

How to download Youtube videos to your phone or computer fastest

How to download videos from YouTube to watch offline? Check out the detailed instructions that will help you download YouTube videos safely and effectively in just a few minutes.

YouTube is the world's largest video platform, but many users still want to download videos for free without upgrading to the Premium version. Free Download will provide you with 2 simple solutions to download videos from YouTube to your device.

YouTube Video Downloader

Article content:

1. Use [Ytop1.com](https://www.ytop1.com).
2. Download with [x2convert.com](https://www.x2convert.com).

1. Download videos on Youtube using Ytop1.com

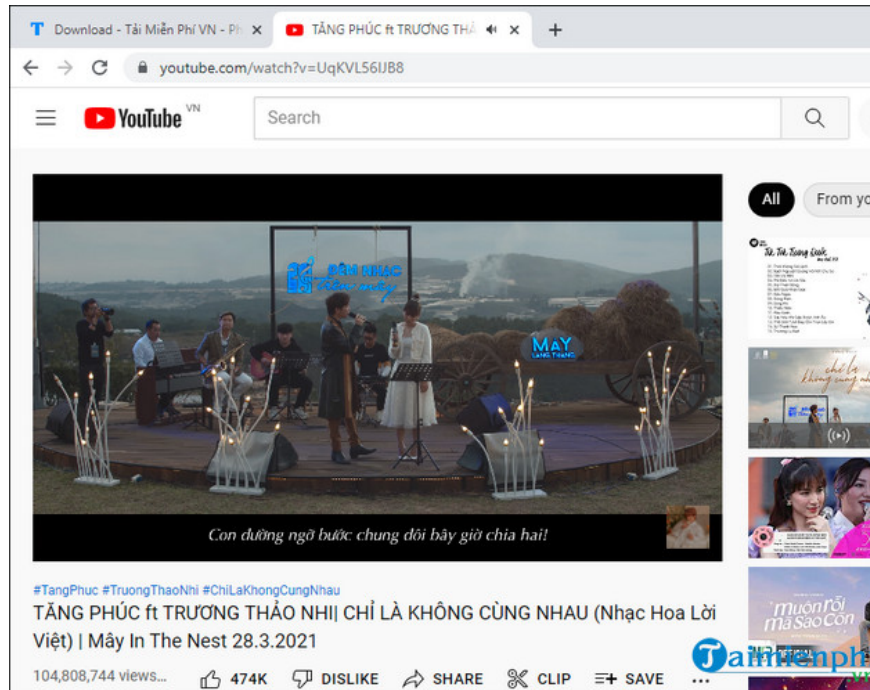

The first place that Free Download wants to introduce to readers is **Ytop1.com** . Ytop1.com users do not need to create an account or log in but can still download videos to their devices.

- Advantages:

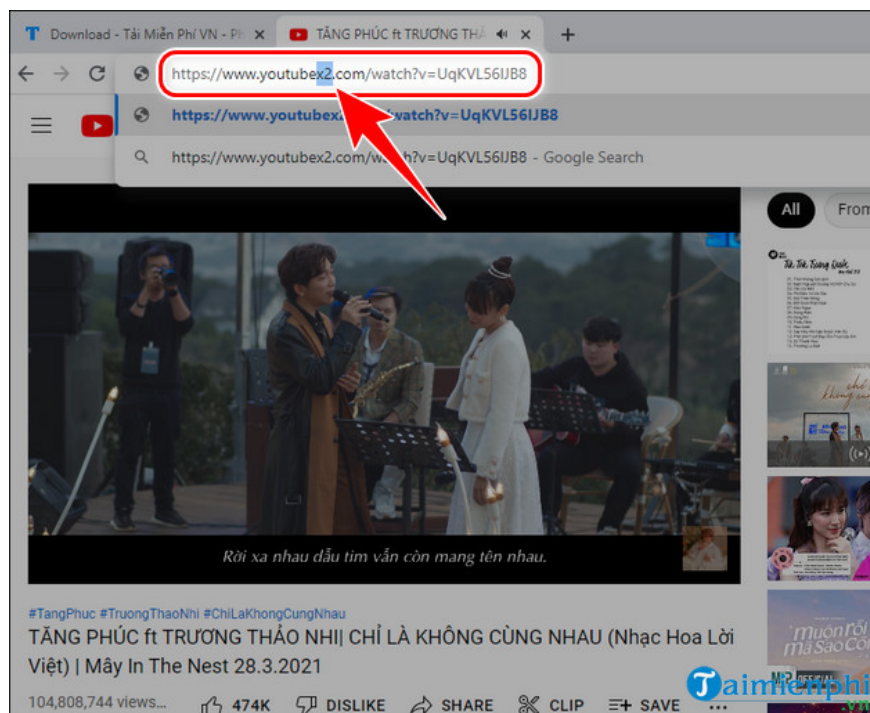

+ Completely free, fast download speed from 8-10MB/s.

- + No need to create an account, log in when using.
- + No limit on capacity, number of downloads per day.
- + Support downloading Youtube videos with many different qualities from 360 to FullHD.
- + Support downloading Youtube videos quickly.

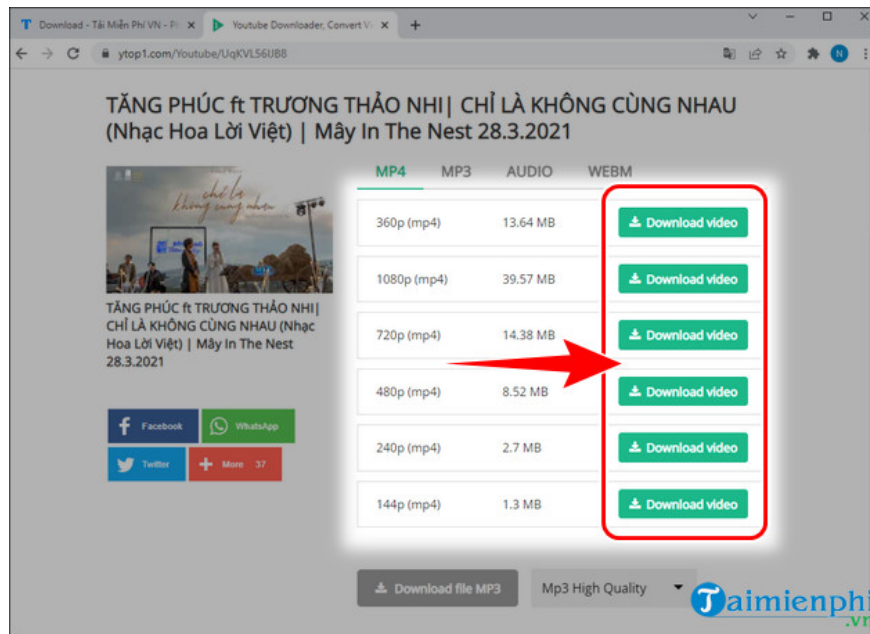

+ **Step 1:** Open the **Youtube video** you need to download to your device.

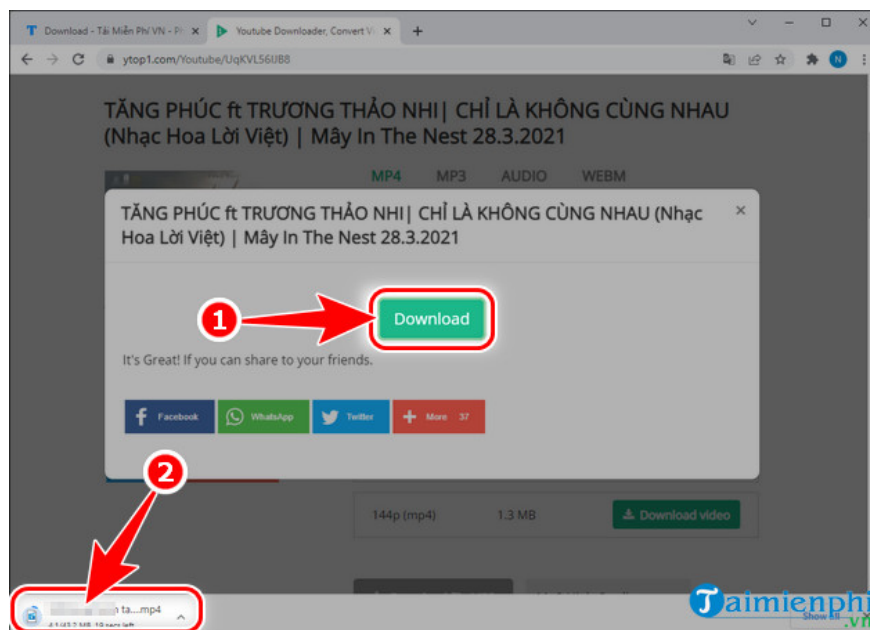

+ **Step 2:** Add **X2** after the word **Youtube** as shown below.

+ **Step 3:** Next, click **Download Video** corresponding to the video quality downloaded from Youtube.

+ **Step 4:** Click **Download** and **open** after completion.

Not only downloading videos from Youtube, Ytop1.com also supports downloading Tiktok videos without logo and user ID, you will not have to pay any money but can still use them, details refer to the link below.

2. Download videos from Youtube using x2convert.com

Similar to Ytop1, you can use X2convert to download Youtube videos to your computer and Android, iOS and iPad phones for free without any hassle.

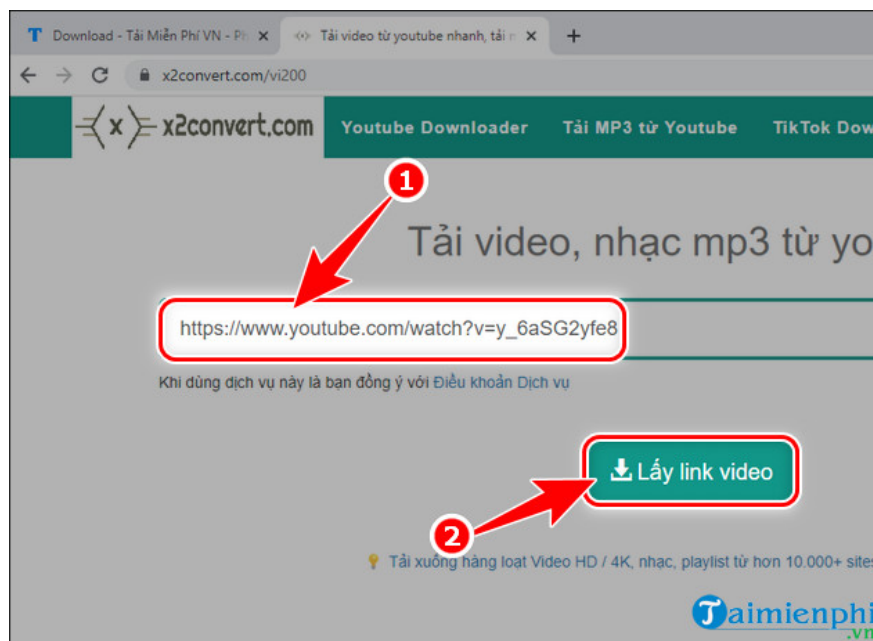

- Advantages:

- + Download high quality videos from Youtube.
- + Works well on computer operating systems, Android, iOS and Ipad.
- + Does not require information, login or payment to use.
- + Supports users with many different languages, including Vietnamese.
- + Supports improving video quality after downloading.
- + Supports fast Youtube video download.

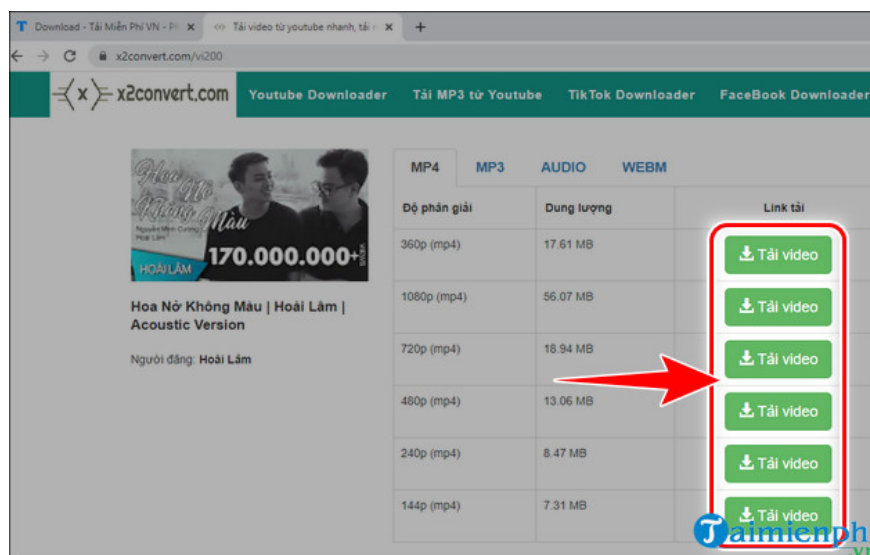

+ **Step 1:** Open Youtube video, **copy** Youtube video link.

+ **Step 2:** Visit **X2convert.com** or go to the Vietnamese Youtube video download link below.

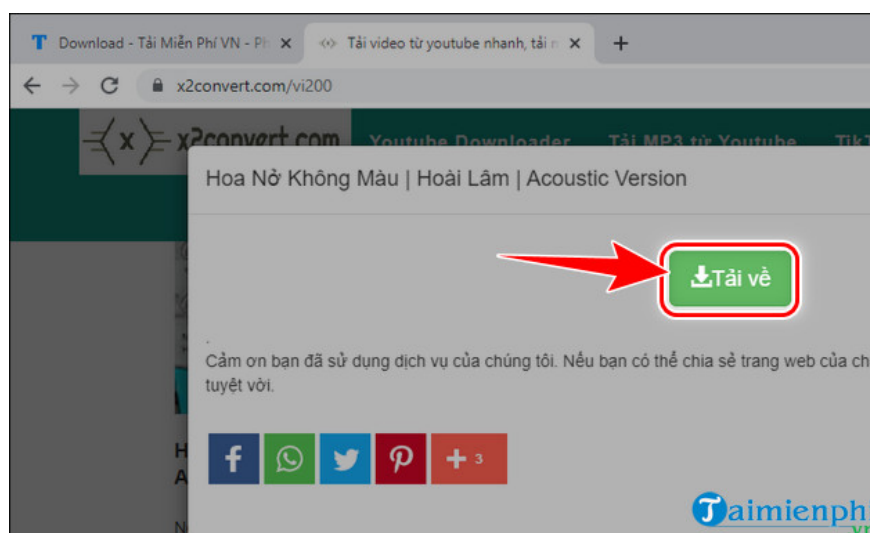

+ **Step 3:** Paste **the Youtube link you copied** above into the blank box, click **Get video link** .

+ **Step 4:** Click **Download Video** corresponding to **the resolution** you want to download.

+ **Step 5:** Continue to click **Download** , download Youtube videos to your device.

Above are 2 **ways to download videos from Youtube** extremely fast with Ytop1 and x2convert. Wish you success. In addition, if you want to download mp3 music, download Facebook or TikTok videos to your device, you can also use these 2 tools.
