

How to Download WinRAR

WinRAR is a Windows file archiver and compressor utility that creates both RAR and ZIP archives, and unpacks a variety of archive file formats. WinRAR can be purchased or downloaded directly from the developer's website at...

Method 1 of 2:

Downloading the Full Version

Navigate to the WinRAR download page at <http://www.win-rar.com/predownload.htm>.

1. Alternately, you can download WinRAR from <http://www.rarlab.com/download.htm>. Both sites are owned and operated by Rarlab.^[1]

2.

Click on 'Buy WinRAR.' The full version of WinRAR currently retails for \$29.00.

1. To download the free 40-day trial version of WinRAR, follow the steps outlined in Method Two. The "Free Trial" is infinite for individuals and personal use; you will not be forced to buy WinRAR after the trial period is over, and you can still use it after. You will, however, get annoying "Buy WinRAR" popup every time you open the program.

3.

Enter your name, address, and billing details into the form, then click 'Next.'

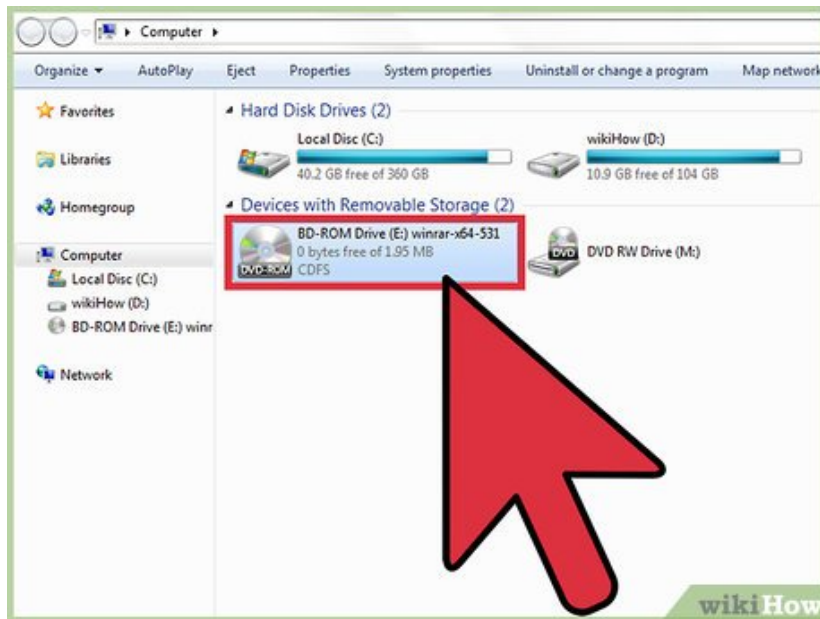

4.

The screenshot shows a web form titled "Delivery address". It contains several input fields: "First name" (filled with "Steve"), "Last name" (filled with "Bolinger"), "Street address" (filled with "San Diego North, Ca."), "City" (filled with "California"), "State" (a dropdown menu with "Please choose ..." selected), "Zip/Postal code" (filled with "92121"), and "Country" (a dropdown menu with "United States" selected). There are also fields for "Email" and "Confirm email", both filled with "estebanskyogito@gmail.com". A checkbox for "Please keep me informed about related products and special offers." is present. At the bottom, there is a section for "Different billing address" with a checkbox and a note: "if your billing address differs from your delivery address, please check the box to provide a different billing address." A "wikiHow" watermark is visible in the bottom right corner.

Review your address and payment information, then click 'Next.' Your payment and order will be processed, and the software will be sent to your mailing address.

1. Alternately, you can select the option to download the software to your computer and have the registration key sent to you via email. If you select this method, copy and paste the registration key into C:Program FilesWinRAR before downloading the software.

5.

Insert the WinRAR disc into an optical disc drive on your computer. The WinRAR installation wizard will display on-screen.

1. If you selected the option to download WinRAR from the site, skip to step #6.

6.

Follow the on-screen instructions to install WinRAR on your computer. The default settings will already be selected in the installation wizard, and you can click 'Next' to proceed through each window.

7.

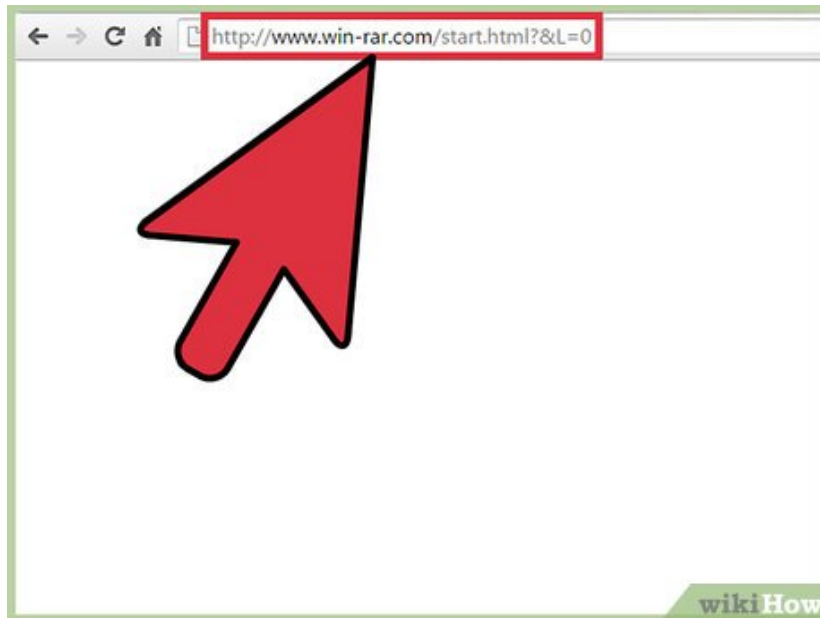

Launch WinRAR, then follow the program's prompts to search for, extract, or create archive files.

Method 2 of 2:

Download the Trial Version

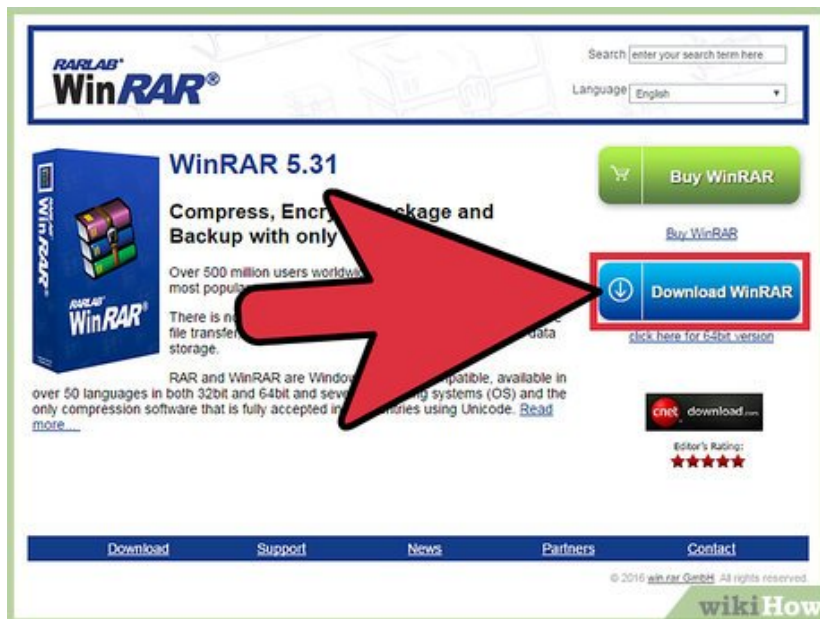

1.

Navigate to the WinRAR download page at <http://www.win-rar.com/predownload.htm>.

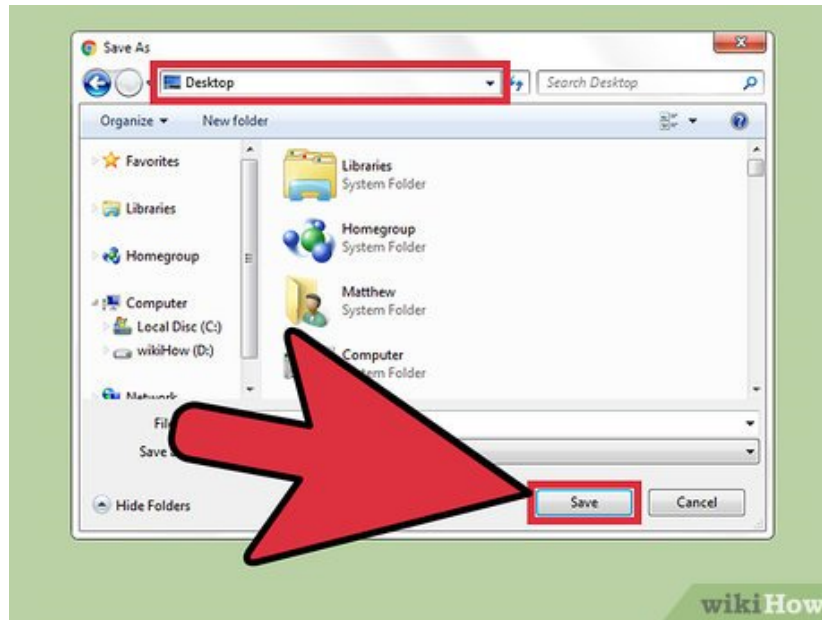

1. Alternately, you can download WinRAR from <http://www.rarlab.com/download.htm>. Both sites are owned and operated by Rarlab.

2.

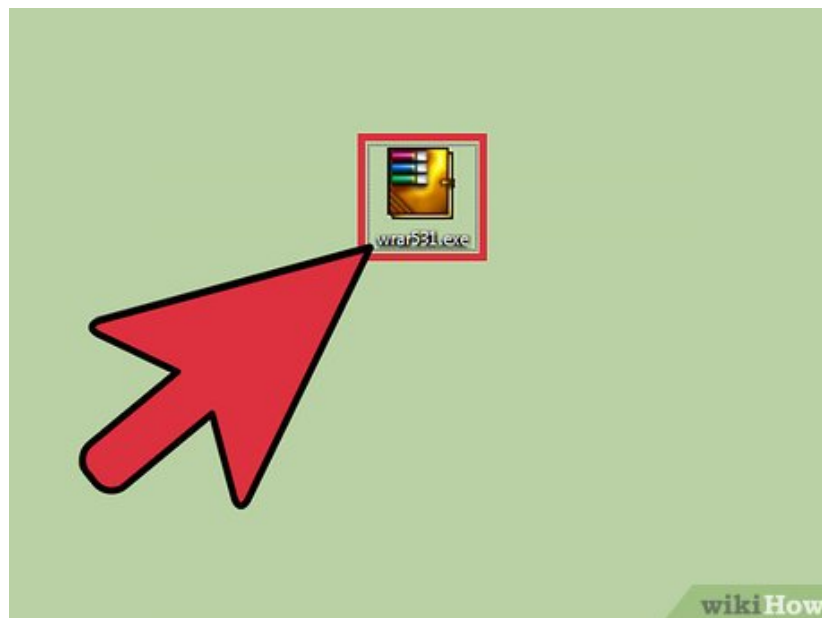

Click on 'Download WinRAR.' The free trial version of WinRAR is available for 40 days.

3.

Select the option to save the .exe file to your Windows desktop.

4.

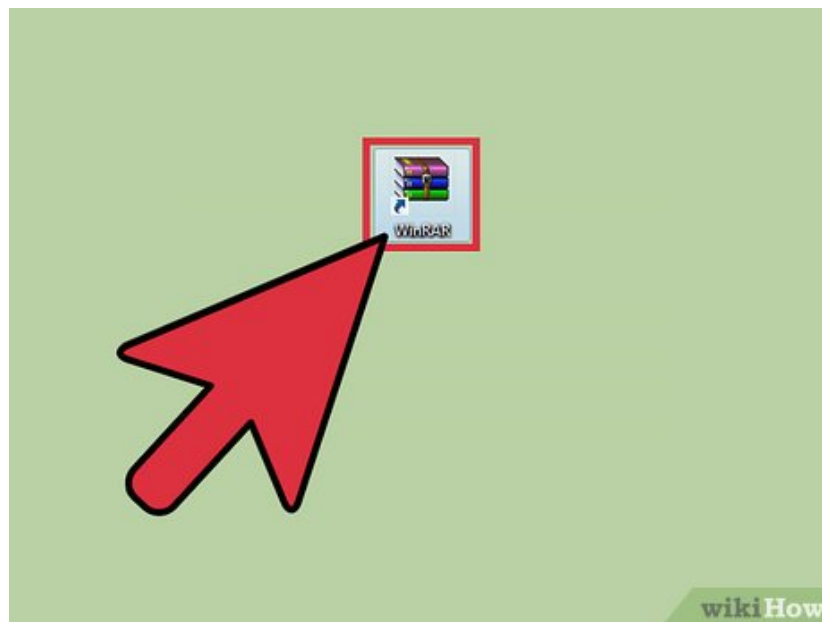

Double-click on the .exe file. This will open the WinRAR installer wizard.

5.

Follow the on-screen instructions to install WinRAR. When installation is complete, the WinRAR shortcut will display on your desktop.

6.

Launch WinRAR, then follow the program's prompts to search for, extract, or create archive files.
