

How to download movies on iPad or iPhone

Stream without WiFi will be very expensive. Instead, you should learn how to download movies to iPad or iPhone. That way, you can watch movies whenever and wherever you want.

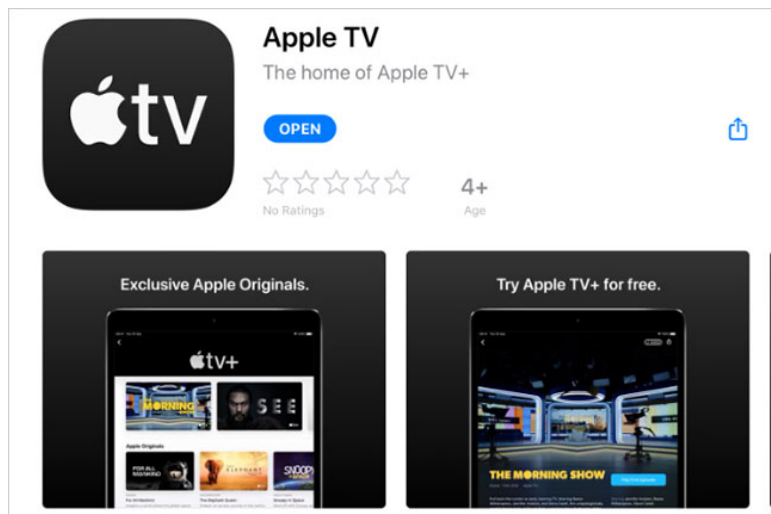

Stream without WiFi will be very expensive. Instead, you should learn how to download movies to iPad or iPhone. That way, you can watch movies whenever and wherever you want.

When you download movies to your device, they will be available offline and at the highest quality.

Here are all ways to download movies to iPhone or iPad to watch offline.

How to download movies from the Apple TV application

The Apple TV app replaces the Videos and iTunes Store apps on iPad or iPhone. You can use it to find out current popular movies, buy or rent movies and watch your purchased content.

Download movies from the Apple TV application

You need to have the Apple TV app on your device. If not, download it from the App Store.

1. Download Apple TV for iPadOS and iOS (Free)

Here's how to buy and download movies on iPad or iPhone using the Apple TV app:

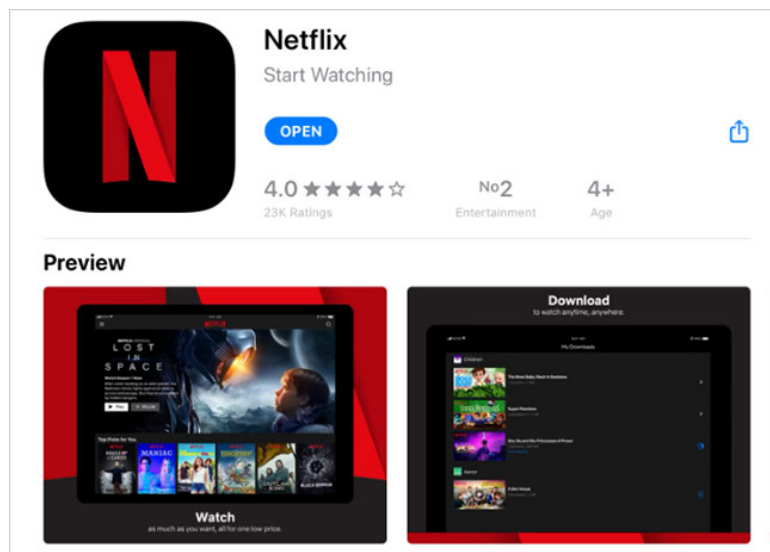

1. Open the **Apple TV** app on iPad or iPhone.

2. Go to **Watch Now** or **Search** to find the movie you want to buy.
3. Click **Buy** or **Rent** to buy the movie. (Rented movies are available for 30 days or 48 hours after you start watching them.)
4. Enter your Apple ID details or use Face ID or Touch ID to confirm the purchase.
5. Click **Download** to start downloading the movie or visit **Library** and click on the cloud icon to download the previously purchased movie.
6. Keep the device connected to the Internet while downloading.
7. Go to **Library**> **Downloaded** to view all the movies you have downloaded.

After watching a downloaded movie in the Apple TV app, find it in the library and click on the device icon to see the **Remove Download** option . It's a good idea to keep some space on your device.

How to download movies from Netflix

If not, download the Netflix app on your iPad or iPhone. You also need to sign up for Netflix to watch and download movies.

Download movies from Netflix

It should be noted that not all movies and TV shows are available for download from Netflix. If you don't see the download button, then that content is not available for download.

1. Download Netflix for iPadOS and iOS (Free, requires registration)

Follow these instructions to download Netflix movies to iPad or iPhone:

1. Open **Netflix** on your iPad or iPhone.

2. Press **Home** or **Search** to find the movie you want to download.
3. Select the movie, then press the **Download** icon (down arrow). If you don't see the **Download** icon, that means the movie is not available for download.
4. Keep the device connected to the Internet while downloading.
5. Click **Downloads** to view all downloaded movies and TV shows.

After watching downloaded movies on Netflix, visit the **Downloads** page and swipe left to display the **X** button. Click on it to delete the downloaded movie.

If the movie you want to download is a YouTube video, please refer to the way in the article: [How to download YouTube video to iPhone](#).
