

# How to Download MATLAB on a Mac

Do you having trouble downloading MATLAB to your Mac? MATLAB is a programming software that most undergraduate engineering students will download and use during their college career. This article will explain step-by-step how to download...

Part 1 of 2:

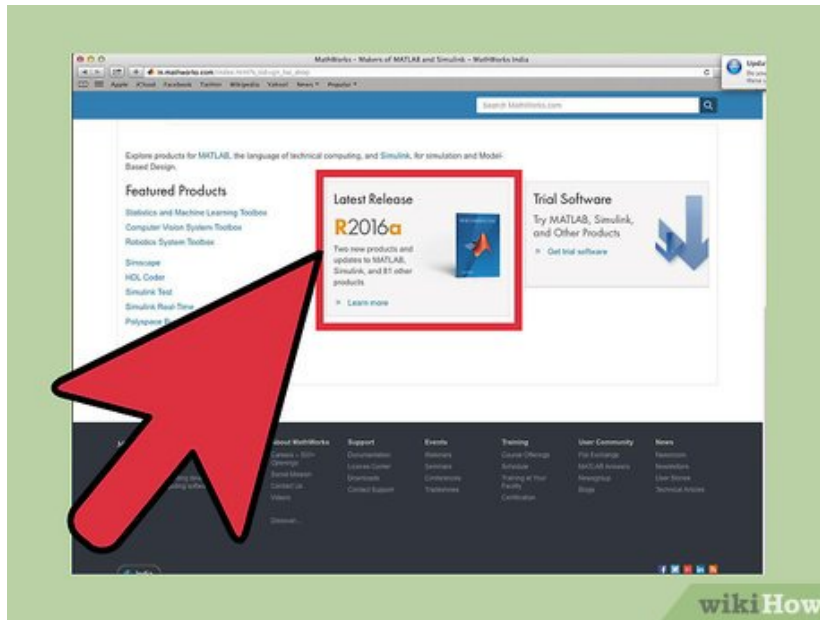

## Downloading

1.

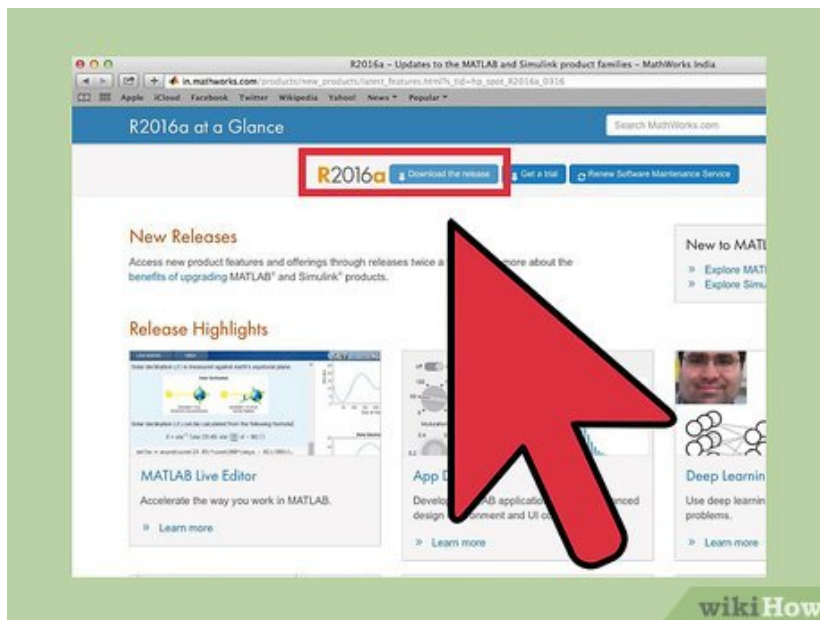

Go to [www.mathworks.com](http://www.mathworks.com).

2.

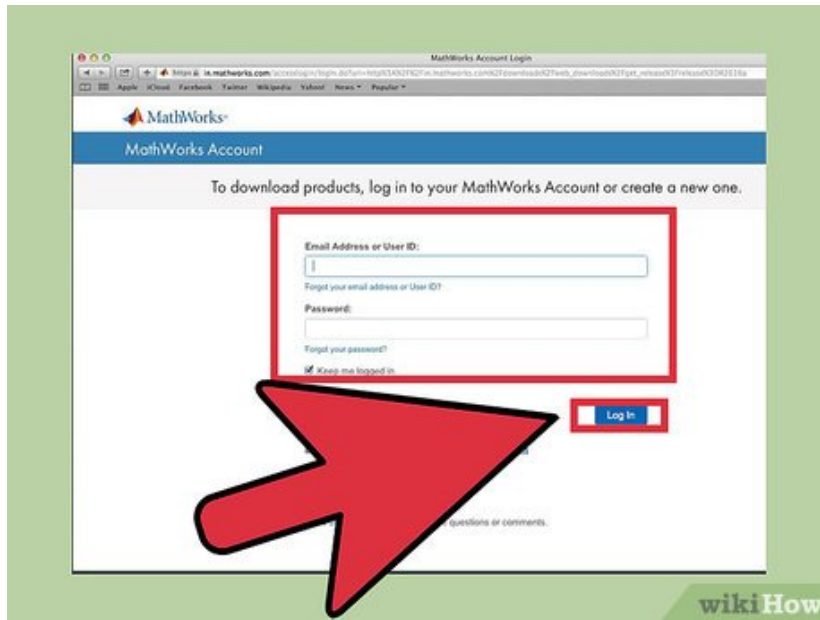

Scroll down to "Latest Release R2015b" and click the link **>> Learn more .**

3.

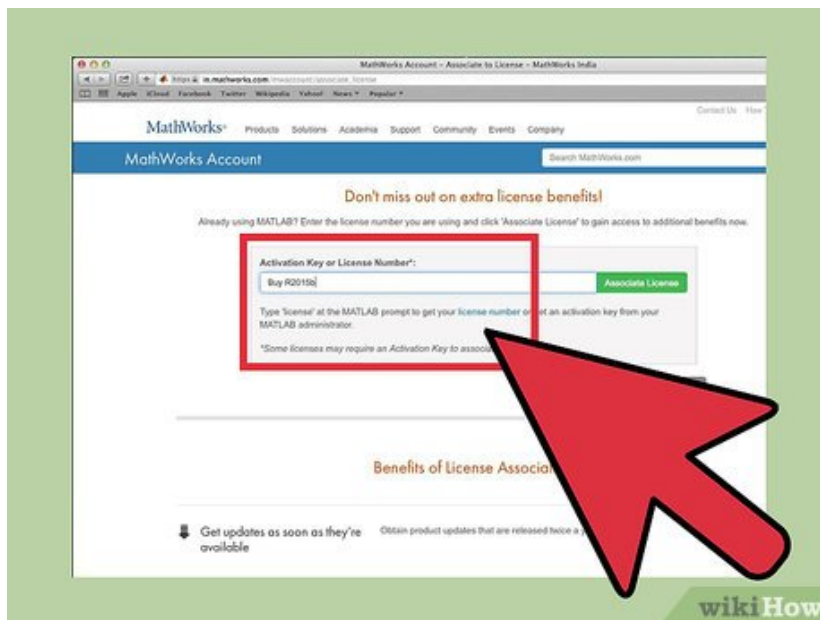

Click the **Download this release .**

4.

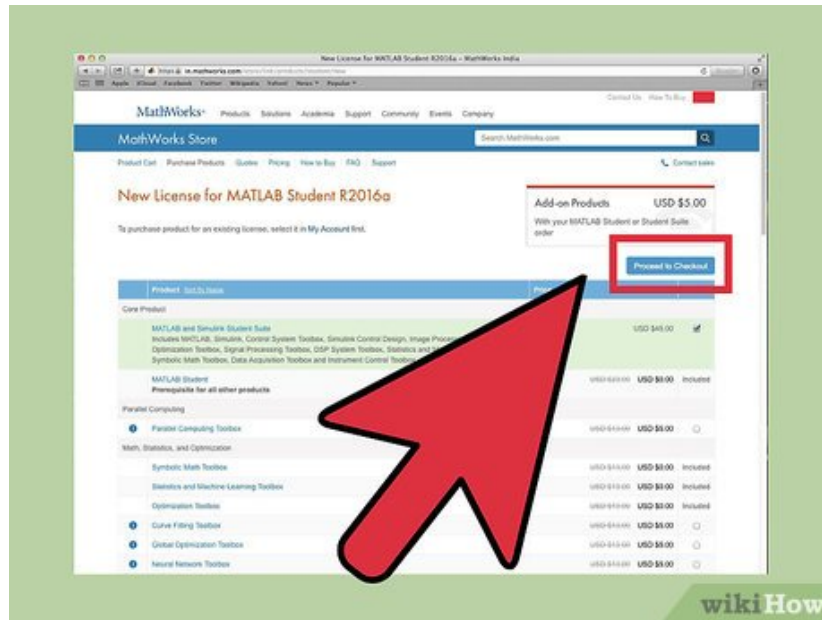

**Create a MathWorks account and verify your account.**

5.

**Under "My Licenses" select 'Buy R2015b'.**

6.

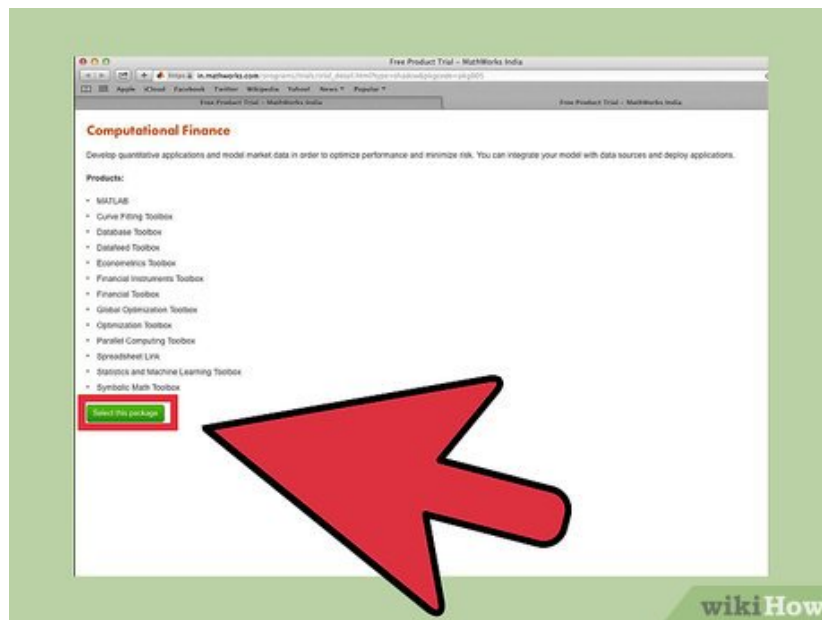

Check the product 'MATLAB and simulink Student Suite' and then **Proceed to Checkout**. Complete your purchase.

Part 2 of 2:

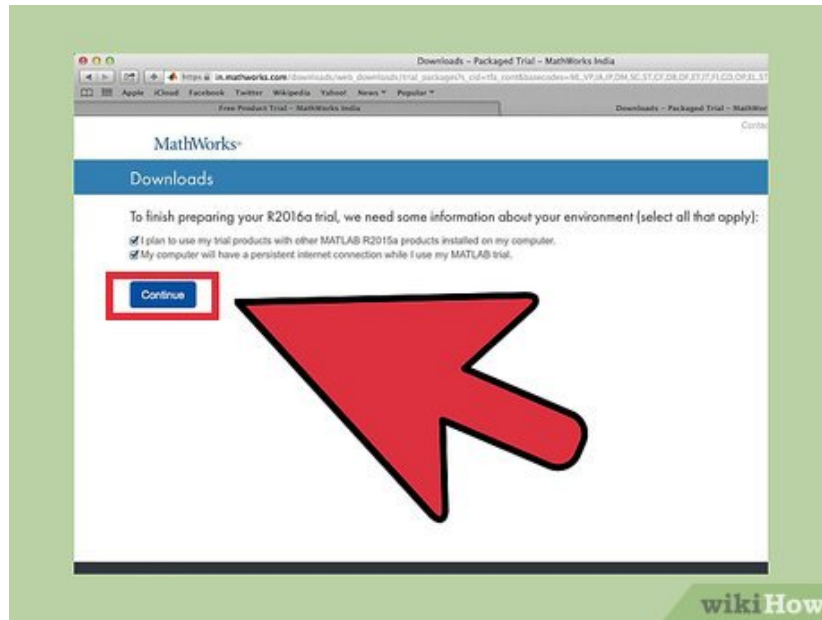

## Installing

1.

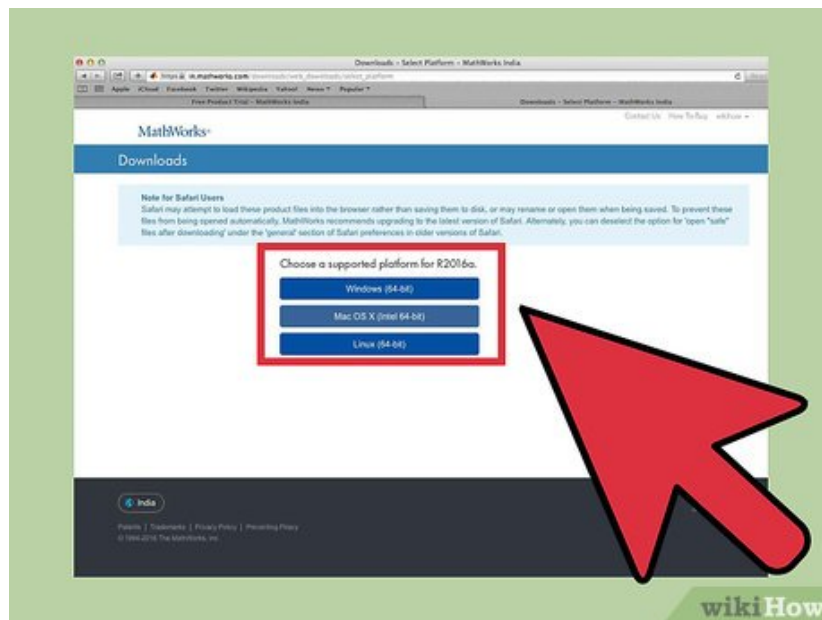

Select 'Download Your Products Now'.

2.

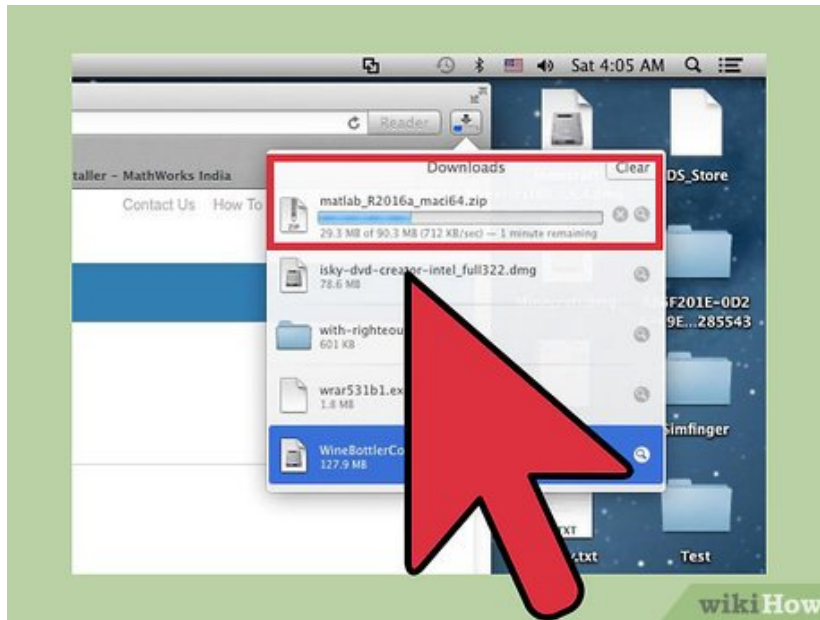

Click the blue box with the text **R2015b Student Version** .

3.

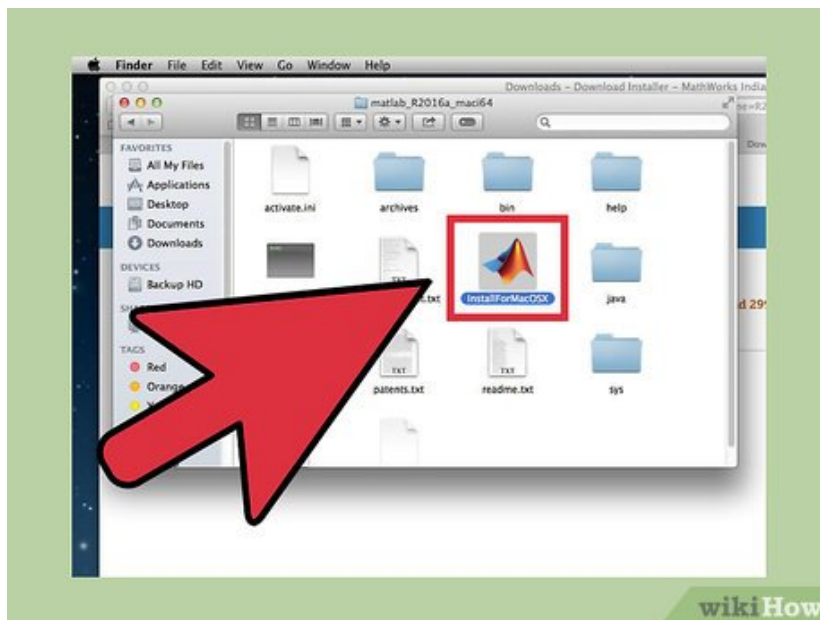

Select **Mac OS X (Intel 64-bit)** .

4.

Let the zip folder download and once it is finished extract the zip folder.

5.

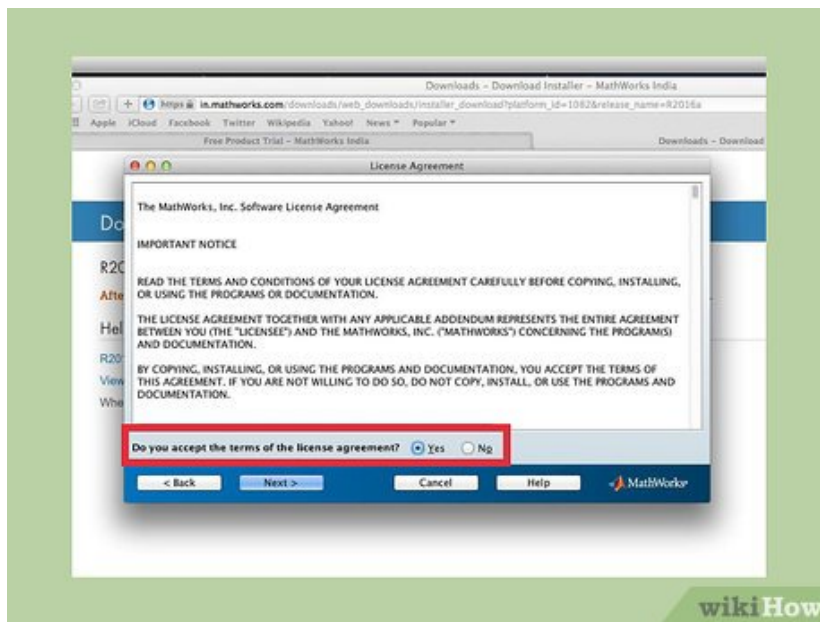

Open the folder, and double click `IntallForMacOSX` .

6.

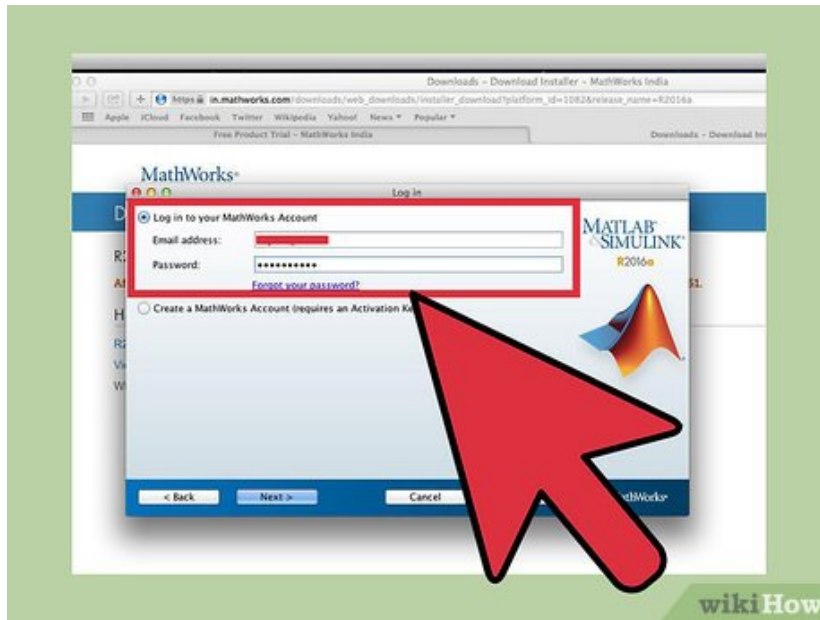

Choose the 'Log in with a MathWorks Account' option, and click **Next**.

7.

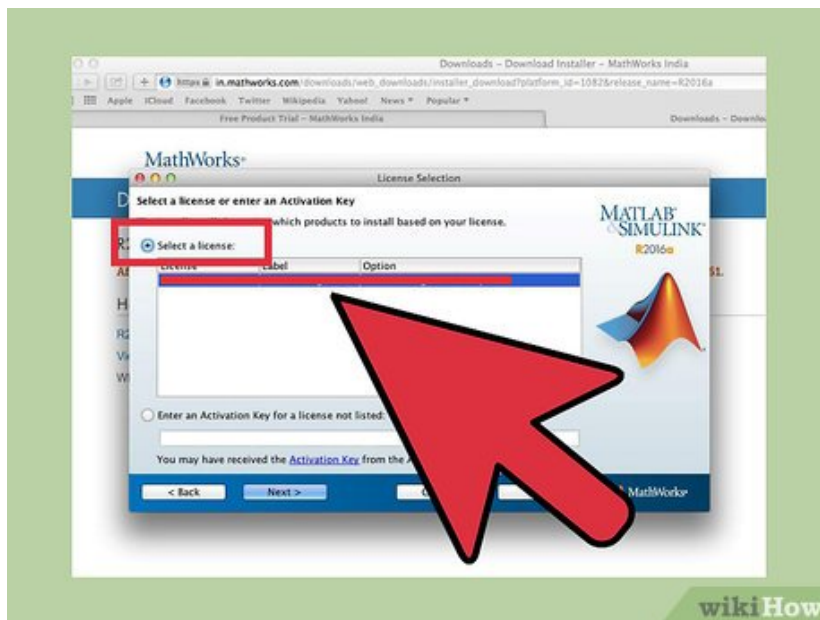

Accept the terms of the license agreement, and click **Next**.

8.

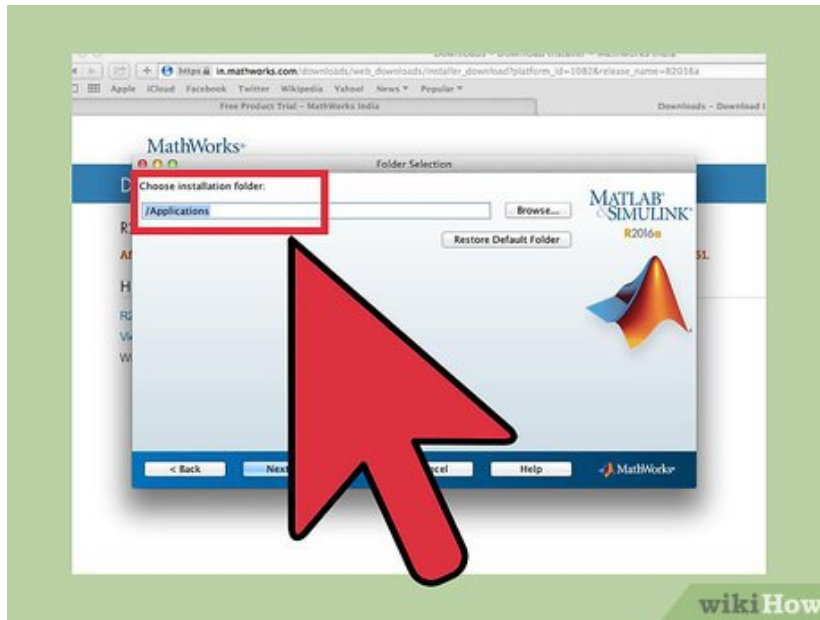

Log into your account, and click **Next** .

9.

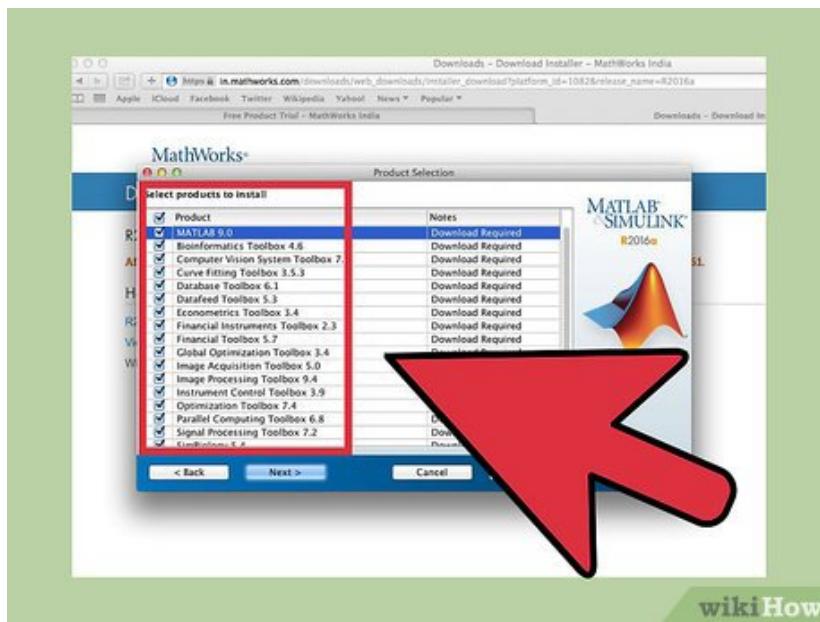

Select the License you have purchased, and click **Next** .

10.

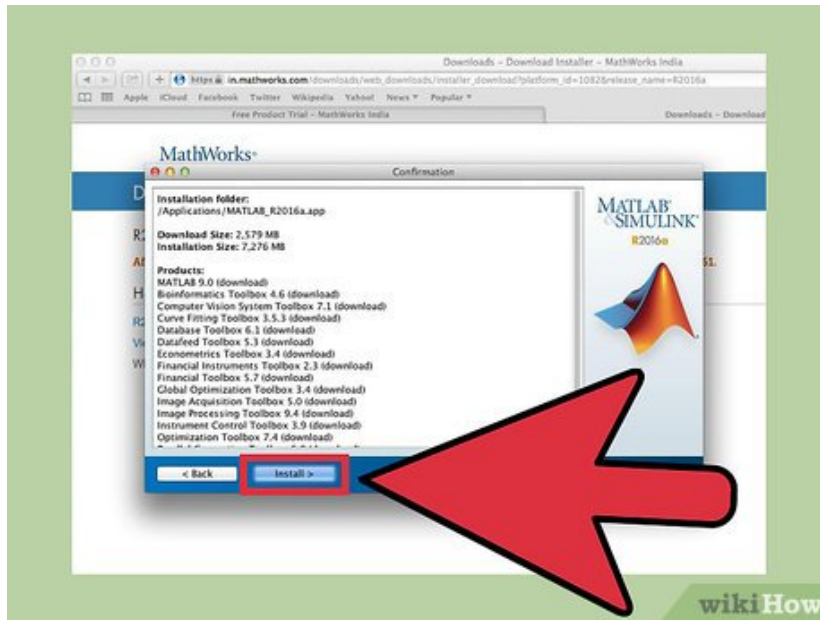

Choose the location of the download, and click **Next** .

11.

Select All of the Products to install them all. Then, click **Install** .

12.

**Confirm selection.** You have successfully installed MATLAB on your Mac.
