

How to download Vietnamese version of Adorable Home, change Vietnamese version of Adorable Home

To set Vietnamese Adorable Home, you can follow the instructions in the article to Vietnameseize Adorable Home and to save the data.

There have been many new features updated in Adorable Home and making players happy. But one thing that many people want is to have more Vietnamese for Adorable Home.

In fact, if you choose English in Adorable Home, the player also does not have many language problems when playing. Because there are not too many strange words that make players difficult to understand in the game. And if so, then thanks to Google Translation for support is complete.

But if Vietnamese is available, players will get acquainted with the game easier, and if there is an update later, new ones will also be Vietnamized in Adorable Home to help players understand, below is how to download Adorable Home Vietnamese.

How to change the Vietnamese language Adorable Home

Note: Currently the Vietnamese version of Adorable Home is only available on Android, and when you install this Adorable Home Vietnamese version, you must delete the Adorable Home version downloaded from CHPlay. Note this will be the old version of the previous Adorable Home (1.5.6), which means that this Vietnamese version of Adorable Home does **not have a bedroom** .

And so the game data of Adorable Home on CHPlay that you played before will be lost. But you can save the data played in Adorable Home on CHPlay, and then after downloading this localized Adorable Home version, paste it over its data.

Step 1: Click the link below to download the Vietnamese version of Adorable Home. Open the link in the browser available on your smartphone and click the **Download** or **Download** button in green. The page will be forwarded as shown below, click Continue Download.
