

How to disable the screenshot toolbar on Samsung Galaxy S20

When you start taking a screenshot on a Samsung Galaxy S20, you'll see a toolbar with three icons, each with a different function. If you find it annoying or unnecessary, you can make it disappear completely.

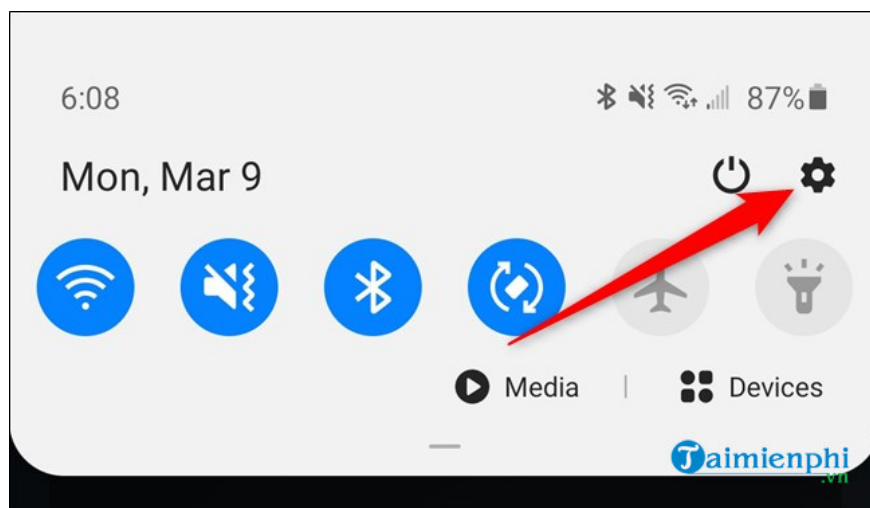

The Samsung Galaxy S20, S20+ , and S20 Ultra all display a toolbar at the bottom of the screen immediately after you take a screenshot . This toolbar allows you to quickly edit, share, and capture scrolling screenshots.

How to disable the screenshot toolbar on Samsung S20

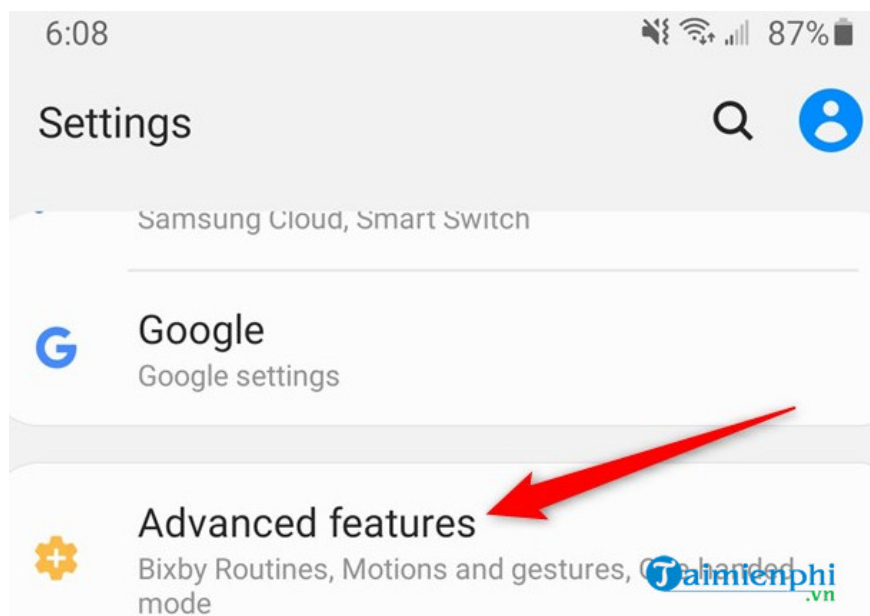

It will disappear after a few seconds, but if you find its appearance bothersome, you can easily disable this feature by following these steps:

Step 1 : Open the **Settings** app on your phone. The quickest way to access the settings menu is to swipe down from the top of the screen to open Notifications and tap **the gear icon** next to the power button.

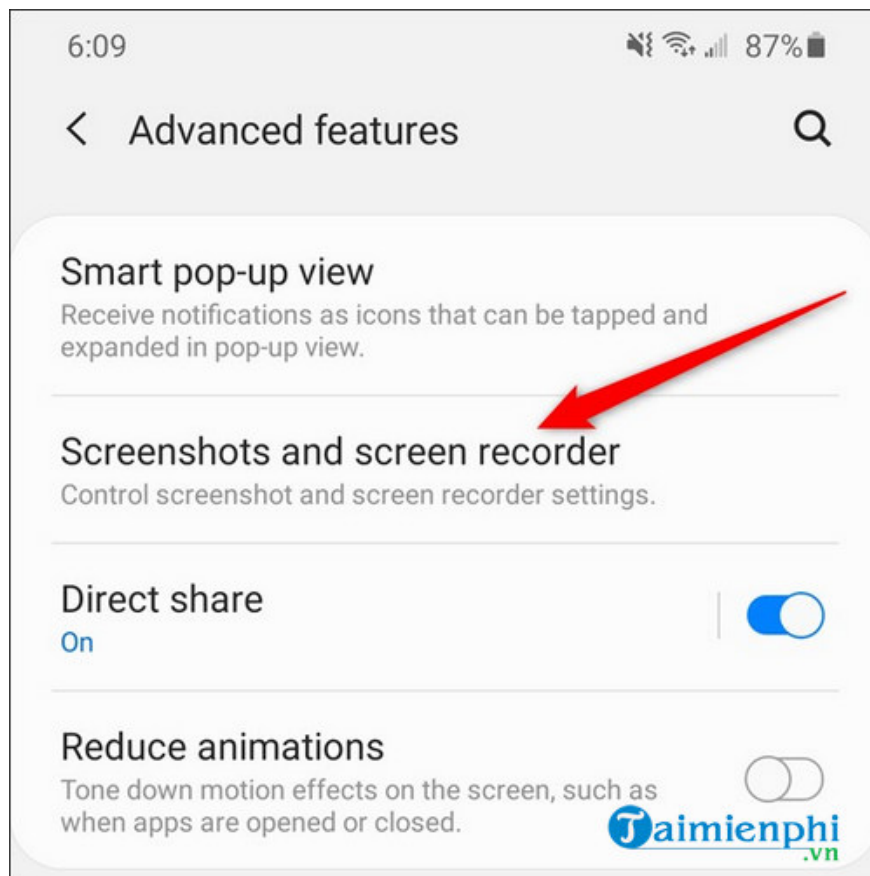

Step 2: Alternatively, you can swipe up from the bottom of the home screen to open the Galaxy S20's App Drawer. There, use the search bar or switch between pages to find the Settings app.

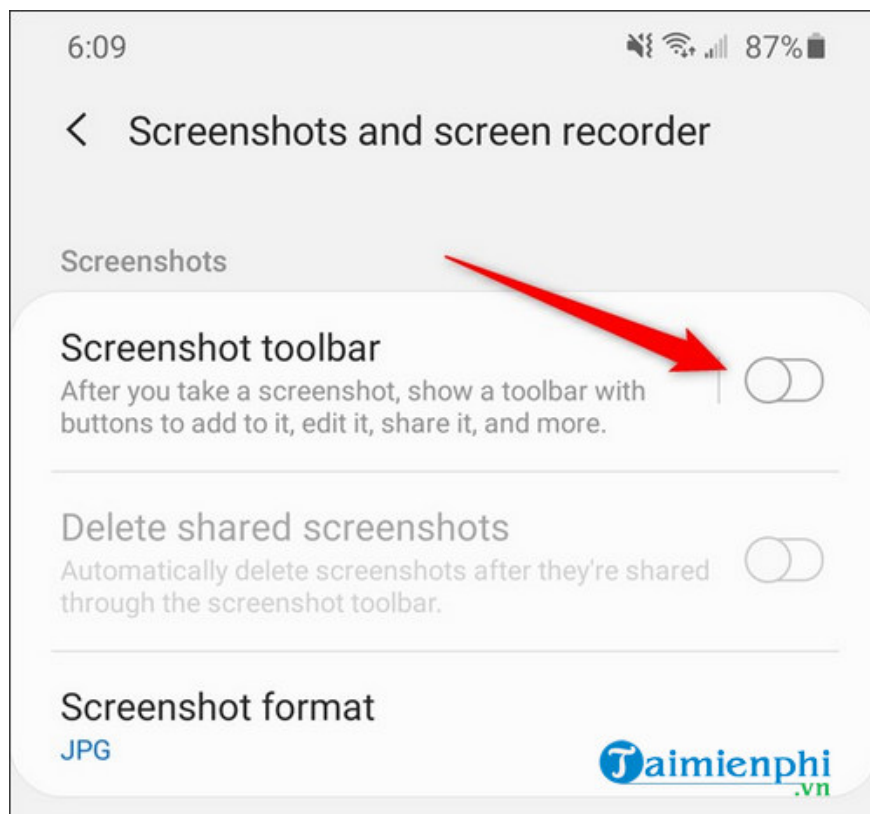

In **Settings** , scroll down and click on the **Advanced Features** option.

Step 3 : In **Advanced Features** , find **the Screenshots And Screen Recorder** menu and tap on it.

Step 4 : Finally, tap the button next to **the Screenshot Toolbar** option to turn off the screenshot toolbar on your Samsung Galaxy S20. This button will then change from green to gray.

While in the Screenshots menu, you can also change the image format. By default, screenshots are saved as JPG. You can change the format by tapping **Screenshot Format** and selecting PNG from the pop-up menu.
