

How to download Youtube videos offline, watch Youtube videos offline

You can download the Youtube video offline to the app gallery and then watch the Youtube video offline, no Wi-Fi connection or download the video directly to the phone.

Downloading Youtube videos is no longer a difficult and complicated issue as you already have a lot of tools to support downloading **YouTube** videos. Not only are video downloading software available, but free online services are also available for users to choose from.

However, if you do not want to download Youtube videos to your device, limit the amount of space on your phone, you can download Youtube videos offline. Currently offline Youtube video download feature has been updated on Android and iOS versions. Users will not need to use additional applications, or support services, but can download YouTube videos right from the application. When you want to watch the video again, just open the offline video collection on Youtube app. If you don't know how to download Youtube videos offline, follow the article below.

1. Instructions for downloading YouTube videos, mp3 music YouTube does not use software
2. Upload videos to YouTube, how to upload videos to YouTube from the fastest computer
3. Rip music from YouTube videos, download MP3 without using software

1. How to download offline videos on Youtube Android

1. Download Youtube for Android
2. Download iOS YouTube videos

Step 1:

Open the YouTube application on the device and find the video you want to save offline offline.

Step 2:

At the video playback interface click on **the Save icon** as shown below. Soon you will receive a notification at the bottom of the screen Saving videos offline. We wait for the video download process to succeed, when we see the sign that it is complete.

Note to users , not all videos allow you to download and watch in offline mode due to YouTube video copyright issues.

Step 4:

Continue to click **the Offline video quality** to choose the quality each time you download the video. Users can select video saving qualities including 720p, 480P and 360p. By default, Youtube will be in 720P mode every time the video is downloaded offline.

Or you can press Ask each time to choose different quality for offline video.

By default Youtube will only save videos to offline mode when connected to WiFi.

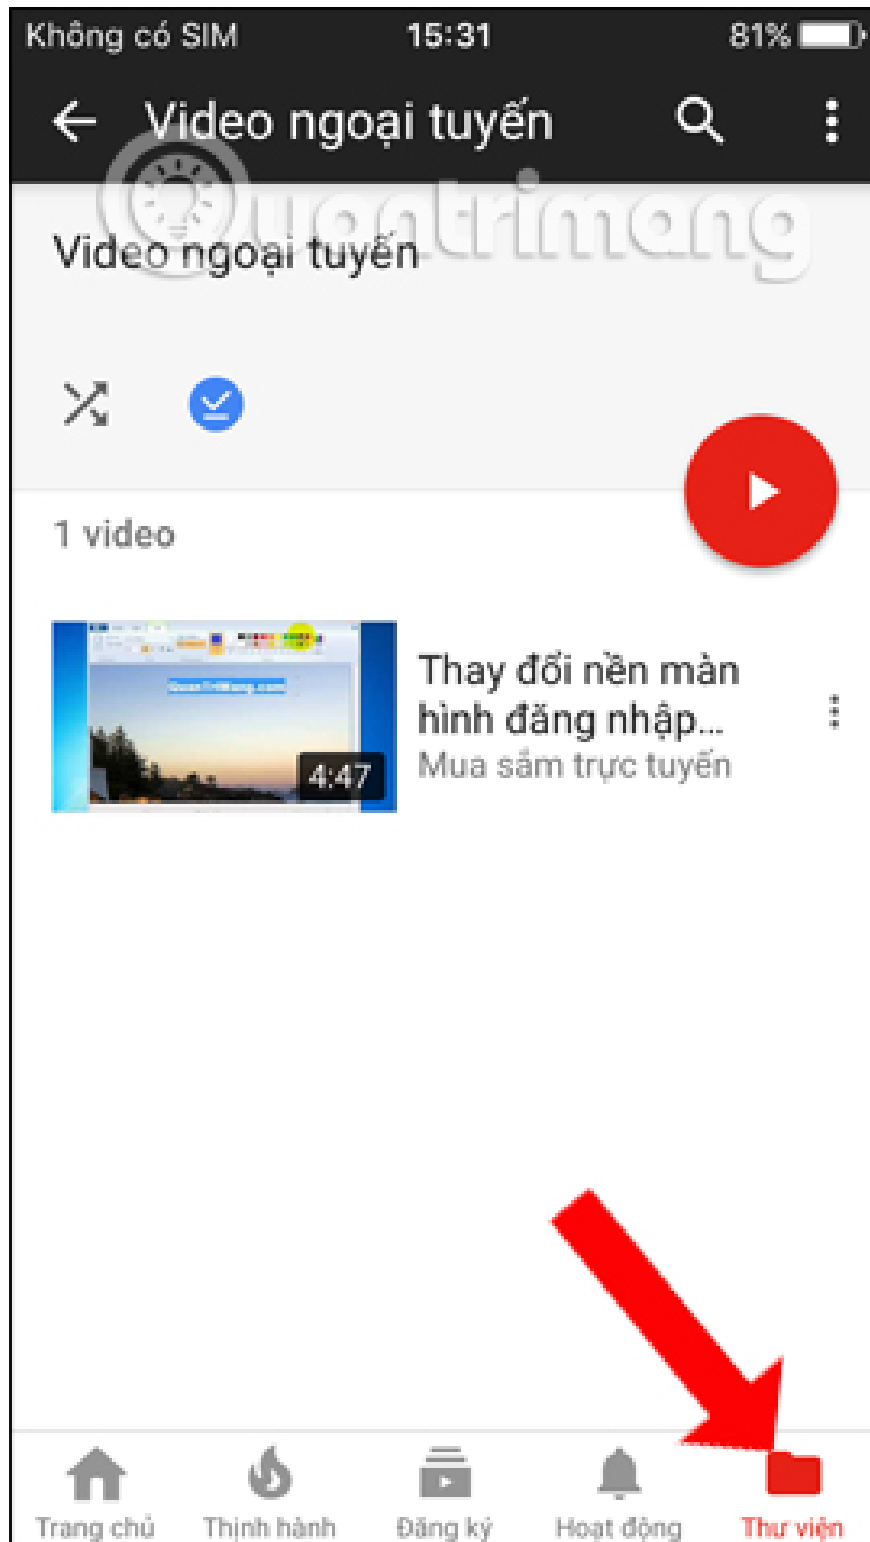

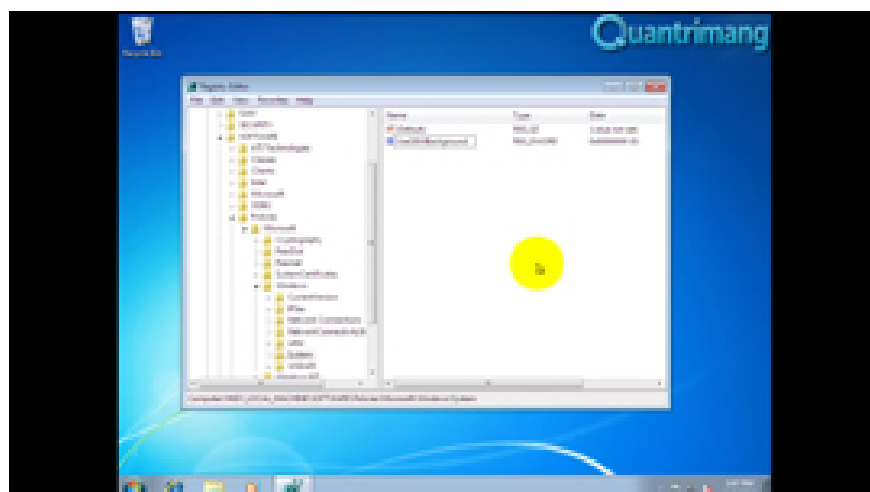

Step 5:

You now disconnect the WiFi to try watching offline Youtube videos. Click **the Library item** at the bottom of the screen and you will see the Video album offline. We just need to click on the video to see it.

In the offline Youtube video playback interface, if you want to remove the video from the Offline Video list, click **the Save icon to see** . Then we will be asked if you want to remove this video from the offline video list.

Click **Delete** to agree.
