

# How to download the entire Video Playlist on Youtube

To download YouTube playlist to your computer, users can use online services or support software.

## How to download Youtube Playlist to your computer

Downloading YouTube videos is simple when there are many software or YouTube video downloading utilities in the browser, and downloading the entire YouTube playlist is also not so complicated. There are many times when you search for videos on YouTube and meet a useful playlist of videos, for learning, work or simply entertainment and need to download all the videos in that playlist to your computer.

If the playlist has about 4, 5 videos, you can use YouTube video download tools, but if the number of videos is high, the way to download each video is not appropriate. Therefore, using tools to download YouTube video playlist is essential. We can choose software to download playlist videos or online tools for free. The following article will summarize users who download YouTube video playlist tools.

1. How to play live video on YouTube?
2. How to create 360 ??videos and upload to YouTube
3. How to download videos, playlists on Youtube and more than 2000 other websties
4. 3 ways to download MP3 from YouTube online

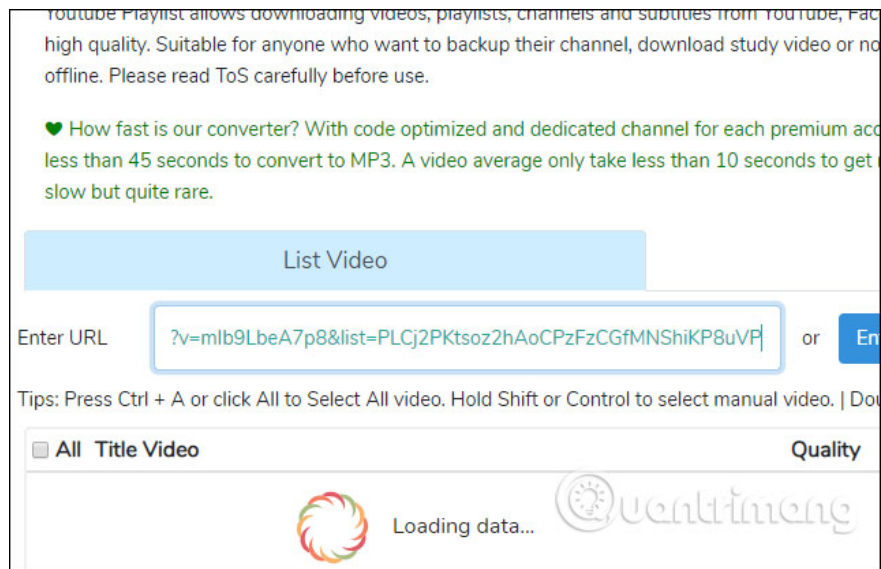

## 1. YouTubePlaylist.cc download YouTube videos

1. <https://youtubeplaylist.cc/>

YouTubePlaylist.cc also has the option to download some videos or download all videos in the playlist at the same time. Users also have the option of downloading and downloading YouTube video subtitles right on the YouTubePlaylist.cc interface.

### Step 1:

We **paste the playlist URL** into the home page and then press Enter to wait for the entire video in the playlist.

### Step 2:

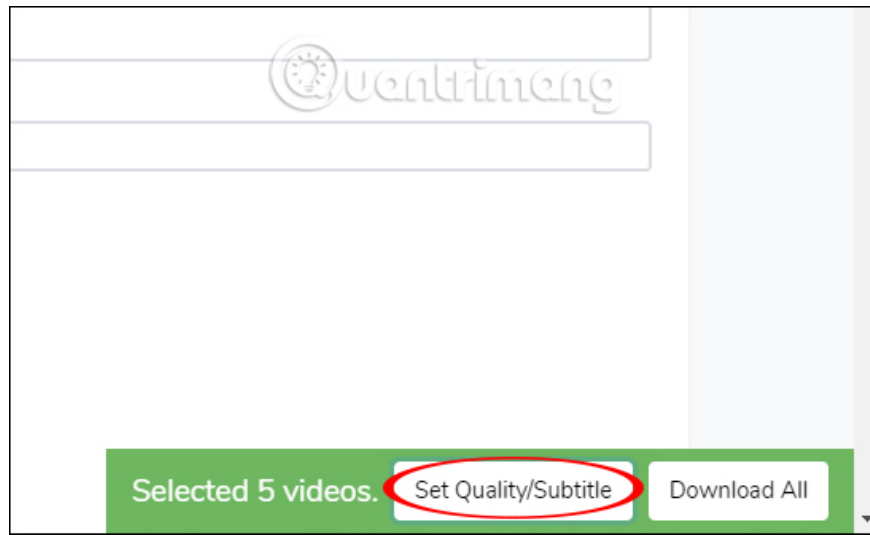

Below when displaying videos you will see that they are arranged in the correct order in the play order on the playlist. Each video has its name and duration, quality options (Quality), subtitle language (Subtitle) if available.

In particular, users will see YouTubePlaylist.cc allows downloading audio from YouTube videos without having to use another tool if you want to download.

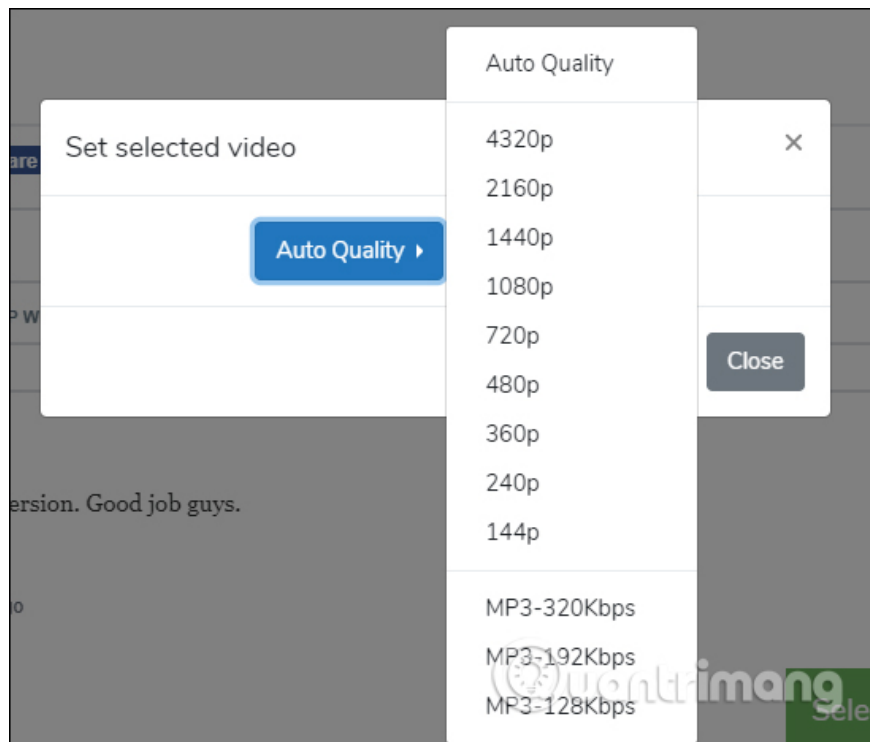

### Step 3:

If you want to download any video, check the box, if you want to download the entire video in the playlist, select All Title video. The **Set Quality / Subtitle option** is shown below to select the quality of the video you want to download.

Select the video quality for the entire playlist. Then **click Download All** to download. Note if you register for an account, you will be allowed to download more than 4 videos, if you do not register an account, you can only download 4 videos in the playlist.

#### Step 4:

The user will then be redirected to the interface to download the videos included in the playlist. If the video is converted, click **the download icon** to download. If you want to stop the video conversion process, click the trash can icon. To get the download and extract link into txt file, click Export download link.

Export to download with IDM

Clear All Export Download Link

Title	Status	Action
1  [00:05:24] [MP4-AUTO] [31.12.17] 四川卫视跨年演唱会 - 贝加尔湖畔 Bên hồ Baikal	Ready (27.2 MiB)

To download all videos in the playlist, click **Download All** .

Then display the list of videos on the playlist so we can **select the videos to download** . Select the **quality of the video you** want to download with the capacity of the playlist. You can select different qualities for each video in the playlist. Finally click **the Download button** below to download the entire video in the playlist.

In addition, cpClips also has a video list below for you to choose a separate download, also with the option of downloading video quality. If you want to extract the link to download the video, click Get all links in a text.

## 4. Youtube Multi Downloader Online service

This is a service that downloads the entire Playlist on Youtube online and is completely free for users. To be able to use this program, you need to install the new version IDM software to be able to download the entire video list

### Step 1:

You visit the homepage following the link below.

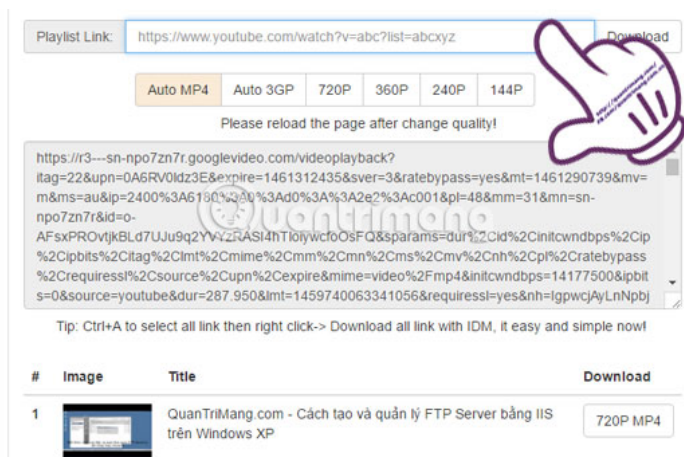

1. <https://youtubemultidownloader.com/playlist.html>

### Step 2:

At the main interface of the program, select the quality of the video you want to download.

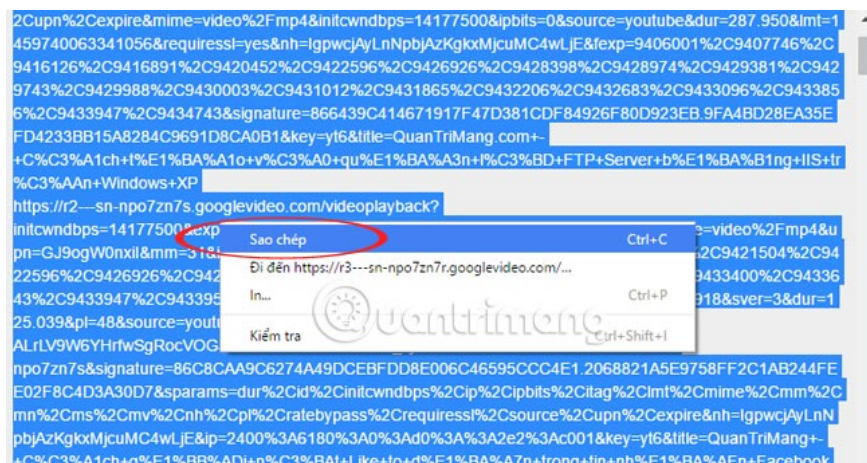

Access YouTube and **copy the playlist URL** you want to download all and then **paste it into the download frame** of the program. You will see the entire video appear in the download list.

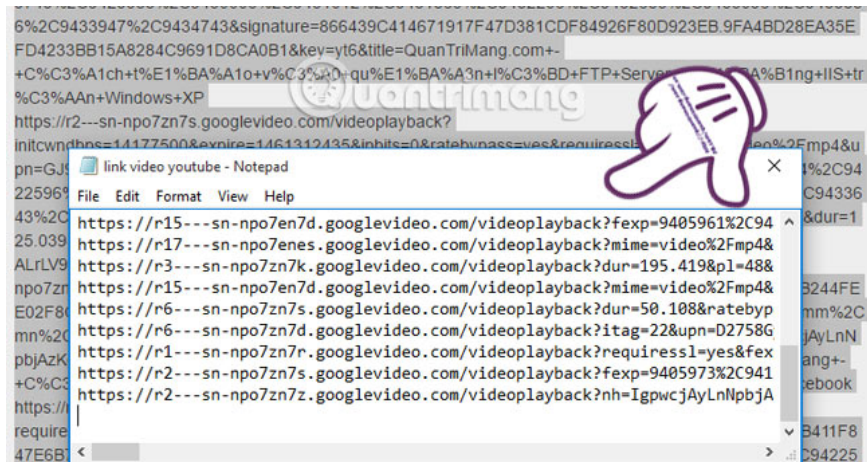

### Step 3:

Copy the entire link below.

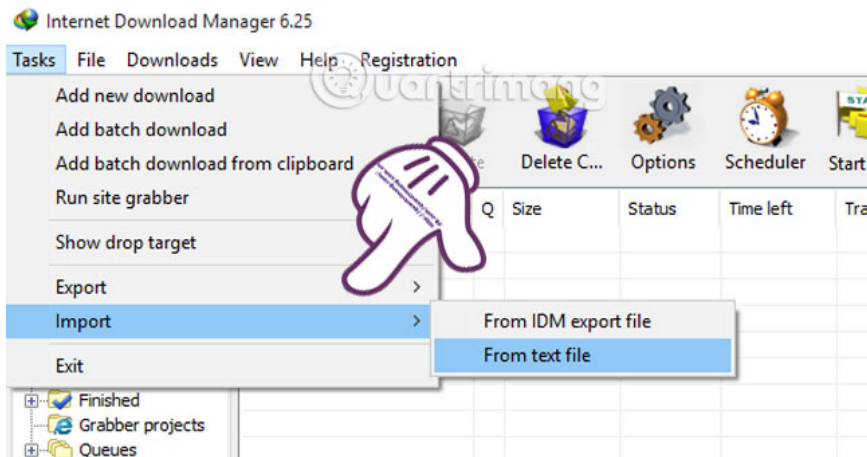

Then paste the entire link into **Notepad** . Save and remember to create a folder for Notepad for your convenience.

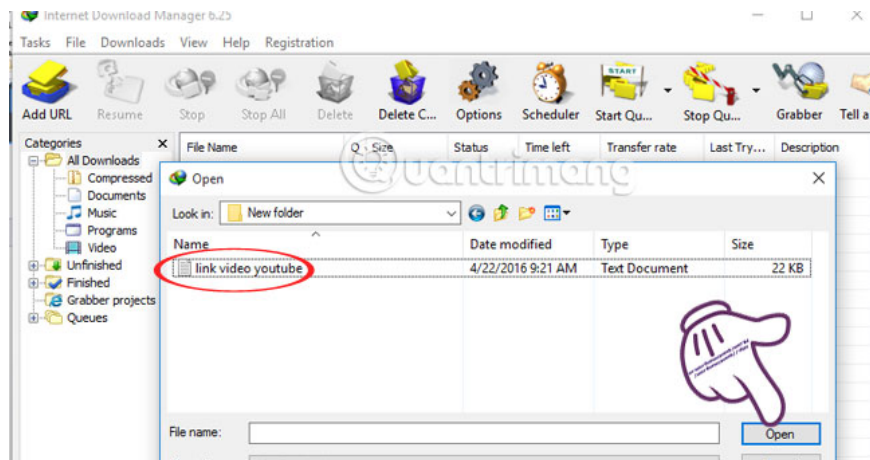

#### Step 4:

Open IDM software on your computer. At the main interface, click on **Task** , select **Import** and then click **From text file** to import the newly created Notepad file.

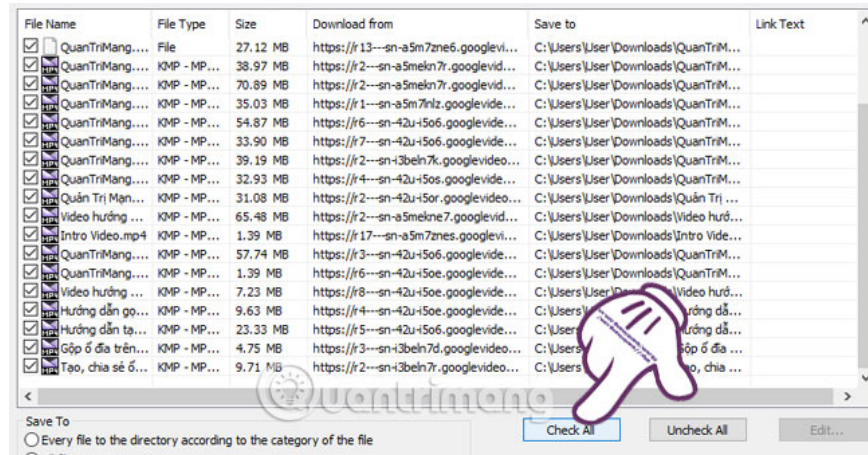

#### Step 5:

The path to save the newly created Notepad file appears, click **Open** to open the file.

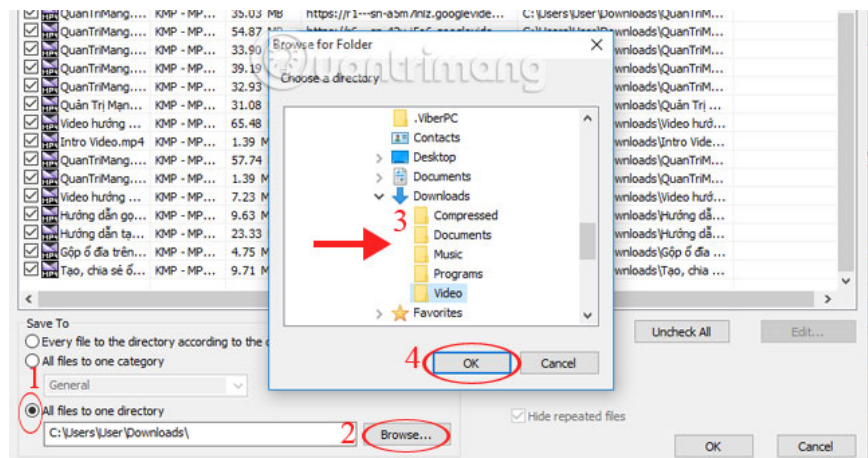

## Step 6:

Show all videos in Youtube playlist. You click on the **Check All** section to mark all videos to download.

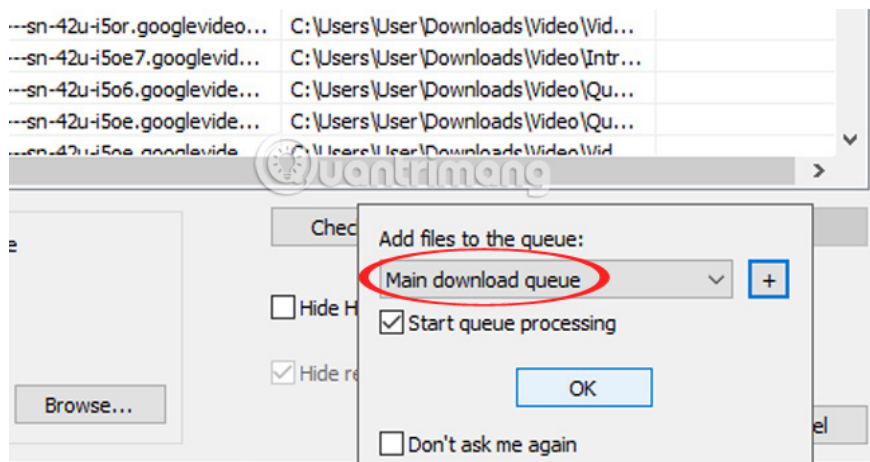

## Step 7:

Next, click on **All files to one directory** and click **Browse**. Here, you can select the folder to store all downloaded videos and click **OK** to select.

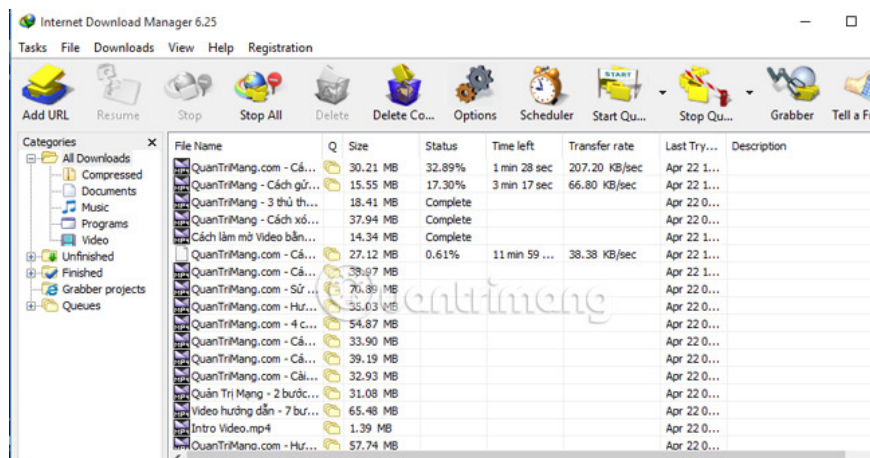

## Step 8:

After you have selected the folder containing the video, click **OK**. New table appears, select **Main download queue**, check the **Start queue process box**. Click **OK** to proceed to download the video.

### Step 9:

Thus, the entire video in the Youtube playlist has been downloaded as shown below.

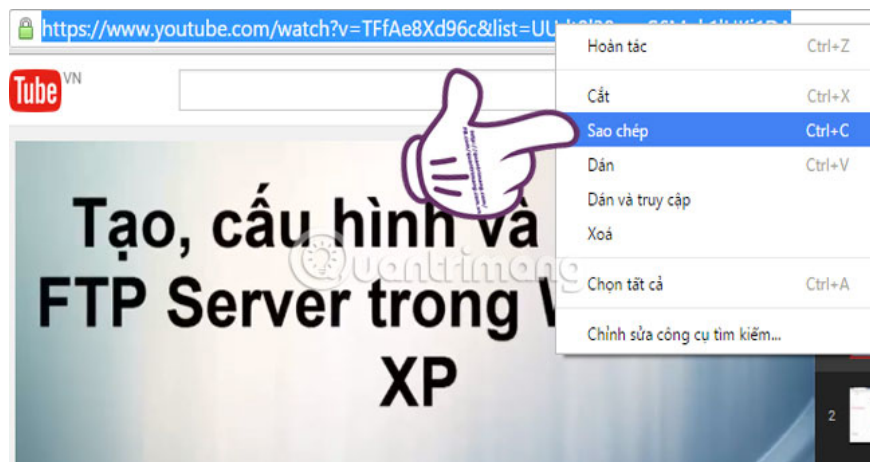

**Refer to the video for downloading the entire Youtube playlist to your computer:**

## 5. 4K Video Downloader Software

First you need to download 4K Video Downloader software according to the following link and install it on your computer.

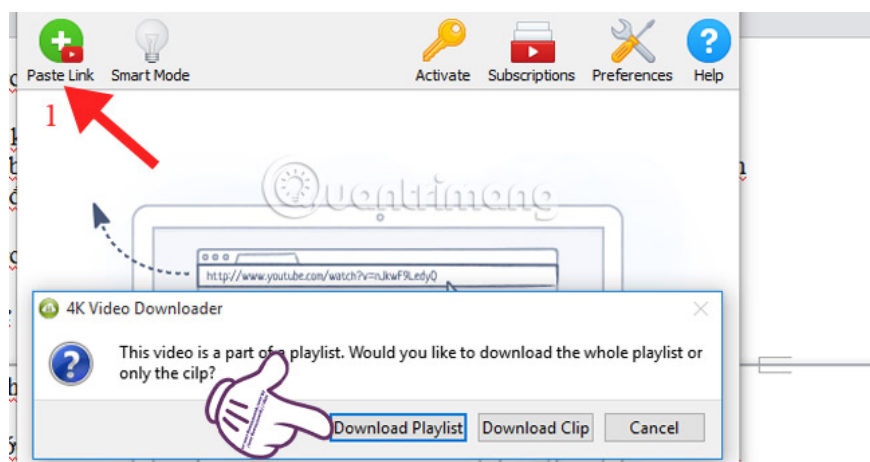

### Step 1:

After you have installed the computer, **copy the URL of the playlist URL on Youtube .**

### Step 2:

The software will automatically catch the copied link. At the main interface of the program, click the **Paste Link** section. The notice board appears, select **Download Playlist** to download the entire video.

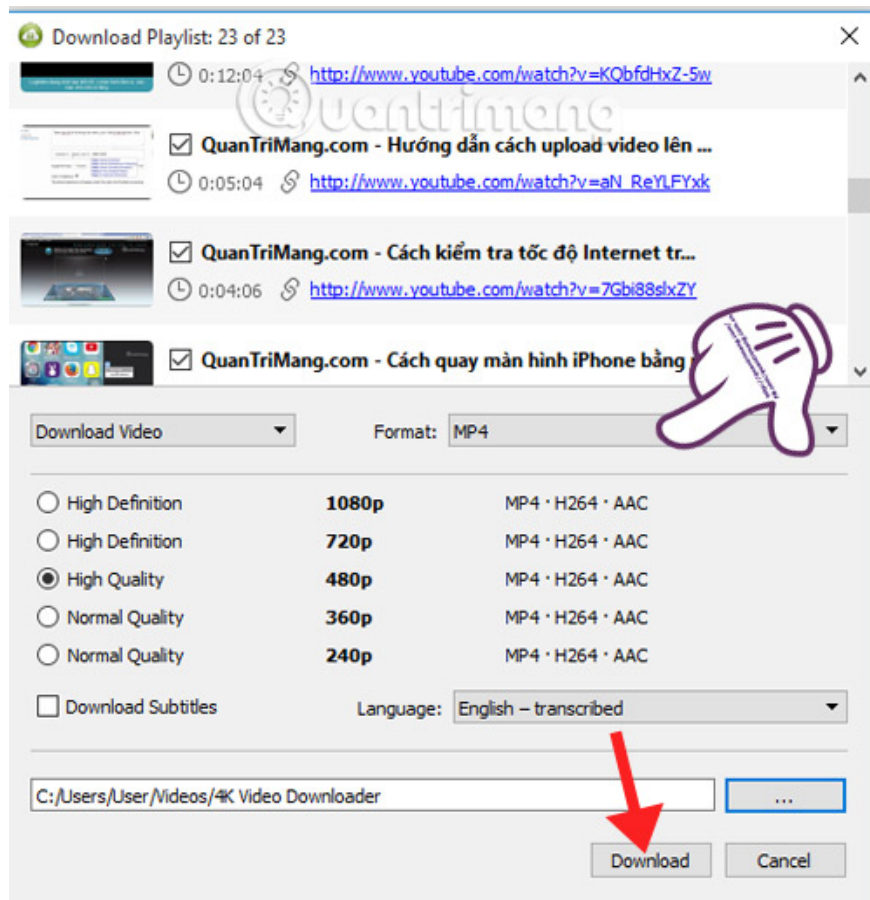

### Step 3:

The interface of the number of videos included in the playlist appears on Youtube. Here, there are many options:

1. **Download Video** : choose to download video or mp3 when clicking on the arrow next to it.
2. **Format** : choose video formats including MP4, FLV, MKV, 3GP.
3. **5 quality videos you want to download** .
4. **Download Subtitles** : download the subtitle of the video when ticking the box.
5. **3 dots dot icon** : select video storage folder.

After adjusting according to the purpose of use, click the **Download** section to download the entire video list.

#### Step 4:

All videos in the list will be downloaded to the computer. All you need to do is open the directory to save the video list, you already have the entire video.

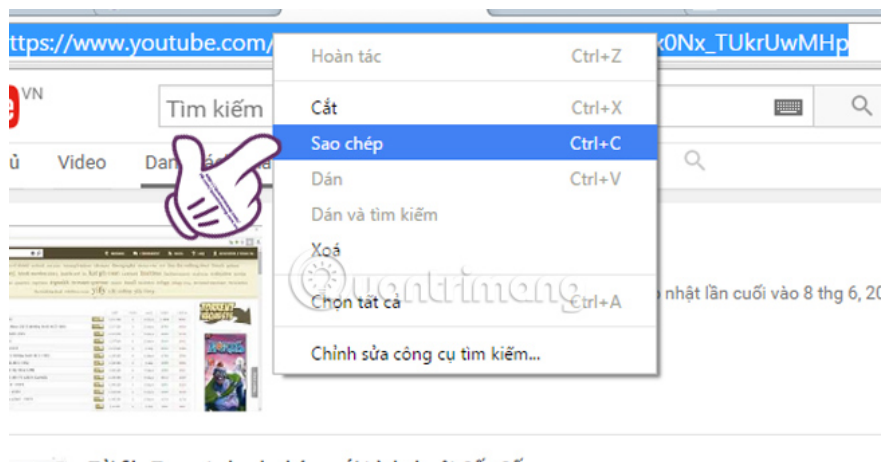

## 6. Service downvids download Youtube videos online

As well as the tool for downloading the entire YouTube Playlist of Yotube Multi Downloader Online, downvids will also help users to download all the videos listed on Youtube with a simpler way of doing things.

### Step 1:

First, open the Youtube channel you want to download the video in the Playlist. Next, we will **copy the address (URL) of the playlist** on the browser as shown:

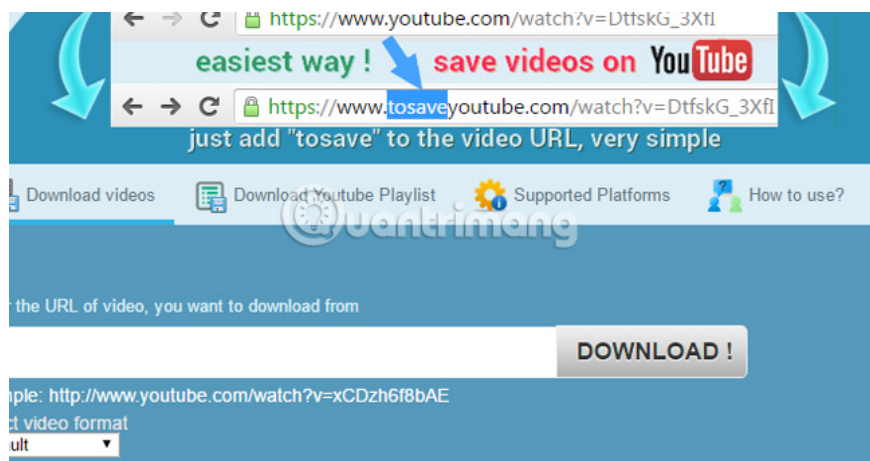

## Step 2:

Next, we will access the online downvids.net tool under the link below. The tool has the same interface as the image:

1. <http://www.downvids.net/>

You can see that downvids allow us to download videos on YouTube and all videos on YouTube.

## Step 3:

At the main interface of the software, select the **Download Youtube Playlist** tab. Next, under **Enter the playlist url** below, let's **paste the URL link** of the copied Youtube playlist.

**Select Select video format**, select **the video format to download**. Finally click the **Download** button next to proceed to download the video in the list on Youtube.

**Note**, if you click on the download page, you will have to turn it off.

#### Step 4:

Shortly thereafter, all videos on the YouTube list will appear. In each video, there is brief information about the video, name, description of the video.

With this information, users can easily manage videos to download. You can choose to download some videos in the list when clicking **Download as video** . Or we can download videos as MP3s when selecting **Download as MP3** .

Your video will then be downloaded in **the default folder to download downloaded files** on your computer.

These are ways to help users download videos on Youtube, as well as download all the videos in the Playlist on Youtube. Depending on the needs and purpose of use, we can choose the appropriate way to use. Note, the time to download the entire video in the playlist will depend on the amount and capacity of the video.
