

# How to Earn More Money and LP in The Sims FreePlay

Are you missing LP (Lifestyle Points) and virtual dollars (Simoleon) in The Sims FreePlay? You can use these two essential currencies to buy the best items in the game but you will have to spend some time to earn the desired amount. If you want to cheat, there are many ways to help you earn large amounts of money or LP on iOS and Android. If you like to play the game by the rules, there are many ways to help you earn as much LP and money as possible. See Step 1 below to see how.

## Complete Quests and Activities

**Make your virtual character (Sim) full of inspiration.** Inspire virtual people to earn more money completing tasks. You can inspire virtual people by meeting their needs. Click on the virtual person and observe the gauges to understand their needs. If the virtual person is hungry, open the refrigerator to find food. If the virtual person is not having fun, relax by watching TV or playing on the computer. If your virtual person's social needs are lacking, try getting a dog, talking to other virtual people on the phone or in person.

You can quickly and easily increase your virtual person's energy by drinking Espresso coffee. If the virtual person regularly drinks this type of coffee, it is not necessary to sleep!

When interacting with other virtual people, being funny is the way to increase the gauge to the highest level.

You can use LP to buy cupcakes if you want to inspire virtual people or use money to buy Cocktails at a nightclub.

**Make cakes and sell them for money.** You can buy an oven to sell baked goods. Start by making cookies or pancakes. Once your baking skills become more advanced, you can make chocolate cakes! You have to spend a lot of time and patience if you want to make a lot of money this way, but it is worth doing because you also earn LP.

**Use virtual human dogs to mine money and LP.** After your dog digs out LP, reward him so he knows he will be praised every time he digs out LP. That means there will be more rewards later. You can buy bones for 2 LP for your dog to earn money and LP faster.

The higher your cat or dog costs, the faster it can earn money and LP.

If you don't see the digging symbol in your dog, let the child play with the dog or have the adult character praise the dog. Do this twice to get your dog to start running or slowly moving. Usually the dog will find something. You can repeat this step to earn more.

**Go to work.** When your virtual character goes to work, he or she will have the ability to earn and save money. If the virtual person goes to work regularly, they will be promoted and can earn more money and experience points (XP) after each working day.

Working regularly also helps you achieve many goals in the game.

**Grow vegetable.** After planting, you will earn money depending on the type of vegetables you have grown. While you sleep over, have your virtual characters do some gardening (including all virtual people who are free or not working). If you let the virtual person garden and harvest for 7 to 8 hours at night, when you wake up you will find that you have earned a lot of money and experience points. Make sure your virtual person is always full of inspiration because then they can earn one and a half times the normal amount.

Try growing bell peppers because the bell pepper seeds are free, it only takes half a minute to be planted and ready to sell! After planting, you can sell bell peppers to make some money.

You can set aside a plot of land in your town for gardening. Build at least one garden on virtual inhabited land in your town. You should inspire all or most of the virtual people at the same time and send them out to the plot to garden.

**Try to improve your skills and interests.** Buy the Community Center at the top left of the town map. Then take up hobbies like fashion design, ghost hunting, and figure skating. All of those interests help you win rewards. You can get a great reward for completing the collection.

TipsMake

**Compete at the Competition Center.** You can earn some extra LP or experience points by competing at the Contest Center included in the Supernatural update. You can compete in a number of competitions such as ballet, karate or ghost catching. You can choose a virtual person to compete in the next 12 hours. You need to improve your skills to get higher rankings and then gradually win bigger rewards.

TipsMake

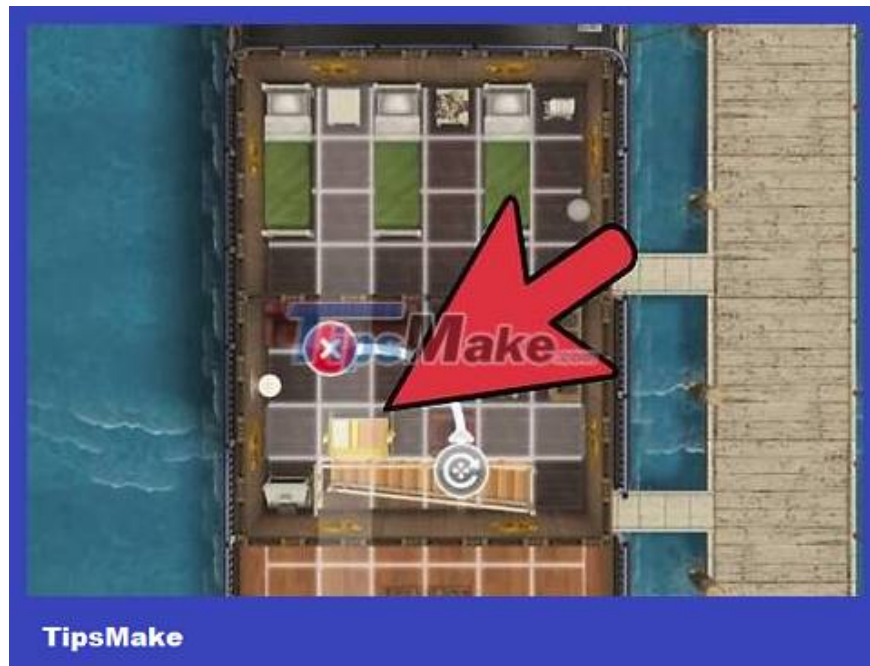

**Double the number of items.** If you're in the middle of baking a cake that takes a long time to prepare and need to make some quick money, using two ovens will help a lot. Don't buy an expensive oven when you're not rich because an expensive oven won't help you bake faster.

**Drive.** When driving the car, you can earn money and LP. If you quickly tap the notes, you can also earn more money. Sometimes you have to be lucky to earn LP.

**Clean up the waste from virtual people.** If you don't let the virtual person go to the bathroom, their pants will get wet. After washing the pants, you will get extra points. Another way is to shake the device to make your virtual person dizzy and 'squirt', then clean up the vomit to earn extra points. However, if you abuse this method, your device may freeze, so use it wisely.

**Save money and LP.** Be a wise consumer. Don't waste money buying things you'll never use. Just like in real life, this is the secret to saving you a lot of money.

Keep reusable items. Place the cradle in the inventory as soon as the child is born. Other couples can reuse the crib later and save money because you don't have to buy a new crib.

Do not waste money to prevent unforeseen circumstances. Save your LP because some quests require you to have LP. After completing the mission, you will get some back. Surely you don't want to fall into the unfortunate situation of not being able to complete the mission just because you accidentally spent all your LP on something you don't really need!

Be careful when spending real money in games. Don't waste your real life money to earn virtual money and LP in the game because if you are patient, you can earn a lot of virtual money in other ways. Furthermore, if you keep using real money to buy virtual money, it may form a habit that is not beneficial for you.

**Watch promotional videos.** Go to the purple cart and click the Free button at the top left. You will see many shows or short videos that will earn you 1 LP if you watch them. Although it's not much, because the videos change constantly, you can comfortably earn LP this way.

**Join social networks.** The Sims FreePlay game's Facebook page often has special offers and promotions (Special Offer & Giveaway). If you like their Facebook page, you will receive updates every time there is a new event. You can earn money, LP, and many other items this way.

**Cook for your Sim character.** If you click on the stove, you can choose cooking or baking mode. If you choose cooking mode, you can start this hobby and cook for your virtual character. It's like a regular job, but your Sim gets to enjoy a plate of food.

Make sure you have the right kitchen equipment (3-star stove, 2-star toaster, etc.) to be able to prepare the dish you desire, otherwise you won't be able to complete the dish.

You will waste money and time to buy ingredients to prepare dishes. If you need more time to prepare the ingredients, it will cost you more money to cook that dish.

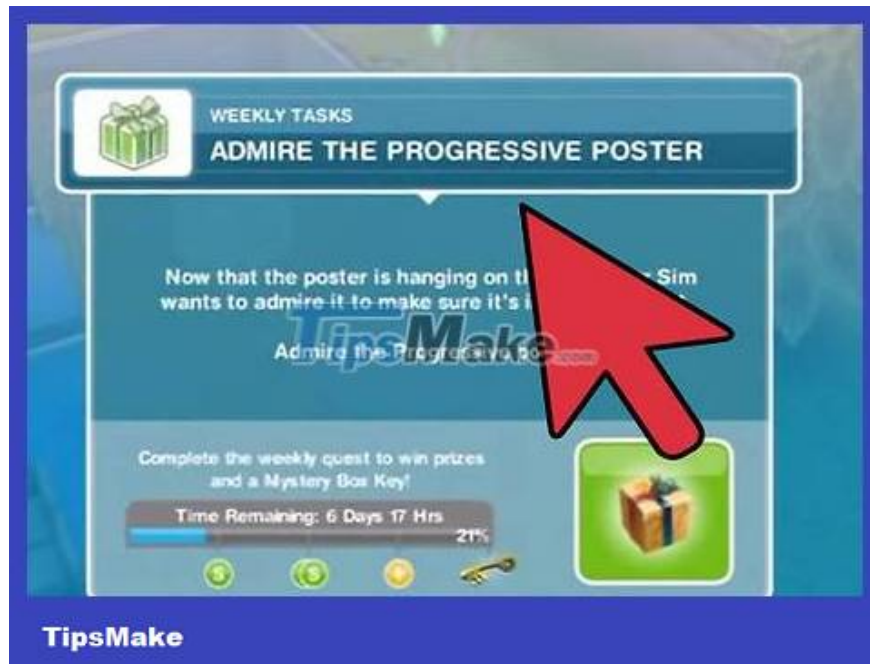

Some ingredients may catch fire when you finish them. Be careful when preparing these ingredients.

## Progress and Level Up

**Level up.** If you level up in Sims FreePlay, you will earn more LP and money. You can do this by establishing a good relationship with the virtual person (for example, becoming the virtual person's lover or best friend). This helps you get a turning point or do things that take a long time to complete. Additionally, after leveling up, you can build houses, businesses, and workplaces to increase their cadastral value and help you make more money.

Do things that take a long time to complete. This is a way to help you gain more experience points to increase your level. The higher the level, the greater the cadastral value and the more money and LP you earn.

**Complete the goals.** There are many goals in Sims FreePlay related to nearly every aspect of the game, be it helping virtual people get jobs, building businesses, collecting taxes, etc. When you complete the goals, you will earn money. Get money, experience points and LP. Because the goals in the game change often, try to complete as many goals as possible.

**Increase cadastral value.** The higher the town's value, the more LP you earn. Increase the cadastral value by building more houses, businesses and workplaces. Buy expensive furniture and many other items to increase the cadastral value of your land.

**Play Cheat on iOS**

**Download alternate save game data.** You will replace the current save data on your device with save data containing 100,000,000 coins and 88,888,888 LP. Because your current data is deleted, you will have to start over from the beginning.

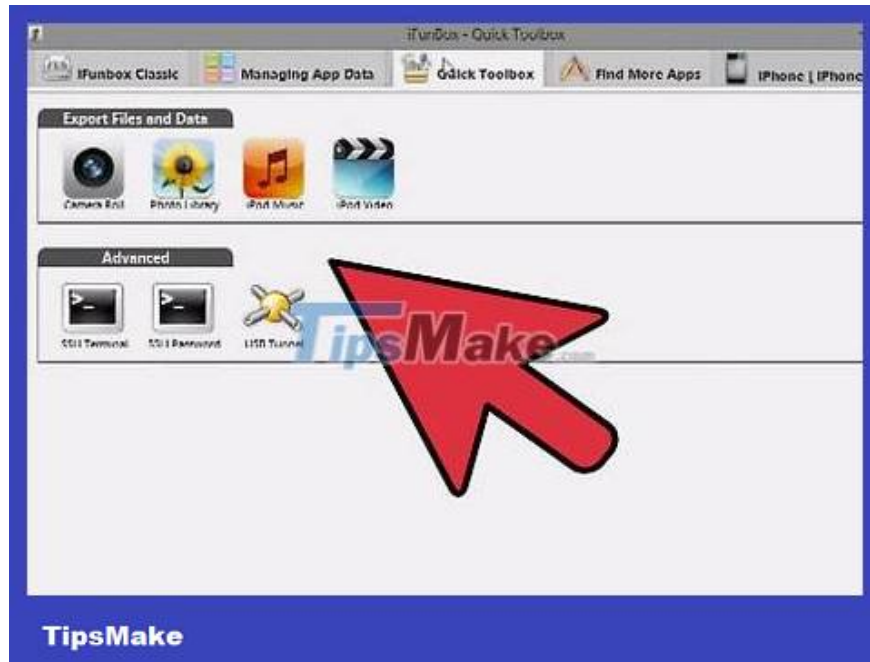

Search by keyword "sims freeplay hack iFunbox" to find a ZIP file containing alternate game data.

Don't download files from any site that requires you to fill out a survey to access the file.

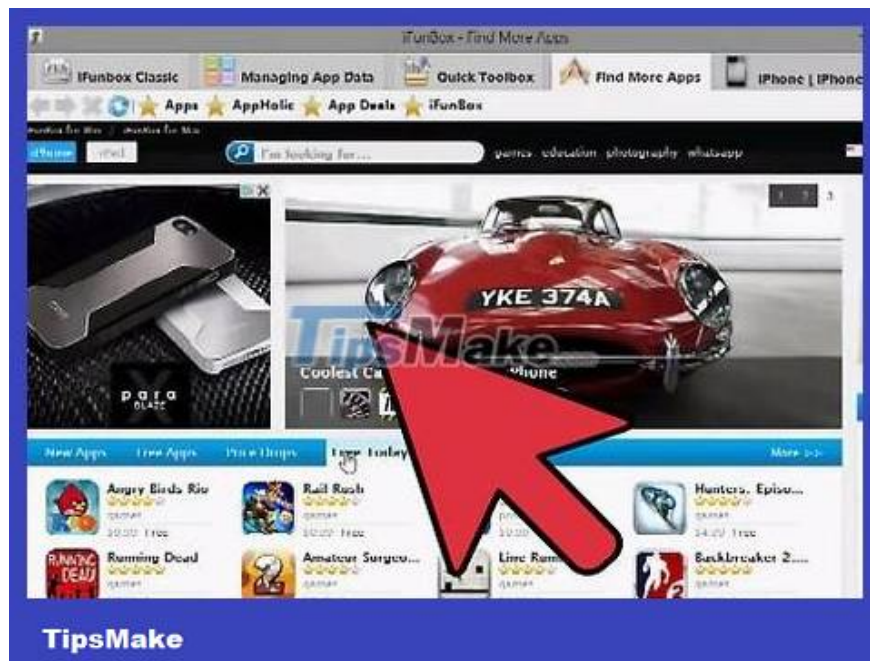

This method does not require you to jailbreak the device (jailbreaking is the process of making the device less restrictive).

**Install iFunBox on your computer.** This is a file manager that helps you access files in your iOS device without having to jailbreak it. You can download FunBox for free from the developer. You can also use some other file managers like iFile or DiskAid.

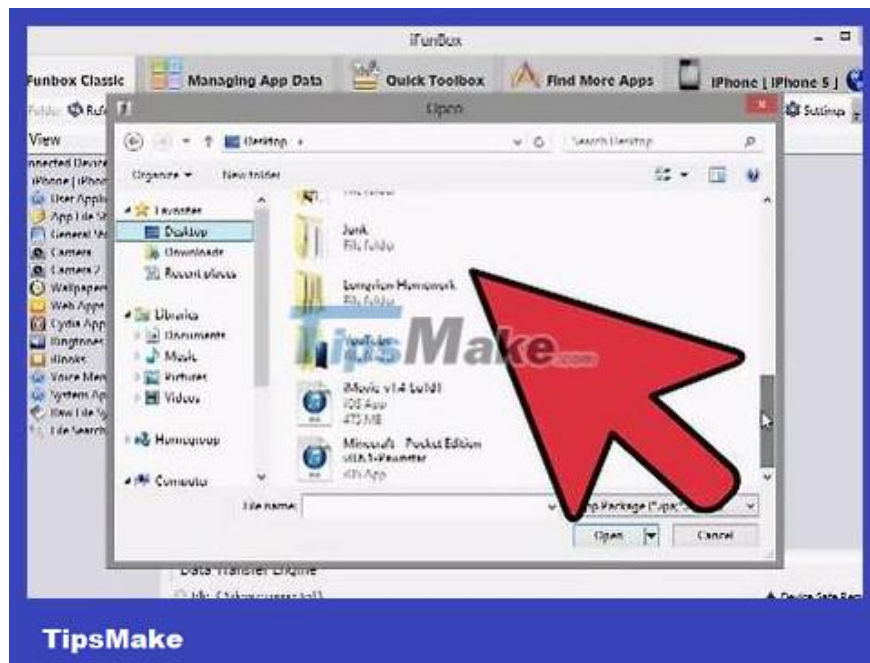

**Plug your device into your computer via USB.** Close iTunes if it's open.

**Proceed to use iFunBox.** Expand the Application section in the Folder View on the left side of the screen. Double click on the Sims FreePlay game.

**Open the Document folder.** In this folder, you will see the "savegames" folder (save game data). Right-click the folder and select "Delete". You can also copy this folder to your computer to keep a backup.

**Open the game save ZIP file instead.** In the ZIP file, you will most likely see a "savegames" folder. Click and drag this folder into the Documents folder in iFunBox.

**Open the Sims FreePlay game.** After opening the game, if you followed the above steps correctly, you now have 100,000,000 money and 88,888,888 LP!

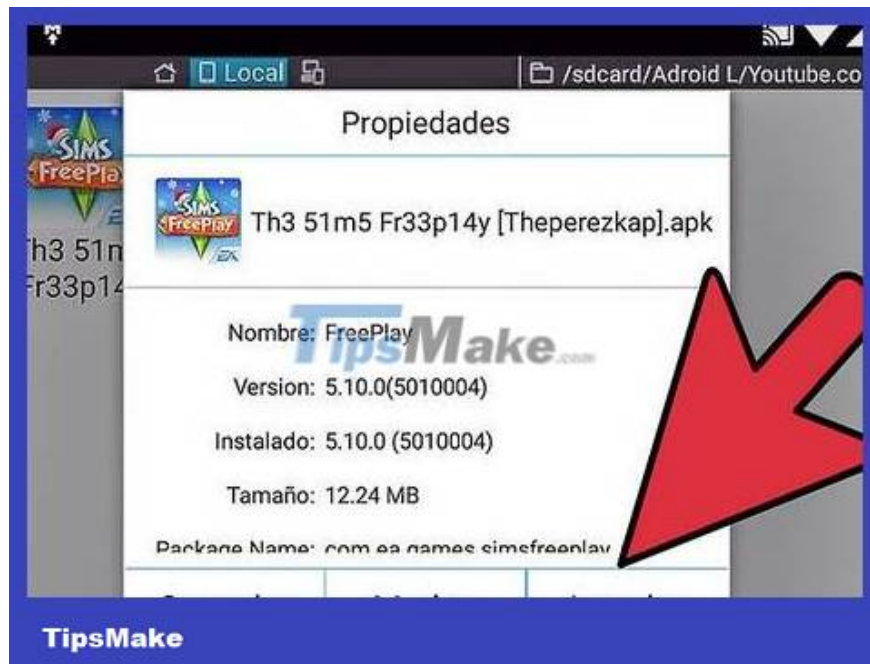

Note: This method will destroy the engagement ring. If you want to use this type of ring, you need to back up your new game save data to iCloud, delete The Sims FreePlay game and download the newly backed up game save data.

## Play Cheat on Android

**Download an alternative APK.** APK file is an Android package format. This is the format of all Android games and applications. You can download a hacked Sims FreePlay APK file from various sites, such as

Piratebay. You can learn for yourself how to use Torrent to download this file.

**Copy the APK file to your phone.** Plug your phone into your computer via USB and copy the APK file to the root directory on your phone. You can also email the APK file to yourself and download the attachment to your phone.

If you copy the APK to your phone, you'll need to install a file browser app on your phone to access it, for example using ESFileExplorer.

**Allows installation of applications downloaded from Unknown sources.** To allow your phone to install apps, you'll need to set it up so that your device can install apps that aren't downloaded from the Google Play Store.

Open Settings and click Security. Please check the "Unknown sources" box.

**Uninstall the original Sims FreePlay game.** To be able to install a modified game, you will have to delete the original game. You will lose your current game progress.

You can uninstall games from the Application menu in Settings. Click on the Sims FreePlay game in the Application list and uninstall the game.

**Install the APK file.** If you copied the APK file to the root folder of your phone, open the file browser app and find the location of the APK file. Click on the APK file to start the installation process.

If you've sent yourself an email containing an APK file, open the email on your phone and download the attachment. Once the download is complete, you can start the installation process by opening the notification bar and clicking on the APK file.

**Open the game.** After completing the installation process, open the game. You may need to download additional data as soon as you start playing the game. You will find that you now have infinite money and LP. You may encounter a few errors while playing the game and sometimes cannot log in to Facebook.
