Instructions to spin with others on Tik Tok

Because of the similarity between Duet Tik Tok on Android phones and iPhones, network administrators will use Android devices to work with Duet Tik Tok.

Step 1 :

To quickly experience the Duet feature, you must download or update the Tik Tok app for Android and iPhone to the latest version according to this link.

1. [Tik Tok for iOS](#)
2. [Tik Tok for Android](#)

Step 2:

After downloading and updating this application, start Tik Tok to access the main interface. Here, you can surf up or down to view and select the clip you want to Duet.

For example, users now love to spin with others on Tik Tok with the extremely lively and lovely 'Tchu Tcha Tcha' dance. Here, we will choose this girl's video to join Duet with the hottest dance today. Click on **the Share icon** in the right hand corner of the phone screen.

Step 3:

Immediately, a form will appear with the sharing features that you will use on the Tik Tok app. Leave Duet on Tik Tok, now we will select Duet (or Duet).

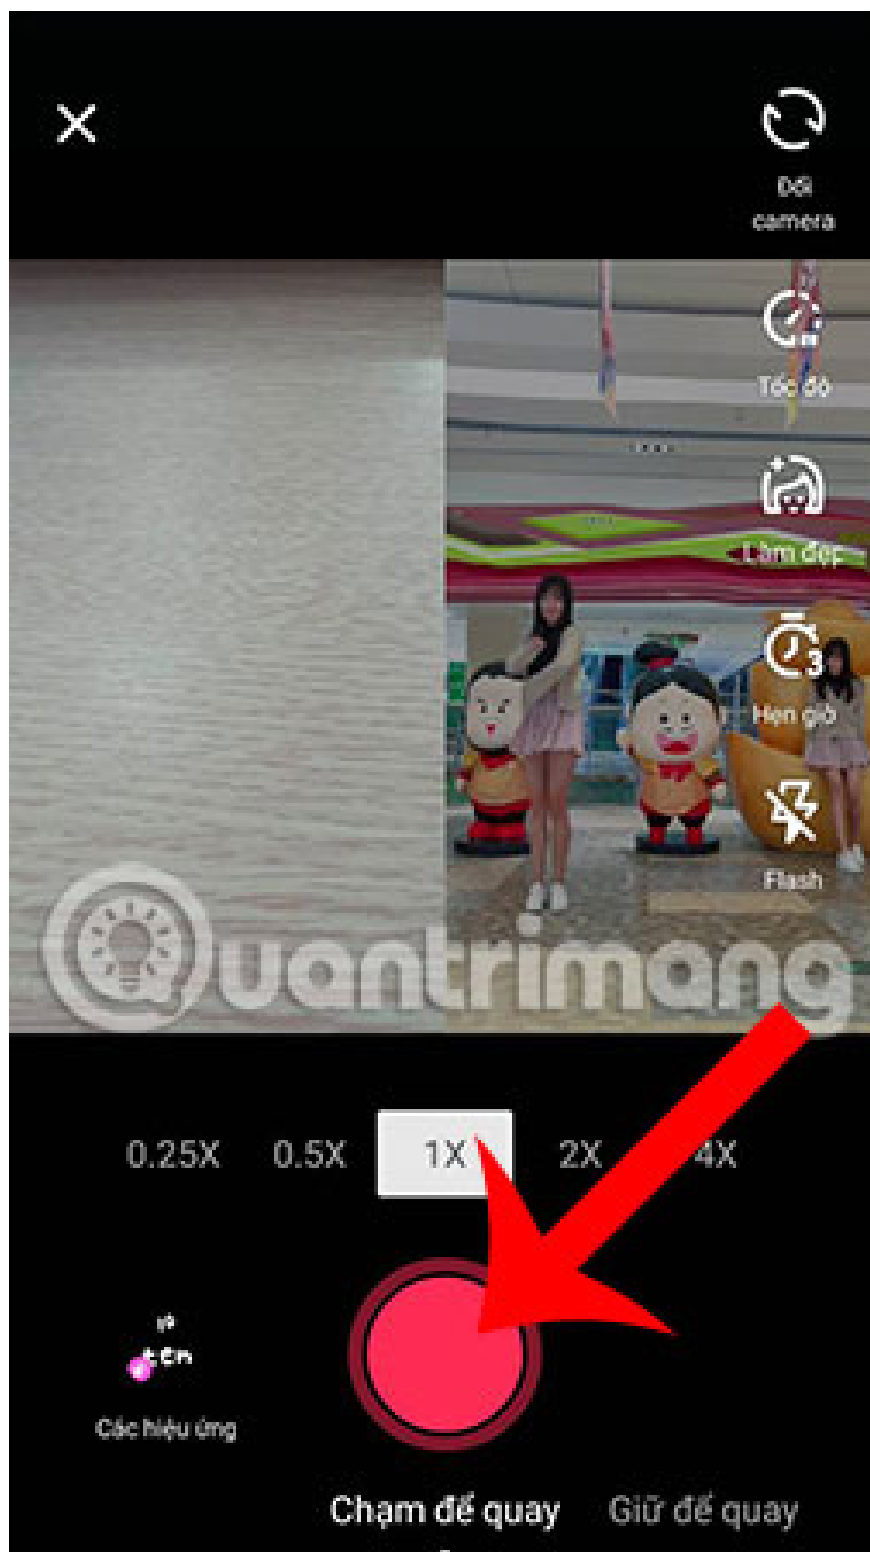

Step 4:

The system will notify you of the process of downloading this Tik Tok video in progress, the process is fast or slow depending on the network speed you are using.

Step 5:

Once the video download is complete, we will be taken to the video recording screen of Tik Tok with others as shown below. As you can see the screen is now split in half, the right is the video of the person you want to Duet, and the left is for you. Now click on **the Quay icon** and perform with the person you want to Duet.

Step 6:

After you have finished and satisfied with the clip you just created, select **Next** and **select Post** to share this video to your friends, as well as the community using video social network Tik Tok. Successful video sharing will display Hashtag #duet with + username Tik Tok that you Duet.
