

How to Download Microsoft Publisher

This wikiHow article shows you how to install Microsoft Publisher on your computer. Publisher is similar to Microsoft Word but focuses more on the layout and design of pages. While there is a free trial option, Publisher is not free...

Method 1 of 2:

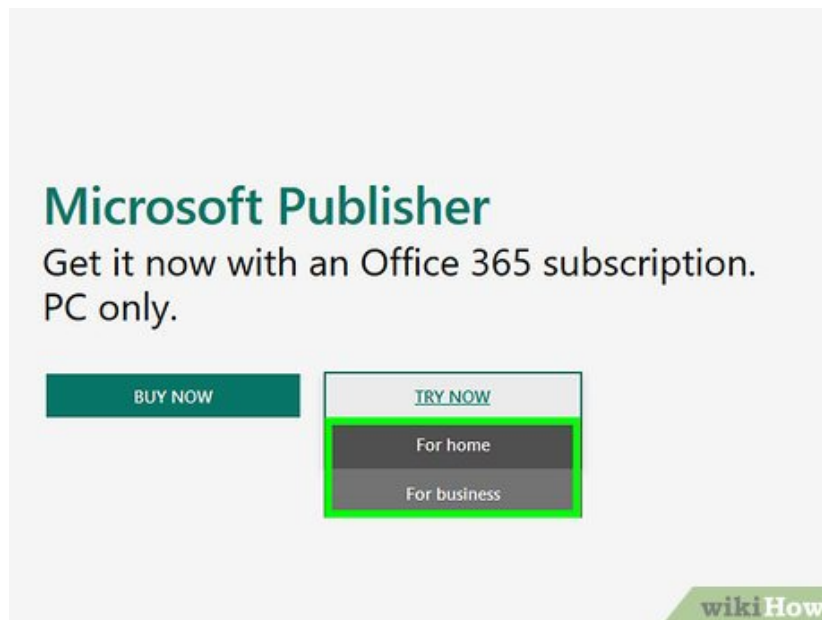

Using the Free Trial

Go to the Microsoft website. To access the free trial of Microsoft Publisher, find it on the company's website here: <https://products.office.com/en-us/publisher>

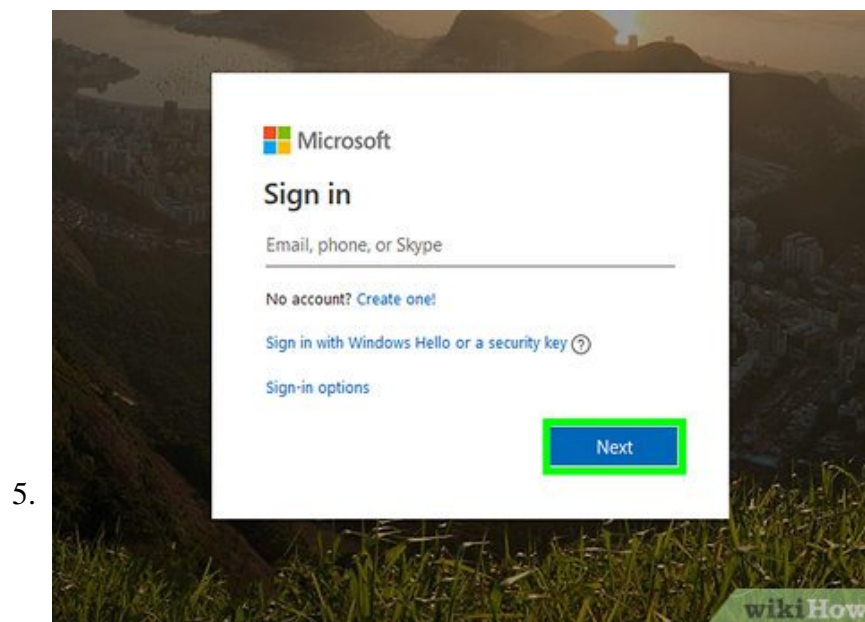

Hover over **Try Now**. In the middle of the page, you will see a **Try Now** button that is white with green text and border.

Click **For home** or **For business**. Select the option that makes the most sense for your situation. Most users will probably want the software for home use.

Click **Try 1-Month Free**. Microsoft Publisher is included in a trial of Office 365, which also includes Word, Excel, PowerPoint, Outlook, and Access. Click on the green button to proceed with the free trial.

Sign in to your Microsoft account. Enter the email address and password associated with your account to sign in.

1. If you don't have an account, click the **Create one!** button and set up an account. You will be asked for an email address, password, and your name.

Add your address. Click the **Add profile address** button to add your address to the account, then click **Next**. You will then have to confirm your address and click **Save** when you're done.

8.

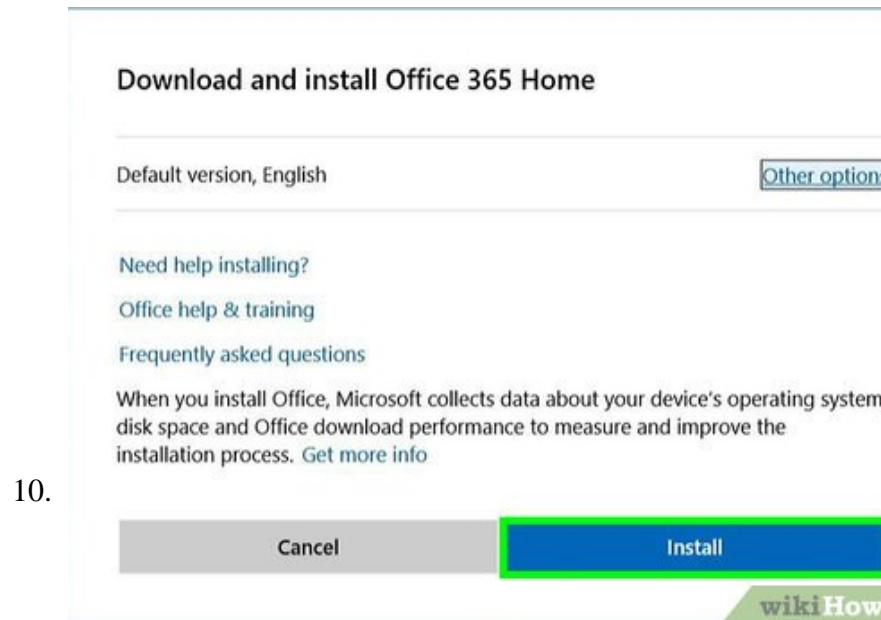

Click **Subscribe**. You will now see an overview of your free trial and the subscription in place after the free trial is up. Make sure you understand what you're agreeing to before you click **Subscribe**.

9.

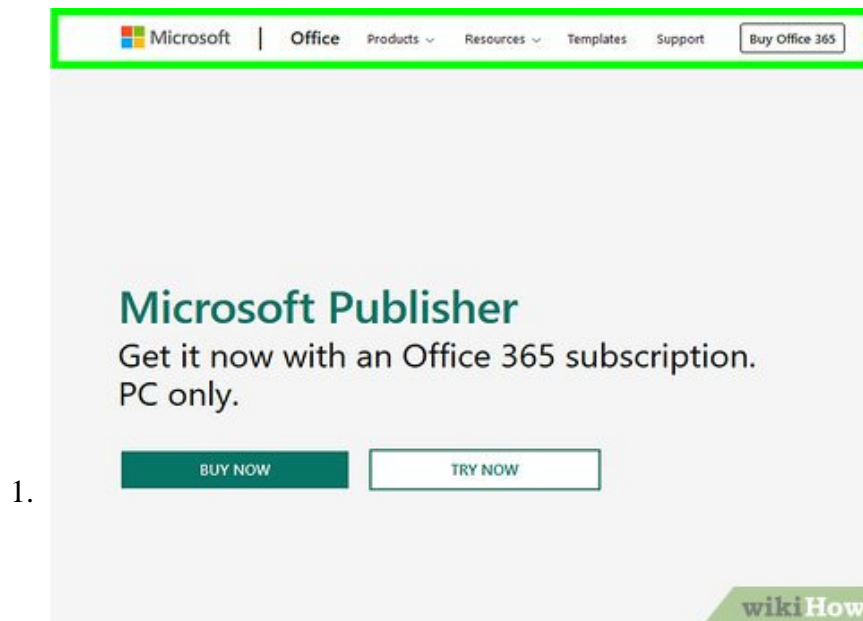

Click **Install Office**. You will now be taken to a page titled **Office 365 Home**. You'll see an option to install Microsoft Office, which includes Publisher.

Click on **Install**. You'll see a pop up with a blue **Install** button that you'll have to click to initiate the download process.

Method 2 of 2:

Buying Microsoft Publisher

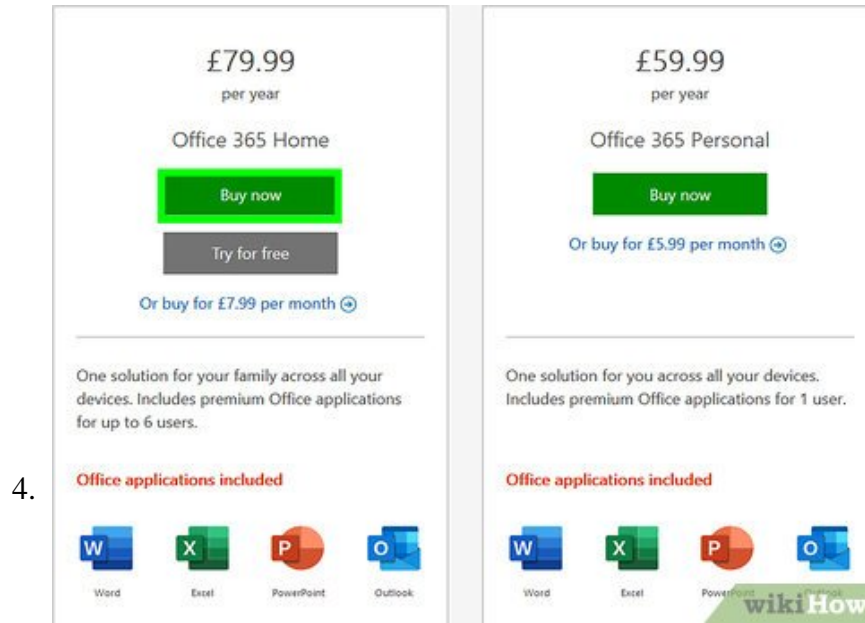

Go to the Microsoft website. To purchase Microsoft Publisher, visit the company's website here: <https://products.office.com/en-us/publisher>

Hover over **Buy Now**. In the middle of the page, you will see a **Buy Now** button that is green with white text.

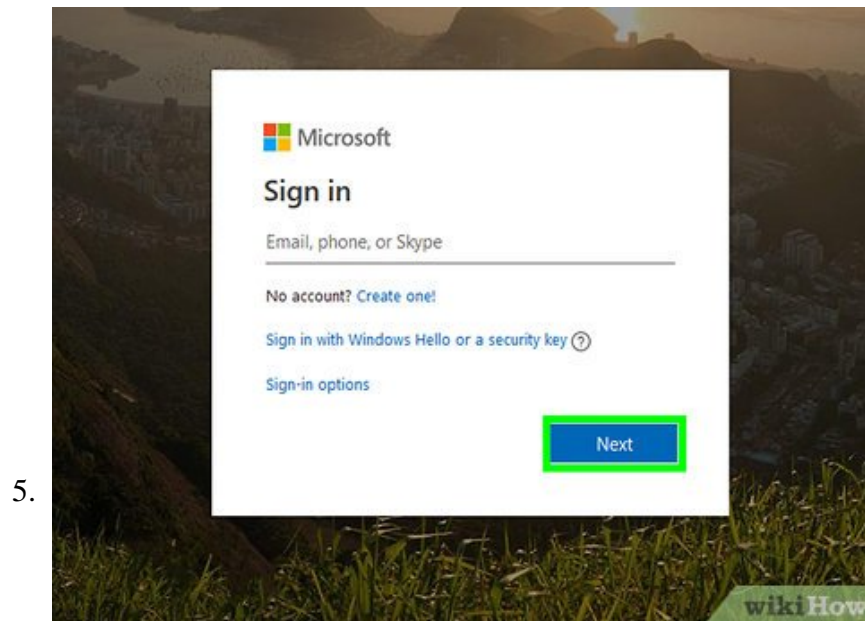

Click **For home** or **For business**. Select the option that makes the most sense for your situation. Most users will probably want the software for home use.

Click [Buy Now](#). There are three purchase options to choose from: Office 365 Home at \$99.99 per year (for up to 6 users), Office 365 Personal at \$69.99 per year, and Office Home & Student for \$149.99 (one-time purchase). However, Office Home & Student does not include Microsoft Publisher, so make sure not to purchase this option. Review the options and the services included in each option and choose the one that works best for you.

1. The Office 365 Home and Office 365 Personal options also offer monthly subscriptions instead of yearly. Simply click the monthly payment option instead if this is your preference.

Sign in to your Microsoft account. Enter the email address and password associated with your account to sign in.

1. If you don't have an account, you can set one up by clicking the **Create one!** button. You will be asked for an email address, password, and your name.
