

# How to download music on Youtube to your phone

How to download music on Youtube to your phone. TipsMake.com will guide you how to download music on Youtube to your phone in a simple and quick way, please refer.

As you all know Youtube is the largest video sharing social network today, on which we not only watch entertaining videos but a lot of people also use to listen to music videos. Of course, listening to music on Youtube will make our phone more battery-powered because we can't turn off the screen and youtube won't let us download music from videos. So in the following article, TipsMake.com will guide you how to download music on Youtube to your phone in a simple and fast way, please refer.

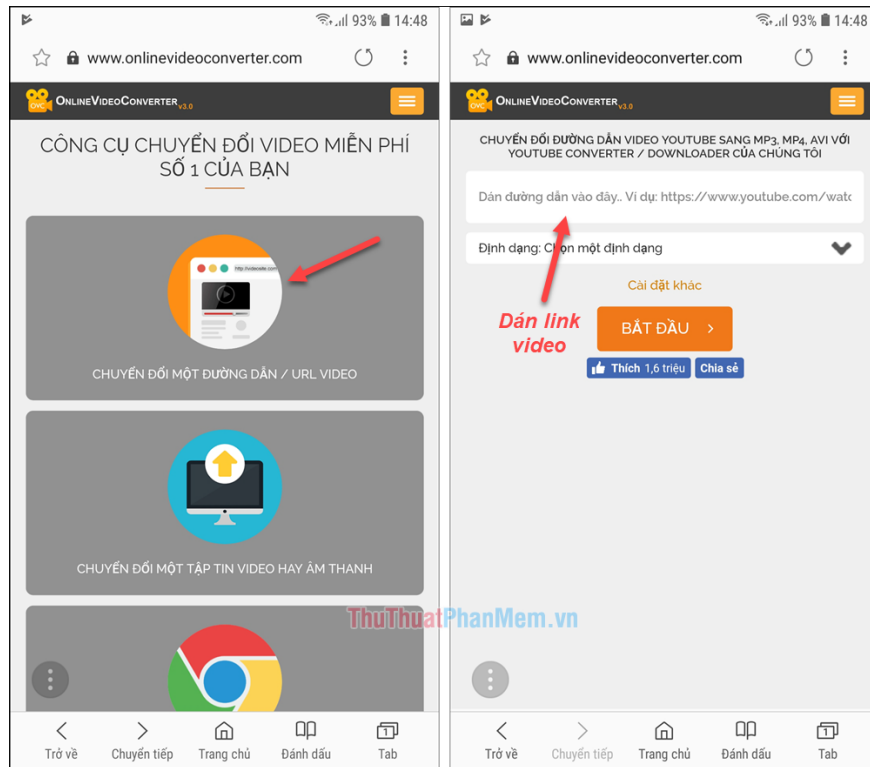

To download MP3 music from youtube to your phone we will use a website called [onlinevideoconverter.com](https://www.onlinevideoconverter.com). This is a very useful tool, it allows you to download music from Youtube in many different formats such as Mp3, m4a, wav, flac . Also it also allows you to download videos from youtube with formats like: Mp4 , m4v, avi, flv .

Here are the steps to download music from youtube to our phone:

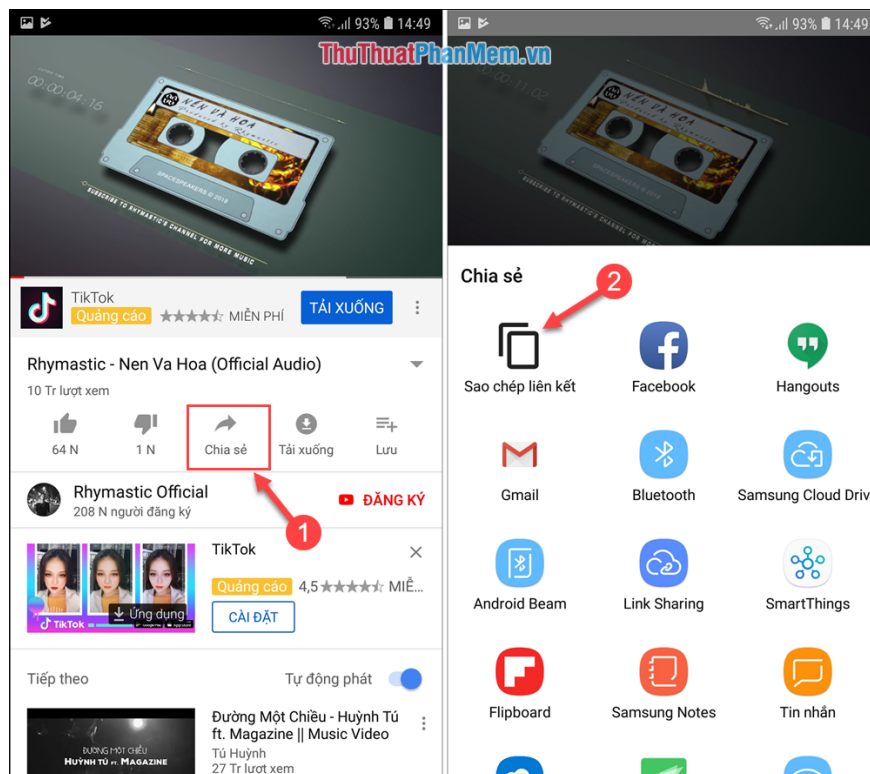

**Step 1** : Open the browser on your phone and visit the website:

<https://www.onlinevideoconverter.com/>

After visiting the website you choose **Convert a link / Video URL**, then a new website appears here, you will paste the video link in the box to download music from that video.

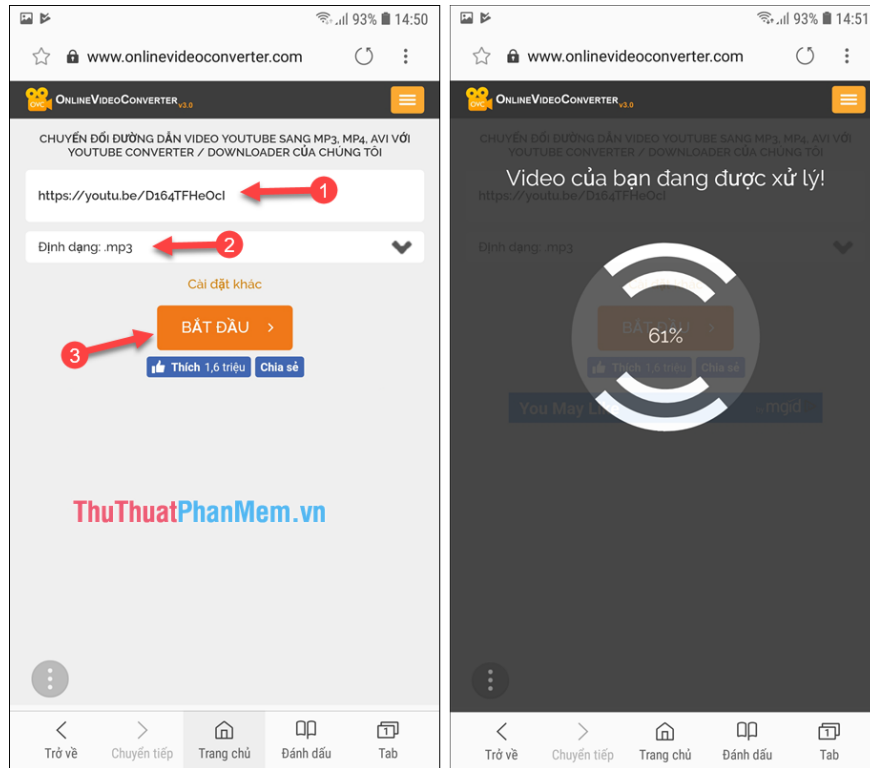

**Step 2 :** To get the youtube video link, you can open the youtube app, then open the video you want to get the link, click the **Share** button , then click the **Copy link** button .

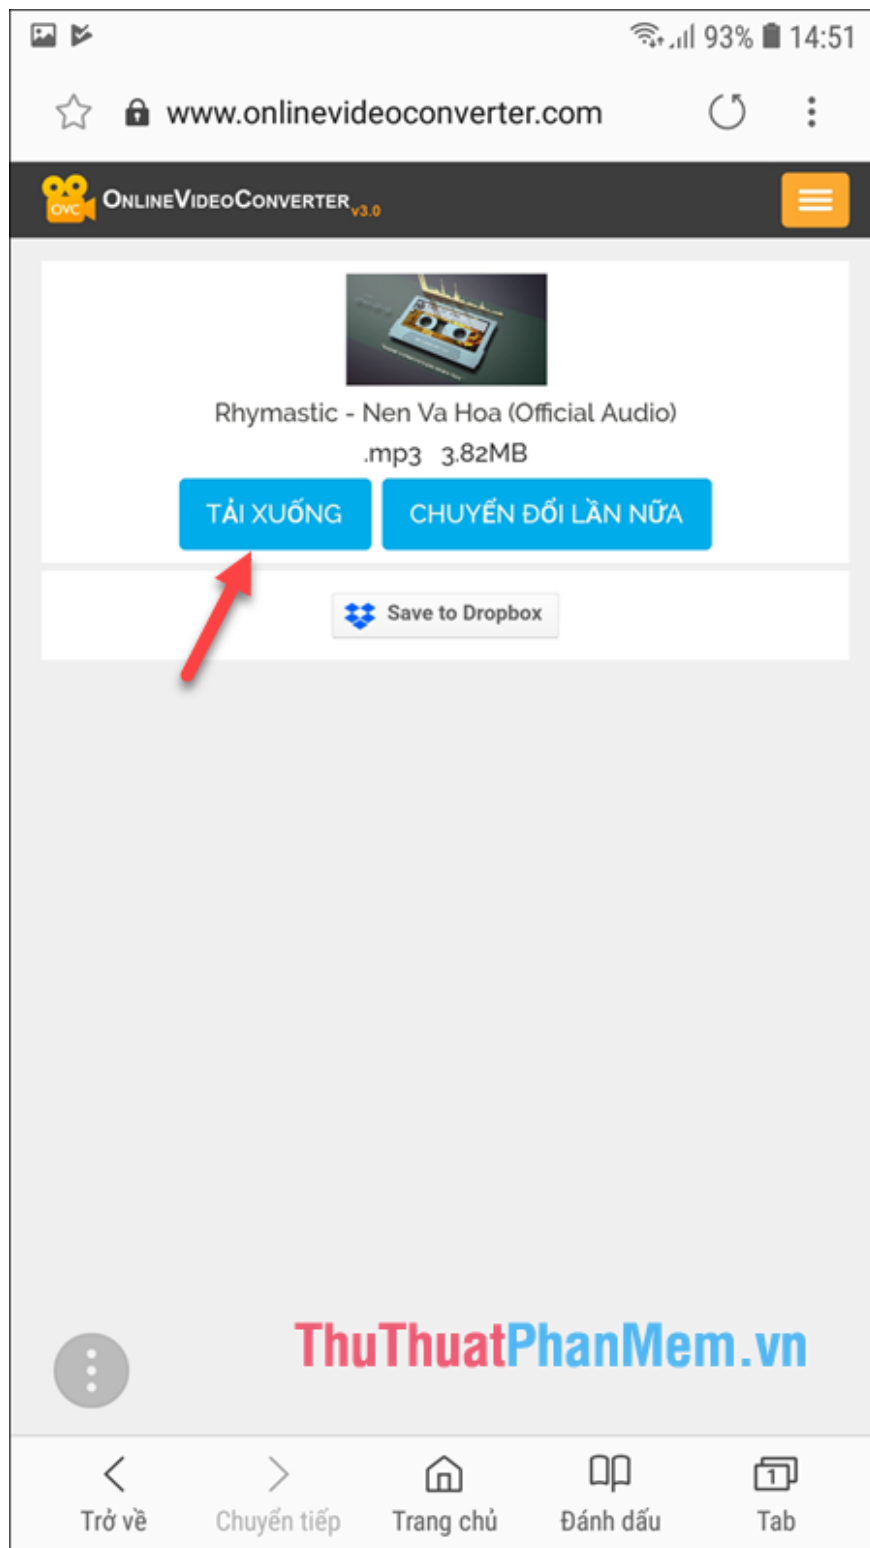

**Step 3:** Go back to the download site, paste the youtube link you just copied into the box, then select the music format you want to download and click the Start button. Then wait a bit for the site to convert and process the

music.

After the site has finished processing, your job is just to press the **Download** button and enjoy the downloaded music.

So with just a few simple steps, we can download Mp3 music from Youtube to your phone to be able to listen anytime you want. Hope you will find the article useful, wish you success!
