

How to download and play Pokémon game: Magikarp Jump

Pokémon: Magikarp Jump is a Pokemon game exclusively for Magikarp fish, with the mission of training players to train this carp to dragon.

Considered a "small" Pokemon in the list of Pokemon types, Magikarp fish belonging to the water category have the fighting power and low level speed compared to many types. However, things will reverse the situation completely when Magikarp fish evolved into powerful Gyarados. And you will decide Magikarp's "fate" in the all-new Pokémon game: Magikarp Jump.

Coming to Pokémon's world: Magikarp Jump, you will become Magikarp's coaches. Each player will take over the task of taking care of this fish until it turns into a dragon, becoming a Pokemon with strong fighting power. The key task that you need to train Magikarp is to increase the JP stat, show off its incredible high jumping ability. After that, find the strongest candidates to join the battle to win.

2. How to earn JP in Pokémon: Magikarp Jump:

As mentioned, the task in the game is that you will take care of Magikarp, train to have a strong combat ability. Players will need to nurture Magikarp, decorate their aquariums. In the game, **the JP (Jumping Power)** is the main strength indicator and you need to raise this index for Magikarp.

1. How to receive rewards in the game:

After following the first instructions in the game and getting yourself a Magikarp, click **I choose you!** let you start at **Rank 1** and **Generation 1**.

The first job was for the Magikarp to eat, by moving around the lake and tapping the screen of areas where food was available to power the fish.

Note , the battle with the Master will be the most difficult battle for the player. JP's stats of the Magikarp Master can be seen at a relatively high level. But everything can change when your fish is strong and with JP's respect.

When winning the last round, players will be added experience points and precious medals.
