

How to download and install PUBG LITE on your computer

With downloading and installing PUBG LITE you will experience a free and lighter version of PUBG with a pleasant configuration.

PUBG LITE was previously launched in Thailand as PUBG Project Thai with the aim of increasing the number of players in Southeast Asia. And soon after launching this new version of PUBG, it quickly received the attraction of many gamers because the configuration required is very light, equivalent to the version of PUBG Mobile VN, suitable for most gaming PCs current mid-range.

And after a period of Beta Test, Bluehole officially allowed gamers to play and download this version called PUBG LITE instead of Steam on the original version of PUBG for VND 340,000. If you don't know how to download PUBG LITE, you can see the instructions for downloading and installing PUBG LITE on Quantrimang's computer below this article.

Step 2: Visit this link and click the **Download** button below, the initial interface of the download page will be Thai, but you can use the translation tool to translate the website into Vietnamese, you will see the required system above.

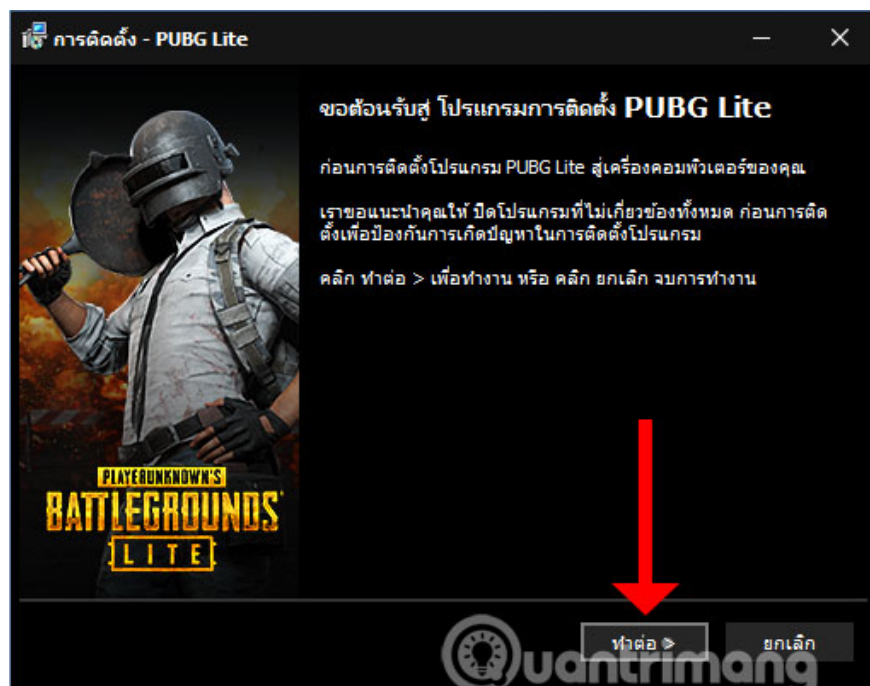

The downloaded file will be in .exe format, please click on it to start the installation file.

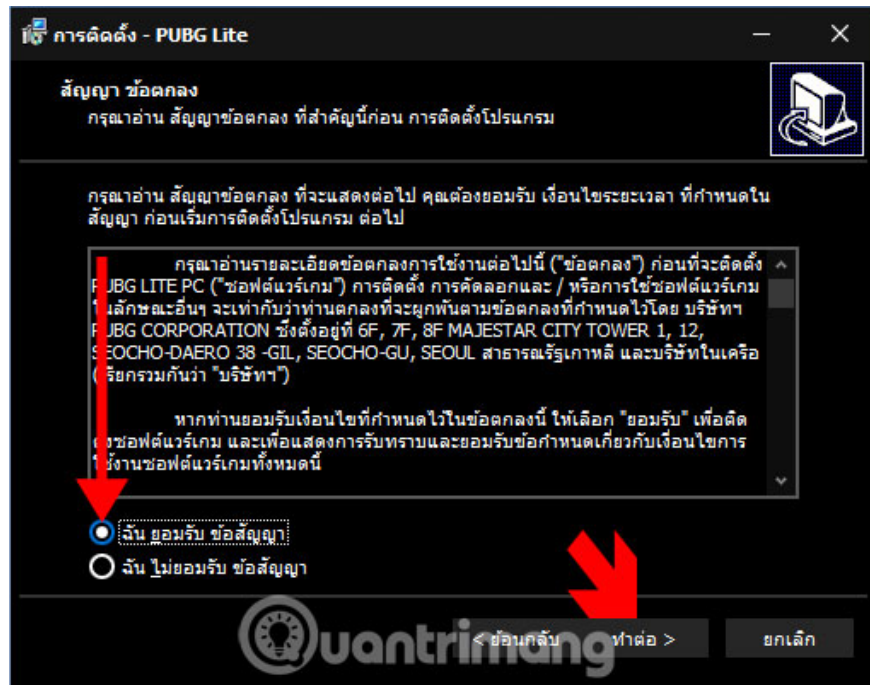

If you see a request like this, click **More Info** and select **Run Away** .

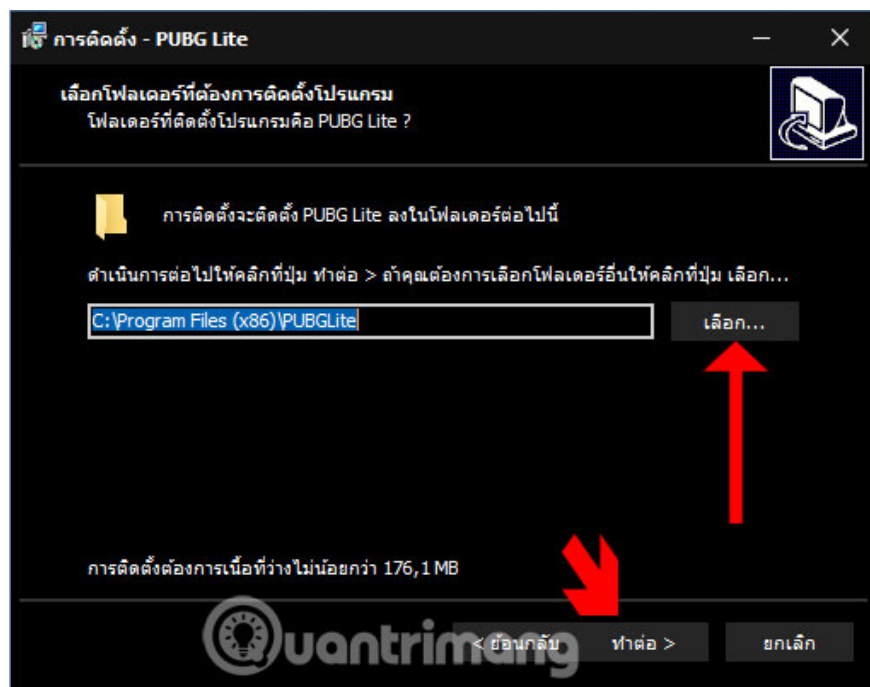

Step 3: When the installation file is booted up, click Next.

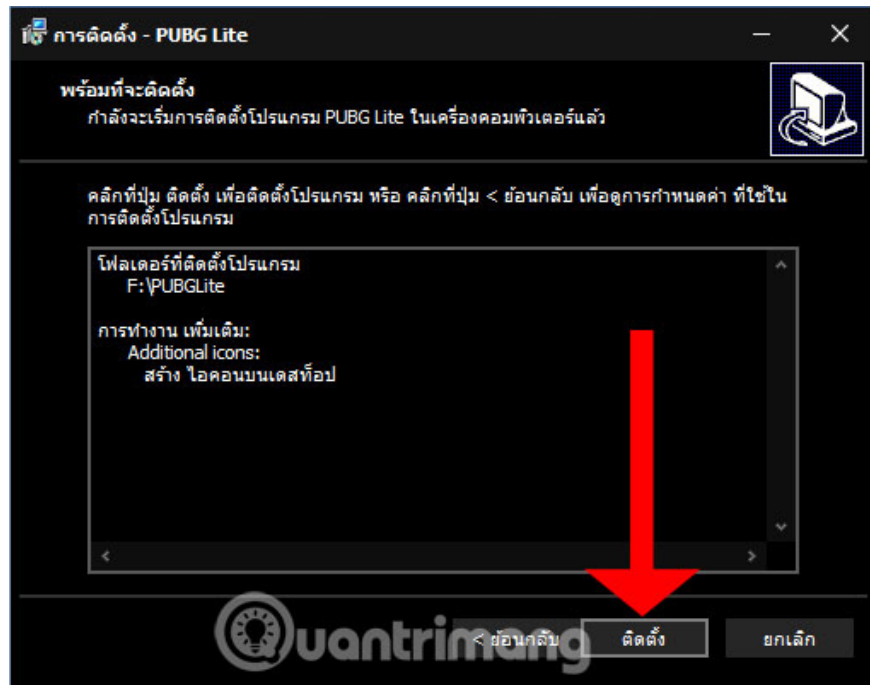

Check the box **I agree with the terms** and click Next.

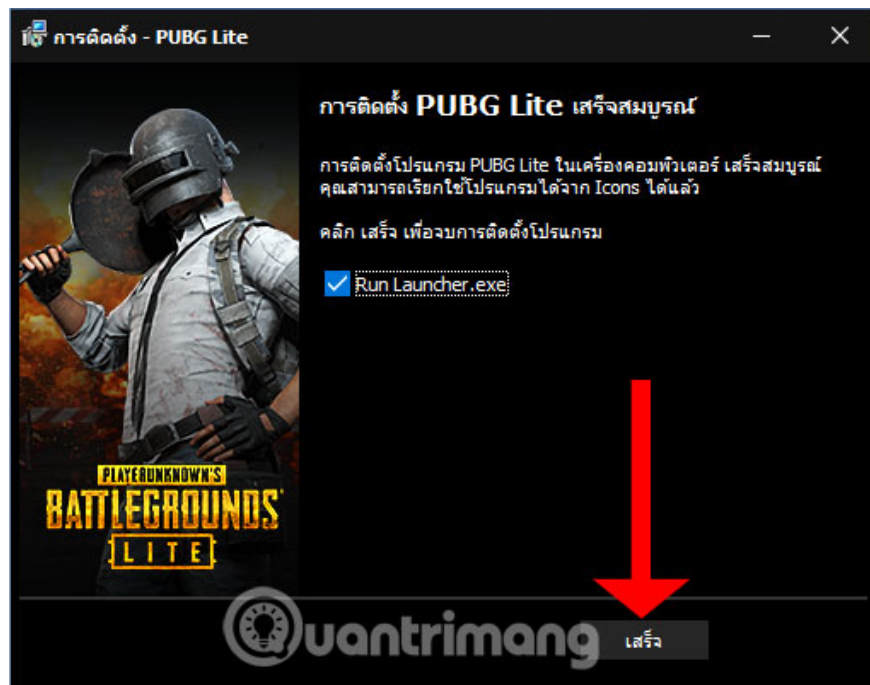

Continue to press the Next key in the middle, then if you want to change the folder containing the game click on the **Browse** . icon next to the default game frame.

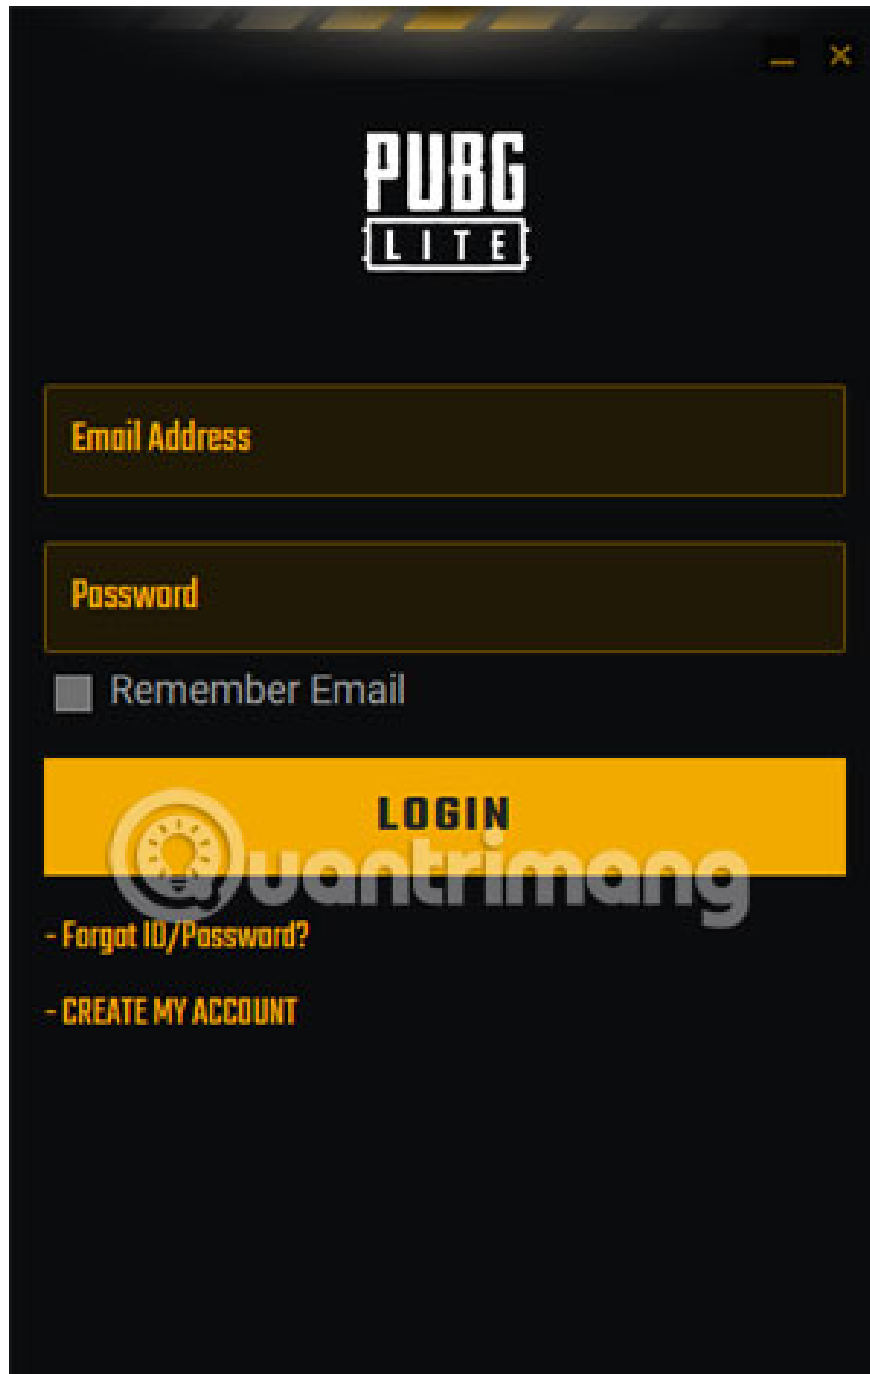

And then click Next, Next and click **Install** .

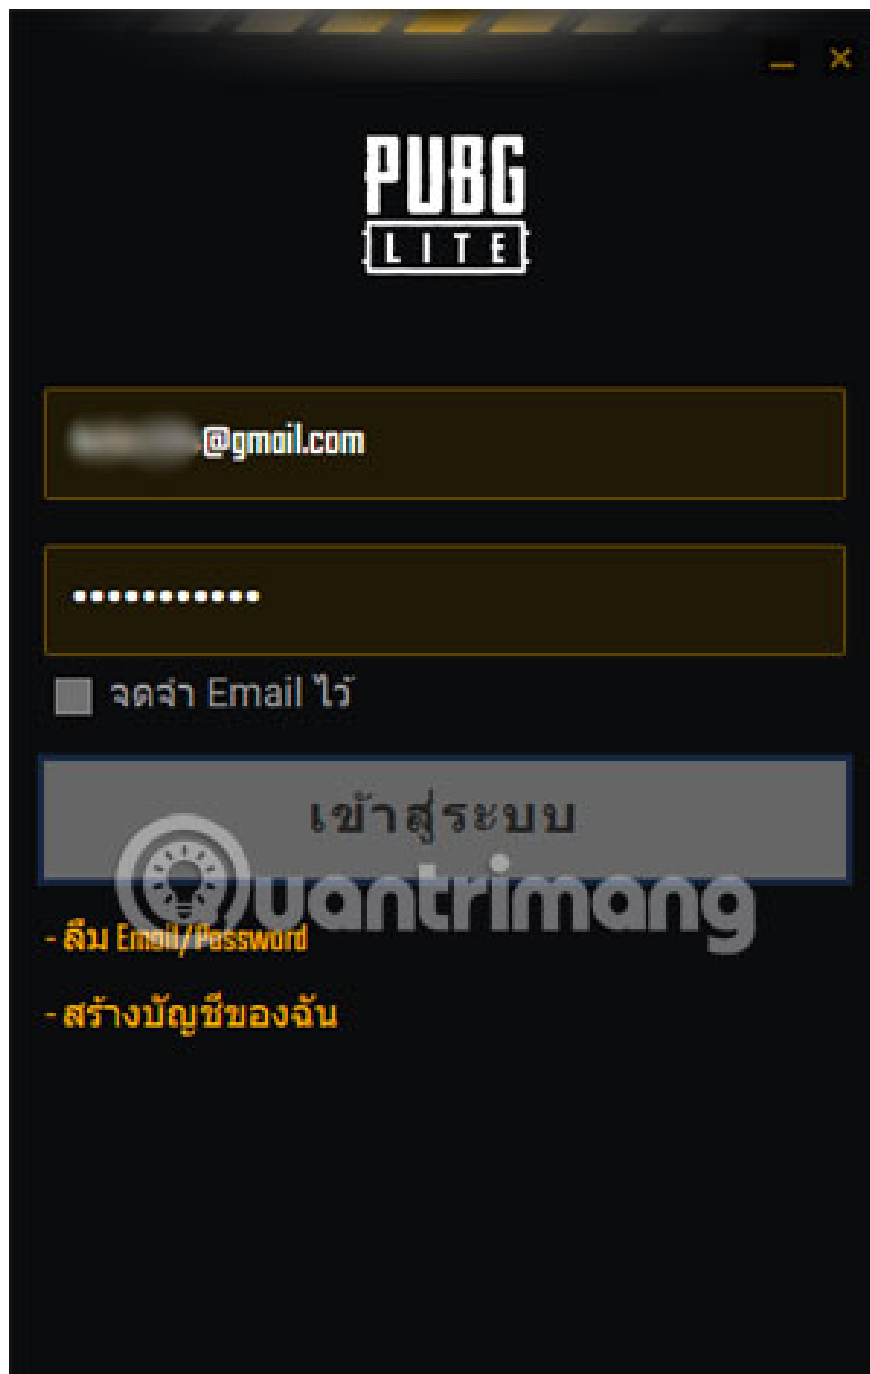

Wait a moment for PUBG Lite to install the game folder, click **Finish** to launch Launcher PUBG LITE.

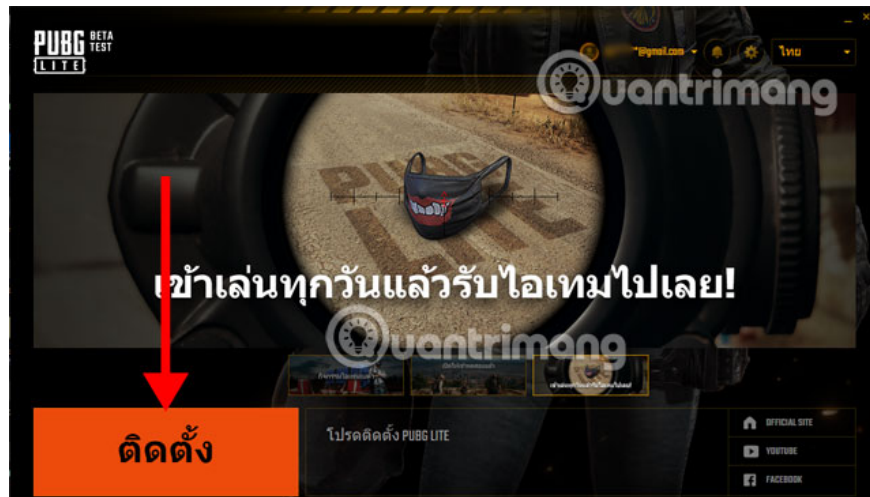

If you have not fake IP to Thailand IP address, the login interface will be English.

But when Fake was IP to Thailand login interface will be Thai language. If you do not have an account, please see how to register a PUBG LITE account in the article How to register a PUBG LITE account for the trial version.

After logging in, you will see the PUBG LITE download interface appear with Thai interface. Click on the orange button below to start downloading PUBG LITE to your device, the game is quite light (about **1.9GB**) so it won't take long if you have a strong connection.

So through a few steps to download and install PUBG LITE in this article, you can join PUBG LITE and experience what PUBG Corp brings to gamers in this version.
