## How to download audio on Facebook Sound Collection

### Step 1:

First of all, we will access the link below to come to the Facebook Sound Collection interface.

1. <https://www.facebook.com/sound/collection/>

The interface for using the Facebook Sound Collection sound library appears here, check the box I accept . then press **I agree** to be able to use the audio library.

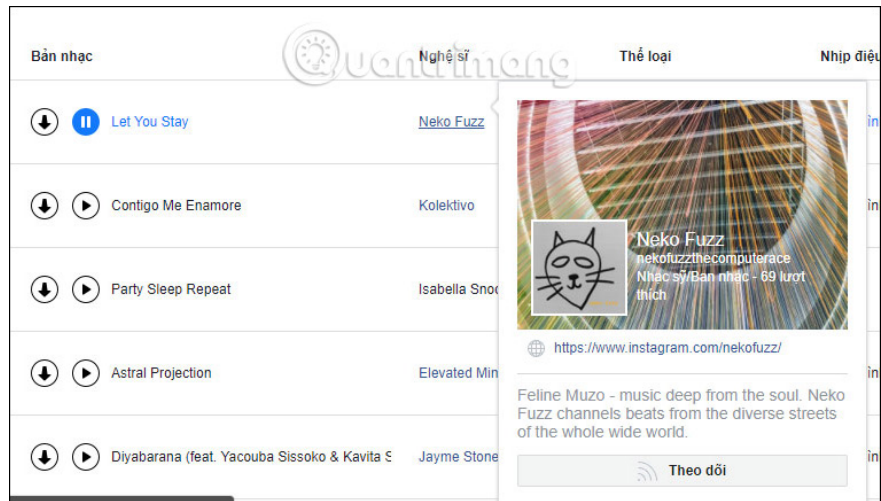

## Step 2:

Soon the Audio Collection interface appears as shown below. There will be 1000 songs in the Music collection. The interface is extremely simple and clearly arranged.

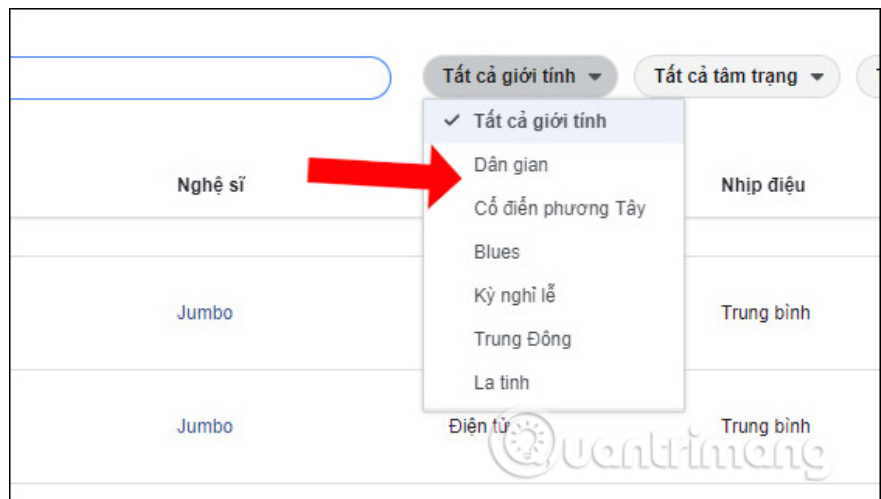

Each song will be accompanied by the artist's name, song genre, rhythm and duration of the song. Artists will all be provided with detailed information by Facebook, along with that artist's homepage to ensure all songs are copyrighted.

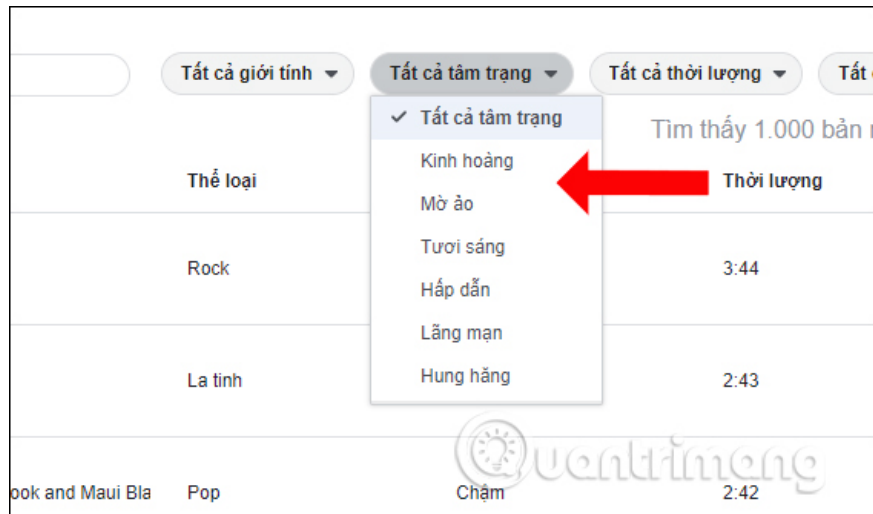

### Step 3:

Here you can search songs by different genres from Folk, Classical Western, .

Or search according to the mood of the song.

The duration section also has many different songs, suitable for the length of the video you upload to Facebook.

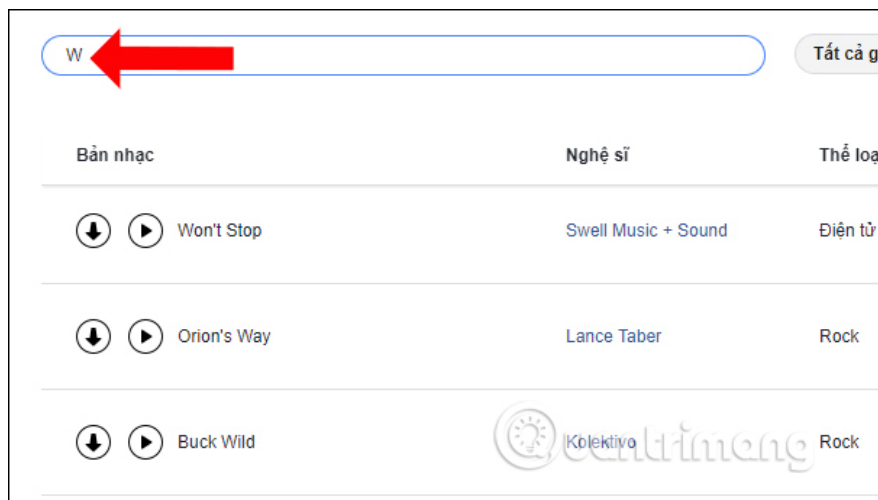

The vocal part of the audio is also carefully categorized by Facebook so that users can search for their video content accordingly.

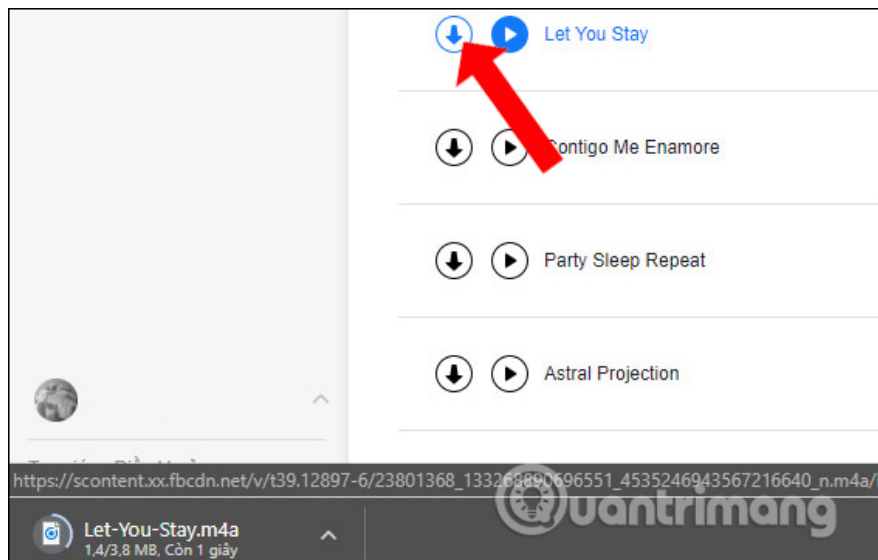

**Step 4:**

In addition, users can enter letters into the **Search Music** box above to find random songs. Facebook will filter all songs containing the letters you enter to search.

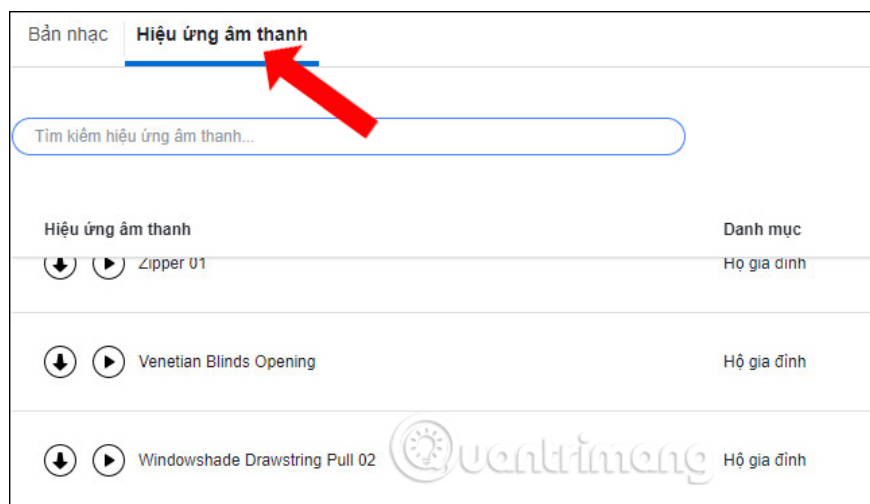

### Step 5:

If you want to listen to any song first, click **the Play button icon** . Then click **the download icon** to download the song to the computer. The songs will have **.m4a format** with good compression quality without taking up much system storage.

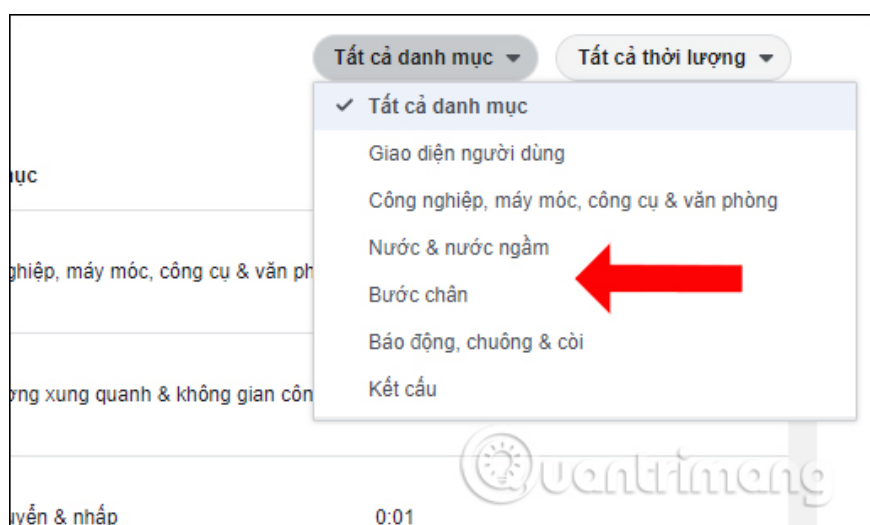

### Step 6:

Also at the Facebook Sound Collection interface, when you click on the **Sound Effects** section you will come to 1504 sound effects that Facebook provides. These sounds will be divided into different categories, such as effects for machines, tools or sounds in public places, .

We can also filter content by category or duration of effects.

In general, Facebook Sound Collection has a very simple way to use, easy to use because it is clearly classified according to each different item. Users can search for music according to their needs to create audio for Facebook videos, without worrying about copyright. With the quick update of the Facebook Sound Collection audio library, Facebook is encouraging users to make videos and post them on this great social network.
