

How to download Google Drive to your computer and phone is simple and fast

Show you how to download Google Drive tool on Android phone, iPhone, iPad and computer. In addition, the article also instructs how to sync data on your computer to Drive. Click to see details!

Google Drive is too familiar to users because of its ability to store data and a series of other useful features that this tool brings. In this article, I will guide you how to download Google Drive to your computer and phone simply and quickly.

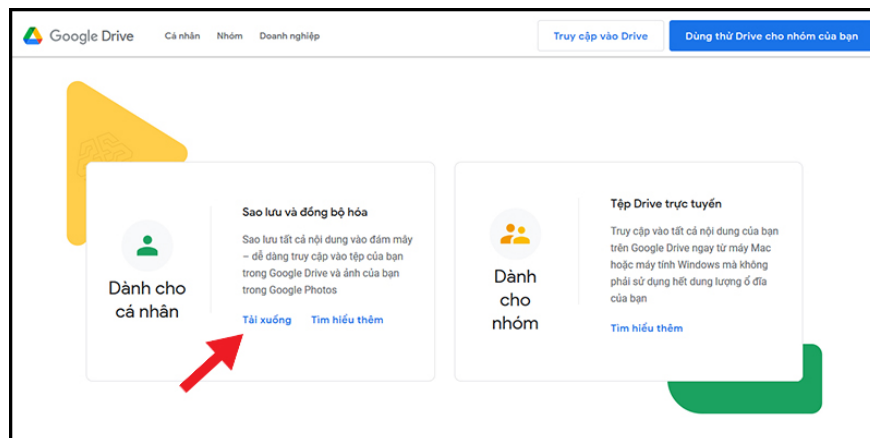

1. Instructions on how to download Google Drive to your computer

Software information:

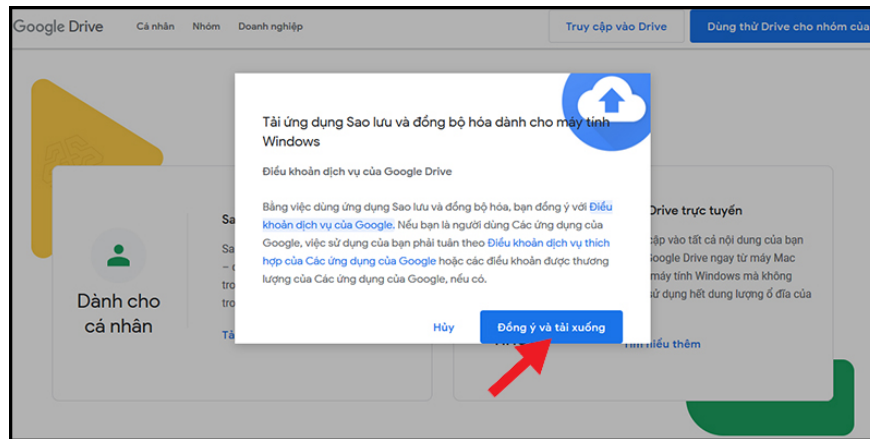

1. Publisher: Google LLC
2. Size: 60.5MB
3. Platform support: Windows

Step 1: Download Google Drive

Click [HERE](#) to go to the software download website> Click Download in section For personal use.

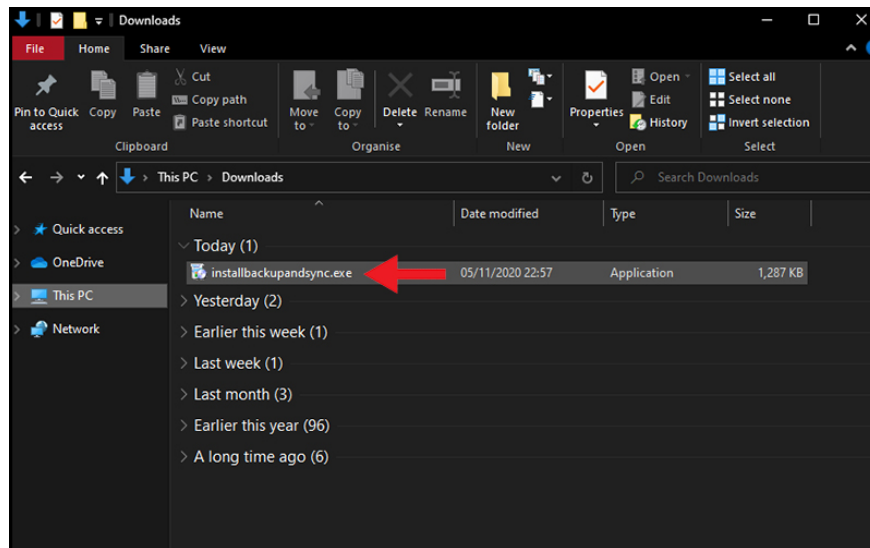

Click Accept and download.

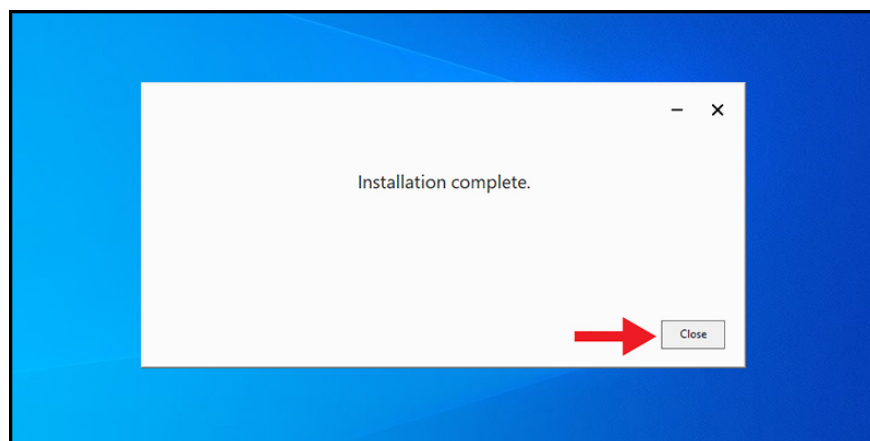

Step 2: Install the software

Go to the Downloads folder > Double-click on the installbackupandsync.exe file to proceed with the installation.

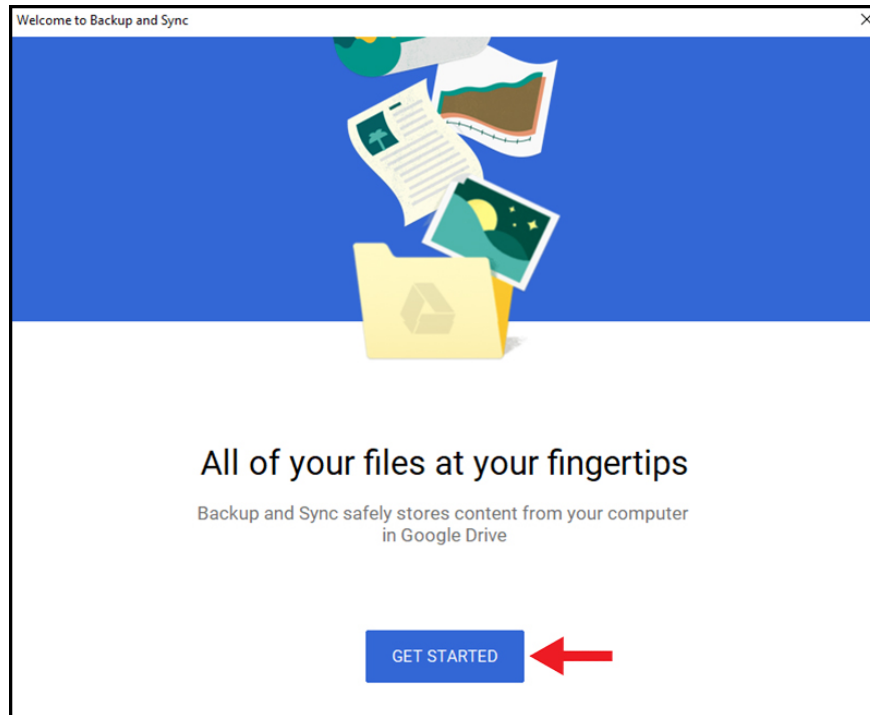

You wait a few seconds for the software to install and then click the Close button.

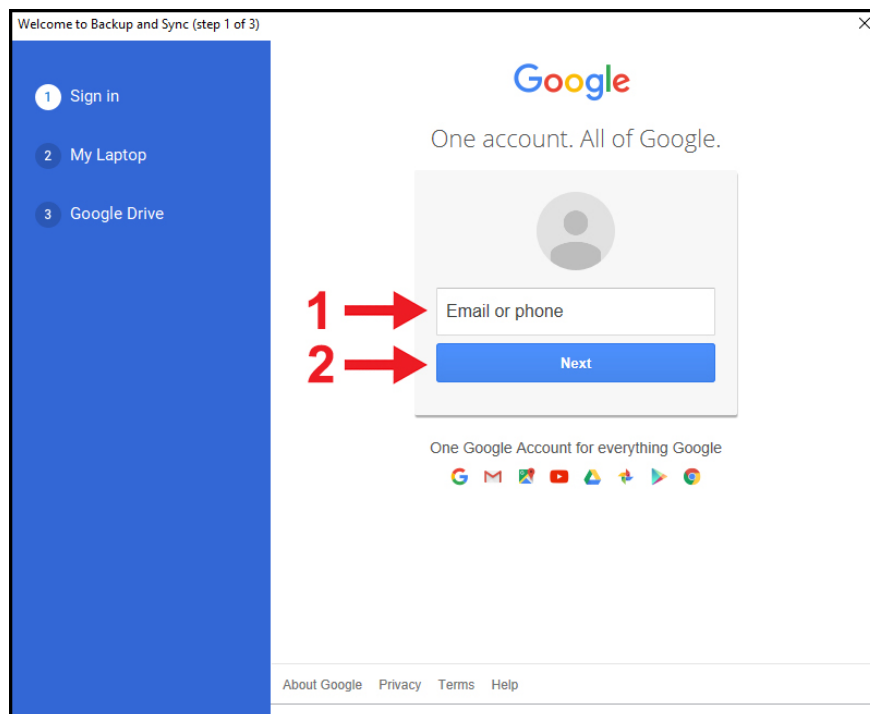

The installation is complete

Click the Get Started button.

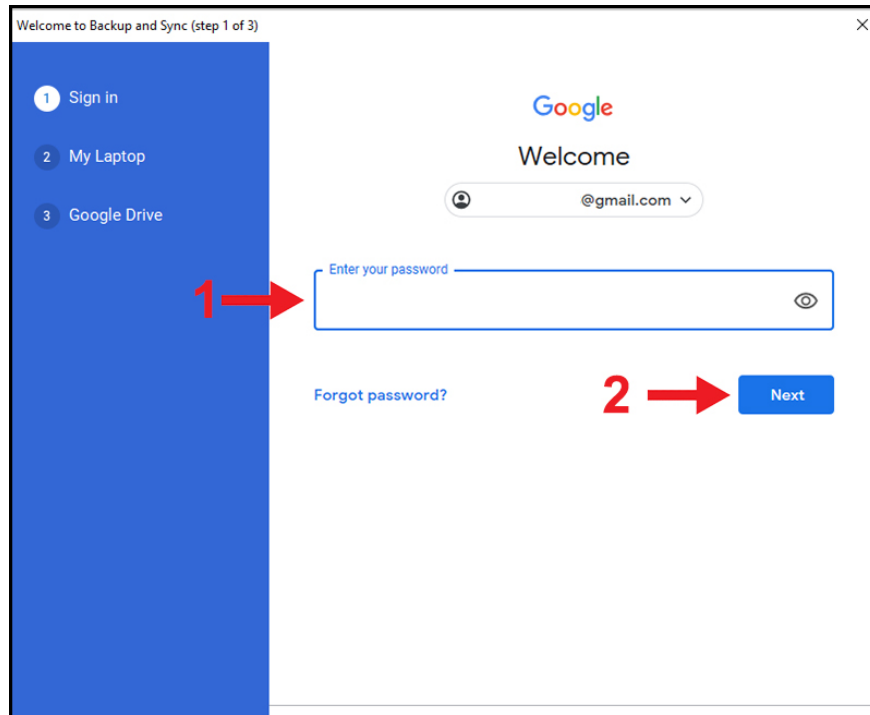

Start syncing

Enter your Google account in the box Email or phone> Click Next.

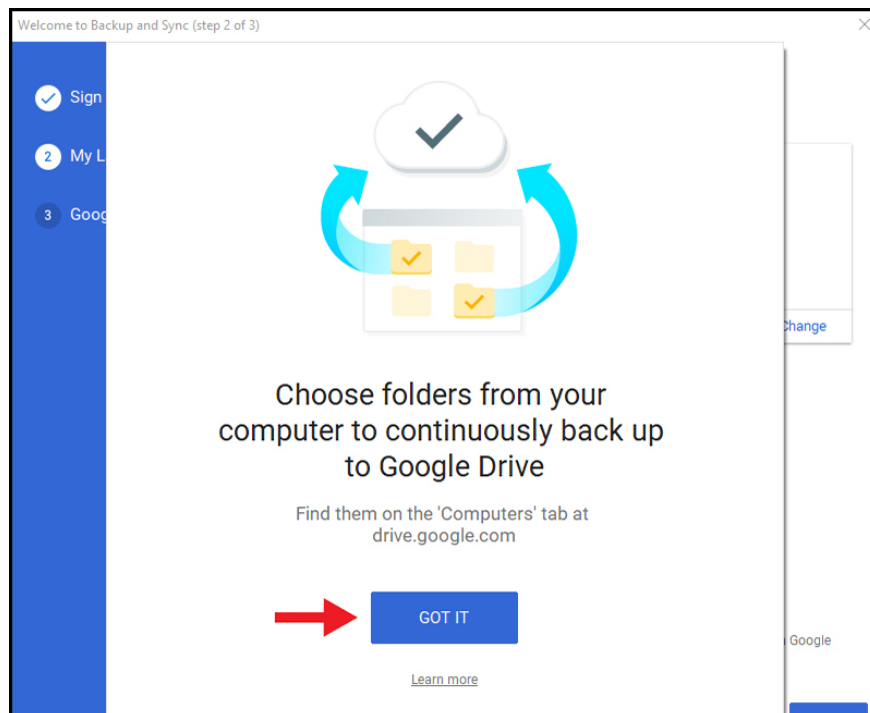

Enter your Google account

Enter your password > Click Next.

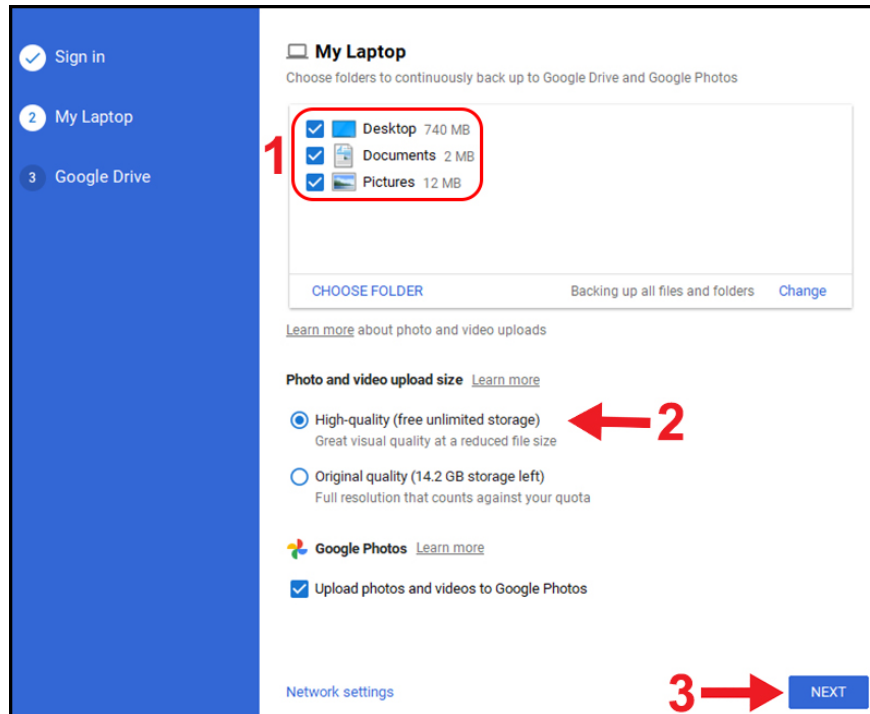

Click Got it.

Next, you need to base on your needs to choose whether to sync Desktop, Documents and Pictures folders to Drive or not. If you don't store important data or don't use these folders often, you can deselect.

For pictures and videos, you should choose High quality to store as high quality. If you use the Google Photos tool, check the box Upload photos and videos to Google Photos to store pictures and videos in Google Photos.

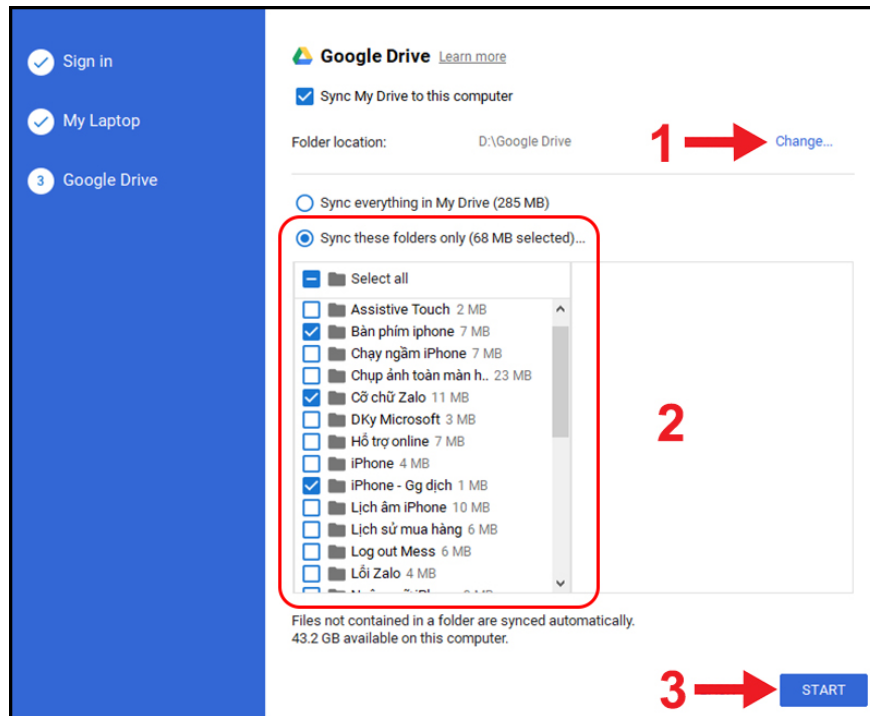

Click Next to continue.

In the last part, you choose where to save Drive on your computer by clicking the Change button> Choose where to save.

Choose Sync these folders only> Select the important folders you want to sync. This function will synchronize the folders you choose, not all folders, this is to limit the overload of space on the computer.

Click Start to complete the installation.
