

How to email Gmail to Outlook.com

Outlook.com is Microsoft's webmail, possessing many attractive features such as integrating with many social networks or the ability to sync other email services right in Gmail.

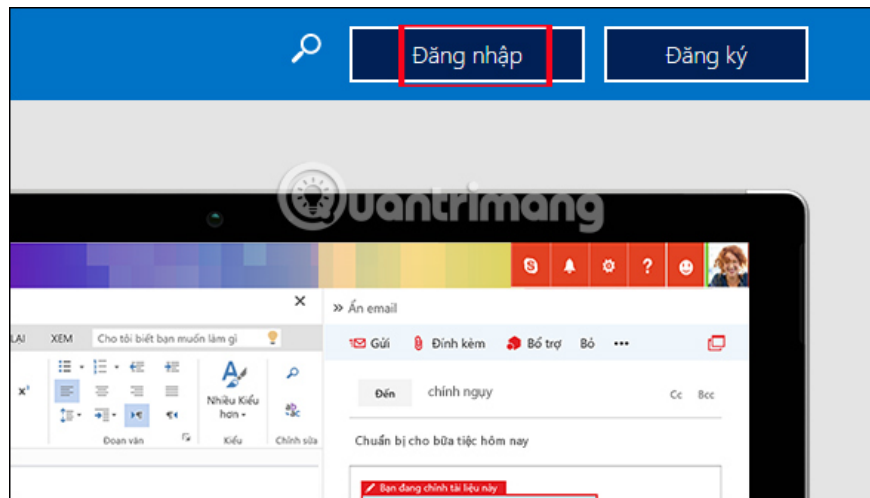

Today's webmail services are more developed and richer than Gmail, giving users more options for sending email. Like Outlook.com Microsoft webmail service with many features such as the ability to integrate social networks Facebook, Twitter, LinkedIn, storage services like SkyDrive support users more in the process of using.

If you are using Gmail but want to switch to using Outlook.com, and want to transfer all of your email from Gmail to Outlook.com, please refer to the article below.

Step 1:

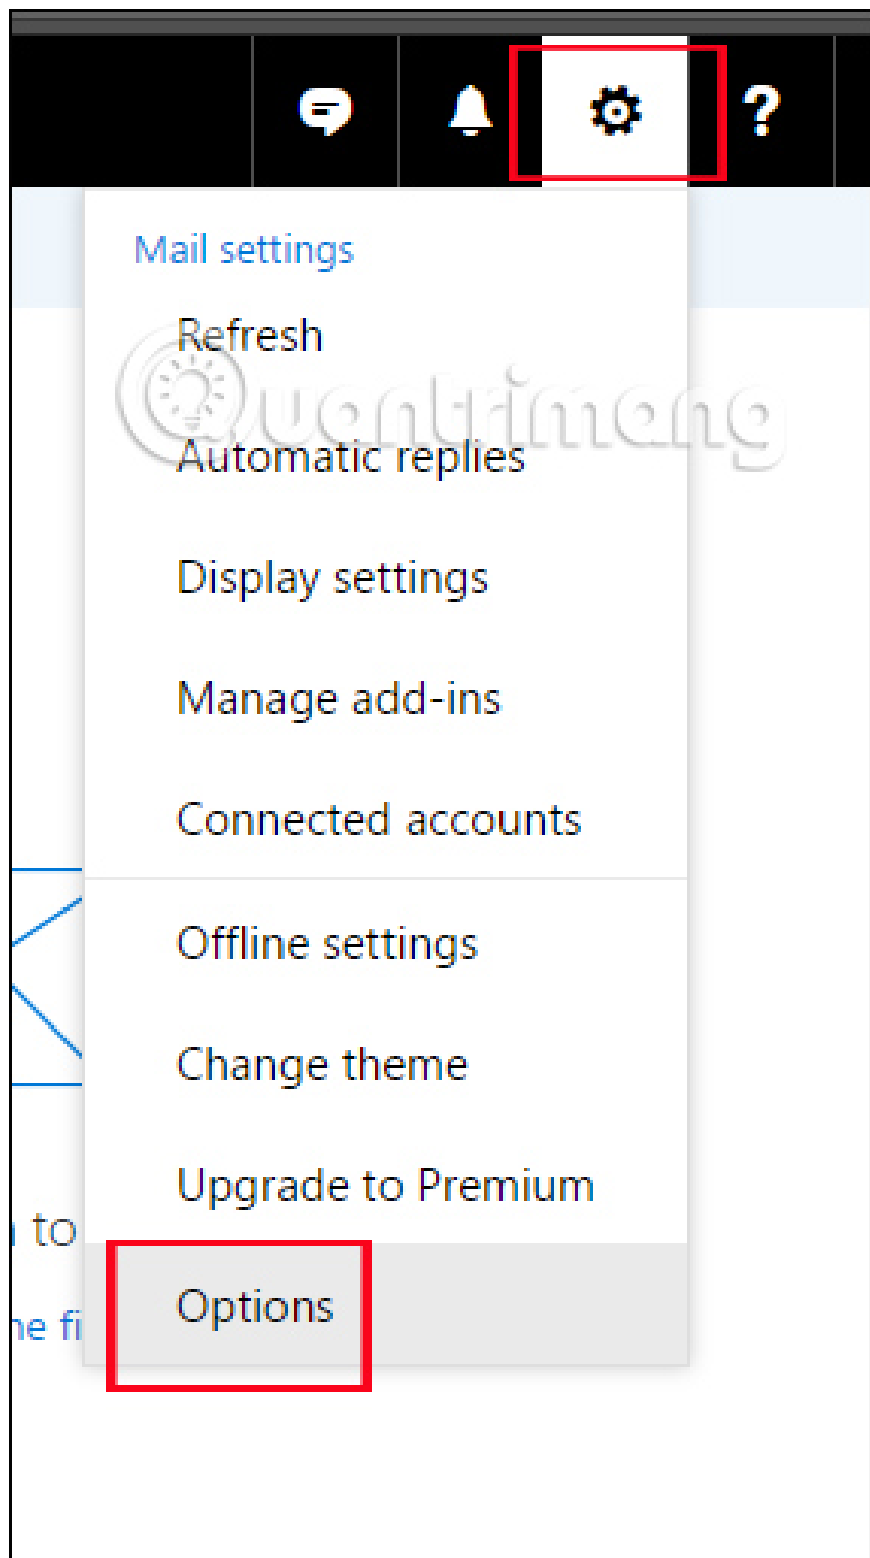

First of all, users log into Outlook.com account under the link below.

1. <https://www.microsoft.com/en-vn/outlook-com/>

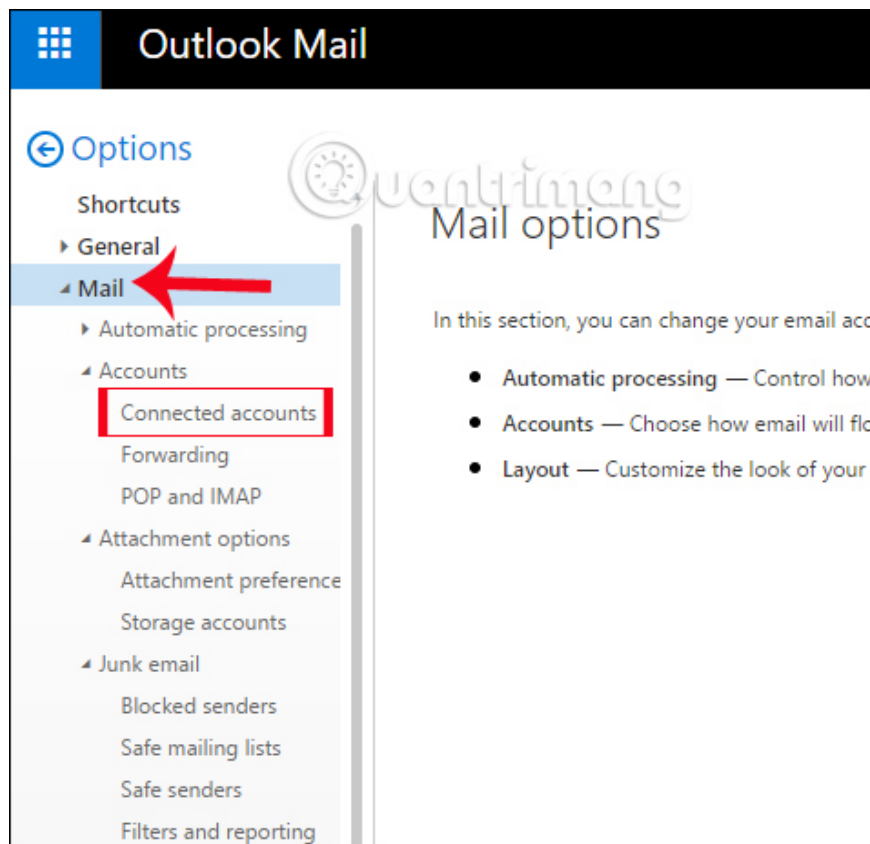

Step 2:

After entering your Outlook account successfully, in the homepage interface click on **the gear icon** , in the right option at the top of the screen, then select **Options** .

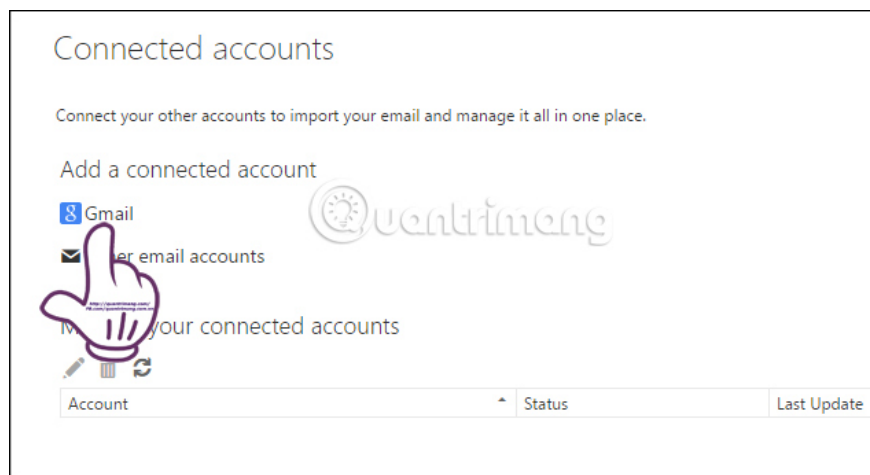

Step 3:

Switch to the list of installation options on Outlook, click **Mail**> **Accounts**> **Connected accounts** .

Step 4:

Appeared Connected accounts interface. Here you click on your **Gmail account** .

Step 5:

Switch to Connect your Google account interface, click on **OK** to proceed to link with your Google account.

Connect your Google account

Display name
Angel Park

Connect your Google account so we can import your Gmail. You'll also be able to send email from Outlook using your Gmail address.
 Connect your Google account to send emails from Outlook using your Gmail address (Add as send-only account).

You can choose where the imported email will be stored.

Create a new folder for imported email, with subfolders like in Gmail
 Import into existing folders, such as Inbox, Sent Items, and Drafts, and create new folders for custom labels

When you click OK, you'll be taken to the Google sign-in page.

Step 6:

Appears Google interface for users to **enter Gmail address** to sync with Outlook.com account.

After that, Microsoft will ask users to agree with some **of Outlook.com's access to Gmail** , click **Allow** below.

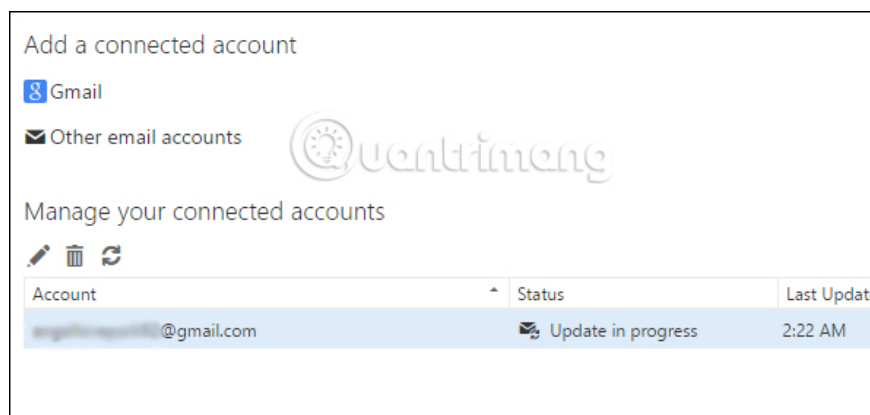

Step 7:

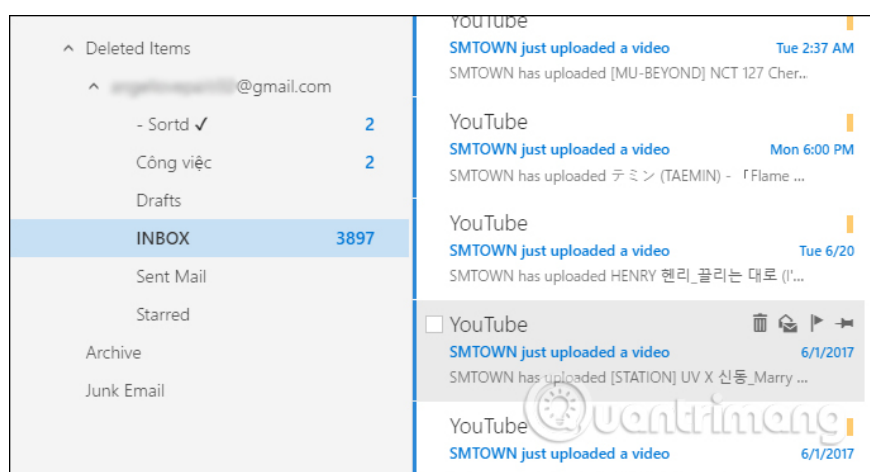

Soon we will receive a notification on Outlook.com for successful connection to Gmail account. Click OK to return to the Add a connected account interface.

Next will proceed to sync Gmail email on Outlook.com. Depending on the amount of email available on your Gmail account, as well as the speed of the Internet connection, this process is completed quickly or slowly.

When returning to the Outlook.com interface, we will see that the **Categories** item is a Gmail address that has been synchronized. If you click on this email address, you will see all email sent, as well as email sent from this Gmail address.

With a few simple steps, we were able to synchronize and transfer all of the email that is available on our Gmail account to Outlook.com. Besides, users will have a number of customizations such as deleting messages, reading Gmail messages right on the interface of Outlook.com.

I wish you all success!
