

How to download Japanese Allied Forces APK

Arena of Valor or Lien Quan Mobile is a strategy game with diverse and attractive game modes. However, each country will have a different version. In the article below TipsMake will guide you how to download the Japanese League APK in the simplest way.

Suppose if the area where you live and work does not have Lien Quan mobile (or Arena of Valor - AoV) available. Continue reading TipsMake's article below to learn how to download Japanese Alliance APK.

How to install Japanese Lien Quan APK file

Before we get started, the first step we need to do is configure our Android device to allow installation of apps from unknown sources.

To do this, go to **Settings** => **Security** => Unknown sources . By default this option is disabled, your task is to enable this option to continue the steps.

Settings

User credentials

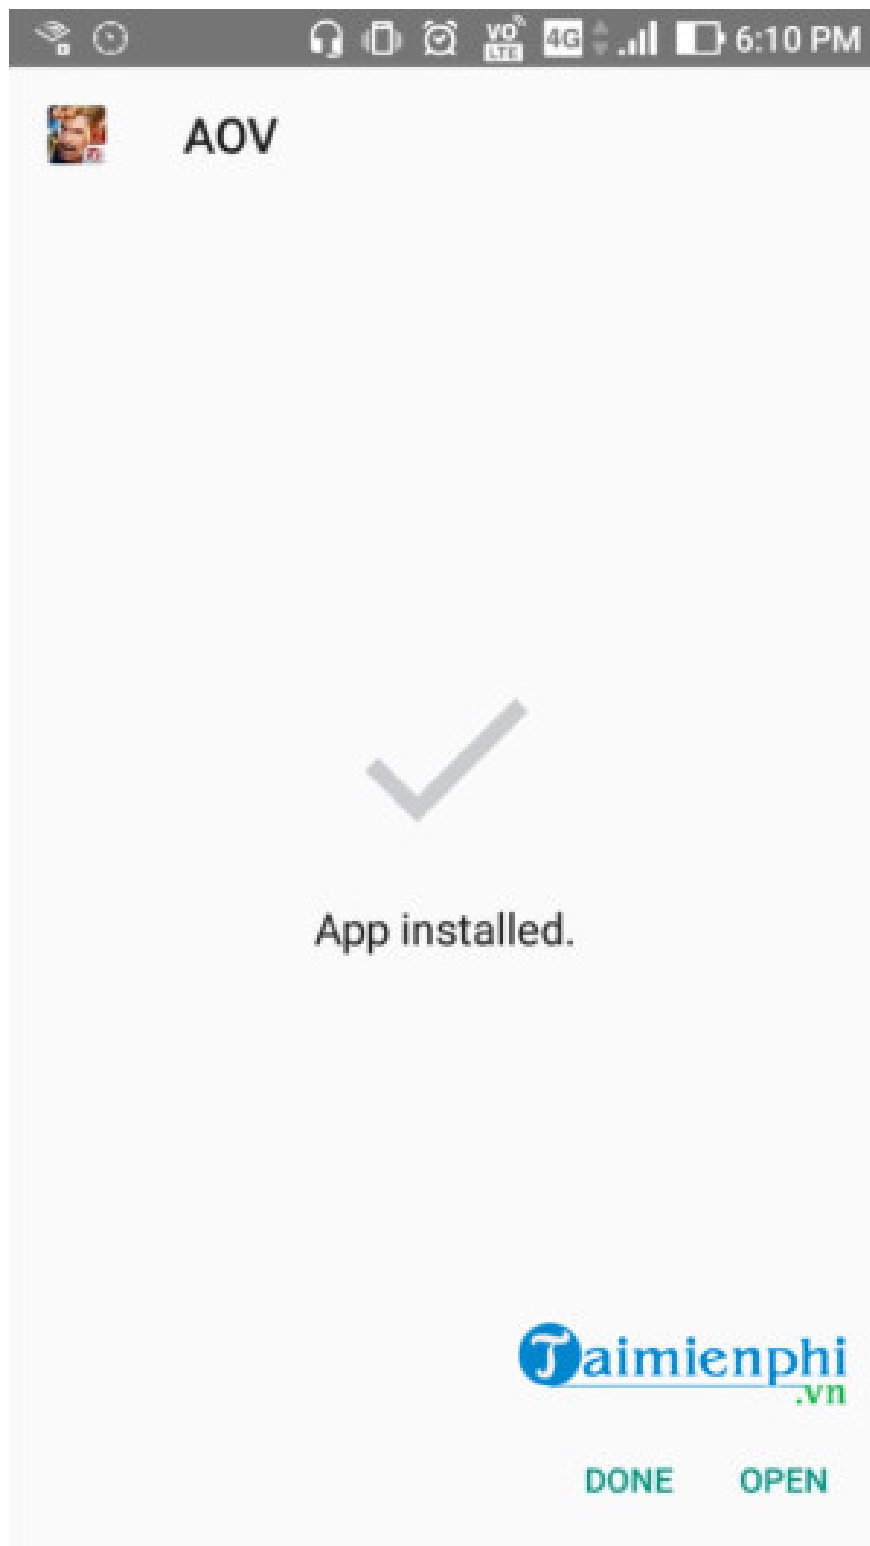

View and modify stored credentials

The next step is to select the Japanese Alliance APK file that you have downloaded (this file you can download at the bottom of the article). At this time, a warning will appear on the screen and ask if you want to install it or not.

Confirm your actions to begin the installation process. In case you cannot find the Japanese League APK file, you can search for the file in the system / file manager folder.

After the installation process is complete, you can access and experience the Japanese League game on the home screen or on the application menu.

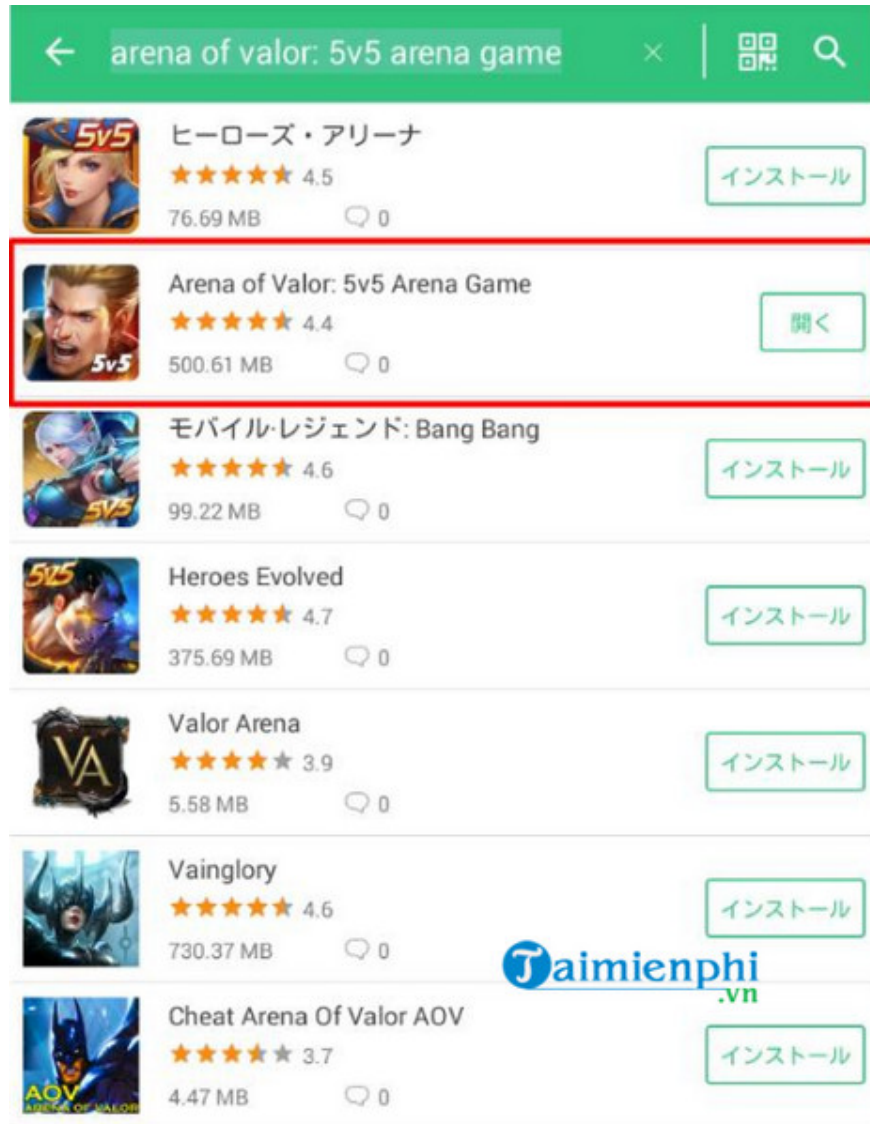

Instructions for downloading Arena of Valor: 5v5 Arena Game using APKPure

APKPure download link:

To download the Japanese Alliance APK file, first download the application called APKPure. This application is used to download APK files. After installing APKPure, open the application and enter the search **Arena of Valor:5v5 Arena Game** into the Search box to find and download the Japanese League APK file.

Common errors when playing Japanese League game

Error 1: Server is not responding

Bug fix: This error occurs because the server detects that the area you are living in does not have the game available and does not respond, not allowing the game to be played. To fix this error, the solution is to use VPN tools to bypass geo-location restrictions.

Error 2: Requires app download through app store

Bug fix: The cause may be due to the APK file. TipsMake recommends that you do not download files from unknown sources.
