

# How to download Facebook Messenger on Windows 10

Although you can already use Messenger on a web browser, Facebook is currently creating desktop apps for Windows 10 and macOS.

Although you can already use Messenger on a web browser, Facebook is currently creating desktop apps for Windows 10 and macOS. Similar to the browser version of this service, you can log in with your social network account to send text messages, as well as make voice and video calls.

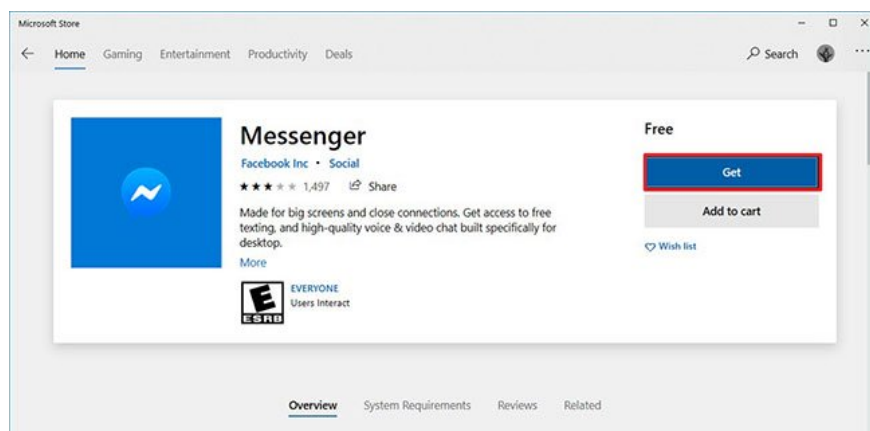

The application comes when many people are in need of services to stay in touch with family, friends and work remotely, due to the Covid 19 pandemic.

In this tutorial, readers will learn the steps to download and install the Facebook Messenger for Windows 10 application.

## How to download the Facebook Messenger application

To download and install the Facebook Messenger app, follow these steps:

1. Open **Microsoft Store**.
2. Search on **Facebook Messenger** and click on the **Messenger** section .
3. Click the **Get** button (or **Install** button).

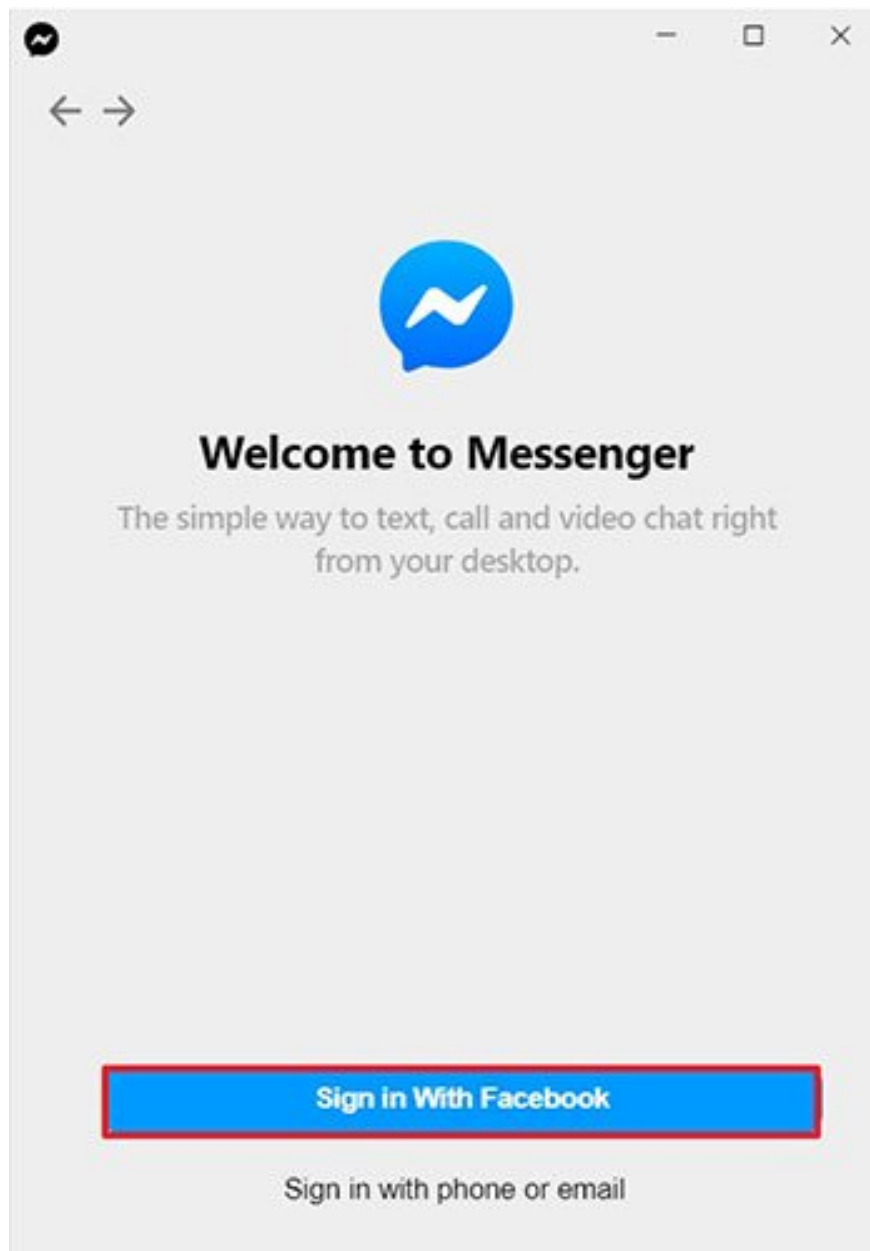

Click the Get button (or Install button) to download the Facebook Messenger application to your device

4. Open **Start**.

5. Search **Messenger** and click the first result to open the application.

6. Click the **Sign in With Facebook** button.

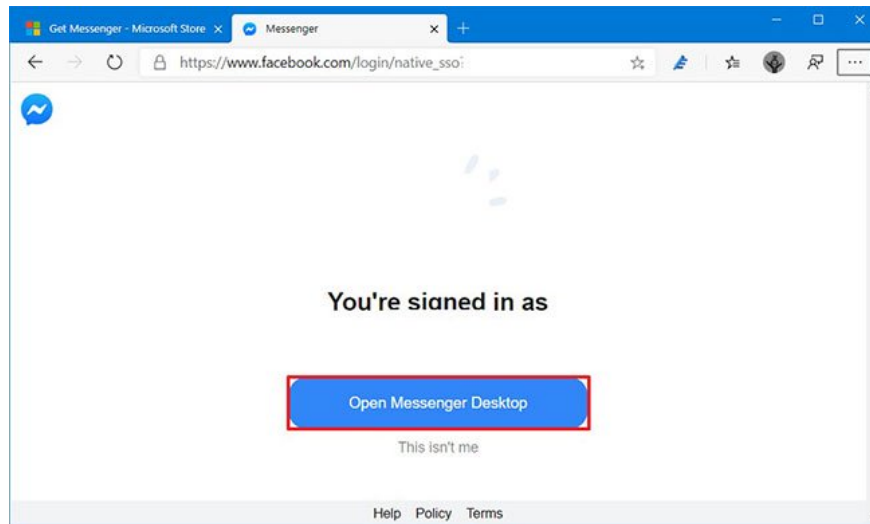

Click the Sign in With Facebook button to login

7. Verify your Facebook login information.

8. Click the **Log In** button.

9. Click the **Open Messenger Desktop** button.

Click the Open Messenger Desktop button

After completing the steps, you can start using the Messenger app like on the web or the app available on Android or iOS.

Besides, Facebook is also providing applications for macOS through the Mac App Store.

Hope you are successful.
