Steps to help you do makeup quickly

first

Apply moisturizer to the eye area and then moisturizer to the face and neck. While waiting for the cream to absorb, you can apply lip balm and change clothes quickly.

2

Apply Make-up Base primer, which has the effect of keeping makeup beautiful for a long time, limiting the harmful effects of powder, some types help correct skin tone. If this feature is also included in your day cream, you will save a step in makeup.

3

You should use cake foundation - Compact, Two way cake or Twin cake,. Its advantage is that the foundation is fast but still smooth and natural and you don't need to use powder anymore. Using liquid foundation in a hurry will make your face uneven, unnatural, while this is a very important step.

4

You may need to apply powder if you are using a thick or liquid foundation.

5

At the eyeshadow step, you should not choose a sophisticated makeup style with 3-4 colors for different areas. Only use 2 powder colors of the same tone, darker colors for the area close to the eyelids and near the corners of the eyes. Depending on your eye characteristics and makeup habits, you can only use pastels and skip Mascara or vice versa.

6

Apply lipstick, if you use lipstick directly on your lips, it only takes a few seconds. If you are only used to using a brush, you should give it a little more time to prevent your lips from getting smudged. With red lips, just a little bit of lip gloss may be needed.

Note when applying makeup in a hurry, you should choose eye colors and lipsticks that are easy to use, not too prominent because if you are not careful, you can damage them.
