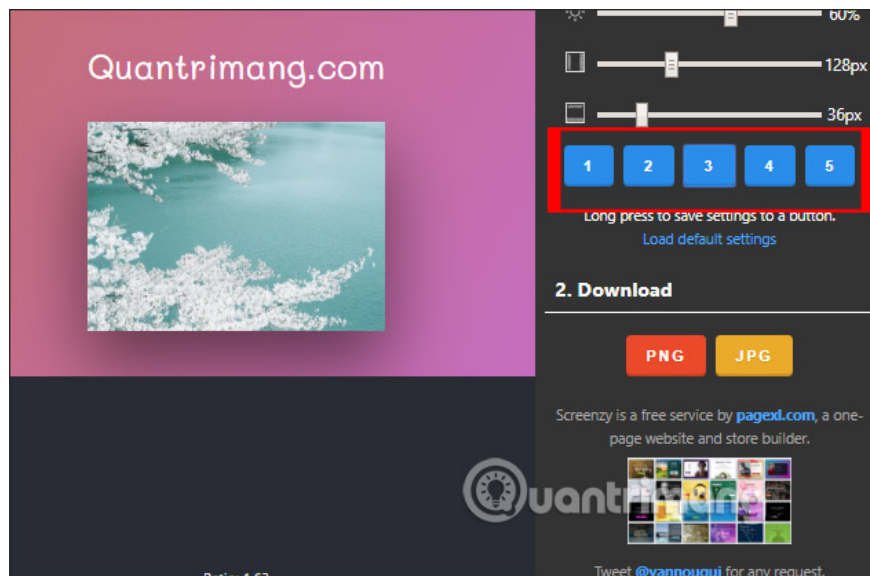

Then the user proceeds to **adjust** the background **color** , adjust the color contrast, adjust the brightness.

Finally we **adjust** the vertical and horizontal **dimensions** of the image, depending on the purpose of using your image.

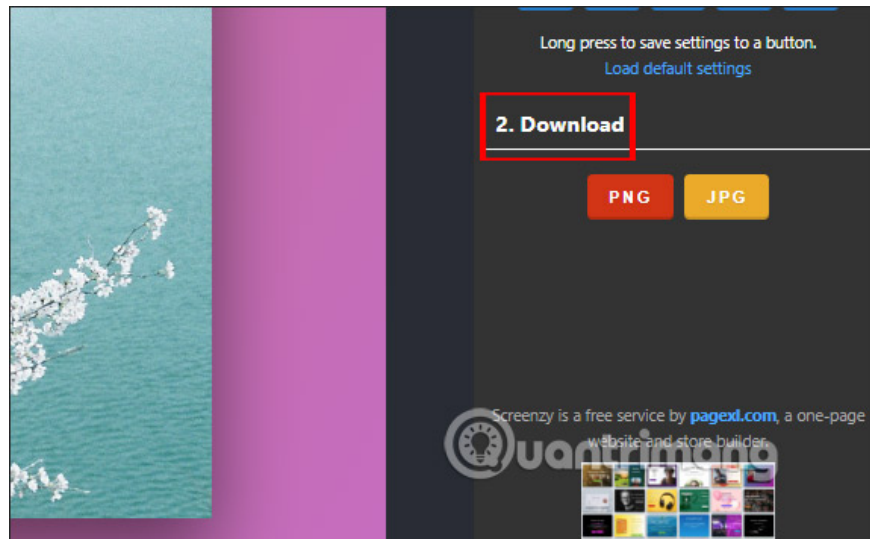

In addition to manual adjustment, Screenzy provides us with **5 automatic image design modes**. Each one has a different design part. To save the design, click and hold the number of the design. To return to the original adjustment state, click Load default setting.

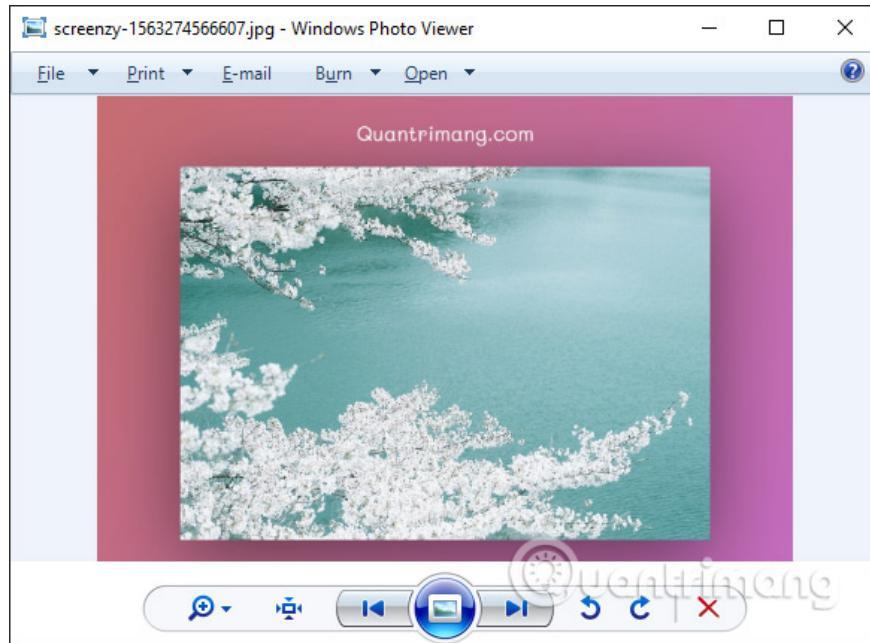

Step 6:

To save the image, we **choose JPG or PNG format** to download the image.

Screenzy image editing results as below. We can use it as a computer wallpaper, cover photo, or greeting card photo.

Screenzy does not require you to register an account, but can be used to edit images. Screenzy images do not include logos, watermark, so we can freely use images for any purpose.

I wish you all success!
