

# How to download the original Windows 10 ISO file from Microsoft

Essentially, Microsoft won't allow you to easily download the original Windows 10 ISO file from Microsoft without authorization. However, there are ways to download the original Windows 10 ISO file from Microsoft without too much hassle.

This isn't the first time TipsMake has mentioned downloading **the original Windows 10 ISO file from Microsoft** . TipsMake has already provided many guides to help readers easily download Windows 10 , 8, or 7 ISO files, and the following two methods will show you just how simple it is. Apply the methods below to download the original Windows 10 ISO file from Microsoft to get the newest and most accurate ISO files from Microsoft.

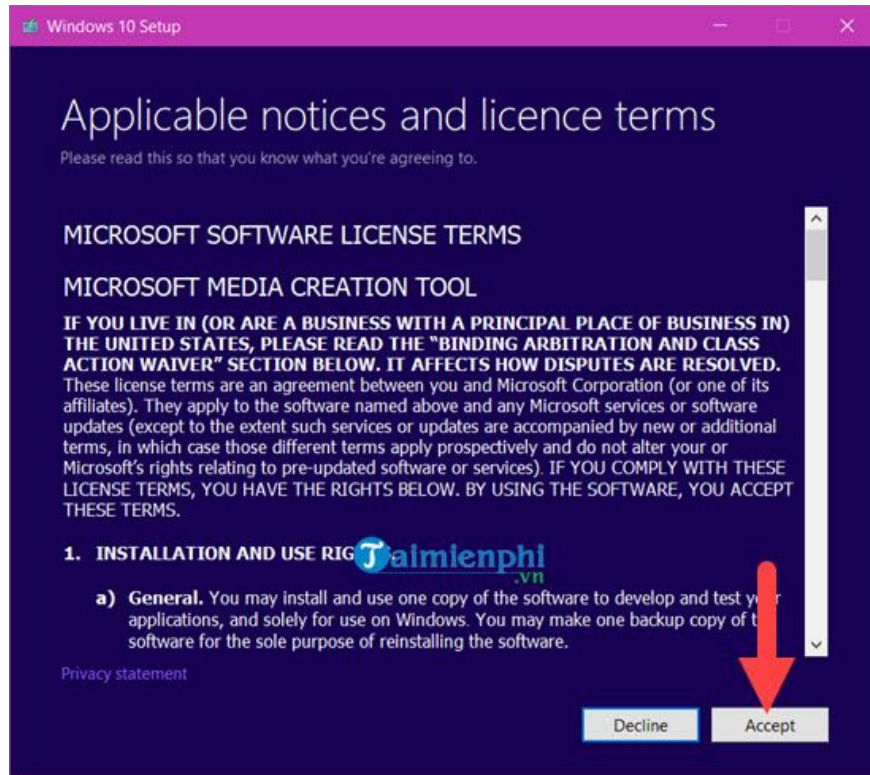

## *1. Download the ISO file using Media Creation Tool.*

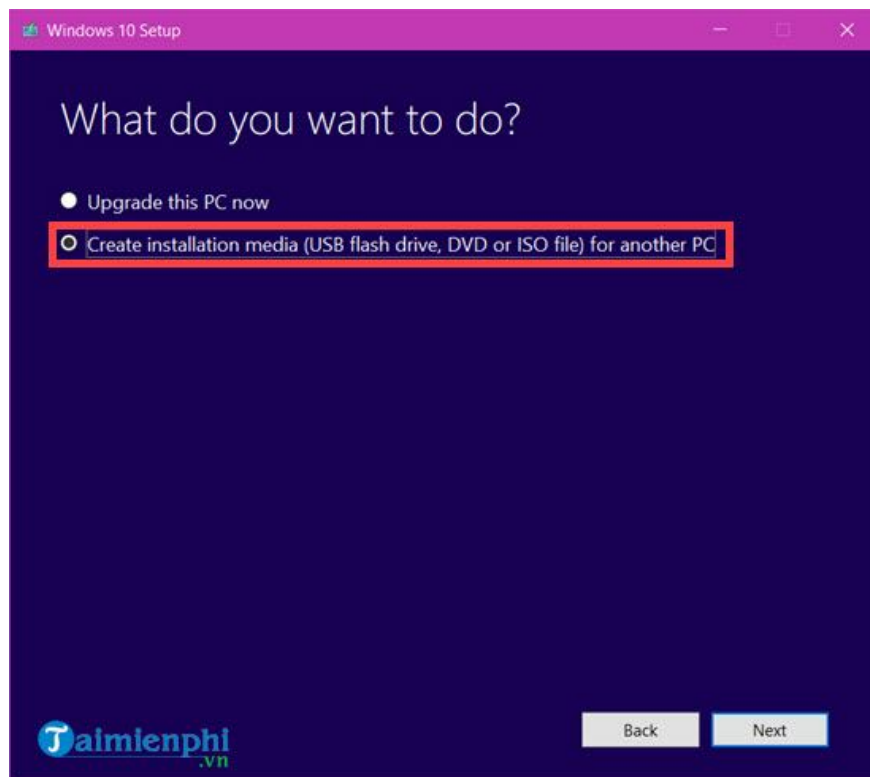

Media Creation Tool can be considered a tool that helps you download the original Windows 10 ISO file from Microsoft, as it was created by Microsoft itself. However, Media Creation Tool still has a weakness: it only prioritizes the latest versions from Microsoft.

Download Media Creation Tool for your computer here.

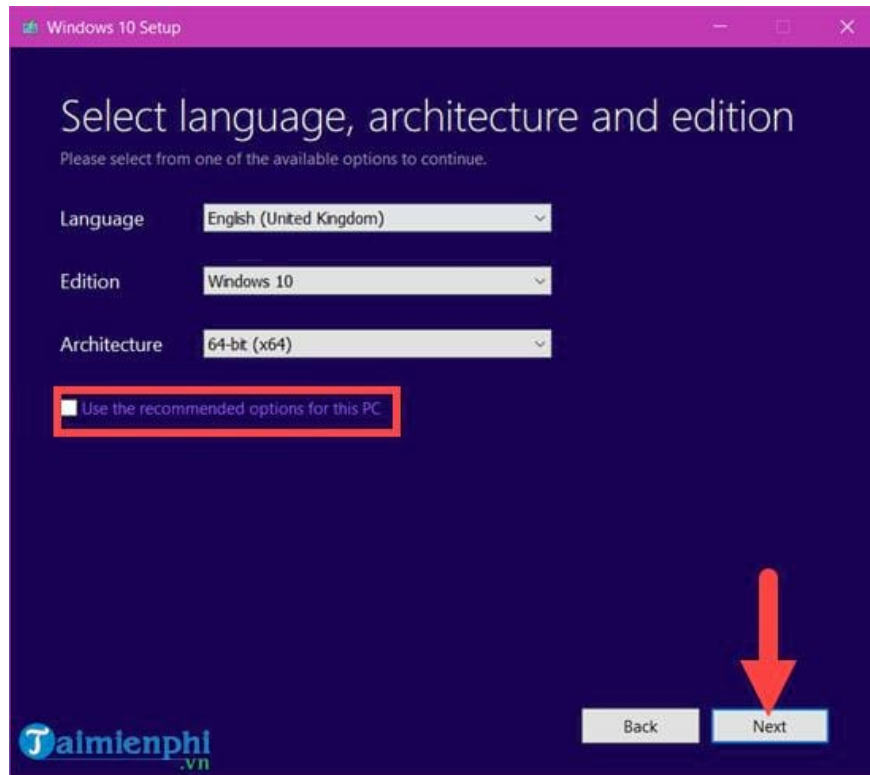

*Step 1:* After downloading the Media Creation Tool, open it and wait a moment until the image below appears, then click **Accept** .

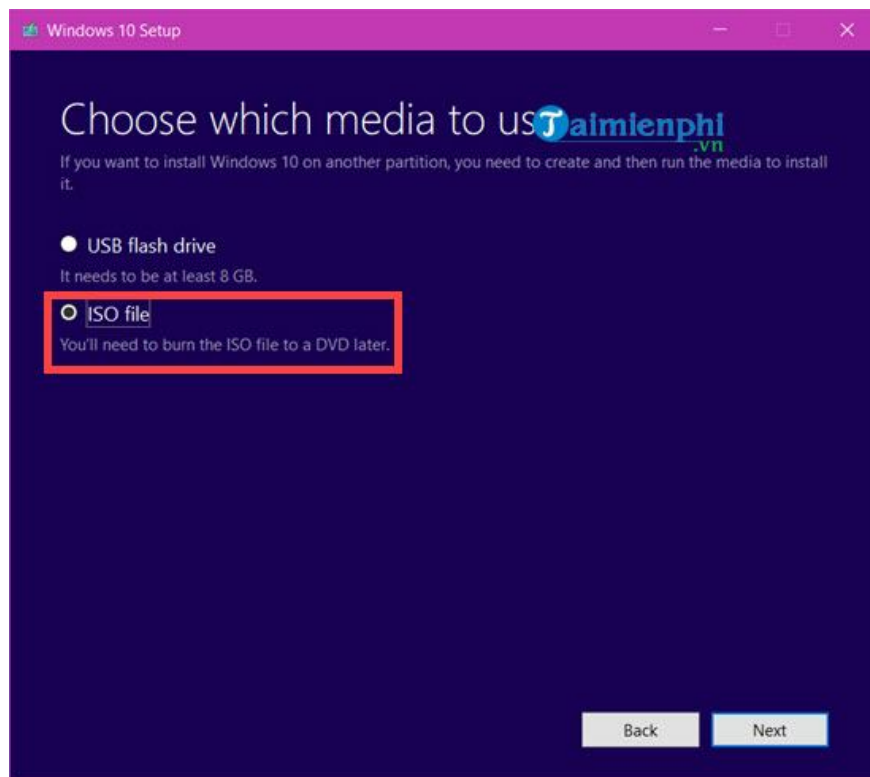

Step 2: Here, select the second option, " **Create installation media,**" to create a Windows 10 installation media.

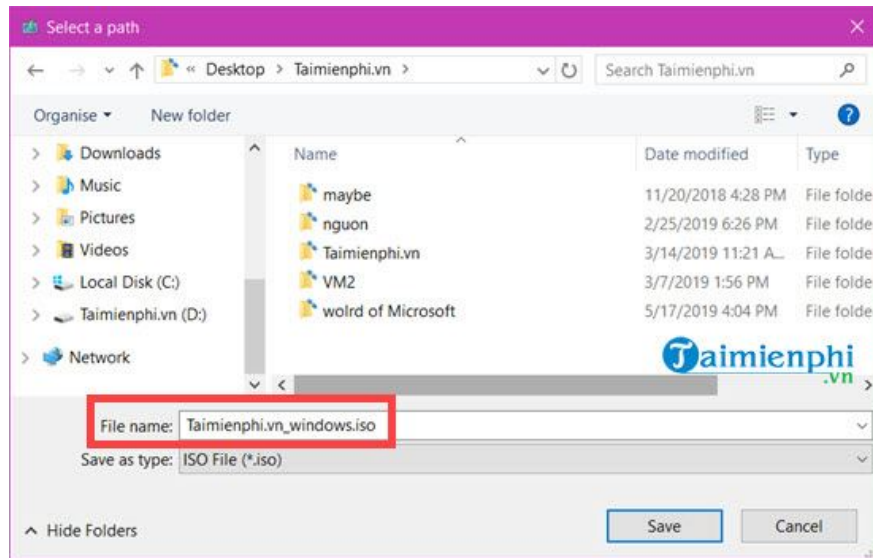

Step 3: Here, uncheck " **use the recommended options for this PC**" to disable the system option and select the Windows 10 file you want to download.

Step 4: Here, select the ISO file option to download the original Windows 10 ISO file from Microsoft.

Finally, you just need to name it and click save so that Microsoft can download the file to your computer; once complete, it will be a Windows 10 ISO file.

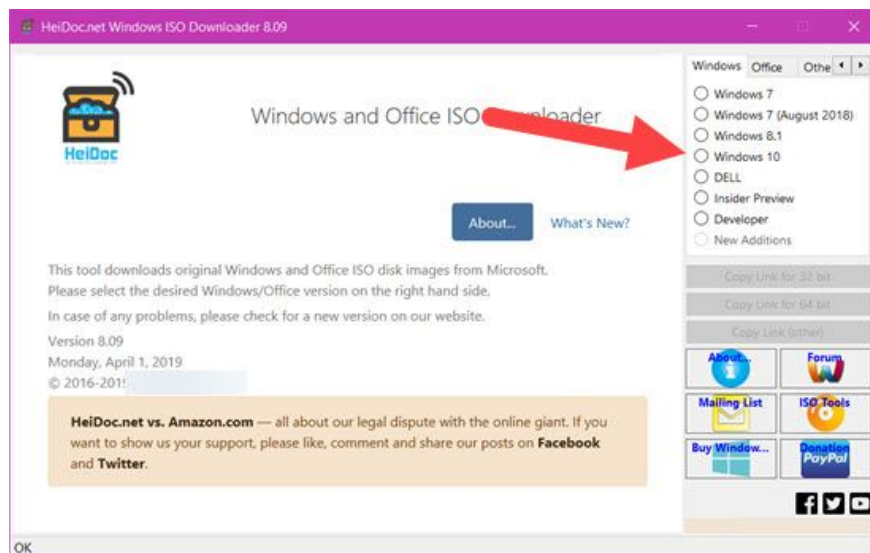

Downloading the original Windows 10 ISO file from Microsoft can be quite time-consuming if you don't have a computer with a strong internet connection.

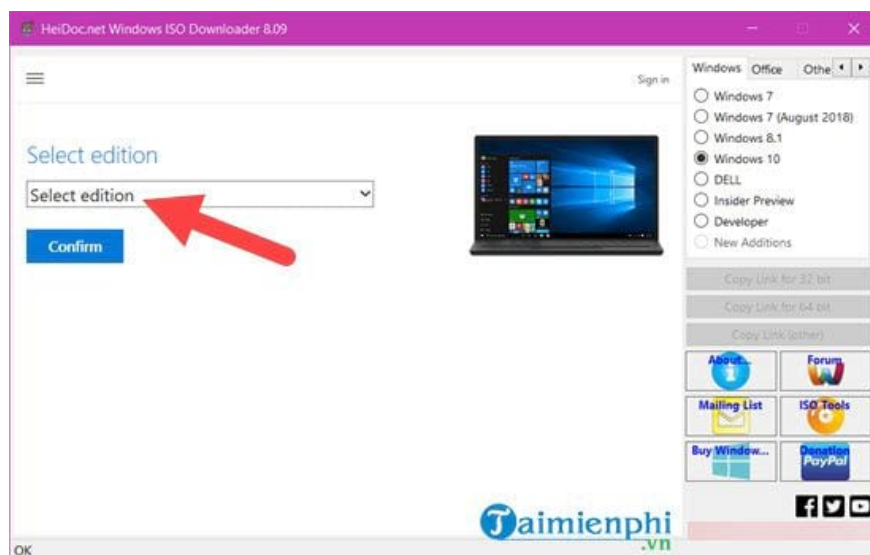

## 2. Download the Windows 10 ISO with Windows ISO Downloader

Another way to download the original Windows 10 ISO file from Microsoft is to use the Windows ISO Downloader below. Download Windows ISO Downloader to your computer first.

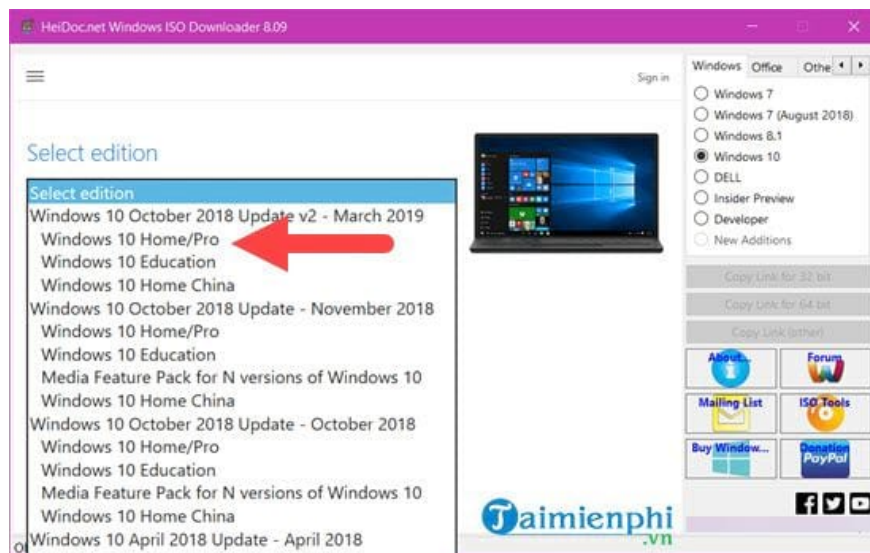

*Step 1:* After downloading Windows ISO Downloader, simply open the software and click on **the Windows 10 option** .

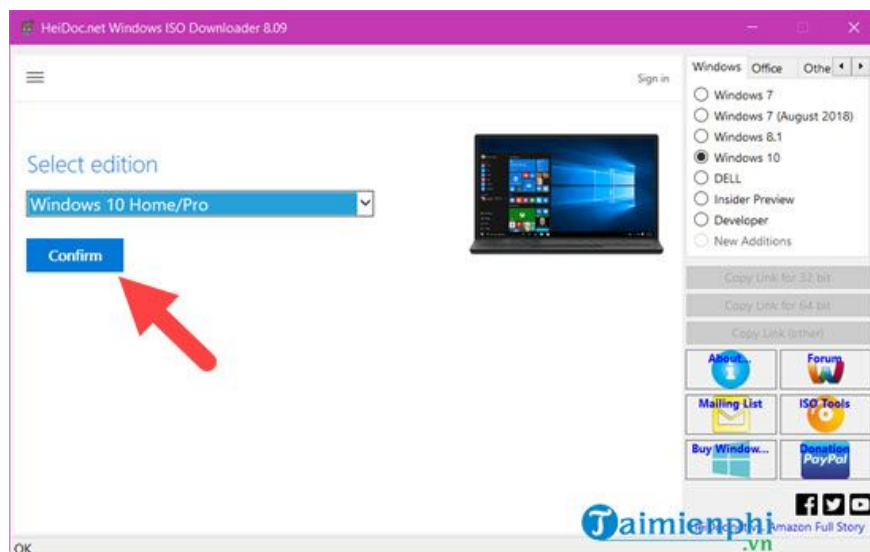

Step 2: Wait a moment, the system will display an option; click on **"Select edition"** to choose your Windows 10 version.

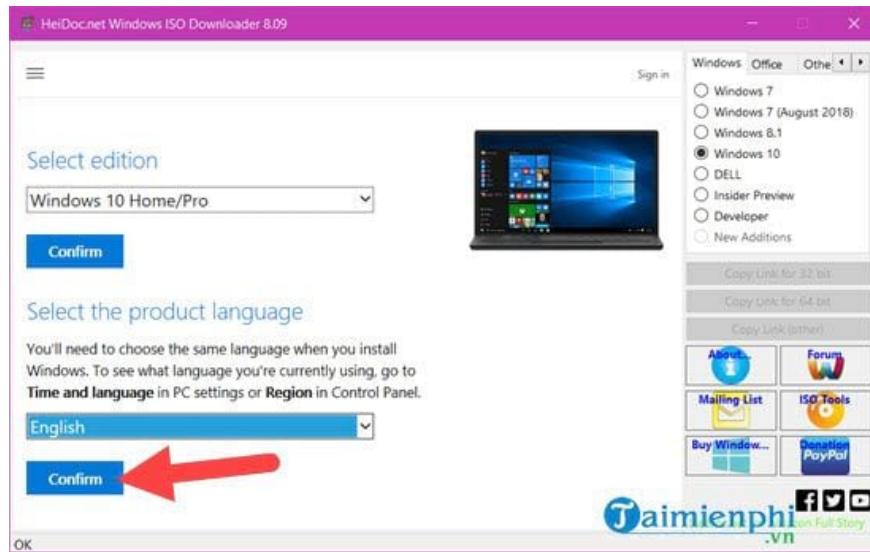

To download the original Windows 10 ISO file from Microsoft, we choose **to download the Windows 10 Home/Pro version** updated in March 2019.

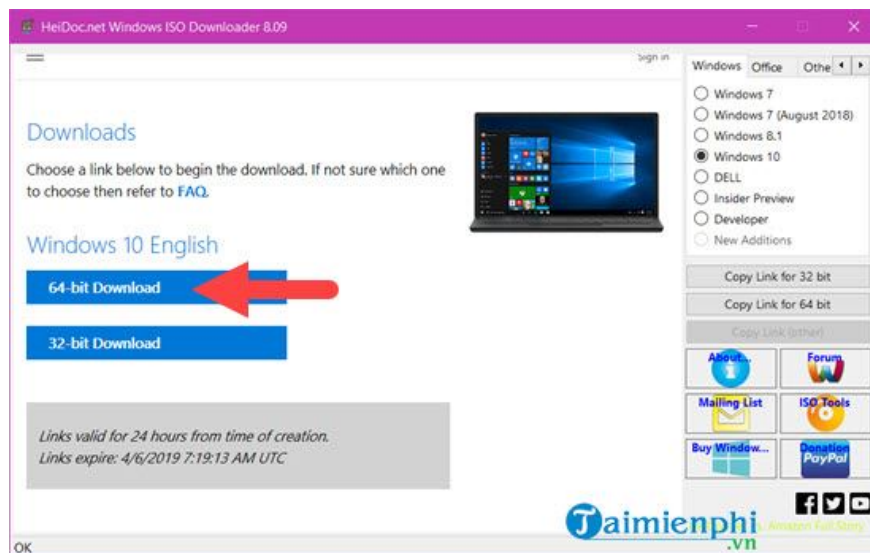

*Step 3:* After selecting your **Windows 10 Home/Pro** version , click **Confirm** to confirm.

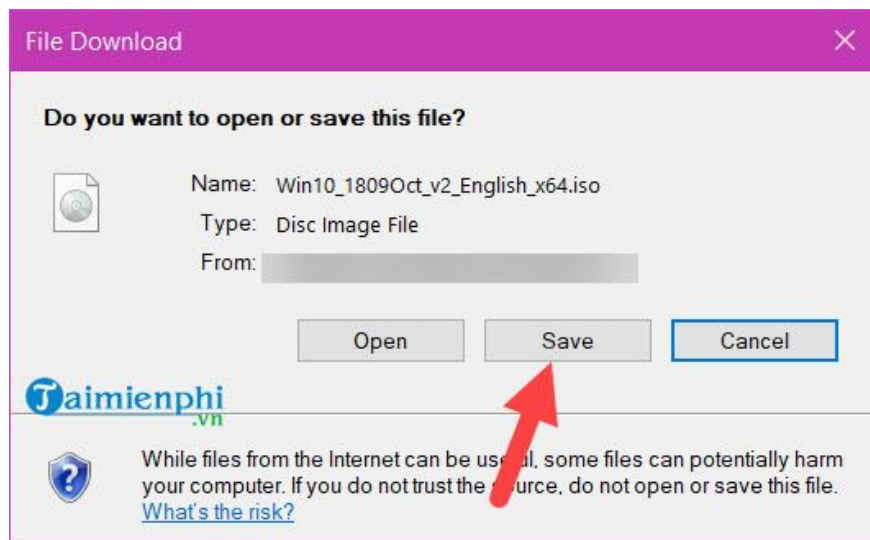

*Step 4:* Next, choose your language. Generally, you should choose **English** for the easiest access to the link, in case it doesn't have a version in another language.

Step 5: Finally, choose **the 64-bit or 32-bit version** depending on your operating system. Currently, Windows 10 is generally 64-bit.

Step 6: Click **Save** to save the Windows 10 ISO file. That's it! You've successfully obtained the official ISO file from Microsoft.

Above is how to download the original Windows 10 ISO file from Microsoft. After obtaining the Windows 10 ISO file, you'll probably want to create a Windows 10 installation USB, right? If you don't know how, you can refer to the method of creating a Windows 10 installation USB here, which is both quick and extremely effective.
