

How to download Windows 7 Aero Theme for Windows 10

One of the things many people like about Windows 7 is its user interface. Aero glass transparency is the main reason Windows 7 looks so elegant and sleek compared to other Windows versions.

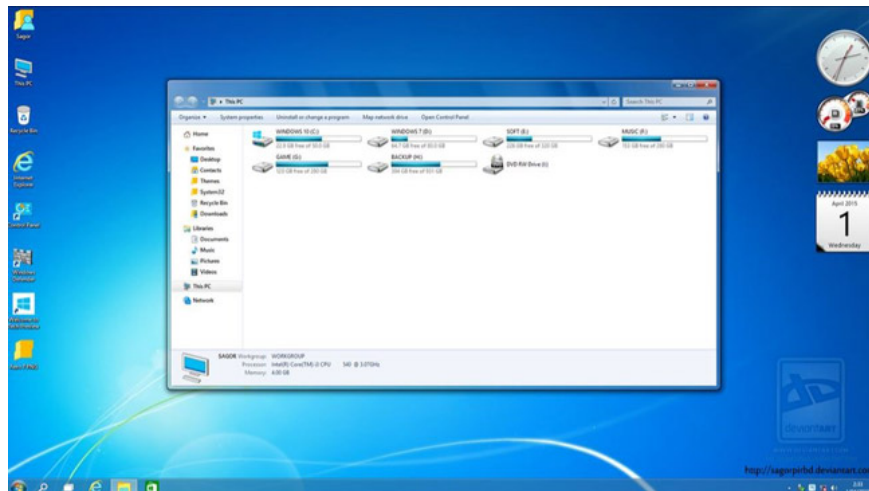

One of the things many people like about Windows 7 is its user interface. Transparent Aero glass is the main reason Windows 7 looks so elegant and sleek compared to other Windows versions.

Transparent Aero glass is no longer the same as before, probably one of the first things you notice after upgrading from Windows 7 to Windows 10. Microsoft has reduced the transparency of Aero glass from Windows 8 / 8.1 and most recently to Windows 10.

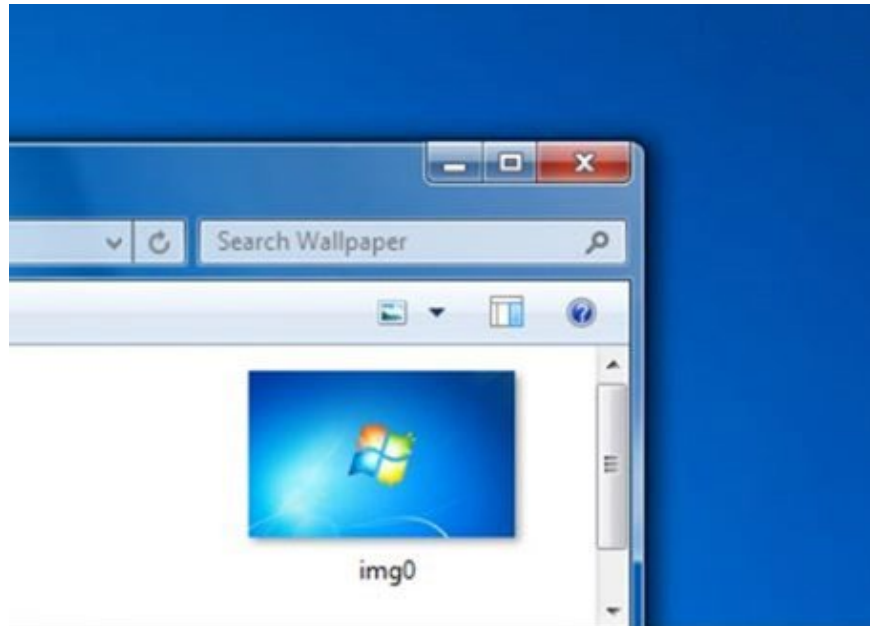

Reducing the transparency of Aero glass can extend battery life but it makes the user interface look very boring.

Theme Windows 7 Aero for Windows 10

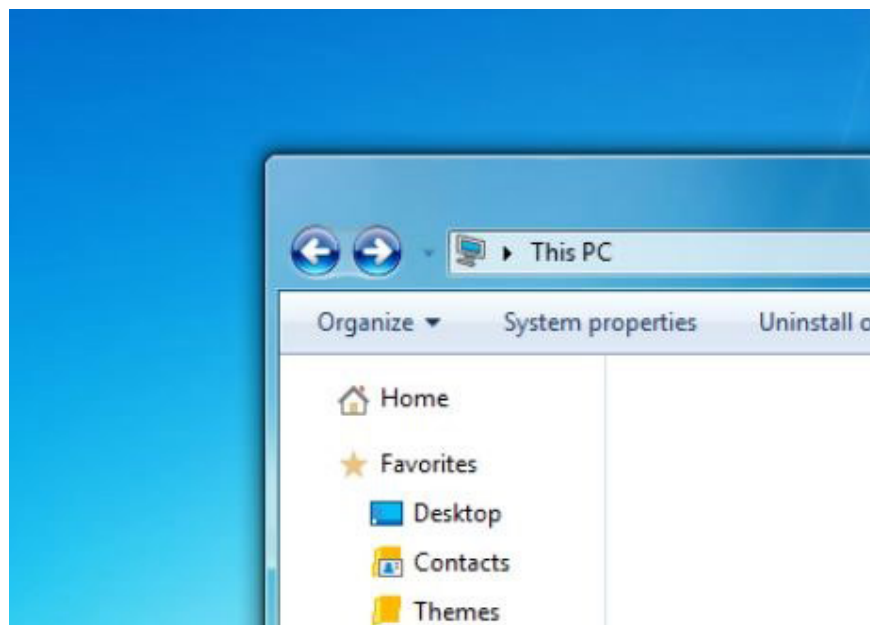

If you have upgraded from Windows 7 or Windows 8.1 to Windows 10 and lack the transparent Eye-candy Theme Aero glass, you can download Windows 7 Aero theme for Windows 10.

Developed by Sagorpirbd (one of the creators of Windows XP Theme for Windows 10), Windows 7 Aero Theme for Windows 10 brings the incredibly beautiful Windows 7 Aero glass user interface to Windows 10. This package includes Windows wallpaper 7 root, Windows 7 Start orb and Read me file contains instructions for installing themes.

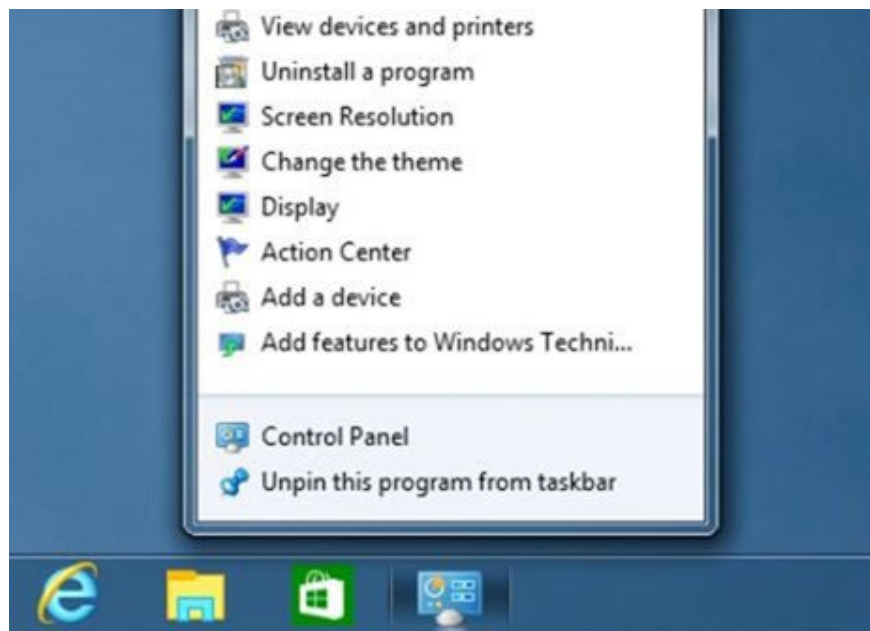

As you know, you can't get Aero glass in Windows 10 by installing theme styles. First, you need to activate the transparent Aero glass by downloading and installing the Aero glass software for Windows 10. After activating Aero, you need to download and apply Windows 7 Aero theme for Windows 10 to make it available. user interface looks like on Windows 7.

Note: You need to change the Start orb manually, if you want to use Start orb in Windows 7 style. Although there is no software to change the Start button of Windows 10, you can try [Windows 8.1 Start Changer](#) . Similarly, if you need Windows 7-style desktop utilities, download the desktop utilities for Windows 10.

1. [Download Windows 7 Start orb](#)

How to install Windows 7 Aero theme for Windows 10

If you are not sure how to download and install the theme, here's a detailed implementation guide:

Step 1: First turn **on transparent Aero glass in** Windows 10 by downloading and installing the [Aero Glass for Windows 10](#) software. Note that Aero Glass for Windows 10 is not completely free.

Step 2: When Aero is turned on and active, download and run **UXStyle** for Windows 10 (Link download: <http://uxstyle.com/>). This is because, with the default settings, Windows does not allow installation of third-party themes. Users need to install UXStyle software to be able to install and apply third-party themes in Windows.

Step 3: Download Theme Windows 7 Aero Glass for Windows 10 by visiting the following link:

<https://sagorpirbd.deviantart.com/art/Aero-7-Themes-for-Win10-Final-523979941>

The theme supports both 32-bit and 64-bit Windows 10 systems. Unzip the RAR file to get a folder named 7 Aero theme for Windows 10. Open the folder to see two more folders titled **Theme** and **Start orb** .

1. [Download Windows 10 build 180410](#)

Step 4: Open the **Themes** folder located in Windows 10 Windows. To do this, open the **Run** command box, type **% windir% ResourcesThemes** and then press the **Enter** key.

Step 5: Copy all the files from the **Theme** folder (which you got in step 3 after extracting the downloaded file) into the Windows 10 **Themes** folder.

Step 6: Right-click on the desktop, click **Personalization** , click the newly installed **Windows 7 Aero Theme** to apply it. The job is complete!
