

# How to Get Any App You Want on Fire TV Without the Play Store

You don't need extensive technical knowledge to install apps on Fire TV Stick without Play Store.

People love the Amazon Fire TV Stick for its responsive user interface and ability to turn their old TV into a modern Smart TV . However, the Fire TV Stick doesn't have the Play Store. It has Amazon's own version of the App Store, which boasts a massive app library, but still lacks many apps due to limitations, a customized user interface, or region-locking that many people can't live without.

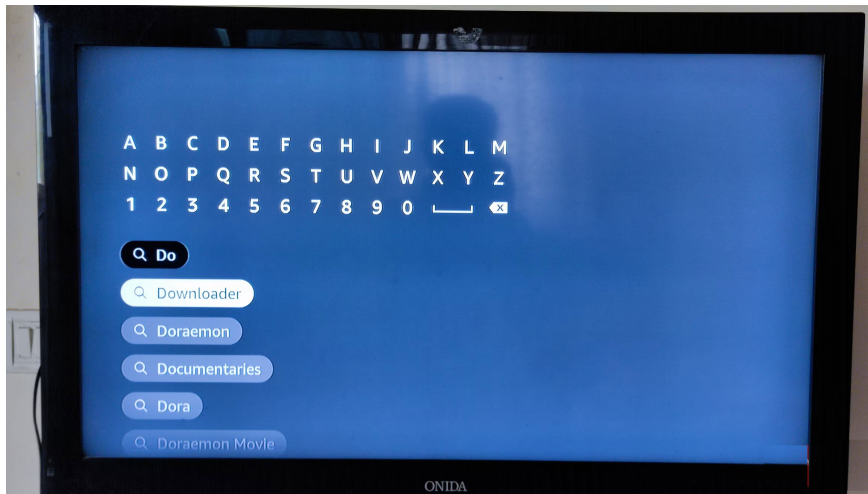

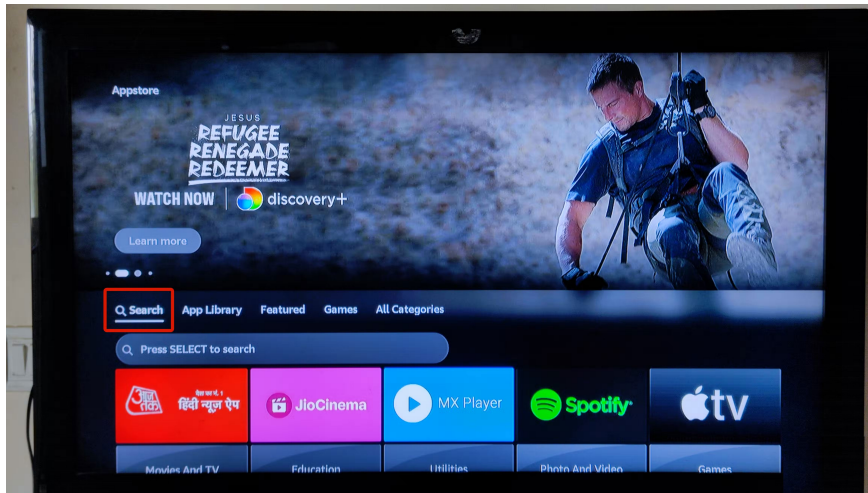

If you are trying to download one of the region-locked or missing apps on your Amazon Fire TV Stick, don't worry. You can still download your favorite apps on your Amazon Fire TV Stick. You don't need any advanced technical knowledge to install apps on your Fire TV Stick without the Play Store.

## Install apps from Downloader on Fire TV Stick

Downloader is basically a browser app that allows you to access the internet and download any app you want. The app is easy to use, user-friendly and intuitive, allowing you to access any website and download apps on your Fire TV Stick from trusted and verified sources.

### How to download Downloader on Fire TV Stick

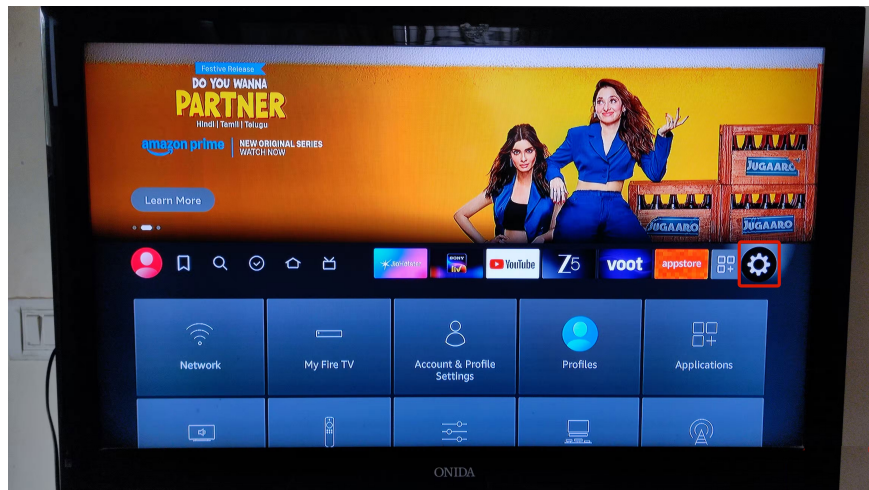

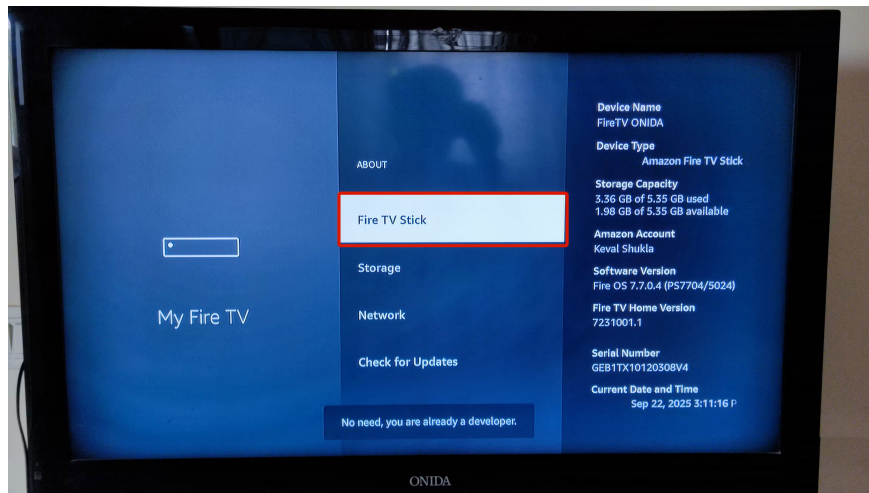

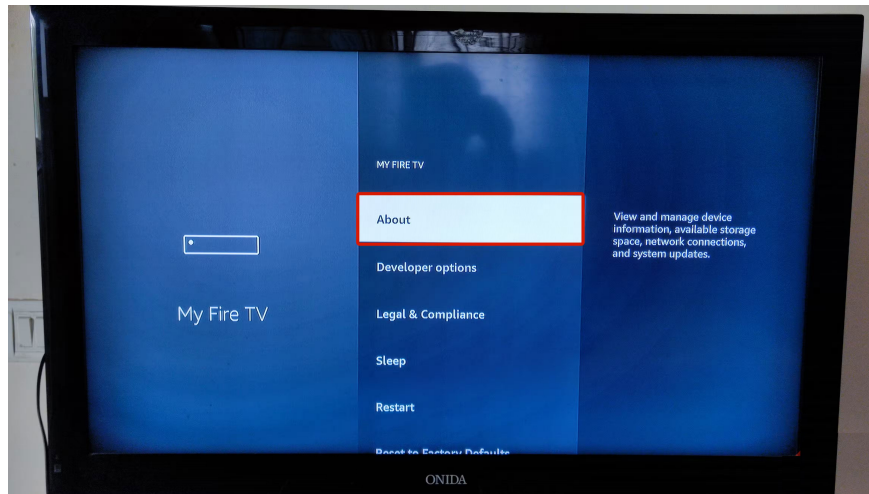

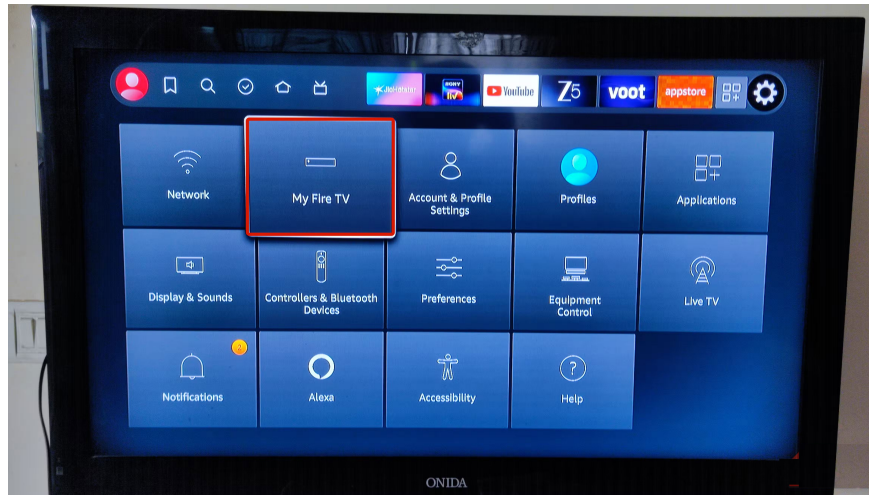

1. Go to **the App Store** on your Fire TV Stick.
2. Navigate to the **Search** tab .
3. Search **Downloader** .
4. Click **Get App** and wait until the installation process is complete.

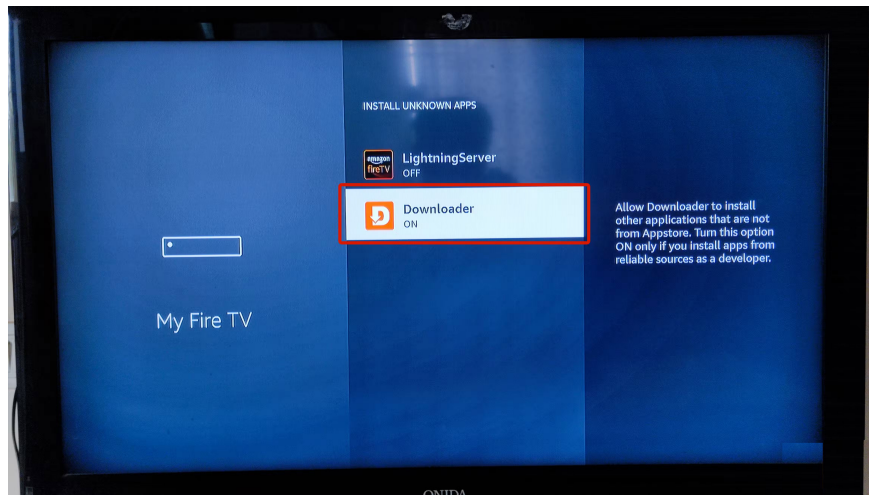

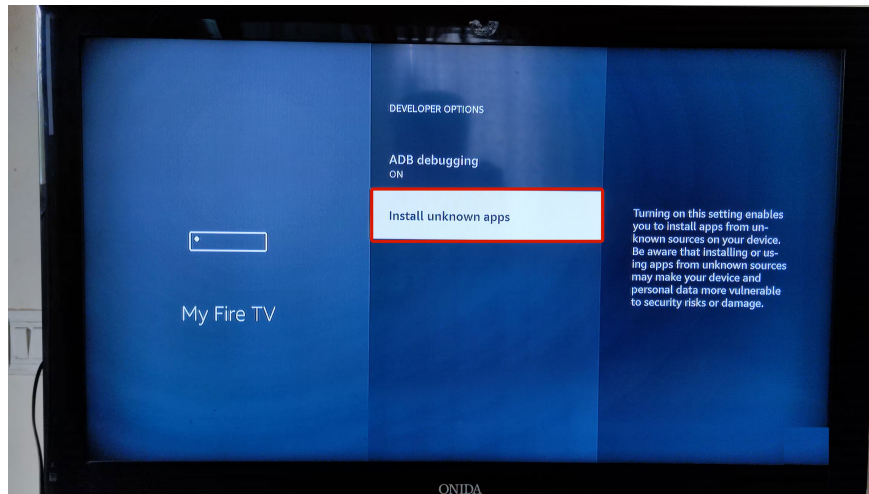

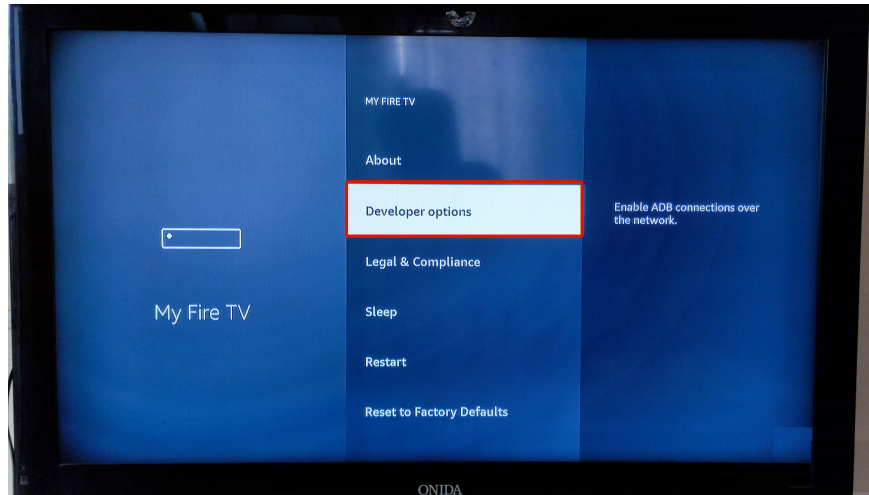

After installing Downloader, prepare your Fire TV Stick to enable installation of apps from unknown sources. This allows installation of apps downloaded from Downloader.

## Enable installation from unknown sources on Fire TV Stick

Here's how to enable installation from unknown sources on your Fire TV Stick. It may seem like a hassle, but it's actually not that long. This is a one-time process, and you won't have to repeat it unless you reset your Fire TV Stick.

1. Go to **the Settings** tab on your Fire TV Stick.
2. Here, navigate to **My Fire TV** .
3. Go to **About** and select that item.
4. Now scroll to **Fire TV Stick** and click 7 times quickly.
5. Once you see the pop-up window saying you're now a developer, return to the **My Fire TV** menu .
6. Here you will see that the developer options are unlocked. Scroll down and select **Developer options** .

7. Navigate and select **Install unknown apps** .
8. **Scroll down and click on the Downloader** app in the list.
9. Turn on the application.

**Note :**

1. If you don't see "Install unknown apps," look for " **Apps from unknown sources** " in the Developer menu. Select the app, enable it, then skip steps 8 and 9.
2. From here, you are ready to browse the internet from your Amazon Fire TV Stick and download and install any apps you want.

## **Install apps on Fire TV Stick using Send Files to TV (SFTTV) app**

If you don't want to go through the hassle of installing Downloader on your Fire TV Stick, as accessing the site using your Fire TV remote can be a bit inconvenient, then this is what you should do.

This is the commonly used method to download the app you want on your Amazon Fire TV Stick, especially if the app is not yet available on the App Store.

### **How to Install Send Files to TV (SFTTV) on Fire TV Stick**

1. Open the App Store on your Fire TV Stick.
2. Search for the Send Files to TV (FSTTV) app .
3. Navigate and click **Get App** .

Once installed, follow the steps mentioned above in the Downloader section to grant Send Files to TV permission, allowing you to install the app. Once done, follow the steps below to install the desired app using FSTTV. You will also need the Send Files to TV (SFTTV) app on your Android phone to send the app file to your Fire TV Stick. Here, your phone will act as the sender and your Fire TV Stick will act as the receiver.
