Facebook is a repository of countless memorable moments and captivating videos. But how do you download videos to your device? In this article, we will guide you on how to download Facebook videos extremely easily, even for those who are not tech-savvy.

How

Quick overview:

- I. How to download Facebook clips without software .**
- II. How to download Facebook videos using software .**
- III. How to download private Facebook videos .**

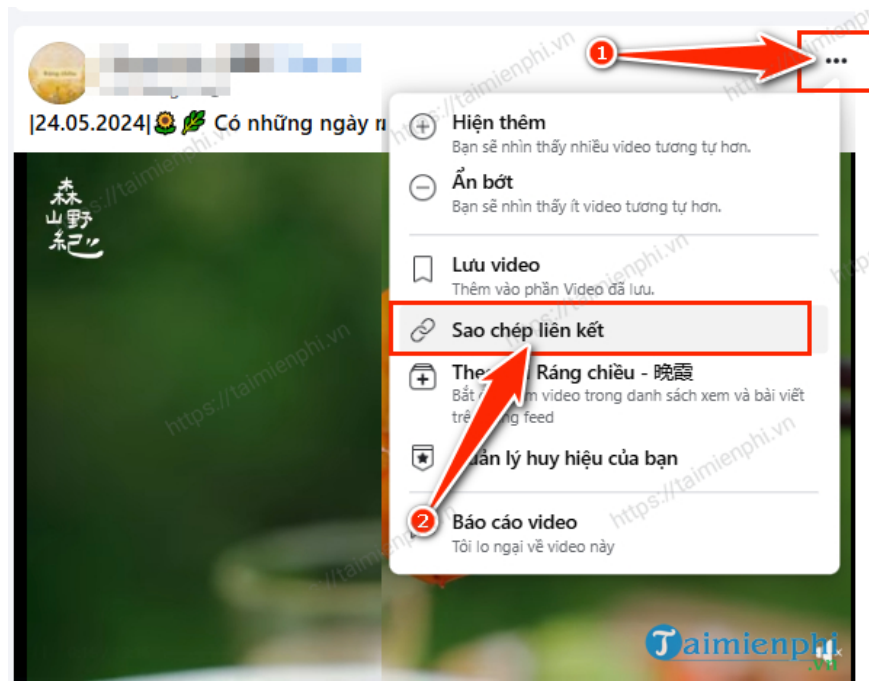

I. How to download Facebook videos without using software

Note: You can only download videos posted publicly or in public groups on Facebook. If the video is posted in a private group, please follow the instructions in section III of this article.

1. Download Facebook clips using Savefrom.net

SaveFrom.net is one of the useful tools that helps you download videos from Facebook quickly and easily. Here's how to do it:

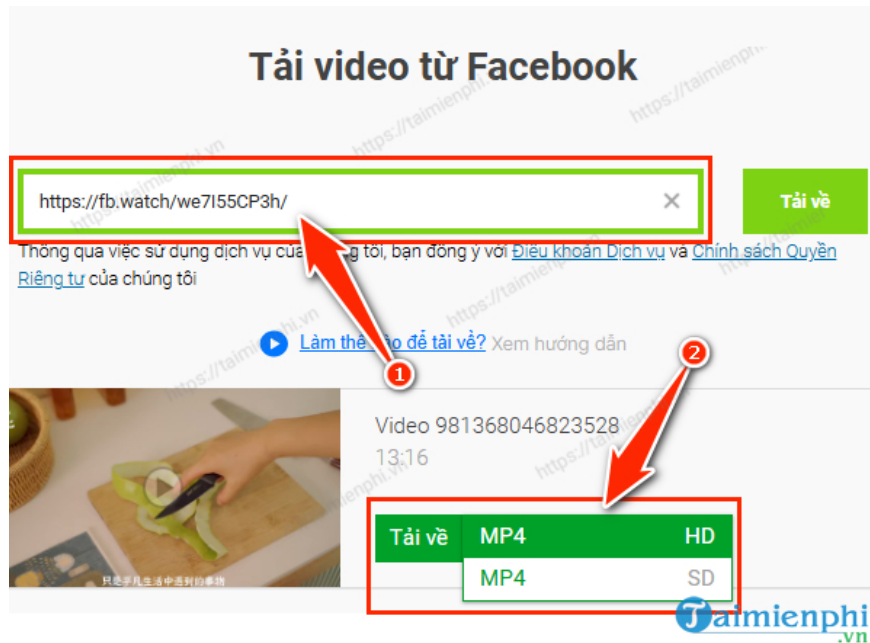

Step 1: Click the three-dot icon in the upper right corner of the video and select " Copy link ".

Step 2: On Google, type " download videos from Facebook SaveFrom.net" or click [HERE](#) for quick access

Step 3: Paste the video link into SaveFrom.net.

Step 4: Select your desired video quality (e.g., SD, HD) and click the " **Download** " button next to it.

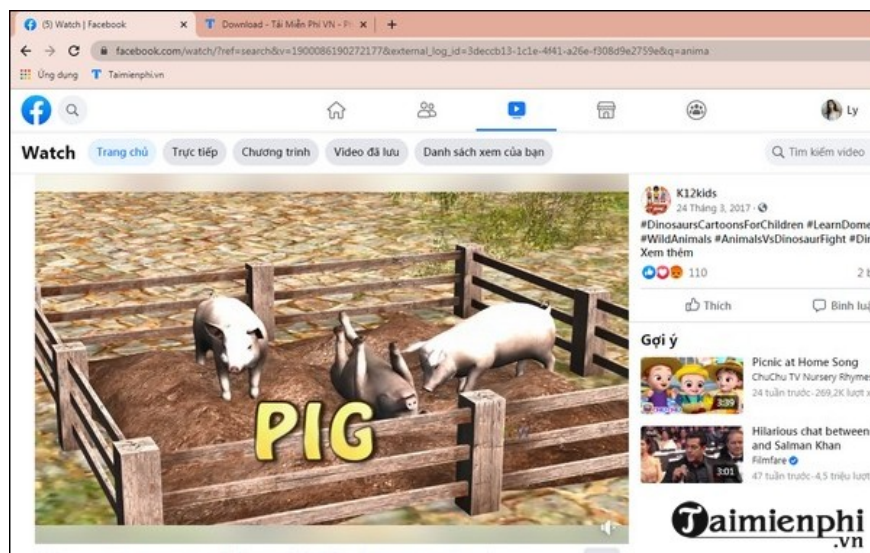

The video will download automatically. You can monitor the download progress in your browser.

2. Download Facebook videos using x2convert.com

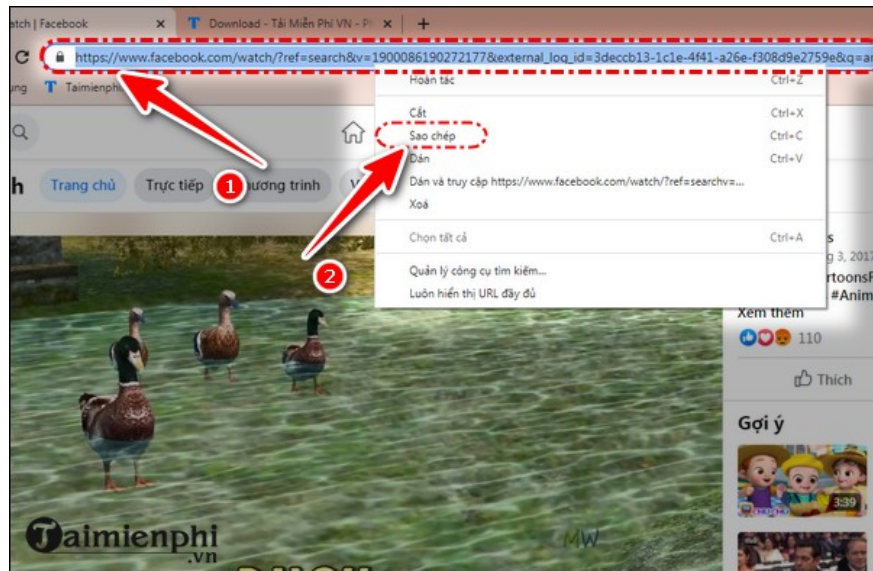

x2convert is considered a safe and effective tool for downloading Facebook videos. Through x2convert.com, you don't need to install any software to download your favorite videos. Therefore, if you want to download Facebook videos to your computer or even your phone, x2convert.com is a powerful tool to help you.

Step 1: On your computer's browser, go to the Facebook video you want to download. For example, as shown below.

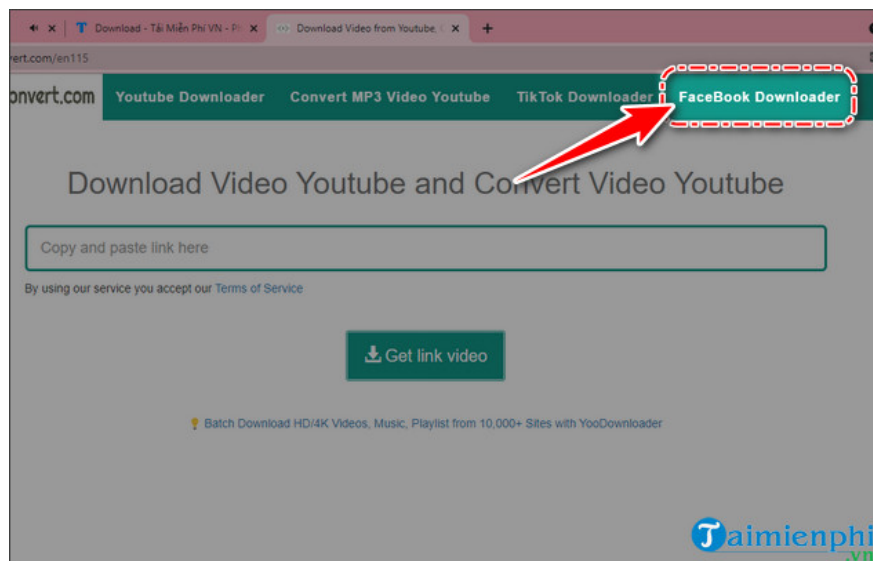

Download videos from Facebook to your computer in 4K quality.

Step 2: At the **URL path**, **click** to highlight it completely (1), then **right-click** to show the form and click on the word "**Copy**" (2).

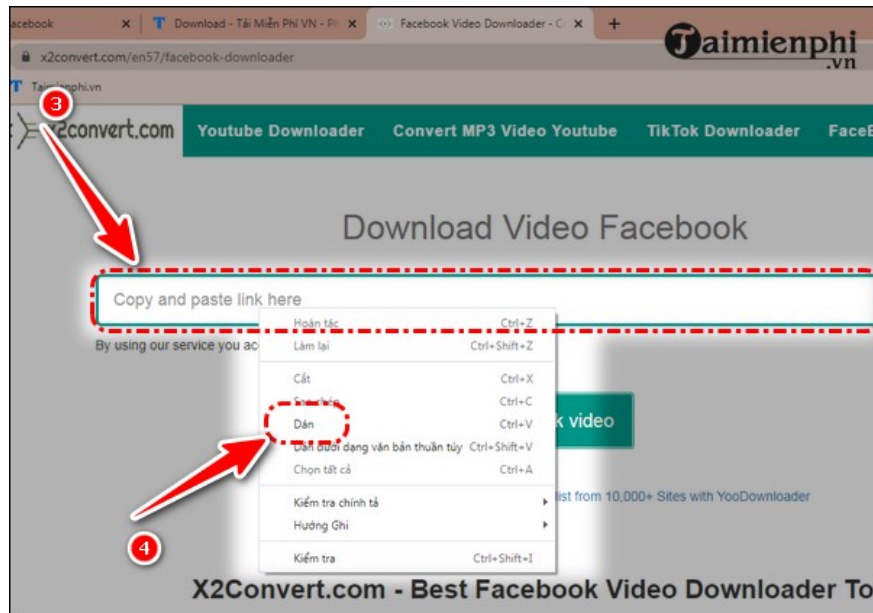

Step 3: Open a new tab and access the website.

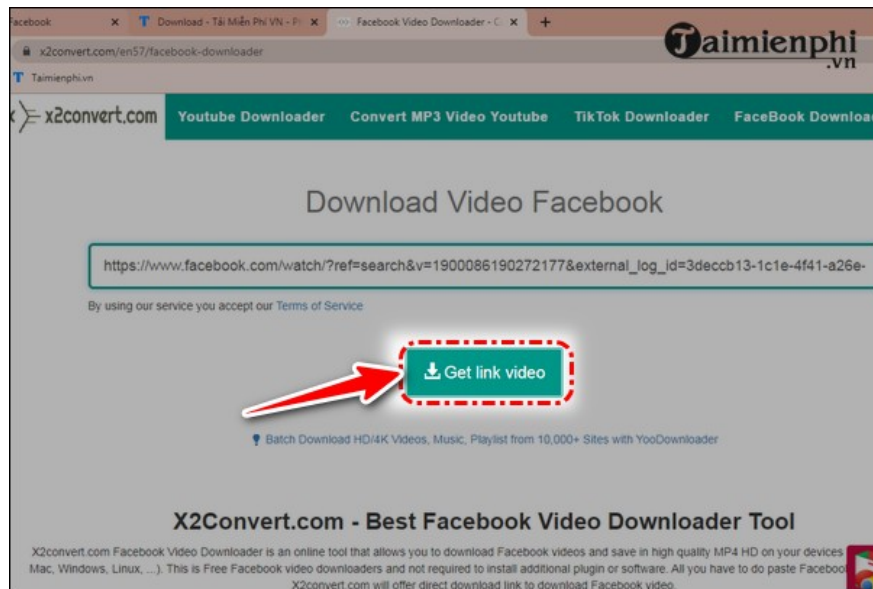

Step 4: Then select **Facebook Downloader** located on the right side of the screen.

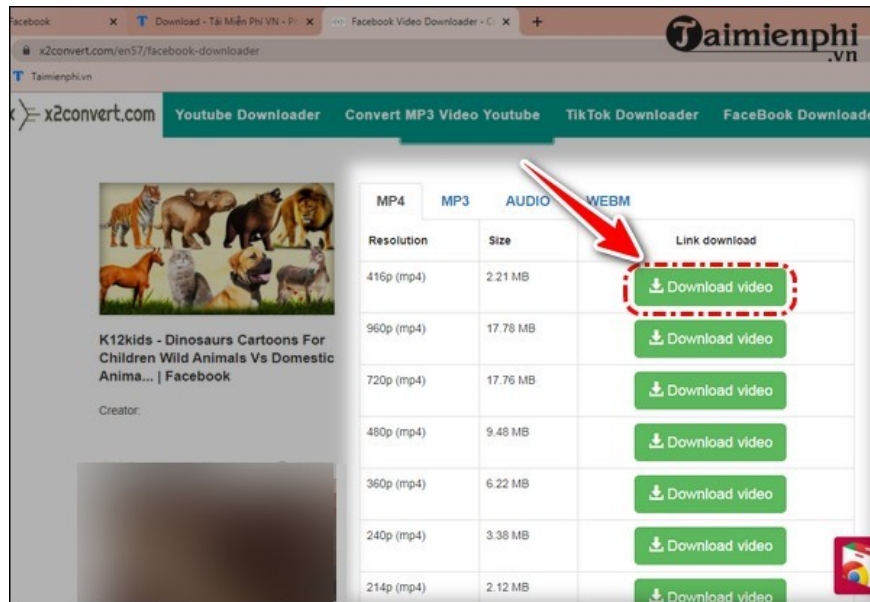

Step 5: Right-click on the box " **Copy and paste link here** " (3) and then click on the word " **Paste** " when the form appears (4).

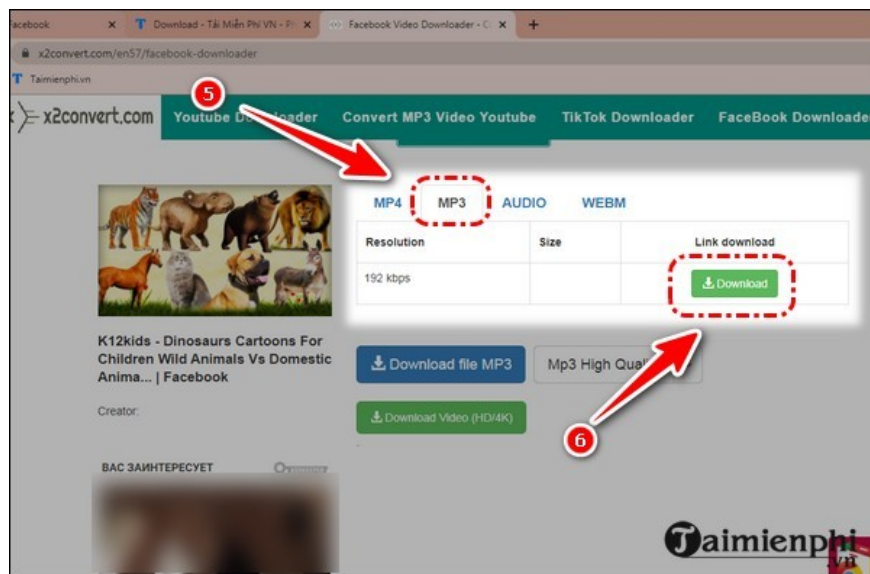

Step 6: Next, click on " get video link " .

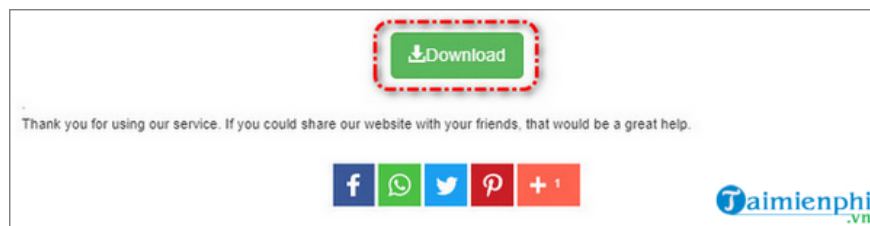

Step 7: Wait for the system to convert the video and download it in your desired video format (Mp4/Mp3/Audio/Webm). You can select the appropriate MP4 file from the download options and click " **Download** " as shown below to download the Facebook 4K video to your computer.

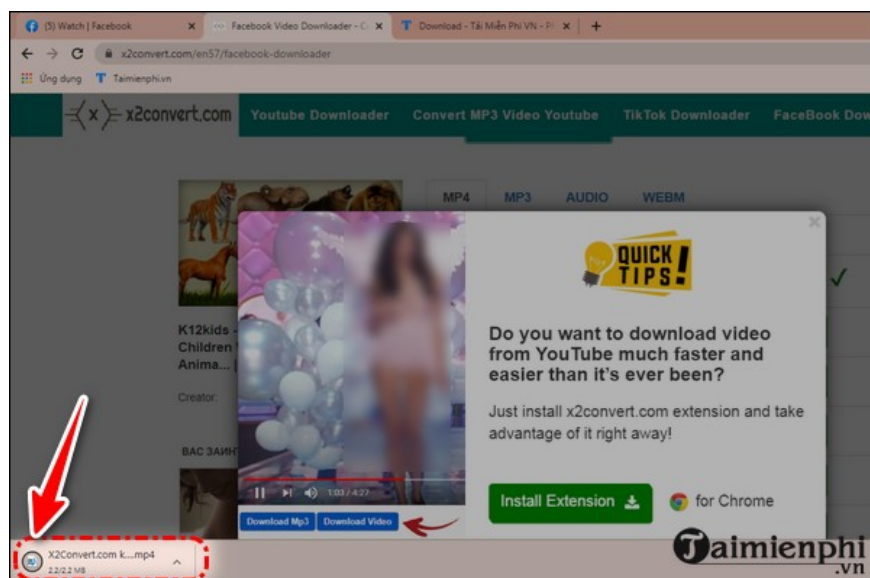

How to download high-quality videos from Facebook to your computer.
 If you want to download in MP3 (5) then click on MP3 then click on " **Download** " (6).

Step 8: The system will now continue processing. Click on " **Download** " when this button is displayed.

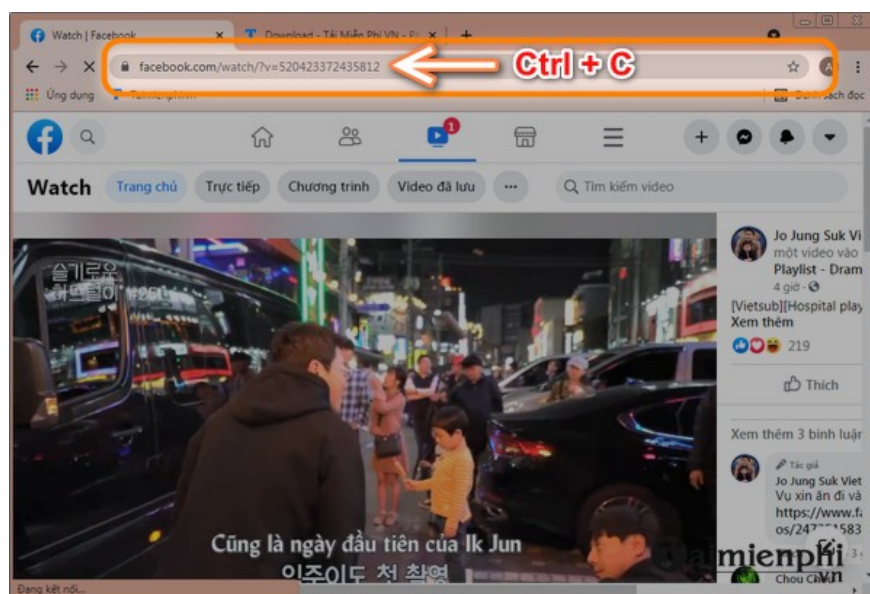

Step 9: The downloaded file will appear in the bottom left corner. **Click on it** to open the downloaded Facebook video.

3. Download videos from Facebook using Ytop1.com

Besides x2convert.com, Ytop1 (<https://ytop1.com>) is also an effective website for downloading TikTok and Facebook videos. Not only does it allow for fast HD video downloads, but Ytop1.com also offers many download file formats, allowing you to choose the most suitable one. Key features of Ytop1.com compared to other tools:

Step 1: On your computer's browser, go to **the Facebook video you want to download** . At the top of the interface, click on the URL to highlight it, then press **Ctrl+C** to copy the link.

Step 2: Open a new browser tab and access the link below to download Facebook videos to your iPhone or laptop.

<https://ytop1.com/vi2/facebook-downloader>

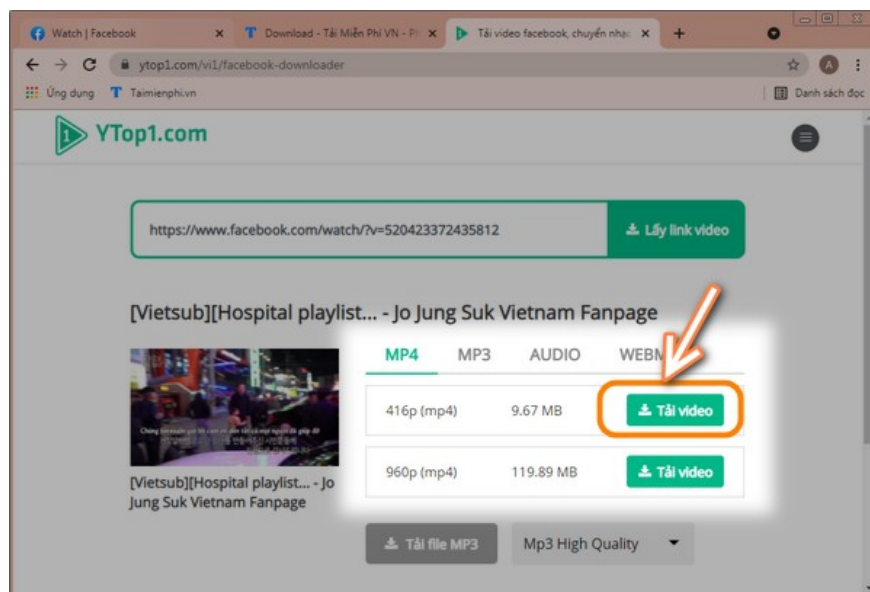

Step 3: Click on " **Copy and paste link here**" and then press the " **Ctrl+V** " key combination to paste the link.

Download Facebook videos to your phone easily with Ytop.

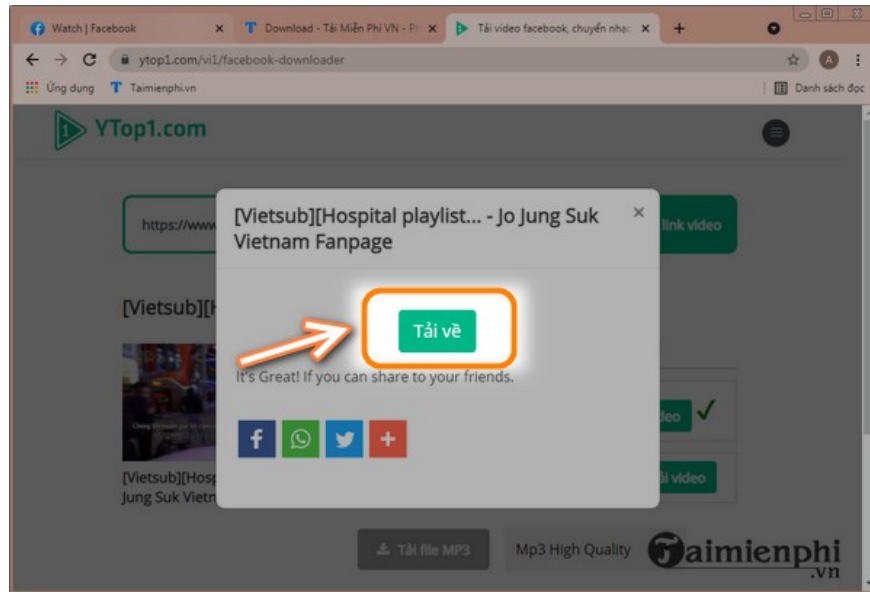

Step 4: The system processes and displays the download file formats such as MP3, MP4, etc. Depending on your choice, you can download different files. For example:

- To download an **MP4** file : Click on " **Download Video**".
- To download an MP3 file: Click on **MP3** , then click on " **Download Video** " (similar to MP4).

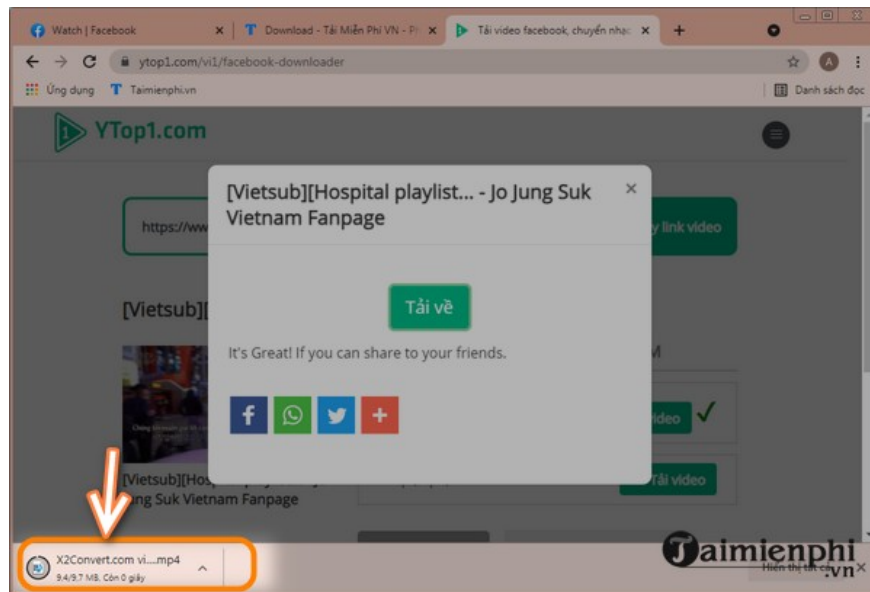

How to easily download Facebook videos to your computer or phone.

Step 5: After a few seconds, click "**Download**".

Step 6: The downloaded file will appear in the bottom left corner. To open the video, **click on it**.

II. How to download videos from Facebook using software

1. Download Facebook videos using the C?c C?c browser.

C?c C?c is the simplest and fastest tool for downloading Facebook videos to your laptop. When watching videos on Facebook using the C?c C?c browser, the browser will automatically recognize the video file, and you just need to select your desired quality and **click the Download button** to download the video to your computer. If

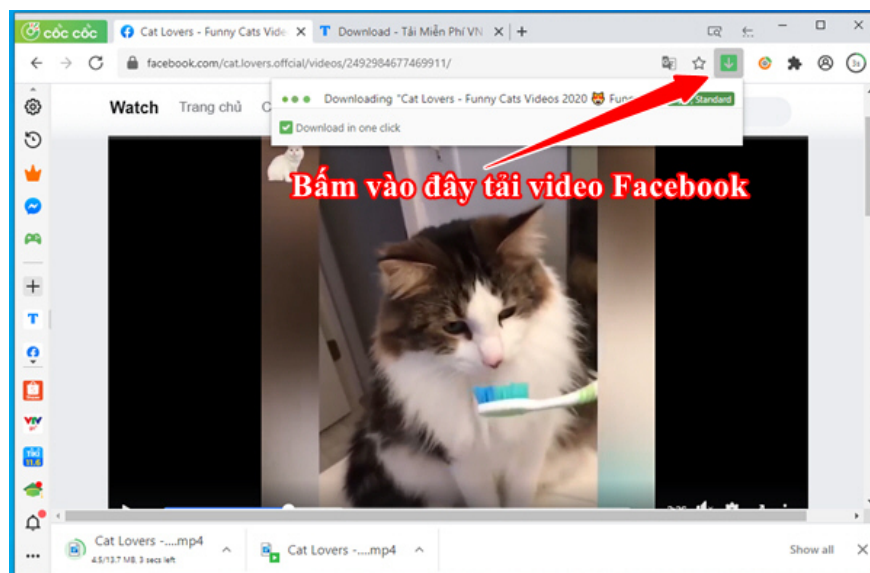

you don't have the C?c C?c browser, download it here:

Step 1: In C?c C?c , open **the Facebook video** you want to download.

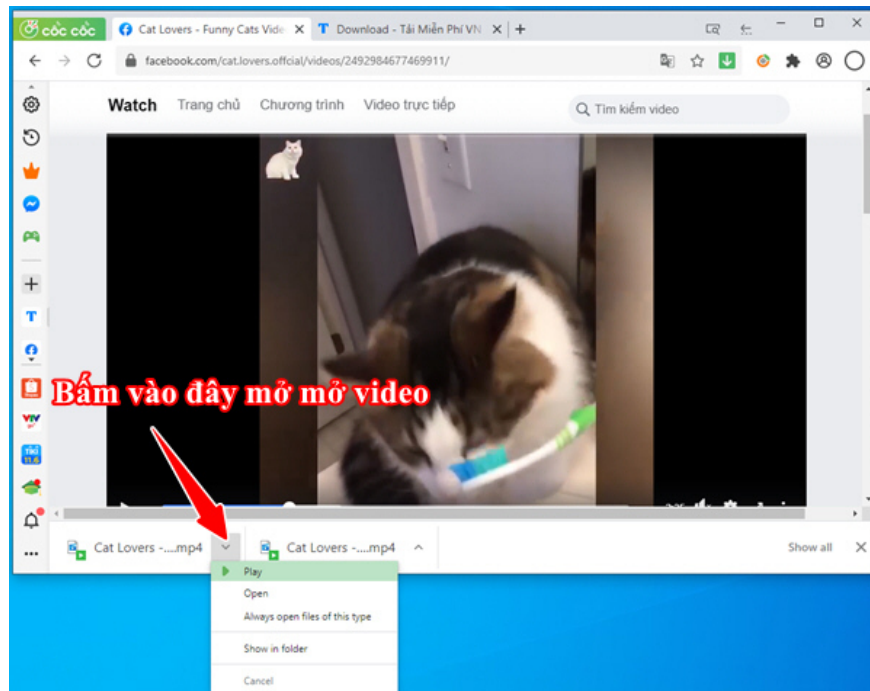

How to download Facebook videos to your computer using software

Step 2: Click on **the green arrow** as shown below to download the Facebook video. The video will be downloaded automatically.

Step 3: Click **the down arrow** to play the video once it has downloaded to your device or to open the folder where the video file is stored.

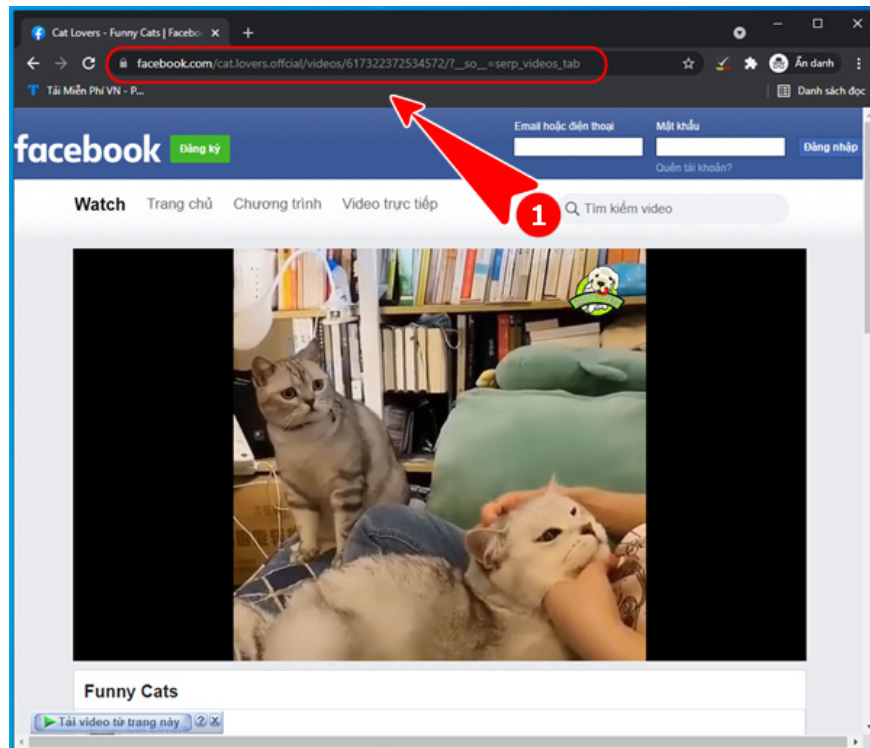

Notably, C?c C?c supports many different file formats for downloads. For example, if you only want to listen to music without watching videos, you can choose the mp3 format when downloading videos from Facebook. C?c C?c's download speed can be up to 8 times faster than normal download speeds using other tools thanks to its parallel multi-threaded download mechanism.

2. Download HD Facebook videos using IDM

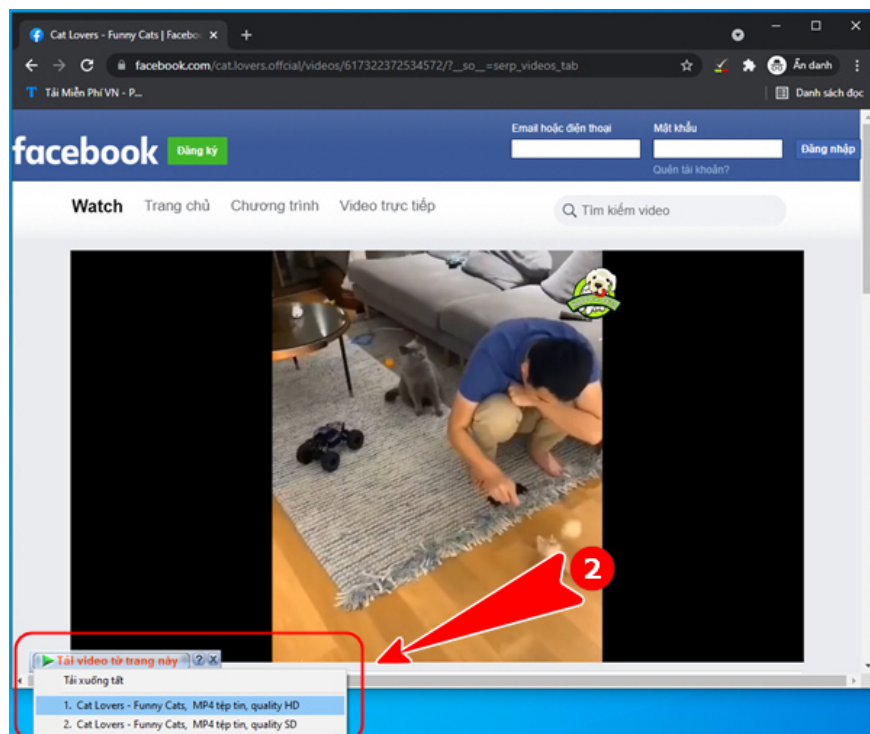

Step 1: Download the latest version of IDM here:

Step 2: In the Chrome browser , paste the Facebook video link and press **Enter** to open the video.

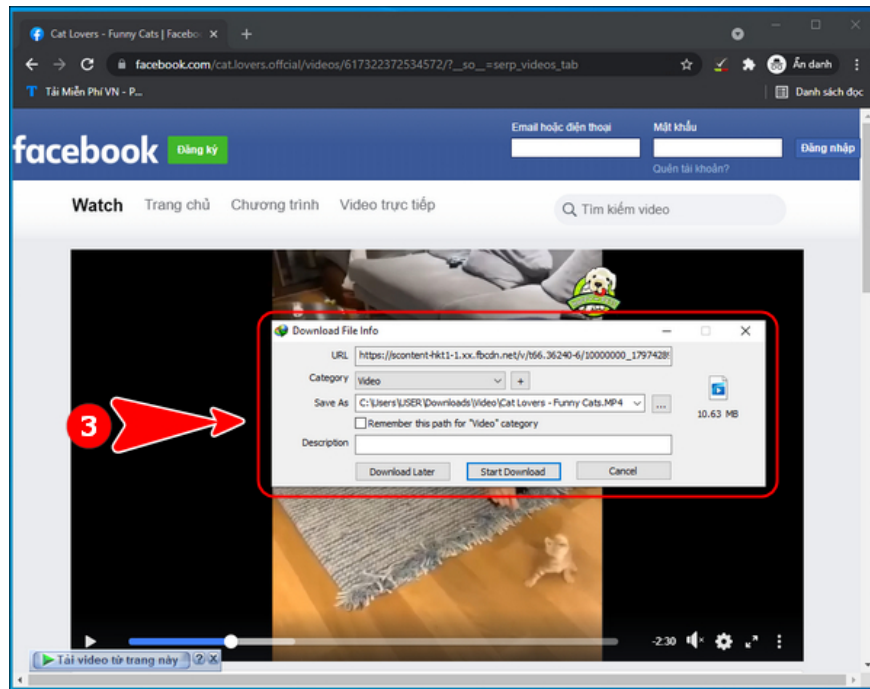

Step 3: Click on "Download video from this page" and then select the video you want to download.

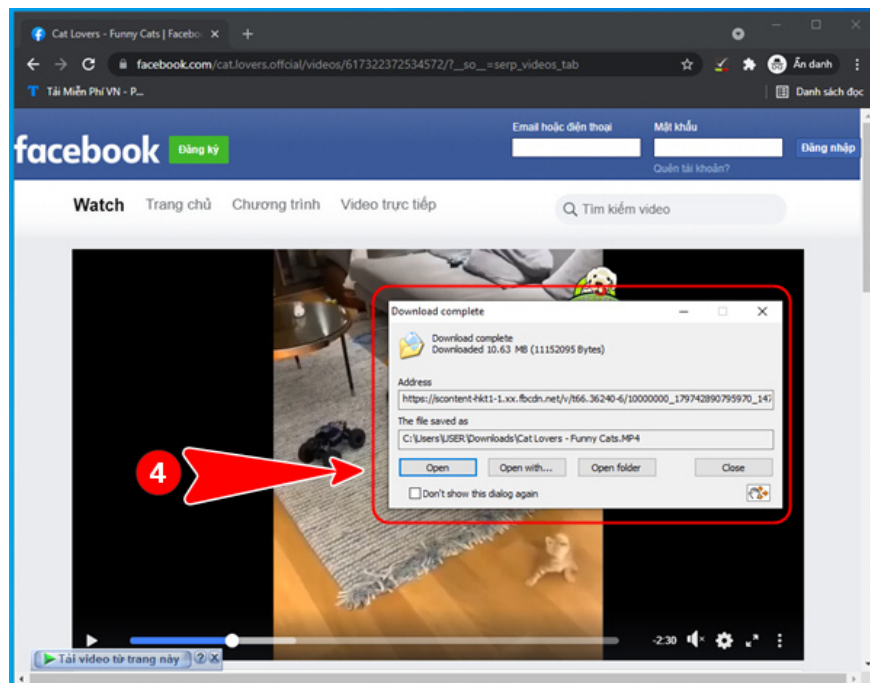

Download Facebook videos to your computer using IDM software.

Step 4: When the IDM window pops up, select the folder where you want to save the video and click **Start Download**.

Step 5. Finally, click **Open** to open the video or other options.

If you have installed IDM but it doesn't display and automatically capture links, you can refer to the guide on how to **fix the IDM not automatically capturing links error** . If IDM automatically captures download links but doesn't allow you to watch videos, go to IDM settings and disable support for Facebook video viewing in your browser. Alternatively, if you want to download Facebook videos while watching them, simply disable the automatic download link capturing function in IDM.

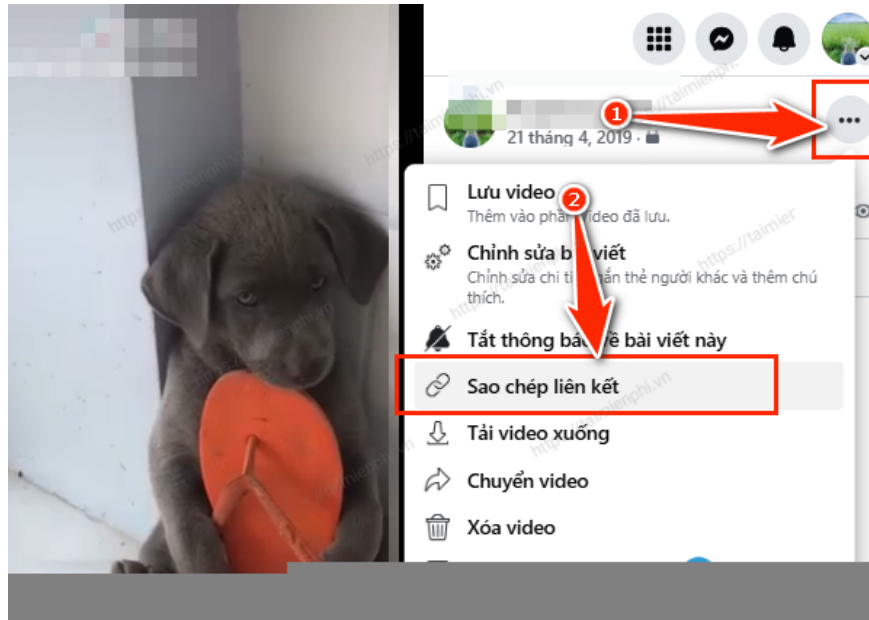

III. How to download private Facebook videos

VidSaver is a useful tool that helps you download videos from Facebook easily and quickly, especially videos shared in private groups or in private mode.

Instructions on how to download private Facebook videos using VidSaver:

Step 1: Copy the video link

- Click the **three-dot icon** or " **Share** " below the video.
- Select " **Copy link** ".

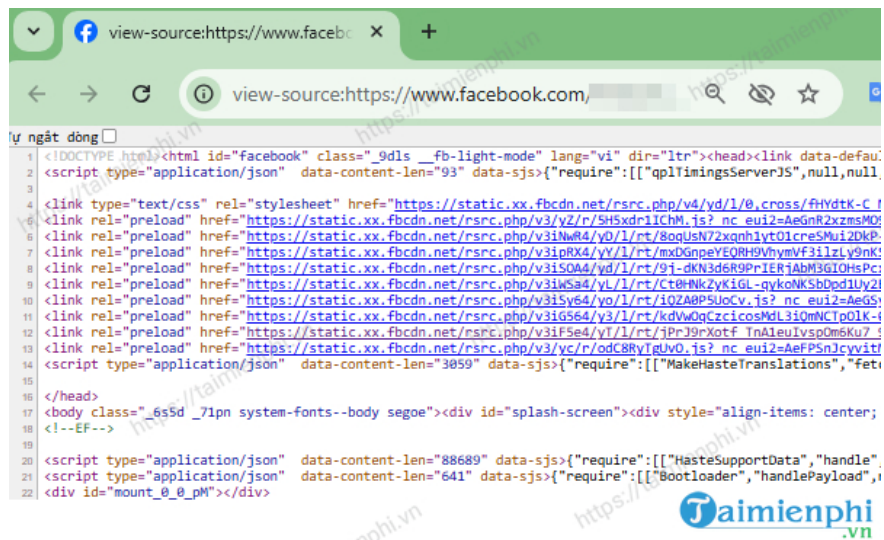

Step 2: Access VidSaver. You can quickly access it **HERE** .

Step 3: Paste the video link and click **GO** .

Step 4: View the page source code

- To download a private video, you need to get the source code of the video page. Go back to the Facebook video whose link you copied.
- Press Ctrl + U (Windows) or ? + Option + U (Mac).
- Copy all the source code displayed on the screen.

```
