

How to download and install BitDefender Antivirus Plus 2020

Referencing the guide to downloading and installing BitDefender Antivirus Plus 2020 not only helps users eliminate viruses and spyware but also effectively protects your computer's passwords, online data, and data on USB drives. Now, let's look at the detailed steps to download and install this antivirus software below!

Choosing to install and use **BitDefender Antivirus Plus 2020** is a good idea, as it's a powerful and effective antivirus software comprised of AntiVirus, AntiPhising, and modules such as Auto Pilpot, Network Map, Privacy, and Safego. Using this software helps protect your computer from external attacks, preventing the intrusion of viruses, spyware, Trojans, worms, and many other malicious programs when users access the internet.

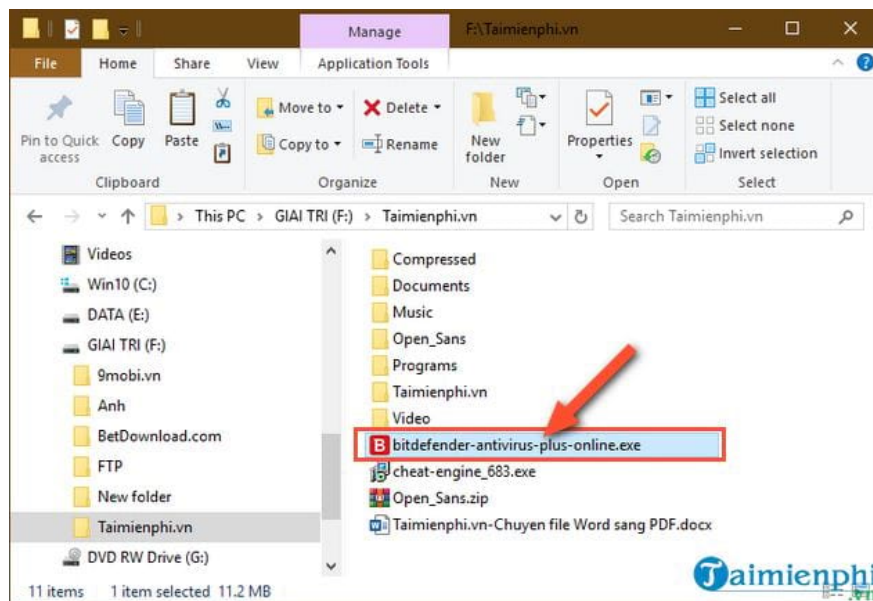

Download, install, and use BitDefender Antivirus Plus 2020.

To download and install BitDefender Antivirus Plus 2020, please follow these steps:

Step 1: You can install **BitDefender Antivirus Plus 2020** [here](#).

Step 2: After the download is complete, open (run) the **Bitdefender-antivirus-plus-online.exe** file to download the main software installer to your computer.

The download interface for the BitDefender Antivirus Plus 2020 installer will look like the image below.

Step 3: After the main installer has finished downloading, the software will automatically start the installation. If you are using an older version of BitDefender Antivirus Plus, it will be automatically uninstalled and you will be automatically upgraded to the new version for free.

Step 4: In the next interface, check the box " I read and accepted the Subscription Agreement" -> then click "**Install**" to proceed with the installation.

On this interface, you can also select the language to use in the **Change Language** section .

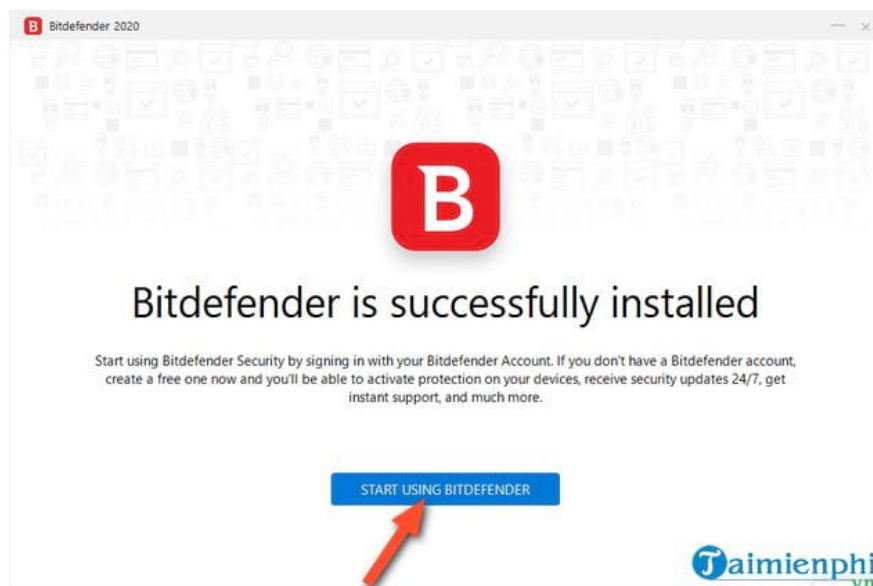

Note: If you previously used an older version of Bitdefender, after successfully uninstalling the old version, you must restart your computer to continue the installation process.

Step 5: The software installation process will begin. You will have to wait a few minutes for the software to install on your computer.

Step 6: The installation process is complete. Click on **Start Using Bitdefender** to begin using it.

The "Create your account" interface will appear if you don't already have an account. If you already have an account or are logged in, the software will display the main Dashboard interface directly.
