

# How to download games, applications blocked in Vietnam on Android phones

Currently there are a number of blocked games and applications in Vietnam that cannot be downloaded and installed. This is due to geographic and country differences, so you need to find other ways to be able to download blocked games and applications in Vietnam. TipsMake will guide you through this method.

Currently there are a number of blocked games and applications in Vietnam that cannot be downloaded and installed. This is due to geographic and country differences, so you need to find other ways to be able to download blocked games and applications in Vietnam. **TipsMake** will guide you through this method.

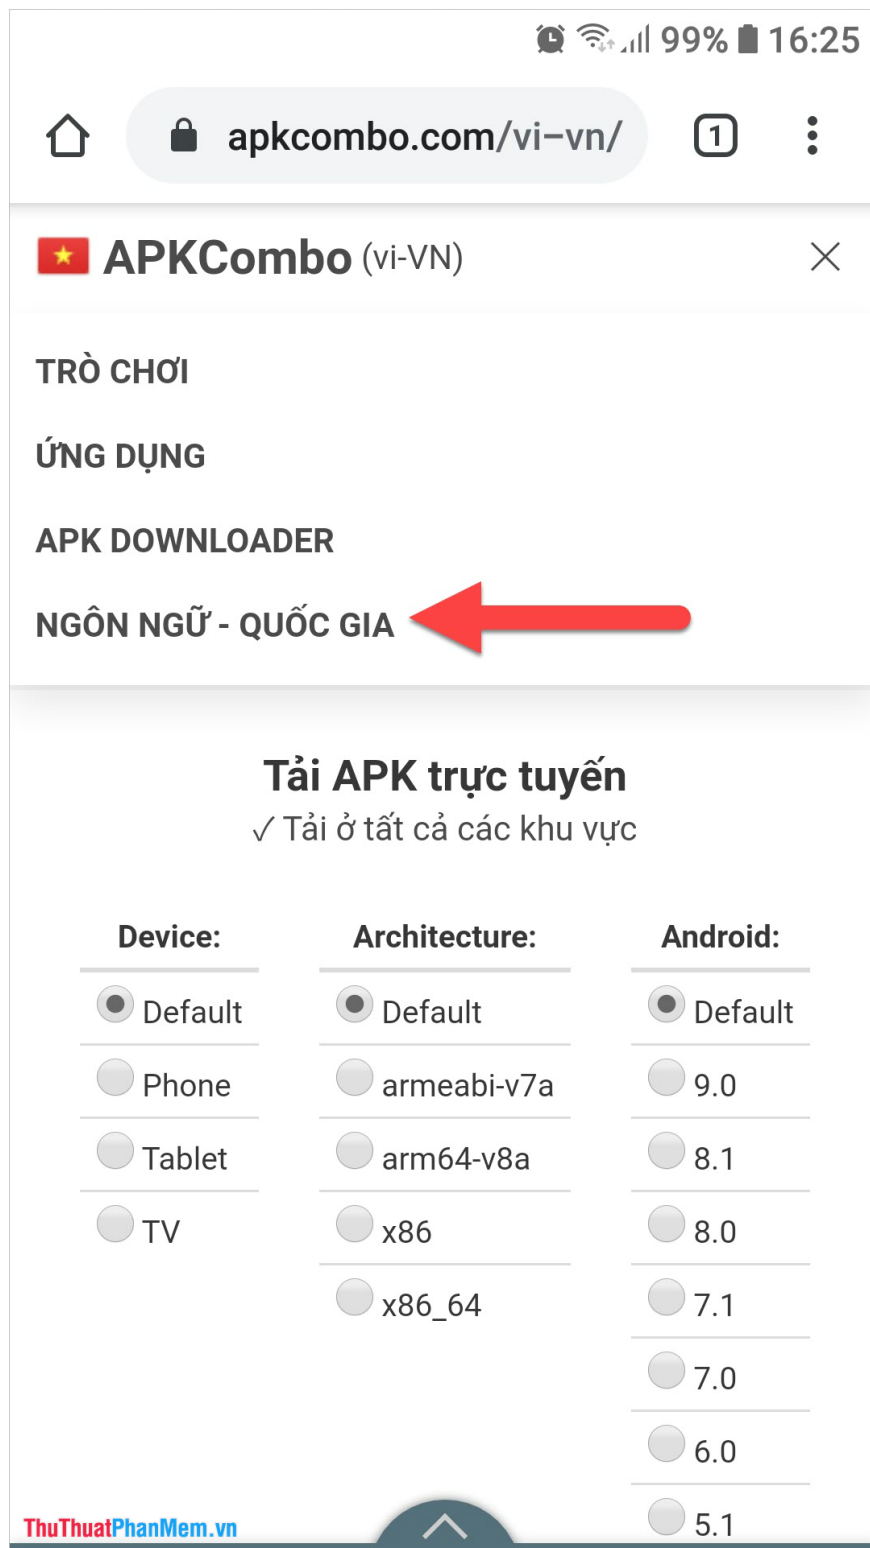

To download games or applications blocked in Vietnam on your phone you need to use third-party software. With this method, you can get the link to download the game directly from Google Play (but with location other than Vietnam), so there is no need to worry about the apk file will have malicious code and corrupt your phone. friend.

First you need to access the following link: <https://apkcombo.com/en-us/apk-downloader/>

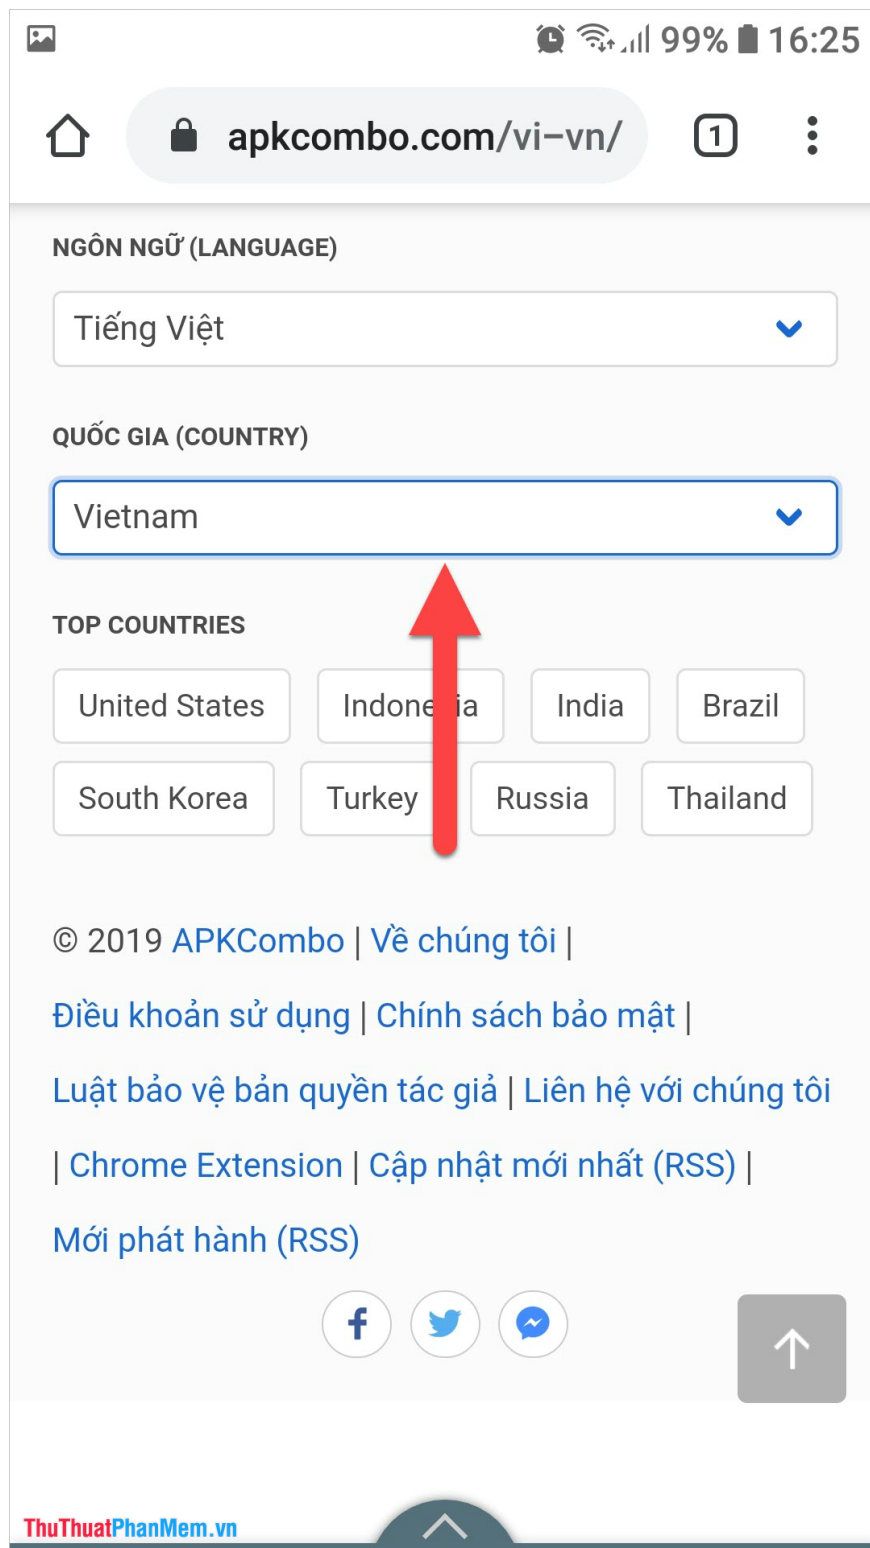

This is the homepage of APKCombo, is a huge apk store with more than 8 million games and applications on Android. This store was created by Harry Phi and Johnny Nguyen in May 2018 - two people who love Android and technology.

When accessing the link above, the seller will see the website interface in the top right corner with three dashes, you click on that icon to open the site options section.

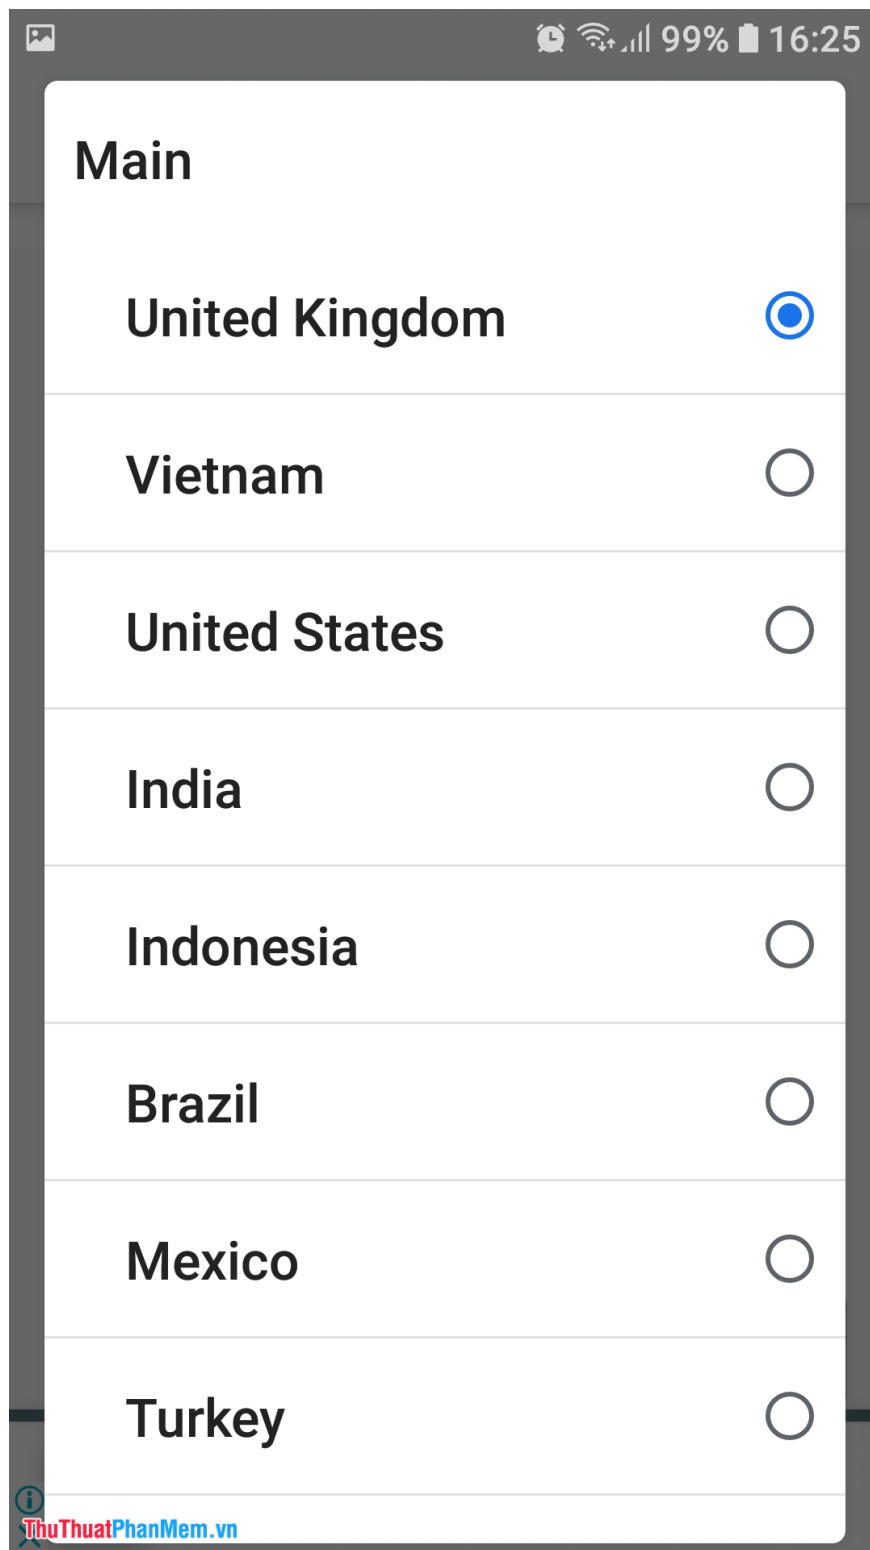

Next you will see a list like the image below. You continue to click on the **LANGUAGE - NATIONAL LINE** .

Next, you change the **NATIONAL (CONUNTRY) section** to another country that can download games or applications that are not allowed in Vietnam.

You can choose **United States** (USA) because usually the United States of America will allow a lot of applications and games and rarely have restricted products geographically. So you can conveniently choose for this country.

After selecting the country, click the **Name** or **package name** or **Google Play URL** , you can search for the game or app by name or you can paste the link of the game app on Google Play but it is blocked in Vietnam .
