Select a hyperlink.

The game will automatically download.

Method 3 of 4:

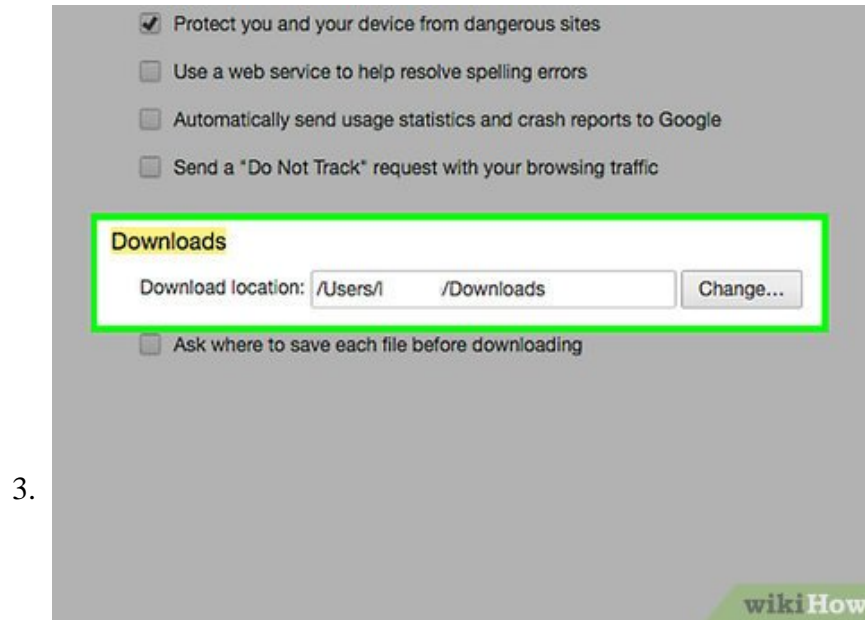

If you want to download games to your PC, not iOS device

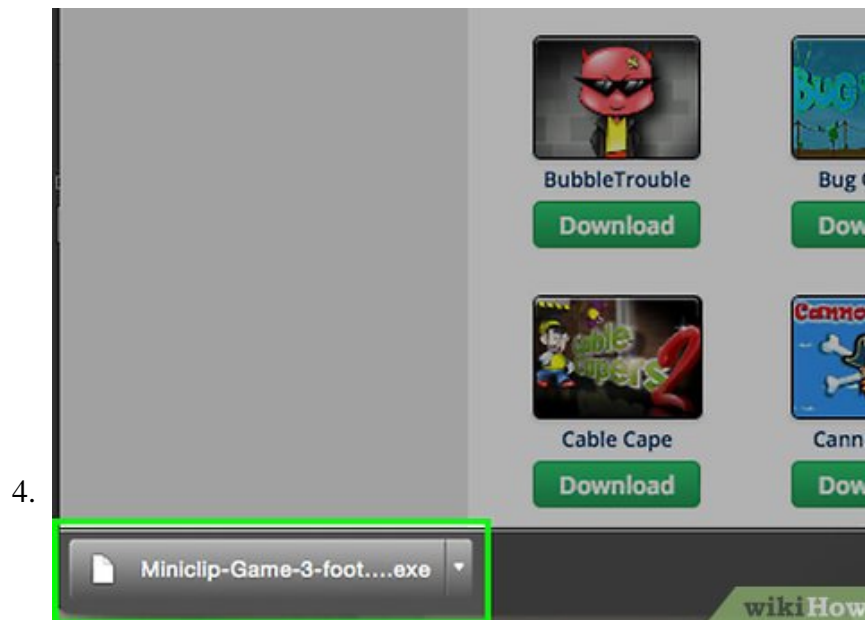

Copy and paste the following URL into your browser's address bar:
<http://www.miniclip.com/games/page/en/downloadable-games/#t-m-s>.

Under the blue 'Downloadable Games' section, you'll see a large selection of games that can be downloaded to your Windows PC. Select a game you like and click 'Download.'

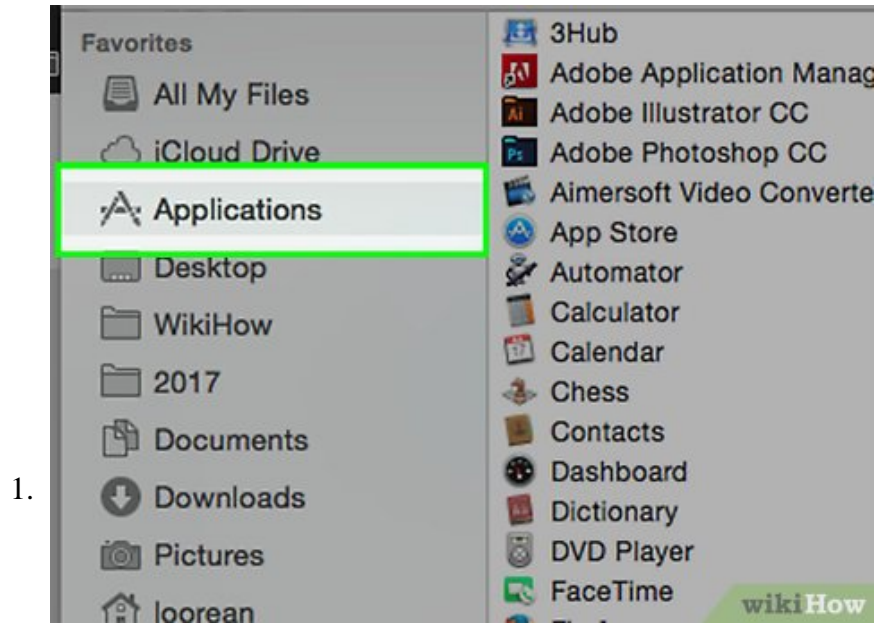

Choose a location to save the file to and click 'save.'

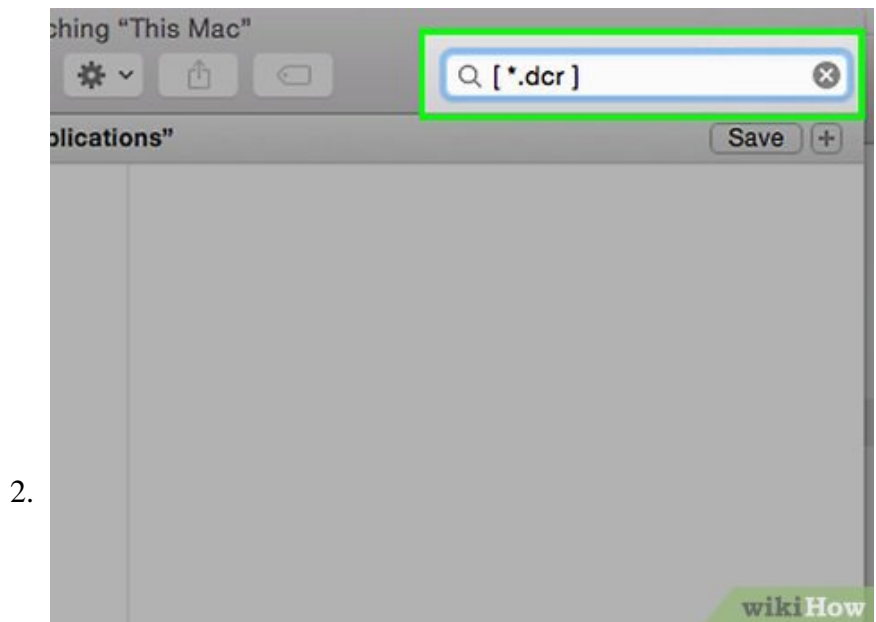

When the download has finished, click the 'exe' file to begin the game install and follow the instructions provided.

Method 4 of 4:

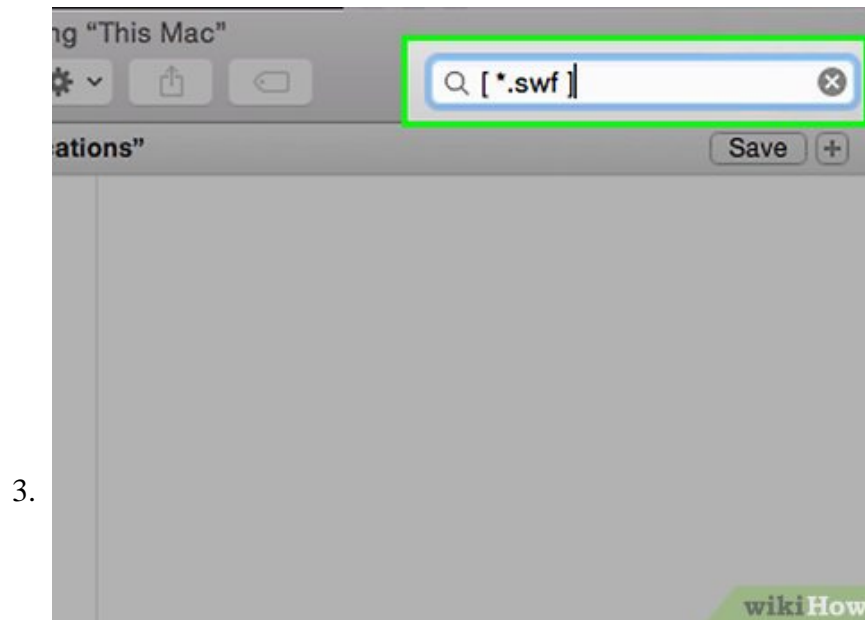

AppData folder for offline playing

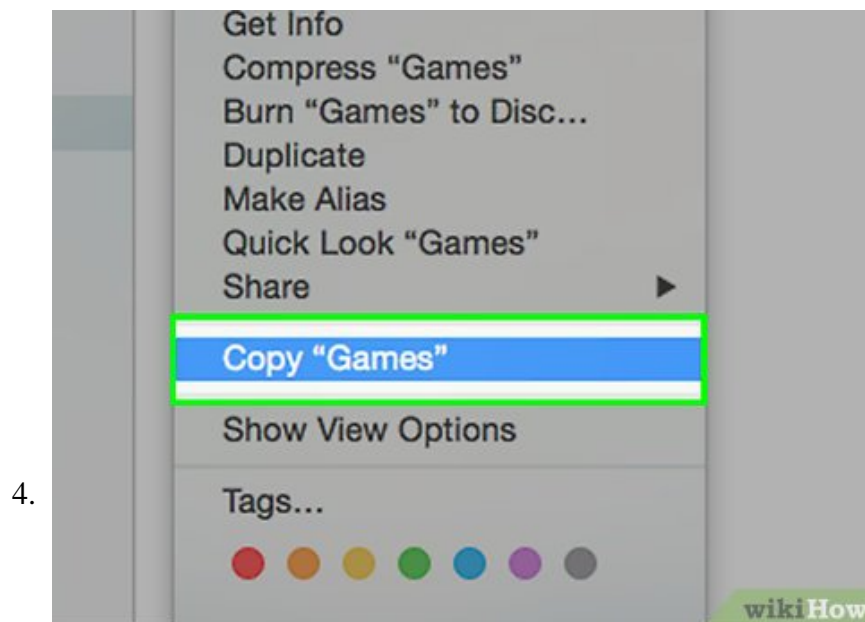

Open the AppData folder. It is located at "C:Users[your-user-name]AppData".

In the Search Box, type "[*.*.dcr]". Windows will search files containing the DCR extension. These are flash games.

Type again in the Search Box. Type "[*.swf]". Windows will search files containing the SWF extension. These are also flash games.

Copy and paste to another folder. Play the games offline.
