Today, instead of watching movies on computers and watching TV, we often spend time watching videos on youtube with phones and tablets. To watch videos on Youtube, you need an Internet connection, but if you want to watch them offline, you must download them to your computer. How to download videos from Youtube? Please follow the article below!

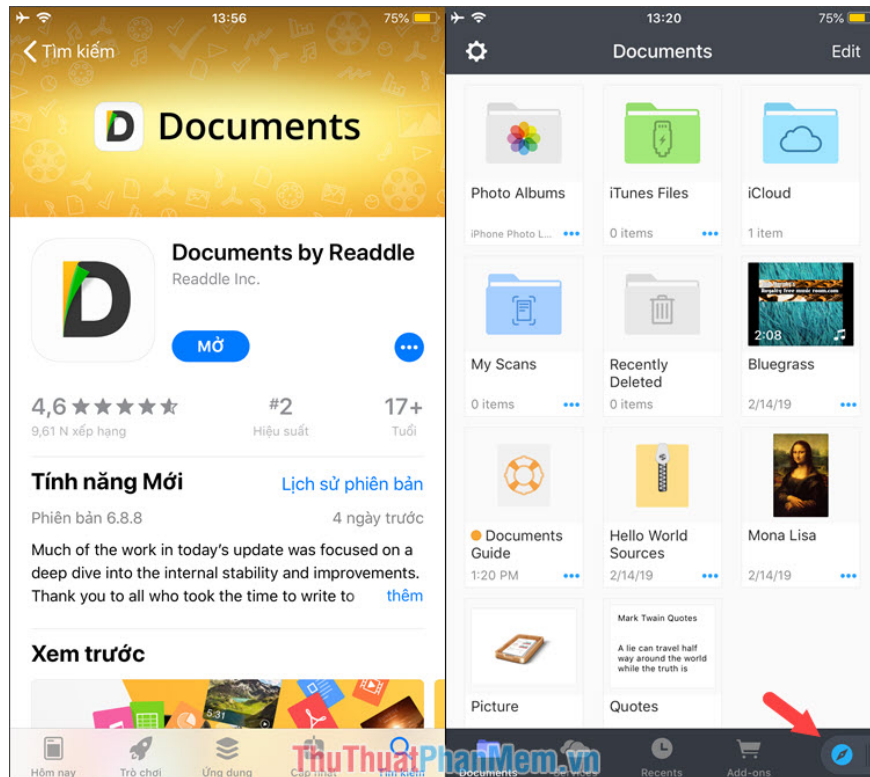

1. Download videos from Youtube to your iPhone

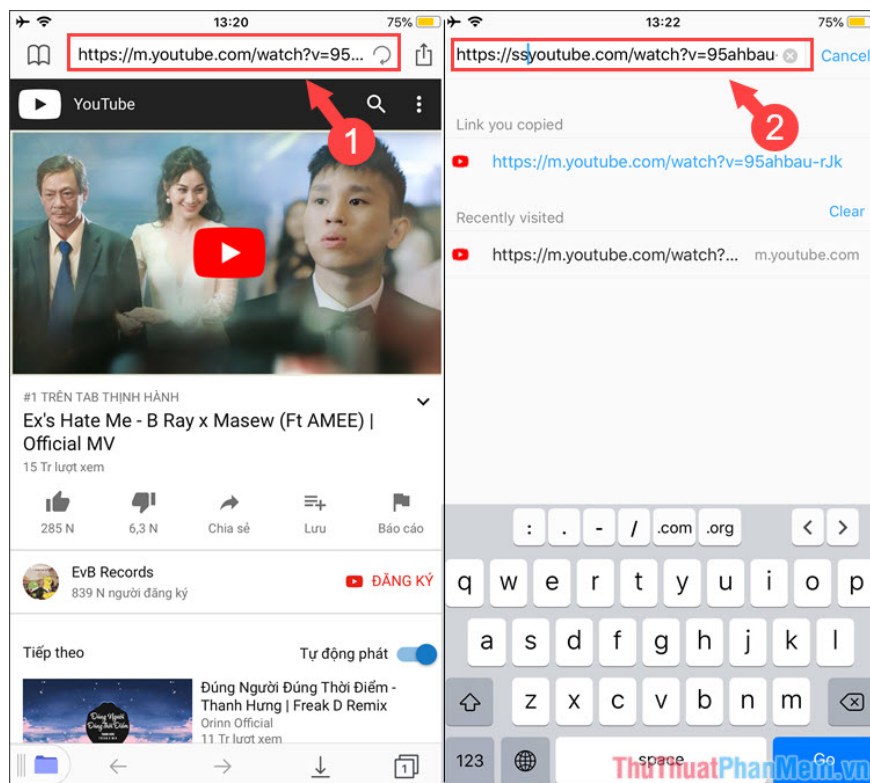

Step 1: You download the **Documents by Readdle application** at the address

<https://itunes.apple.com/en/app/documents-by-readdle/id364901807?mt=8>

After opening the application, touch the blue compass icon in the bottom right corner to open the browser.

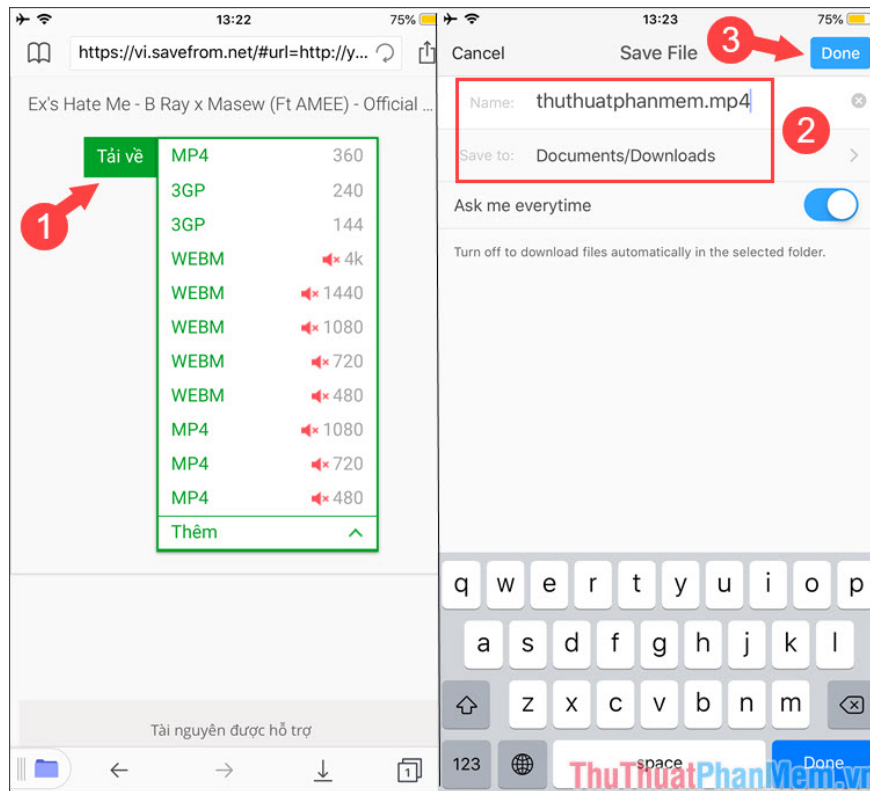

Step 2: Access Youtube by Documents browser. Here, you touch the address bar and delete the word *m.youtube.com/xyz* with *ssyoutube.com/xyz* .

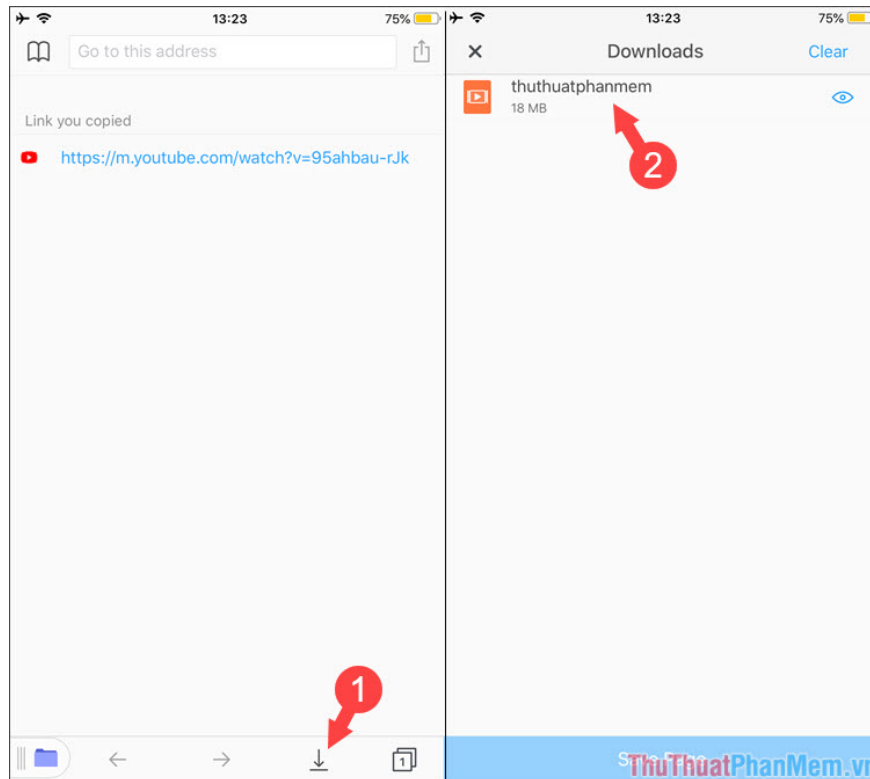

Step 3: After changing the address, the YouTube video download website appears. You choose the quality of the video you want to download and click download to download it to your computer. Then, you name it in the

Name section and choose a place to save in the **Save to** section and click **Done** to complete.

Step 4: Want to see the downloaded video, you touch the **Download** icon as shown below and the downloaded video will show up in the **Downloads** folder .

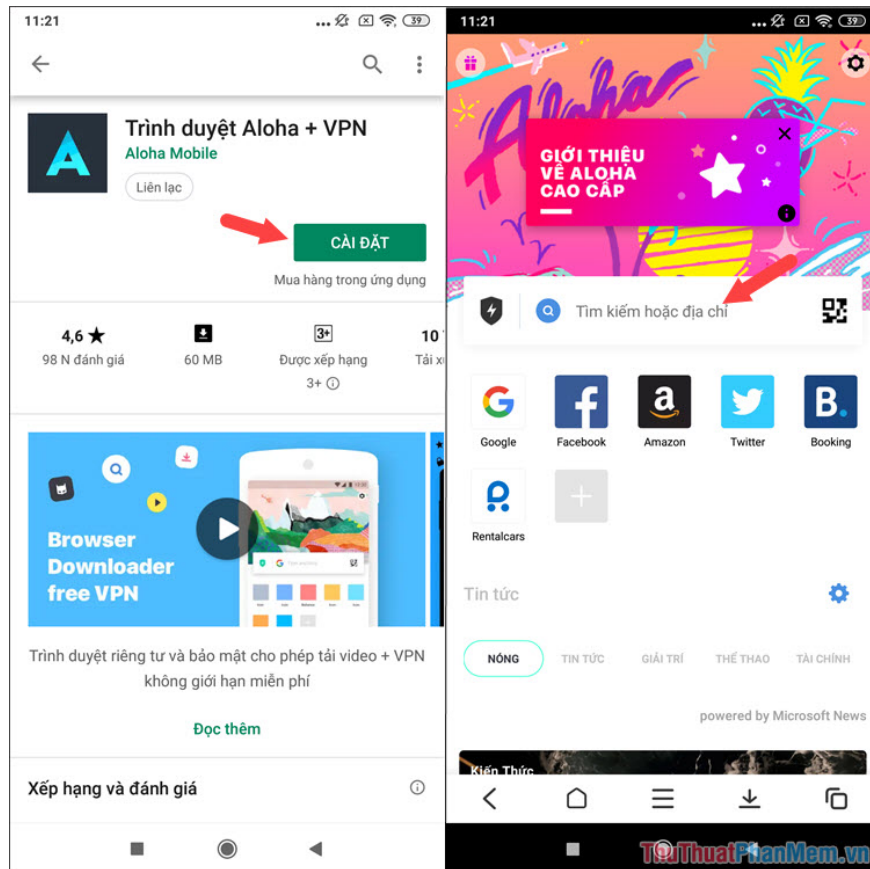

2. How to download videos from Youtube to Android phones

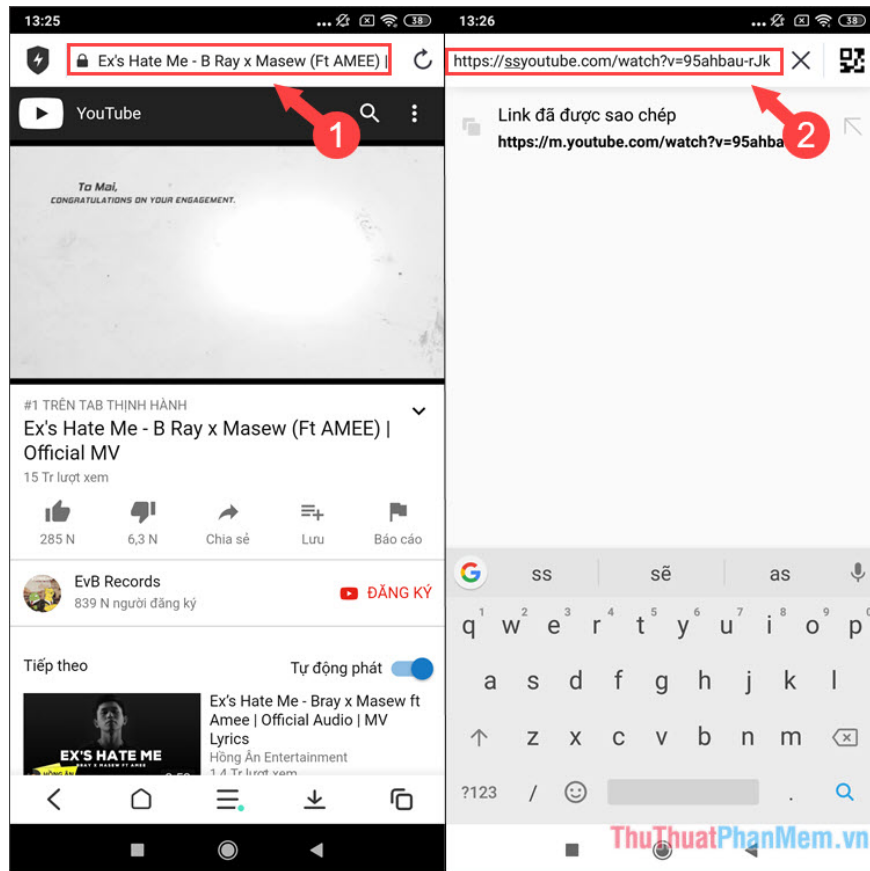

Step 1: Download the Aloha browser to your Android phone at the address

<https://play.google.com/store/apps/details?id=com.alohamobile.browser&hl=en>

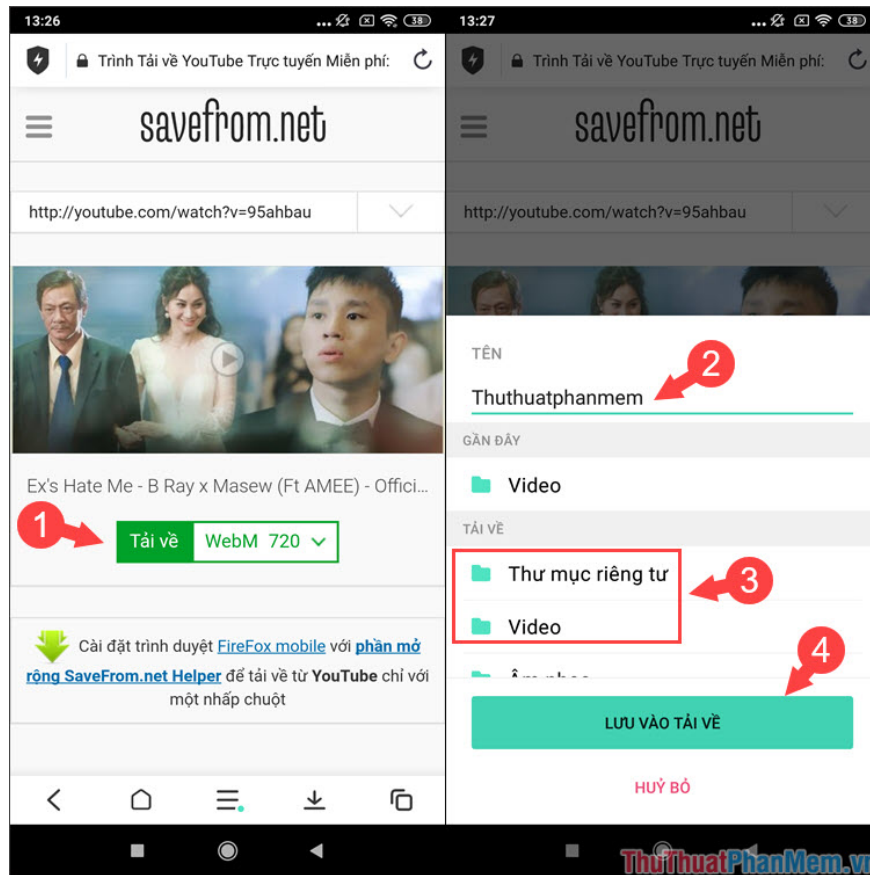

After downloading and installing, you open Youtube with Aloha browser.

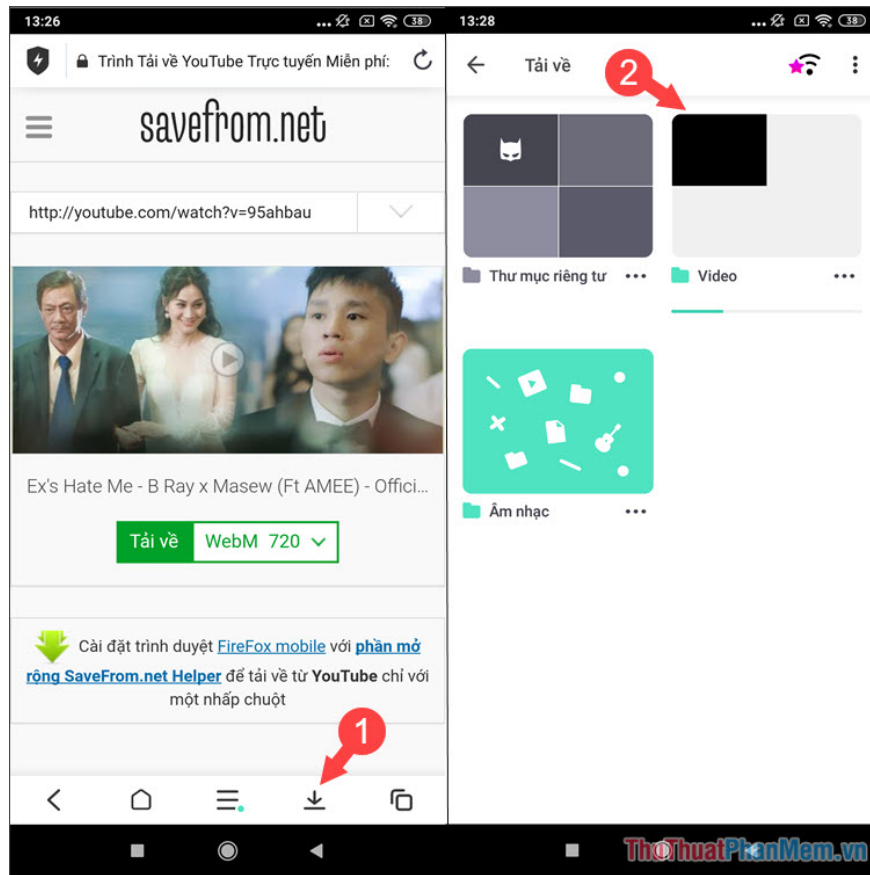

Step 2: After opening the Youtube video to download using Aloha browser, you proceed to edit the address of the video by changing *m.youtube.com/xyz* with *ssyoutube.com/xyz* .

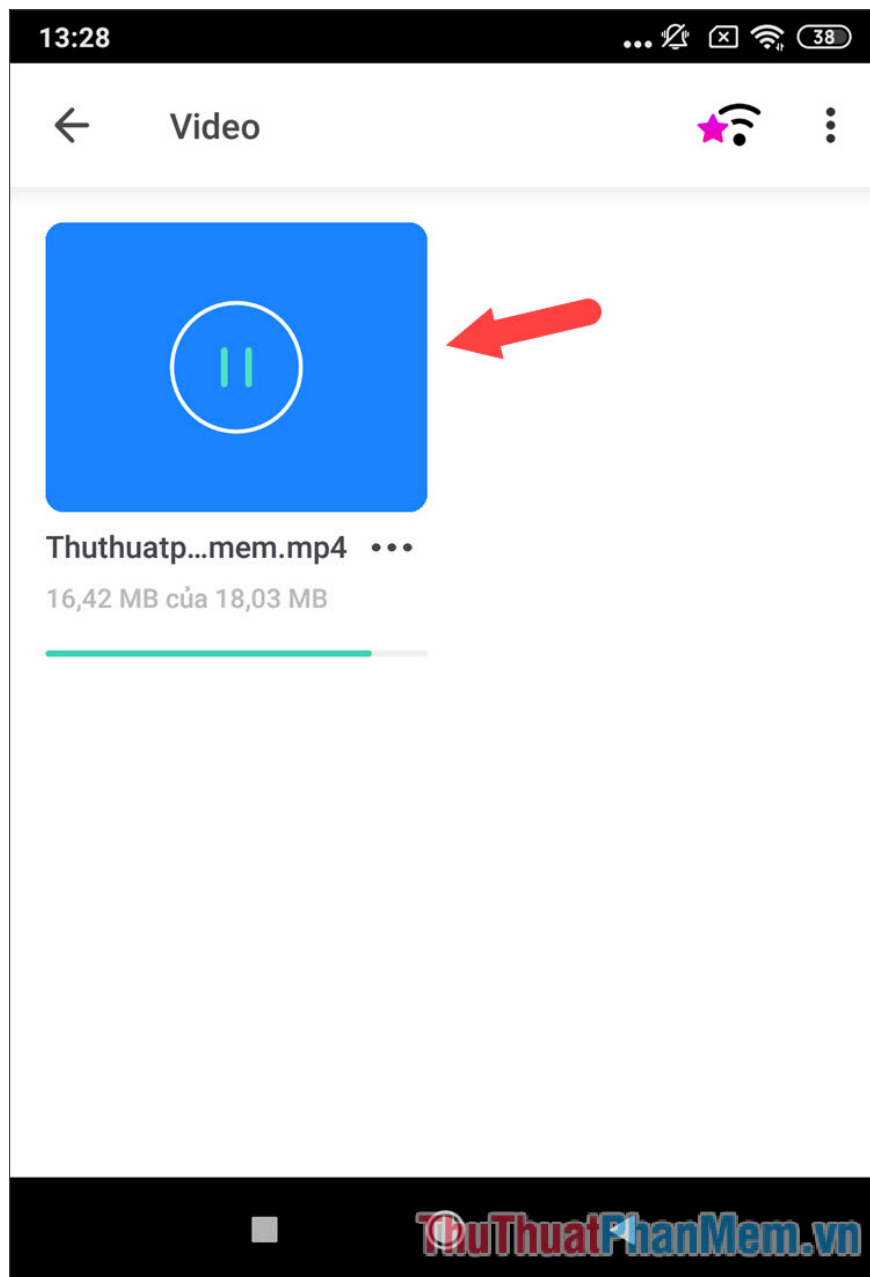

Step 3: Click **Download** to download the video to your phone. You name and choose where to save the video and click **Save on Download** .

Step 5: To check the downloaded video, tap the download icon and open the folder where you saved the video.

After the download is complete, you can open the video and watch it normally.

Through the tutorial of downloading videos from Youtube to your phone quickly and simply, you can easily download and save to your computer your favorite videos from Youtube to watch without Internet connection. Good luck!
