

How to enable limited video mode on Youtube

YouTube now has a policy to restrict the age of viewers with videos with sensitive images, especially for young children. And in the process of use, users can report videos, report pages, .. with videos with inappropriate content.

Youtube is now a very familiar place, as well as the first website that every person wants to find a certain video. However, if your family has small children, you need to be careful before any video content on Youtube. Your kids may accidentally see videos with inappropriate content, when they are too young to distinguish what is the right video for their age.

Therefore, YouTube has used measures to prevent videos with sensitive content, restrict video content to the number of viewers. In addition, the cooperation and contribution of viewers also contribute greatly to help Youtube will no longer have videos with objectionable content, such as reporting videos, reporting pages, or reporting privacy violations.

One of the measures that each family should take to avoid giving each member a view of dangerous content, especially young children is to use limited features on Youtube. When this feature is turned on, sure, your kids will not be affected by sensitive videos, affecting their development. Note to readers, to limit the maximum, we need to perform on the same account and in different browsers, different devices.

1. Activate limited mode on Youtube web:

Step 1:

First of all, you need to log in to your personal Youtube account. Next, at the interface on the page you scroll down and select Restricted Mode.

Step 2:

By default this limited video feature will be turned off on Youtube. So users need to turn this restriction on YouTube.

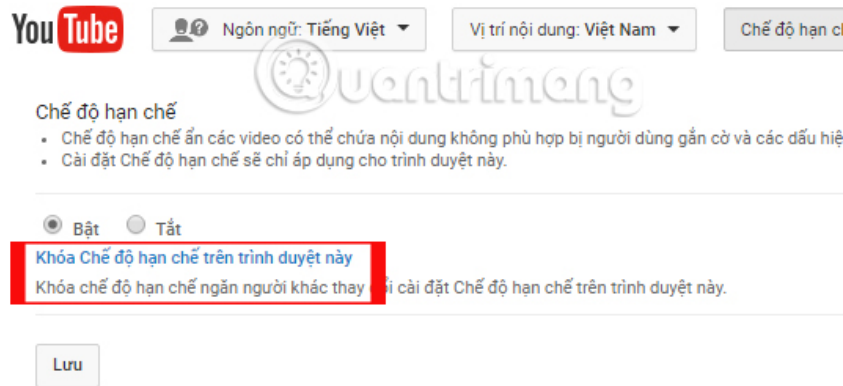

If you look down below, you will see the **Enable option**, we will click on it to activate the restriction mode on YouTube. Finally, **click Save** to save the changes.

Thus, videos with inappropriate content will be hidden on YouTube and only apply to the browser you are working on.

In addition, users can also click on **Restricted Lock mode on this browser** so that others cannot change the restriction mode settings on this browser.

We only need to log in to Google account to lock mode enabled.

2. Turn on restriction mode on Youtube application:

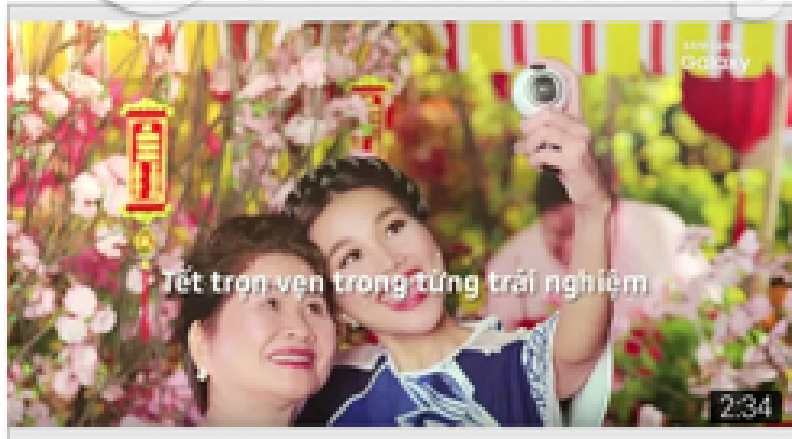

As mentioned, the video restriction mode on YouTube only applies to each browser and each device. So, you should enable this restriction mode on all smartphones.

1. Download the iOS app for iOS
2. Download the YouTube application for Android

Step 1:

The first step is for users to log in to their YouTube account on their smartphone device. At the main interface, we will click on **the 3 dots icon** and select **Install**.
