

# How to download Asphalt 9: Legends on the computer

Super product racing Asphalt 9: Legends is officially available on Android, iOS and Windows platforms.

After months of waiting for the last super racing car Asphalt 9: Legends was officially released. Currently players can download and experience the game on all three platforms Android, iOS and Windows.

This new version is rated with more advanced graphics than Asphalt 8: Airborne version, by the light effects, especially while racing. Players will have the opportunity to control many types of supercars with top speed racing. Asphalt 9: Legends owns attractive modes like Touch Drive to drive automatically, World Series Multiplayer compared with other drivers in the world. The following article will guide you how to install Asphalt 9: Legends on the computer. However, this Asphalt 9 version requires that a computer with Windows 10 operating system be installed. If you are running other versions of Windows and operating systems, use the Android emulator to play games on your computer.
